On Last Financial Legs Huerta Re-Opens Parleys With the United States

Dictator Sends His Minister for Foreign Affairs to Vera Cruz to Confer With Envoy John Lind.

CONDITION DESPERATE, GEN. HUERTA ADMITS

Summons Many Wealthy Mexicans and Appeals for Money — Lind-Rojas Conference Is Full of Possibilities.

Mexico City, March 18.—Forced by the increasing seriousness of the financial situation in Mexico, President Huerta at last appears ready to resume negotiations with John Lind, President Wilson's personal representative, which were broken off last August, if reports current in the capital tonight are true.

Jose Lopez Portillo y Rojas, minister of foreign affairs, has been directed to reopen the unofficial diplomatic exchanges with Mr. Lind, according to the report here, and for that purpose went to Vera Cruz today. Where he will meet Mr. Lind is not known. Every effort has been made to keep the meeting a secret, and should it fail to take place, the government could repeat the explanation already given that the minister is taking the trip to celebrate Saint's day.

Huerta Begs for Money.

President Huerta today summoned to the national palace sixty of the wealthiest Mexicans residing in the capital and intimated that indirect financial support would be highly agreeable. He reminded them that a decree issued several month ago, calling on owners of hacienda to equip and maintain ten men for purposes of defense never has been complied with. Such compliance would mean, according to the official figures, the maintenance of about 500,000 men, as it is estimated that there are 52,000 haciendas and smaller ranches within federal jurisdiction.

President Huerta also requested these men to furnish him with horses for 120 cannon expected to arrive soon from Japan and Europe. He asked their moral support, suggesting that they form a sort of military society, not for actual fighting, but that in critical periods the members to identify themselves as being loyal to the government.

Many Mutineers Executed.

The report that a large number of those who mutinied recently at Jojutla had been executed is based on a verbal statement made by General Jimines Castro to the war minister. General Castro was recalled from the military governorship, and reached here yesterday. The office has no other information relative to the alleged executions.

General Castro reported that after the mutineers, who numbered about a thousand, and were reinforced by Zapata adherents, had abandoned Jojutla, they were closely pursued by the federals. Many were killed in battle, the prisoners being executed at a village near the Morelos-Guerrero state line.

In view of discrepancies in this and previous stories on the same subject, there is a disposition not to take Castro's report seriously.

All but one of the Mexican newspapers minimize the report, which is generally discredited.

Relative to the report of fighting north of Torreon, General Blanquet said tonight:

"Unfortunately, it is not true."

LIND-ROJAS CONFERENCE FULL OF POSSIBILITIES

Washington, March 18.—Though the purpose of the trip of Senor Lopez Rojas, minister for foreign affairs in the Huerta cabinet, is unknown to the state department, this development is admittedly full of interesting possibilities. John Lind, in his capacity of special representative of President Wilson, has had a free hand in meeting whom he chooses in pursuit of his general instructions to keep in close touch with the Mexican situation, and no doubt will avail himself, it is said, of the opportunity to confer with the minister, who has been suggested as a provisional presidential possibility in the event of the elimination of Huerta. In this connection, the state department has been informed, that at the time of the killing of Madero, Rojas was governor of Jalisco and not in the capital.

Secretary Bryan expects to be supplied with a copy of the report of the special commissioner, Hamilton Rogal Carranza, the constitutionalist chief, to investigate the conditions under which the Scottsboro, Benton, met his death in Juarez a month ago. Meanwhile he declines to discuss the recent reports that positive testimony has been procured to show that Benton was stabbed to death by one of Villa's office, further than to intimate that the testimony may be more or less speculative.

The investigation into the disappearance of Gustaf Erickson, the American railroad mechanic, appears to have come to a complete standstill, so far as the American agencies here are concerned. It is said, however, that the Carranza commission, which has been looking into the Benton case, may extend its operations to clear up this mystery.

NO BATTLE YET FOUGHT IN THE TORREON ZONE

El Paso, Texas, March 18.—A thorough canvass today of those in position to know military developments in the Torreon region resulted in a minimizing of reports of clashes between federals and rebels at Escalon and Rosario. The official tone in Juarez was optimistic, and the prediction was made that the real battle of Torreon lies in the future.

Reports that the federals had got

SMITH TO THWART SECRET ATTEMPT TO GRILL CONLEY

Attorney Makes Written Demand on Jail Authorities to Bar All Visitors From Cell of the Prisoner.

CONLEY WELL CARED FOR SAYS SHERIFF MANGUM

Trail in Mary Phagan Murder Case Very Plain, Asserts Burns—Promises an Early Solution of Mystery.

A move to thwart Detective William J. Burns in any probable secret effort to examine Jim Conley was made yesterday afternoon by William M. Smith, the negro's attorney, who has issued a written demand on the sheriff to keep persons from his client's cell.

This is the second order of its kind ever made in the negro's case. Judge L. S. Roan, at the close of the Frank trial, issued instructions to Sheriff C. W. Mangum to prohibit all visitors from the negro's presence.

Attorney Smith and attaches of the Tower are silent in regard to the order issued Wednesday. Smith will have nothing to say further than that he dictated it during the afternoon, immediately after which he appeared at the Tower. He says he intends to be present at any interview with his client.

Confers With Conley.

After conferring with Head Jailer John Sutties, the attorney entered Conley's cell, remaining with the negro for an hour or more. It was the first talk he has had with Conley in consecutive while.

Sheriff Mangum, after Smith's visit to the Tower, stated to a reporter for The Constitution that any orders for Conley's protection further than the one he received from Judge Roan would be unnecessary.

"Conley," the sheriff declared, "is receiving the fullest care and protection. No one has seen him except his attorney and minister, except by order from Mr. Smith."

All Leave a Trail.

"Every criminal leaves some sort of trail," Burns said to newspaper reporters Wednesday morning. "I am close on the trail of the man who killed Mary Phagan, and I am convinced that it will not be long ere I can name him.

"The trail is very plain. Every murderer leaves a clew that betrays him plainly. As in this case, however, it is much better to wait until public temper and indignation has resumed its normal state, than begin on a calm and sane investigation of the facts which I am now doing."

Then the detective had this to say of Solicitor Dorsey:

"Notwithstanding the various charges that have been made, I think Solicitor General Hugh Dorsey has absolutely honest in this case, and that he never would have prosecuted a man he did not thoroughly believe to be guilty. But, however keen or smart a man may be, his vision is liable at times to be distorted.

"Theories in criminal cases should always be made to fit the facts, and not the facts be made to fit the theory. I have known cases where theories have been constructed out of undiluted air, and then facts molded to fit the theory."

Burns Confident.

Burns was confident that it was not too late to get at the bottom of the Phagan mystery. His progress has been even better than expectations, he declared. Throughout Wednesday he was busy examining various witnesses, one of whom was Mowt Gin, the night watchman, who discovered the body of Mary Phagan.

He also paid a visit to the cell of Frank in the Tower, remaining, however, only a short time. Much of the day was spent in conference with members of the contested superintendent's counsel, Herbert Haas and Leonard Haas and Luther Z. Rosser, Jr.

It was announced from the offices of Frank's attorneys yesterday afternoon that the motion for a new trial on the ground of newly discovered evidence had been finished and is ready for presenta-

GEORGIA IS SCORED IN HOUSE DEBATE

Child Labor Law Basis of Attack—Howard and Tribble Reply Hotly in Defense of Their State.

By John Corrigan, Jr.

Washington, March 18.—(Special.)—Georgia's child labor law was scored in the house of representatives this afternoon, when Representative J. C. McLaughlin read into the Congressional Record a stinging editorial from The Rocky Mountain News of Denver, Col., criticising Georgia.

Representatives William Schley Howard and Frederick Tribble in defense of the Georgia law and Representative Tribble inserted the Bell act in the Record. This act forbids the employment of children under twelve years of age and those under fourteen without a special agreement with the parent or guardian approved by the local superior court.

"Infamous Falsehood."

Representative Howard vehemently repudiated The News' editorial as based on "an infamous and unfounded falsehood."

"The only permission given under the law for the employment of a child under fourteen years of age in Georgia, he said, "is when a widowed mother needs the child's earnings; or in a case where the father is a worthless, no-account, shiftless brute who does not contribute to the family's support. We have a few of those kind of husbands just as you have in Michigan."

He stressed the fact that Georgia's law was enforced, and charged that the more drastic laws of Michigan were not enforced.

"You deny men and women their rights as citizens in Michigan. You shoot them down like dogs when you cannot control them," he shouted.

Burning and Such.

"You burn them in Georgia," said Representative Mann, of Illinois.

"Not any more than you do in Springfield, Ill.," retorted Mr. Howard. "You lynch more people in Springfield in one day than we do in Georgia in a year."

Tribble came in hot grace from the representatives of a state like Michigan which permitted such outrages as recently took place in the copper mines of Michigan, to reflect on Georgia," said Mr. Howard.

CRUELTY OF SORTS CHARGED BY WIFE AGAINST HUSBAND

Hartford, Conn., March 18.—Application for a divorce was made to the superior court today by Mrs. Rosalie Hooker Welling, daughter of State Senator Edward W. Hooker, of this city. Her husband is Professor William C. Welling, a member of the faculty of Trinity college.

On the general ground of fiendish cruelty, Mrs. Welling charges specifically that her husband stuck a pin in her back, pushed her into a gutter, threw a book, a sofa, log and a clock at her, threatened her with a revolver and a carving knife, and said he hoped his actions would cause the death of her father. Many other alleged acts of cruel and abusive treatment are set forth, and Mrs. Welling says that she had to seek protection from her husband's violence.

Professor Welling enters a complete denial. The couple were married in 1911.

Taft for Commission Rule.

St. Paul, March 18.—Speaking on "town government" before the St. Paul Association of Office Men here today, former President William H. Taft indorsed the commission form of government. Extended terms of office, he said, was the solution of many municipal government difficulties.

HUGS IN "MOVIES," AND ALSO KISSES, GO IN MISSISSIPPI

Jackson, Miss., March 18.—A bill designed to prohibit the exhibition in Mississippi of moving pictures showing "hugging and kissing unless to show love or tenderness between relatives or to illustrate a true love affair," occupied the attention of the senate and developed spirited debate at tonight's session. The measure was killed by a vote of 26 to 14. The bill was also designed to exclude pictures of the wild west type and those depicting gambling, drinking, smoking cigarettes and "vulgar dances, such as the tango."

KNOWN AS NEGROES, THOUGH REALLY WHITES

Eight Members of Prados Family in New Orleans Declared Caucasians by Court.

New Orleans, March 18.—Eight children of Mrs. Camille Honroux Prados, heretofore members officially as negroes, today were officially declared white persons after a long court fight during which sensational charges were made. The eight persons affected, all grown, were registered by the city board of health as negroes when each was born. Church records showed them to be white and their appearance and station in life seemed to support the church records.

Mandamus proceedings were brought to compel the health board to declare them white and the decision was rendered today. During the court proceedings attorneys charged the church records had been tampered with recently. The first ancestor of which there was record came here in 1788 and married a white woman. He was of Latin origin and his complexion dark. The Prados family declare this the name of the family being officially called negroes.

DELAY OF MILLENNIUM CHARGED TO WILSON

Dr. Anna Howard Shaw Attacks President's Attitude in Regard to Suffrage.

New Haven, Conn., March 18.—President Wilson's attitude on the woman suffrage question is merely putting off the millenium in democracy declared Dr. Anna Howard Shaw, president of the National American Woman Suffrage association, speaking tonight to Yale students and Connecticut suffrage leaders.

"Men generally cannot give reasons for their opposition to the suffrage question," said Dr. Shaw. "They just look for excuses. When you come face to face with members of congress today, with President Wilson and the other big men in the government, they seek excuses, talk and lay it to the constitution, their party platform, or to the fact that men are men and women are women—the best argument the anti-suffragists have.

"Antis have been going all over the country to tell men that I ought to stay at home," she said. "Men say your place is in the home." In the good old days when women were supported we had home industry in every home and the women had it under their control. Man have taken industry out of the home, have centralized it and have exploited our labor. The girl of today goes into the world to the factory seeking her grandmother's job."

$50,000 Cash for Missionaries.

New York, March 18.—An anonymous cash gift of $50,000 was received today by the board of foreign missions of the Methodist Episcopal church, to be added to the permanent fund for the care of retired missionaries.

20 LIVES ARE LOST WHEN FIRE SWEEPS MILWAUKEE HOTEL

The Windsor Is Destroyed and Sleeping Guests Are Trapped—At Early Hour the Fire Was Spreading to Other Buildings in Block.

Milwaukee, Wis., March 18.—Fire which broke out in The Evening Wisconsin building here early this morning, swept along the entire block and at 6:30 was not under control.

According to the latest reports twenty people are trapped on the top floor of the Windsor hotel, one of the buildings attacked by the blaze.

At 2:20 o'clock it was feared that the T. A. Chapman company, one of the largest dry goods stores in the city would be destroyed. The Evening Wisconsin newspaper office cannot be saved.

One hundred guests are said to have been asleep in the Windsor hotel.

Between twenty and thirty guests were rescued by Patrolman Schmidt, who climbed to the third story. He declared many may be trapped in sleeping quarters on the third floor where he could not penetrate owing to dense smoke.

Charles Sandberg, proprietor of the hotel, says there were about forty guests in the hotel and that most of them escaped.

HUNTINGTON PAYS THE SUM OF $1,700,000 FOR RARE EDITIONS

London, March 18.—The Duke of Devonshire, who today denied reports that he had sold his famous library at Chatsworth, tonight admitted that a small portion of the library had been disposed of to meet the heavy burden of death duties. Among the valuable collections sold were some Caxtons and the Kemble collection of plays.

Dispatches from New York had said the library had been sold to Henry E. Huntington, the American collector, for $1,750,000.

The British museum was anxious to obtain Devonshire's rare editions, but was obliged to retire from the contest owing to lack of funds. The sale includes 18 Caxtons, more than a score of Shakespeare quartos, plays by Ben Jonson, Marlow, Green and other Elizabethans.

Kemble sold this collection to the sixth Duke of Devonshire for $10,000.

HONKING OF GEESE SO FRIGHTENED BOY HE DROPPED DEAD

Racine, Wis., March 18.—A physician said today that Frank Crumik, 10 years old, was scared to death yesterday by the honking of a flock of geese which suddenly appeared while he was playing at his home. The boy had a weak heart.

GRAFT CHARGE MADE IN UNEMPLOYED RANKS

New York, March 18.—Dissension broke out in the ranks of the unemployed today when charges were made by several of the workless crusaders that there were grafters among their number who have held back some of the funds raised to buy food and shelter. Three of the leaders are said to have fled, claiming they feared they would be killed if they remained.

The unemployed women are being organized by the industrial Workers of the World and will have outdoor meetings tonight.

Greater Hospital Given New Impetus at Meeting Of Prominent Citizens

CLUB RESOLUTION PASSED 57 TO 10 BY FIRST BAPTIST

Members Must Now Force Institutions to Obey the Prohibition Law or Sever Their Connection.

MEMBERS URGED TO ACT BY DR. CHARLES DANIEL

Two Church Officers Oppose the Clause Calling for Resignation in Event of Failure to Reform Clubs.

It shall henceforth be the duty of members of the First Baptist church who belong to locker clubs to either bring about the abolition of whisky traffic there or sever their connection with such organizations.

This law was laid down last night at the regular weekly prayer services when resolutions were adopted to this effect. The vote stood 57 to 10. Six women cast dissenting votes.

Among those who voted in opposition to the move were Eugene R. Black and A. J. Orme, both of whom are officers in the First Baptist. Both spoke in opposition to the adoption of such resolutions.

Resolutions Passed.

The resolutions read:

"1. That it is incompatible with the principles and purposes of this church for its members to be identified with organizations which derive revenue for their maintenance from the sale of alcoholic beverages.

"2. That recognizing the peace and value of social and commercial clubs in the life of the city, this church urges upon those of its members who are connected with such clubs the duty and opportunity of using their influence toward eliminating from them any and all features of the social life which are inconsistent with such clubs.

"3. That we request the proper authorities to be identified with organizations which derive revenue for their maintenance from the sale of alcoholic beverages.

"4. That we request the proper authorities to be identified with organizations which derive revenue for their maintenance from the sale of alcoholic beverages.

"5. That in event of the failure of such efforts to bring the needed reforms about in the club life of the city, the members of this church are unalterably never all connections with such clubs."

Dr. Charles Daniel, pastor, read the final clause of the resolution. It was led by Mr. Black and Mr. Orme. Both declared that the two preceding paragraphs were sufficient.

Dr. Daniel Urges Passage.

A strong speech in defense of the resolutions in their entirety was made by the pastor of the First Baptist, Dr. C. W. Daniel. He declared that even those churches outside of Atlanta were handicapped by the locker club-church situation in their in their fight to defeat traffic in liquor.

"The complacent attitude of the churches of Atlanta toward the locker clubs seriously retards whatever efforts the churches outside of the city are making to check the growth of the whisky trade," he said.

"There are twenty-one clubs in Atlanta," he continued, "could not exist for twenty-four hours without the revenue derived from alcoholic beverages. The very prominence of the connection of our members with any such organization lends influence to the violation of law.

"I shall vigorously protest the defeat of these resolutions. It is utterly incompatible for a church member to be associated with an unlawful organization.

"The resolutions merely advise our members who are connected with locker clubs to assist in restoring the law. If the Capital City club and the Piedmont club and all other clubs complied with the law there would be no liquor sold within them.

"These resolutions put before you the inevitable issue of adjusting your relations so your consciences will be clear. If you have given time and talent to show brethren of this church the inconsistency of the locker club situation, but they have not heeded these resolutions, therefore, take the responsibility from the pastor and the church and put it on the shoulders of the individuals.

Object to Third Clause.

A motion was made to amend the resolution by striking out paragraph three. It was amended and put to a vote. The vote for the amendment stood ten, with six women casting ballots. The opposing vote, however, stood fifty-seven, with twenty women on their side.

For the adoption of the resolutions as a whole, the vote was 57 to 10, after which the entire congregation arose to its feet in a rousing hymn.

In opposing the resolutions, Mr. Black was the first to speak. He said in part:

"As the risk of being misunderstood, I am going to speak in opposition. I have been a member of this church for forty years. Some time ago I was elected to an office. I didn't think I was fitted for it, and told Dr. Frankly, I didn't want it. It was urged upon me.

"I have always advocated forward movements in the church. The fact is, I don't see how the church could afford to send delegates to conventions, simply for reason of the fact that their purport is against liquor. There are some partners, though, which I cannot support. I think they're a mistake, and I'm not going to vote on them."

Tells Why He Objects.

Mr. Orme, in stating his reason for opposition, said:

"I think the resolutions are a mistake. They should never have got beyond the first meeting of the board of deacons. At first they raised recent a way, which I succeeded in choking it down.

"There is something behind these resolutions which the people advocating them do not realize. None of its members are members of locker clubs. The mistake of the church is in trying to dictate the private life of its members. It is an entering wedge which will be harmful.

During the course of his address, Dr. Daniel explained the source of the res-

Grady Hospital, Chamber of Commerce, Atlanta Medical College and City Council Represented at Conference in Which Needs of Atlanta Are Thoroughly Discussed.

$750,000 BOND ISSUE NEEDED BY CITY, SAYS DR. W. B. SUMMERALL

Committee Is Appointed to Consider Ways and Means, and Another Committee Named to Co-operate With Council Body in Seeking Co-operation for Grady Hospital at Hands of the County.

The movement for a greater hospital for Atlanta, one commensurate with the needs of the greatest city in the south, was given new impetus yesterday afternoon at a conference of representatives of leading civic bodies, held in the directors' room of the Lowry National bank.

It was the opinion of all present that only by a bond issue will Atlanta be able to make adequate provision against disease, and a committee was appointed to discuss ways and means, and another committee was named to ask the co-operation of the Fulton county commissioners.

Present at the conference were the following representatives of Atlanta institutions:

Civic Bodies Represented.

From the chamber of commerce: John E. Murphy, Robert L. Foreman and V. H. Kriegshaber. Wilmer L. Moore, former president of the chamber, was also present by invitation.

From the board of trustees, Atlanta Medical college: Bishop C. K. Nelson, T. A. Hammond and Judge T. P. Westmoreland.

From Grady hospital trustees: Colonel Robert J. Lowry, Wade Harding, C. S. Northen and Dr. W. B. Summerall.

From faculty, Atlanta Medical college: Dr. W. H. Elkin, M.D., Floyd McRae and Dr. E. G. Jones.

From city council, Mayor James G. Woodward, A. E. Calcord, A. W. Farlinger, I. N. Ragsdale and Charles Whitehead Smith.

After Bishop Nelson had been elected presiding officer and T. A. Hammond appointed secretary of the meeting, Dr. W. B. Summerall was called upon to explain the needs of the hospital.

Wells of Hospital Needs.

Dr. Summerall went into the details of the hospital work, showed the great need of a contagious hospital, as already outlined in a number of articles recently in The Constitution, and then offered a tentative list of needed improvements, and gave the approximate cost of each.

At present the city owns practically all of the block on which Grady hospital now stands. Dr. Summerall advocated buying a small strip of land which can be secured, thus giving the city the whole block. On this site there is adequate space for the finest hospital south of Baltimore, he said.

He estimated that the needed improvements would cost in the neighborhood of $750,000. Among the features that are needed to make the hospital one of which Atlanta can justly be proud, Dr. Summerall mentioned the following:

An outdoor clinic building, to contain hospital laboratory and dispensary, research laboratory, city chemist's laboratory, county coroner's office and division clinics for both white and black.

Nurses' dormitory, contagious disease building, additional building for white charity cases, building for colored, building for white children and maternity cases, boiler rooms, steam laundry, kitchen and orderly quarters, building for pay patients.

After a discussion of the tentative sheet proposed by Dr. Summerall it was decided to appoint a ways and means committee for the purpose of considering how much would be needed

for the institution, and what is the best way of collecting public interest in the matter.

Publicity Committee.

This committee is composed of the following: Dr. W. S. Elkin, chairman; Robert F. Maddox, Mayor James G. Woodward, A. R. Colcord and Dr. H. G. Jones.

The conference also took notice of the movement started recently to secure the co-operation of the Fulton county commissioners in the matter of property providing for Grady hospital, and the following committee was named to co-operate with the council committee: John H. Murphy and Dr. Floyd McRae.

The ways and means committee will be called upon to decide whether the better to ask a bond issue for the greater hospital alone, or to provide for a bond issue for the hospital and for the plans plan at the same time.

It was pointed out that to carry a bond issue it would be necessary to get out a big number of voters, and there were some who thought that by injecting the plans issue, more voters would come out to cast their ballots. The ways and means committee will decide this point and report back to the general committee.

olutionist. At the re-election of the board of directors at one time Richards, he stated, he had been approached by a member for the purpose and had stated that he did not want to put the church in an embarrassing position because of his membership in a locker club.

Dr. Daniel declared that he had seen the situation and its harmful possibilities, and had at once resolved to put the question before the members of his flock.

Richards Scores Clubs.

Resentment against the locker clubs of the city was manifested when Mr. Richards, a member of the First Baptist church and leader in the prohibition forces of the state, who made a short talk during the meeting.

"There is nothing affecting the cause of prohibition more than the locker club situation in Atlanta," he said. "An ex-president of our nation once told me in New York that Atlanta was the worst locker club-ridden town of his knowledge. I am sorry that I was prepared to furnish ample information of the widespread law violation that exists in Atlanta among the locker clubs."

TUSCALOOSA IS SWEPT BY DESTROYING FIRE

Tuscaloosa, Ala., March 18.—Fire in the business section of Tuscaloosa early today did damage estimated at a quarter of a million dollars. Three business houses and their stocks were destroyed. The cause of the fire has not been determined.

Rosenau company, department store owners, were the heaviest losers, their building and its contents being valued at $150,000. A jewelry store, a bakery, a general merchandise store and a millinery establishment occupied the buildings burned.

THAW IS GOLD MINE FOR ATTORNEY JEROME

Albany, N. Y., March 18.—The expense bill approved by Attorney General Carmody in connection with the state's efforts to return Harry Thaw to Matteawan includes a fee of $25,000 to William T. Jerome, and he is not more than $13,000 to other counsel. Jerome's fee covers not only past services rendered, but also any future services in reference to this case."

AMERICANS HAVE CEASED TO BE A RURAL PEOPLE

Buffalo, N. Y., March 18.—"Americans will never be a rural people," Liberty H. Bailey, former dean of the Cornell College of Agriculture, told the Farmers' association here today. "There is today less than 30 per cent of our population on the farms. As the years go on we shall need, not more farmers in proportion to the population, but better farmers."

SAVANNAH TRADE BOARD CONDEMNS TRUST BILL

Savannah, Ga., March 18.—Branding the bill prohibiting interlocking directorates as drastic, radical, unnecessary and uncalled for, the directors of the chamber of commerce adopted a set of resolution urging the Georgia delegate in congress to oppose the bill.

Copies of the resolution will be sent to trade organizations throughout the south with the request that they adopt a similar one, urging their congressmen and senators to use their influence to defeat the measure.

"The measure is fraught with danger to the development of the best interest of the southern people in that it would exclude from any fields of development work most useful and substantial citizens, who are at this very time engaged in the advancement of the several localities which they reside," reads the resolution.

To Extend Civil Service.

Washington, March 18.—Extension of civil service to practically all federal officers, including collectors of customs and all postmasters, was proposed in the bill which Senator Bacon today introduced in the United States Civil Service Reform league. They said the president did not say how far he was prepared to go, although he expressed hearty sympathy with purposes of the organization.

WANTS $2,000,000 FOR ATLANTA P. O.

Congressman Wm. Schley Howard Introduces Bill for New Building to Accommodate Business.

Washington, March 18.—(Special.)—Among the things recommended by the efficiency commission in its report on the Atlanta postoffice is the erection of a new building to accommodate the increasing volume of business handled by the Atlanta postoffice. In lieu of this, Congressman W. S. Howard has introduced a bill recommending a $2,000,000 appropriation for a new public building for the postal department.

Mr. Howard says that in arguing for a regional bank is located in Atlanta the present postoffice can be used to accommodate this institution. In addition house the federal courts and other government bureaus that may be located in Atlanta. But the proposed new building, he declares, should be and will be devoted exclusively to the business of the postoffice. The commission, after spending ten days in the city, declared that the present quarters are entirely inadequate to accommodate the Atlanta peaceoffice.

Owing to the fact that more than a thousand persons were unable to secure seats or standing room last Friday night and the tremendous success scored by the performances given, the famous "Ziegfeld Follies" are being returned to Atlanta for three performances. They come back for Friday night, Saturday matinee and Saturday night. Thursday matinee and night, Mlle. Kelley, the wonderful dancer, who was the talk of the east during her visit here, is now working again and will be seen here. Seats will be placed on sale Saturday at 9 a. m. for this return date.

Keith Vaudeville.

(At the Forsyth.)

A bill of entertainment is on this week at the Forsyth that is so strong that every seat on the lower floor has been in possession since the box office seeker long before the curtain time. Other capacity audiences at performances daily. And twice the box office sellers have had to tell late comers here were no seats or standing space in the house. William A. Brady, one of America's foremost theatrical experts, furnishes the headline feature. It is a satire on the "beauty parlor." Johnny Clarke and Rita Walker, in songs and sayings; Frosini, the accordionist, and Thomas P. Jackson and his partner, in a sketch, make things lively. Carl Emmy, manager of the house, is booking Gus Edwards and Al Marble. A feature will be a series of moving pictures of Mr. and Mrs. Vernon Castle in their famous dances.

PRE-NUPTIAL AGREEMENT BY CAMOYS AND WIFE

Providence, R. I., March 18.—A pre-nuptial agreement made in 1899 by Ralph Francis Julian Stonor, Lord Camoys, of Stanley-on-the-Chance, England, and Miss Mildred Constance Sherman, daughter of Mrs. William Watt Sherman, of Newport, who were married about a year ago, was filed with the recorder of deeds here today.

The agreement transfers all the estate and property of Lady Camoys to the control of two trustees, and provides that the income shall go to her but until she becomes 35 years old. If she dies before the age of 35, Lord Camoys is to be paid $100,000 for his absolute use. If children are left, Lord Camoys is to receive the income from $100,000 for the remainder of his life, and the children equal shares of the remaining estate upon reaching the age of 21.

GREAT VICTORY IS WON BY MARCONI WIRELESS

New York, March 18.—The Marconi Wireless Telegraph company of America, won a victory in the federal court today, which, according to its officers, gives the company almost complete control of the field of wireless telegraphy in the United States in the patent suit against the National Electric Signaling company of Pittsburg, involving basic patents granted to Sir Oliver Lodge, the British scientist, and Guglielmo Marconi, the Italian inventor.

The decision, written by United States District Judge Lowdor, says:

The Lodge patent and the Marconi patent constitute the essential features of apparatus which has made possible communication over a distance of 4,000 miles, and is admittedly an essential feature of the wireless art as at present known and practiced."

"All the other companies used the basic principles involved in these two patents," said Edward J. Nally, general manager of the Marconi interests in America. "There are no other devices which make commercial wireless telegraphy a practical thing and a financial success."

ARMY OF UNEMPLOYED LAUGHS AT THE SHERIFF

Gen. Kelley's Men Buy Lot, Erect Shacks and Hoot and Jeer at Officials.

Sacramento, March 18.—One hundred and fifty men—the remnant of "General" Kelley's army of the unemployed—today laughed at Sheriff Ahern, of Sacramento county.

When the sheriff received word that the scattered members were reassembling on a ranch four miles north of this city, he hurriedly collected a force of deputies and went to the scene. At the ranch he found a group of men engaged in erecting tents and shacks and the order was given to his posse to drive them out. The deputies responded with a will but were balked in the beginning of the army. The arrival at the camp of provisions by the wagon-load from Sacramento, dictated they had received financial backing to ride them over for some time.

It was believed here that the coup executed today explained the readiness of the checks which Kelley's men disperse when ordered by the sheriff at Polo county to vacate the camp on the bank of the Sacramento river.

Another Army Defied.

Davis, Cal., March 18.—Nearly 200 men, comprising a portion of the anti-Kelley faction of the unemployed army driven from the Yolo levee, appeared here unexpectedly late today and pitched their camp on the state farm, operated in connection with the university of California. There they defied Sheriff Morgan of Yolo county to oust them, declaring they were on state property and they were going to make no authority.

According to the men, the plan to assemble at the state farm was formed before they consented to break camp on the levee.

Will Ask Dorsey's Aid.

Whether solicitor General Hugh M. Dorsey will offer to Detective William J. Burns his co-operation in his investigation is a matter of considerable speculation.

Indications are that Mr. Dorsey will take no part in Burns' probe. The solicitor, however, will have nothing to say one way or the other.

Burns stated to a Constitution reporter last night that he would request the co-operation of Dorsey and the solicitor's office at an early moment.

He plans to go over the entire case with Mr. Dorsey from beginning to present status. He expects the solicitor to furnish his theory and his conception of the most important factors in the chain of evidence which the state produced to convict Leo Frank.

"I do not expect to find antagonism in the solicitor general," said Burns, "I expect him to assist me with every resource at his command. From what I have heard of him, he is not the kind of man to reject the requests of a man who is trying to get at the truth of a mystery.

"Furthermore, I do not expect to encounter hostility in anyone with whom I might want to confer. The detectives are working for justice. Be assured, will do all they can to help me."

An interesting phase of Burns' assignment to the Frank case has arisen in his attitude toward the Pinkerton national detective agency, whose field superintendent, Harry Scott, was perhaps the most important factor in the investigation of the Phagan murder.

Believed Frank Guilty.

The Pinkertons were employed by Leo Frank. Harry Scott, on the witness stand, delivered testimony which was damaging to the convicted man's defense. He declared that he had worked upon the case originally from the view of finding the murderer. At one time a statement was received from the Pinkerton office stating the belief that Frank was guilty.

Burns said last night that he would have nothing to do with the Pinkertons or with Harry Scott and that he did not care to be associated in any manner with a private detective agency. He declared, however, that he intended examining every other person who had any connection with the investigation of Mary Phagan or with the subsequent developments.

Burns also announced that Dan Lehon, superintendent of the secret service division of the Burns detective forces, would be in command, forces to assist his chief on the Frank investigation.

In reference to a published story Wednesday to the effect that Burns had a talk with newspapermen, indicated the belief that Frank was innocent, Burns said that he had not expressed any opinion and that he would not until time of his final report.

"Whether or not I have formed any opinion is another matter," he declared. "I would not discuss it if I had. I have never said to anyone that I believe Frank either guilty or innocent.

RICH HAUL MADE BY LONE ROBBER

Bandit Bundles the Express Messenger on Santa Fe Into a Gunny Sack and Gets Off With About $14,000.

Beaumont, Texas, March 18.—After bundling the messenger, "Tate" Marlin, into a gunnysack, a masked man today robbed the express car attached to northbound Gulf, Colorado and Santa Fe passenger train No. 202 of several packages of currency, estimated to aggregate about $14,000, and escaped from the train at the village of Heibig, 17 miles north of Beaumont. Up to a late hour tonight posses, which left Heibig from this city in automobiles, had not found trace of the bandit, who is believed to be hiding in the dense forest about the village.

It Was Pay Roll Money.

G. A. Taft, general superintendent of the Wells-Fargo Express company, tonight estimated the amount stolen at $14,000. The money was part of a shipment made by a Houston lumber concern to be used in paying their employees at camps along the road. Explaining earlier estimates which placed the amount secured in excess of that figure, Mr. Taft stated that all of the lumber company's consignment was not sent aboard the robbed train. Previous estimates were based on statements of officials of the lumber company.

According to Martin, the man, apparently middle-aged, appeared from behind a pile of freight shortly after the train left Beaumont. When he turned to the command of "Throw up your hands!" Martin says, the man ordered him to turn over his keys, which the robber emphasized with a flourish of his revolver. Martin obeyed and was then bound and forced into the sack.

Locked the Car Door.

That was all Martin says he saw or heard until the conductor and others of the train crew forced an entrance into the car, the robber having locked the car door before leaping from the train, and released him at the town of Silsbee several miles north of Heibig. The suspicions of the train crew were aroused when the messenger did not come from the car at Silsbee.

The train was bound from Houston to Cheek, Texas, and it is believed that the man secreted himself in the express car before the train left Houston this morning. The section through which the train was passing at the time of the robbery is heavily wooded and sparsely settled.

HOMES AND SCHOOLS MUST WORK TOGETHER

To Accomplish Best Results, Child Labor Conference Discusses Schools.

New Orleans, March 18.—Schools in general were discussed and suggestions offered as to how they might be improved, at the concluding session of the tenth annual National Child Labor conference here today. On several occasions during the conference reference to what was termed inefficiency of schools system or inadequacy of school lawks have met with applause of delegates.

Dr. E. N. Clopper, of New York, secretary of the northern child labor committee, said children were leaving school as soon as the law allowed, and for that reason the schools were assailed as being too academic.

Correct Faults at Home.

He said that what creates a demand for vocational training. Dr. Clopper followed the discussion of the morning session on what should be done at home for children by saying that many times what may seem faults of the school may be faults of the children, which should be corrected in the home.

"We are in danger of jumping from the academic extreme to the vocational extreme, and we forget that the real purpose of education is the development and completion of the intellectual and moral faculties," he concluded.

Harry A. Bregner, special agent of the national child labor committee, pictured conditions as they existed, mostly of the eastern states, who are said to do farm work and to draw a distinction between that class of children and the average boy on the farm, whom, he said, got a fair common school education.

Professor Frank M. Levett, of the University of Chicago, and president of the National Vocational Guidance association, suggested that the school system should be based upon the compulsory supervision of all children up to 16 years of age.

The Home and the Child.

"The home must furnish daily constructive work that leads to the best good of the child, because the school does not carry into practice the theories it teaches," declared Professor Jessie F. Rich, of the home economics department of the University of Texas.

Miss Rich declared that parents have little of the nature of work needed or best suited to their children, and it was the duty of educators to teach them what is needed. Speakers during the sessions have said that in some of the states employers are being educated along with children, to levels of child labor, but today education of parents was contended to be the best method of proper rearing of children who have less than average advantages of life.

The south was given an important place on the program today, as several speakers were from that section. In speaking of southern conditions, Wiley H. Swift, of Greensboro, N. C., said that "southerners are not indifferent to the rights of childhood, but we have allowed ourselves to be deluded because our manufacturers have said things were all right, and we have respect for men of influence and wealth."

Cotton Mills and Employees.

"Large cotton mills of Alabama are really doing much to help their employees and to raise the standard of living wage among the previously ignorant class of people," Mrs. W. L. Murdock, of Birmingham, Ala., told the conference. Mrs. Murdock is chairman of the Alabama child labor committee. She said that the Alabama child labor law affected only cotton mill workers, and was ineffectent both as to age limit and because it did not regulate labor in other industries. Mrs. Murdock made a plea for uniform state child labor laws if the federal government did not enact a measure. In the south, she said, families move from one state to another when forced by law to take their children out of mills.

A children's meeting, at which pupils of local schools took active part, was a feature of the last day, and the conference ended tonight after a reception for delegates by a local equal suffrage club at the Isaac Delgado Museum of Art.

Dividends Suspended.

Chicago, March 18.—Announcement was made today at the office of Darius Miller, president of the Colorado and Southern Railway company, that payments of dividends on the preferred stock of the company would be suspended. Inasmuch as the interest on the preferred stock of the railroad was not been earned, said President Miller, "dividends will be passed."

WOMEN SUFFRAGISTS TO LOSE IN THE SENATE

Vote Coming on Amendment This Week, and Defeat Seems a Certainty.

Washington, March 18.—"The consensus of opinion in the senate," said Senator Ashurst tonight, "is that we should vote right down on the resolution, for a constitutional amendment to extend suffrage to women. I think there will be little more debate in the matter."

The resolution, temporarily aside today, will come up again tomorrow as the business is transacted, despite appeals of many suffragists for postponement of the vote until May. An effort will be made to reach a vote at least before the end of this week, with defeat of the measure apparently a certainty.

Senator Ashurst, who has charge of the resolution on the floor, has canvassed the senate, and finds a great majority in favor of killing the bill. This time the suffragists and the anti-suffragists will present their arguments to the house elections committee on a bill of Representative French, of Idaho, which would give women the right to vote for members of congress.

Chairman Rucker, of the committee, has charge of the largest hearing room in the office building for the occasion.

BUMPER WHEAT CROP EXPECTED BY KANSAS

Kansas City, Mo., March 18.—"Kansas expects to harvest more than 180,000,000 bushels of wheat this year and the state will need for distribution," said Henry Lawson, a miller of Wichita, Kan., after spending the day today of the annual meeting of the Kansas-Nebraska Millers' association. Millers from six states are attending the meeting.

One of the topics to be discussed is a proposed protest against the 5 per cent increase in freight rates east of the Mississippi river. The millers say that if this increase goes through there will be a similar raise west of the Mississippi next.

WILSON BLOCKS AWARD IN FAVOR OF RAILWAY

Washington, March 18.—On the ground that the Baltimore and Ohio railroad would receive $100,000 more than it deserved for its property near the Union station here, President Wilson today refused to approve awards made by a commission to jury for acquisition of land between the capitol and the Union station to be used for a plaza.

The president acted on the recommendation of a special investigator, who reported that the Baltimore and Ohio, which owned much of the property condemned, would get an excessive award. New legislation by congress must precede new awards.

GIRL OF 17 HELD ON LARCENY CHARGE FROM WASHINGTON

A pretty, blue-eyed girl, with soft brown hair, 17 years of age, who is wanted by the chief of police at Washington, D. C., was found in Atlanta last night about 12 o'clock at 44 Pulliam street. When the detectives entered the house, and went to the girl's room, they found her hiding underneath the bed. When they arrested her, the mother of the girl collapsed, and only revived after half an hour of medical attention.

The little girl, whom one would never judge to be a suspect for any criminal offense, admits that she is wanted in Washington for stealing $700 last August from a rich old lady, whose name is withheld. The girl gave her name at the police station as Gertrude M. Mancha, but admits that she has been evading the Washington authorities by going under the alias of Gertrude Bell. The telegram from Washington stated that her real name was Griffith.

PARIS SEETHING WITH MOB SPIRIT

Turmoil Continues Over the Killing of Editor Calmette. Mme. Caillaux Is Cheered, But Husband Denounced.

Paris, March 18.—The appearance of armed detachments of republican guards, posted at strategic points in Paris today, added to the excitement aroused among the various political factions by the Rilling of Gaston Calmette, editor of The Figaro.

At every point where there was likelihood of trouble the police were supported by soldiers.

The office of The Figaro, the chamber of deputies, the residence of M. Caillaux and the St. Lazare prison, where Mme. Caillaux has occupied a cell since she killed the editor to clear her husband's name—were magnets which attracted the populace. At each, strong bodies of police and soldiers were prepared to act sharply in quelling disturbances.

In the southern part of Paris, in the Latin quarter and in the working class districts where it is only necessary for a turbulent individual to shriek "death to Caillaux!" or "assassin!" for him to be joined by dozens of others, the police kept zealous watch. Several times they dispersed noisy groups, who, however, reassembled as soon as the police had passed.

Woman a Popular Heroine.

Mme. Caillaux seems today to have become a popular heroine amid all the turmoil. Among the excited crowds her name is heard constantly. She is talked of as the victim of her love for M. Caillaux, and as his instrument in committing the crime which has robbed the press of a prominent writer and the French cabinet of its leading spirit.

The crowds have adopted as their own the assertion of Deputy Delahaye in the chamber last night—that "cabinet ministers nowadays send their wives to kill those obstructing their path."

The excitement is augmented by the many sensational newspapers among the 120 daily publications of Paris. These papers exaggerate, invent and insinuate, and the paper venders yell the insinuations among the crowd, exciting the people still further.

Sleeps on Narrow Bedstead.

Mme. Caillaux meanwhile sleeps on a narrow bedstead in the prison of St. Lazare. Her hitherto remarkably calm attitude was today said to be breaking down under the torture of being always under observation.

She is never left alone. Relays of nuns, two at a time, sit in the small cell with her, whether she is sleeping or waking. Besides these constant companions, prison warders frequently look into the cell through the heavily meshed wire partition in order to see that no attempt at the prisoner's liberations is committed.

Political friends of M. Caillaux are coming strongly to his support. The radical and radical socialist parliamentary groups in the chamber of deputies, comprising 128 members, had a meeting today and adopted this resolution:

"We protest against the odious campaign of calumny against M. Caillaux, the defender of France's fiscal reforms, and we express to him our deep sympathy with affectionate confidence."

Students Cheer Caillaux.

Twenty University of Paris students, belonging to a revolutionary group, began to chant in one of the lecture rooms today, "Vive Caillaux!" whereupon the other students attacked them. The Caillaux adherents were armed with stout canes and fought desperately, but they were finally overpowered and thrown into the street.

Numerous incidents in which the police were forced to intervene occurred today in the university quarter of the city. There was much disorder in the classrooms.

THAR ain't but two perfect comforts that I knows of—a good wife an' good to-bacco. An' even the best wives git a little tryin' at times.

MISTAKEN FOR BURGLAR; SERIOUSLY WOUNDED

Jesse Zorn Probably Fatally Wounded—Clark Brothers Jailed at Ashburn.

Ashburn, Ga., March 18.—(Special.)—Great excitement prevails at Sycamore, three miles from here, over the shooting of Jesse Zorn by the two Clark brothers in Zorn's own yard last night.

The Clark brothers claim that they were at the place where they board, which is next door to Zorn's home, and saw someone go into the window of Zorn's home, and they asked the woman who was there they were boarding if Mr. Zorn's people were not at church. Hearing that they were, they thought the man was a burglar and secured a shotgun and pistol, and went over to investigate. They met the man coming out the back door and halted him, and he began to run, after which they shot twice with a shotgun, both shots taking effect in his shoulder from the back and side, with a pistol one shot taking effect near the ankle and the other one over the right hip and lodging in the abdomen.

Zorn's statement at a late hour last night was to the effect that they shot him without cause, and that he did not know they were on the place until they began shooting him, and at the first shot fell, and then he was shot once more with the shotgun and twice more with a pistol as he was lying on the ground.

Mr. Zorn is one of the best known and most generally liked men of the community, having been employed for some time in the store of Wynn Bros. at Sycamore. He was carried to Macon last night to the hospital, and is not expected to live very long. The Clark brothers are carpenters and have been employed for a short time on a Building which is being erected in the town. They are being held in jail awaiting developments in Zorn's condition.

ZORN HAS BUT LITTLE CHANCE FOR RECOVERY

Macon, Ga., March 18.—(Special.)—Jesse Zorn, who was shot by G. W. and J. J. Clark at Sycamore Tuesday night, when he is alleged to have been mistaken for a burglar, has been brought to Macon and is now at a local sanitarium, hovering between life and death.

Doctors say he has very little chance of recovery. There are five bullet wounds in his body, the most serious being made by a pistol bullet in his right side, the ball lodging in the stomach.

Since being brought to Macon Zorn has been in a semi-conscious condition and has been unable to make a statement about the shooting.

New "Jack the Ripper" Now Held on the Charge Of Robbing High School

"Jack-the-Ripper," the negro who some time between nightfall Sunday and daybreak Monday robbed the Girls' high school, stealing several valuable rugs and art squares, and pinned on the classroom wall a black hand notice "that a death warrant for five girls was sworn out," was captured in Palmetto, Ga., Wednesday morning.

The alleged burglar, Arthur McElroy, who gives his address as 289 Irs street, Atlanta, was trying to sell the rugs and art squares to a Palmetto merchant, who had read an account of the Girls' high school robbery, and became suspicious, calling in the police to investigate the seller.

Chief Beavers was telegraphed, and Detective Gillespie, in company with the negro janitor of the Girls' high school, who could identify the rugs, went to Palmetto in an automobile and brought McElroy back to Atlanta. He is being held for further investigation.

It has been reported that since the threatening black hand death warrant had been discovered on the classroom wall that the young school girls of the high school have shuddered with fear. Now they need no longer tremble with the dread fear of some awful fate befalling them, as it is safely believed the famous "Jack-the-Ripper" is behind the bars.

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul breath—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach, remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowels for months. Children love Cascarets because they never gripe or sicken.

SENATOR WEST WORKS FOR A. PRATT ADAMS

But McReynolds Makes Conditions—West Will Appeal to White House.

By John Corrigan, Jr.

Washington, March 18.—(Special.)—Senator West called on Attorney General McReynolds today and indorsed A. Pratt Adams, of Savannah, for district attorney of the southern district of Georgia. He will take the case to the white house next Monday and submit this nomination to the president.

Mr. McReynolds took the position that Mr. Adams must resign his partnership in his father's law firm before he could be named. This he demanded, since the firm had represented the naval stores trust in a recent case.

Senator West reminded Mr. McReynolds that Judge Adams' firm had also represented the government in the prosecution of suits against Greene and Gepson, in the savannah harbor fraud, being associated with Marion Erwin in that case.

In this instance their clients were the naval stores men. One time the firm had been on the side of the government and one time against the government. Furthermore, Senator West argued, that the firm was no more regular counsel for the naval stores men. Despite the fact that Senator West reminded Mr. McReynolds that Marion Erwin had formerly been associated with Judge Callaway in handling corporation cases, and that the present attorney general and his brother had been counsel for corporations, Mr. McReynolds was obdurate.

In reference to Thomas Jones, who was selected by Senator Bacon as assistant district attorney, Senator West said: "I will insist that whoever is named district attorney shall agree to employ Mr. Eason as his first assistant. The appointment is made by the district attorney."

The 1914 Spring Shirt Story

The shirt is a popular garment in this spring of 1914.

Beyond the necessity of the stipulated number considering laundry visits, there's an unusual delight in the possession of a full array covering the new spring colors.

Vivid colors they are, brilliant to the last hue, arranged in broad stripes and combined in artistic color arrangements.

Soft as well as colorful, is another certainty of the new spring shirts—madras, mercerized fabrics, silk and linen, silk and flannel, and all pure silk.

RESOLUTIONS FOR BIDS ON MATERIALS VETOED

Believing as he states, that he "is simply following out the law laid down in the city ordinances," Mayor Woodward, on Wednesday, exercised his right of veto when he passed back to council a resolution, passed by the general council, last Monday, authorizing the construction department to advertise for bids on the materials to be used in street and sewer construction during the year 1914.

Mayor Woodward based his veto on the fact that the council during the past year had established the office of purchasing agent and that bids on all materials should be received through that department, not through the street and sewer committee.

The bids asked for in the resolution call for an expenditure of over $250,000 annually and Mayor Woodward is determined that the expenditure of this amount of the city's funds shall be put through the regular purchasing department of the city government instead of being on the recommendation of the committee on streets and sewers.

"Before the purchasing department was created," said the mayor Wednesday, "there was no way to keep a check on the expenditures of the city funds, nor was there any real competition between firms wishing to furnish supplies for the city's use. Now, however, we have a real purchasing bureau and I intend to see that such supplies as are purchased by the city shall be purchased by the right department."

STATE PHARMACY BOARD BANQUETTED IN MACON

Macon, Ga., March 18.—(Special.)—Members of the state board of pharmacy and other invited guests were present tonight at a dinner at the home of Dr. L. A. Pollew, a local druggist, in honor of Dr. Ben E. Persons, appointed a member of the board last August by Governor Slaton.

It had been planned to give the dinner ever since Dr. Persons was appointed, but this was the first time all of the members could be together. In attendance were the five members of the board: Drs. S. E. Burns and Ben S. Persons, of Macon; Dr. W. M. Meadows, of Columbus; Dr. C. D. Jordan, of Monticello, and Dr. W. S. Elkin, of Atlanta, and H. C. Shuptrine, of Savannah, former member of the board, who relinquished his office when he became a member of the legislature; Dr. R. H. Land, of Augusta, and Dr. Marion Craig, of Jacksonville, Fla. All of the local druggists attended.

AS TO THE SCHOOLS.

Some features of the program recently submitted to the board of education for the reorganization of Atlanta's school system are excellent—some not necessary. In the former class The Constitution takes pleasure in commending the suggestion that forty be the maximum and thirty the minimum number of pupils to a grade; and the substitution of a seven for an eight-year course in the grammar schools. It appears to us that the proposition calling for an outside "survey" of the system is neither timely nor pertinent. Let us first remedy those ills admitted by the whole board, the superintendent, the teachers, before we appeal for aid to outsiders to tinker with other features.

It an outside survey is desirable, we might at least wait until we receive the very complete survey said to have been made under the auspices of the chamber of commerce, the report on which has not yet been filed.

The two features we have commended are basic. Their correction will go a far way toward bringing the solution the system needs. And we will not have to take a step from home to materialize them. In its exposure last fall of conditions in many of the schools, The Constitution showed that in some instances there were as many as ninety-four children to the grade, eighty in others, and that fifty, sixty and seventy to the grade presented a spectacle by no means uncommon.

Such congestion is unhealthy and unjust to the teacher as well as to the children. It is impossible to expect that the teacher can do justice to her work where she is confronted by the task of teaching more than forty children. The problems of instruction are hard enough of to reckon with the complications of discipline entailed in the management of many children.

It should be relatively a simple matter so to readjust the curriculum of the grammar schools as to make the grammar course come within seven years instead of, as now, eight years. The task will bring in a rather delicate problem, and that is the care of the backward child who, for any one of a dozen reasons for which he may not be to blame, is unable to keep pace with his class. The school system cannot afford to ignore this child, for he has his right to an education as well as the children of normal intelligence and opportunity. On the other hand, it is unfair to the vast majority of children of average mind that their progress be impeded, and the time and energy of the teacher be diverted to take care of the exceptional backward child. Other school systems find ways to care for this class of children without undue embarrassment or expense. There is no reason why a similar solution cannot be worked out in Atlanta.

As things now stand, the grammar school course exacts too much time from the child's life, and congestion in grades imperils the symmetry of his educational equipment. The board of education can work to an excellent purpose in finding a new and more efficient and modern basis in both of these directions.

OUR WORD TO THE WORLD.

Catch a negro coming out of your chicken-house with the broilers squawking, and what is the result? He is full of excuses and explanations as a Philadelphia lawyer. He can explain his presence there so speciously that you rub your eyes to see if you are still asleep. He will grab hold of the most transparent quibbles to "get away with it."

This, apropos the debate in the house of representatives over the projected repeal of the indefensible exemption of American coastwise shipping in the matter of Panama canal tolls.

We are told that if we yield to Great Britain on this point we shall have to bend the knee on a long program of international issues. Which is nonsense.

We are told if England were in our place she would be a licensed international liar, as we are asked to become.

The answer is that England has done with the Suez canal, and her Canadian canals, the very thing we pledged the world we would do with the Panama canal.

The high farce of the advocates of repudiation is reached in the statement credited to Senator Jones, of Washington, that "an agreement for an alliance with England has been reached, and that as a part of it Great Britain is to seek reparation for losses on confederate bonds." There is no reply, of course, to "argument" of this kind. It carries its own answer. It may be said in passing, however, that such nonsense reflects upon Senator Jones' estimate of the intelligence of the senate, and exposes the absurd extremity of the contention of the silver cases of national dishonor.

There is only one real issue in this whole controversy.

It is as between honor on the one side; dishonor on the other.

We are pledged to the world to accord all nations equal treatment in the matter of tolls.

We keep that promise and vindicate our honor.

We repudiate that promise and break our faith with the world.

A nation, no more than an individual, can afford to break faith.

The president has made this clear to congress and to the nation.

That is why congress will support the president.

PEACE ON A WAR BASIS.

The British naval budget for 1914-15, just submitted to parliament by Winston Spencer Churchill, first lord of the admiralty, calls for the expenditure for this period of $257,750,000, more than $17,900,000 larger than that of last year, and far the largest in British history.

Churchill frankly admitted that Great Britain was permitting Germany to set the pace for her in naval construction. It was still the policy of England, he said, to complete eight battleships while Germany was completing five. The one thing that kept the British estimates this year from being even more formidable was the fact that Germany could not find men to equip her expanding navy.

Elsewhere The Constitution publishes from The London Telegraph an article by Sir Max Waechter, D. L., J. P., which exposes in startling terms the military mania which threatens to involve all Europe in universal bankruptcy.

He says that armed peace is become more expensive than war. That is literally the truth. For if we add to these towering naval expenditures the expenditures on the military arm, and the fortifications arm, this aggregate is stupendous. And if we add further the economic drain in the number of men taken out of industry the total is yet more amazing. The by-products of the situation are even more costly. Last fall when all Europe eyed its neighbor with suspicion, and many nations scrambled to bring their armies to a war footing, commerce, finance and industry were demoralized. We felt the effect in this country. Business and prosperity everywhere marked time. Why? In deference to the specter of militarism.

Because our vaunted genius of the twentieth century has found no substitute for wholesale and legalized slaughter, huge sums are diverted from works of construction to be devoted to destruction.

The United States has not yet been drawn into this lunatic vortex. Let us hope we never will be. We maintain, and must maintain, a navy and an army commensurate with international needs and international dignity. The moment we yield to the insane contagion of Europe we bequeath to our children and our children's children a burden which in the end will be bankruptcy or depression so general as to affect every citizen of the republic.

AS THE 17TH GOES.

Even though there is a strong hope that their absence is to be only temporary, the departure of the officers and men of the Seventeenth regiment from Fort McPherson to the Mexican border for patrol duty will occasion genuine regret throughout Atlanta. The Seventeenth has been stationed at McPherson for eight years, an unusually long detail. No regiment ever assigned to the post, or to any post for that matter, has ever come within closer touch or sympathy with the people of Atlanta than has the Seventeenth. In all matters of public enterprise, the officers and men have been quick to co-operate with the city. On the social side, relations between Atlantans and the officers at the post have been most cordial. Nor is not necessary to look far for the reasons underlying this close entente between Atlanta and her soldier-neighbors. The personnel of the officers of the regiment typify army traditions at their best.

The women of the post have contributed wonderfully to the social features of the relations as between the regiment and the city, their charm and graciousness framing many functions in Atlanta, and making a visit to the post a memory to be cherished. And it is here that hope offers that the absence of the regiment on the boundary line is to be only temporary. The war department has instructed that the wives and children of the officers shall be left at the post. This may easily be construed as meaning that after its detail along the Rio Grande, the Seventeenth is to return to McPherson. At least this is the hope of the whole city.

DECATUR, ILL.

By GEORGE MATTHEW ADAMS,
Author of "Al Good Old Sirrah."

Decatur is another of those little American cities which are big in things.

It is situated knee-deep in Illinois corn land, in the center of the state, and, like other big towns, is proud of its authentic bliss wherever the streets are paved.

Tourists pass Decatur hastily by in their rush for more famous places, like the stock yards of Chicago. In so doing they miss the birth-place of a republican party in Illinois, and of the Grand Army of the Republic —which is a tremendous bright rate for a city of Decatur's size.

Abraham Lincoln drove his ox team from Indiana into Illinois, he stopped at Decatur and got his first job of rail splitting. Since then almost a dozen railroads have followed Lincoln's example and have come to Decatur. The largest locomotive repair shops in the world, according to competent Decatur authorities, are located there and when they were opened the citizens gave the workmen in automobiles and set them up to dinner—thus proving that hospitality in Decatur does not die at overalls.

The population of Decatur is not important, as far as national statistics go, being about the same as the population of the Polo grounds, during a world's championship game. But it is the metropolis of the country, so far as the manufacture of soda fountains goes, while, if it were not for the little wire discouragers produced by Decatur factories, billions of flies would go unwanted each summer.

Decatur has a Commercial club, which not only abducts factories and builds hospitals, but which also steals universities. Decatur is now the seat of James Millikin university, which is only about ten years old, but has as much college yell as Harvard.

Decatur's people are not only prosperous and enterprising, but are happy and contented. This is because of the fact that when a Decatur man misses a train on any of the city's ten railroads, he can always catch a car to one of its three interurbans.

Decatur is up-to-date, like every proper

"Hospitality in Decatur does not stay at overalls."

American city, and has built itself a fine new courthouse. But it has also preserved the old one in which Lincoln used to address the jury. There are about a dozen of these old Lincoln courthouses left and the Decatur which own them, regard other Illinois cities as mere upstarts.

How Europe Labors Under Burden of War Armament

By Sir Max Waechter, D. L., J. P.
(In The London Telegraph.)

Europe Staggering Under Its Terrible Burden—Peace Costs More Than War.

The nations of Europe and European civilization itself threaten to break down under the military burden. The people are groaning and muttering. Dissatisfaction is spreading apace. The tension is rapidly approaching the breaking point. Peace is proving more costly than war. Before long the nations may endeavor to find relief either in a great war, compared with which the Balkan war was merely child's play, or the people may revolt in despair and overturn their government, or national bankruptcy may become general in Europe. Evidently Europe is faced with the greatest dangers. The burden of armaments threatens not only to subvert the European states and society, but to overwhelm European civilization itself.

What can be done to bring the mad armament race to an end? What can be done to prevent the nations rushing into war, bankruptcy and revolution? It is evident that no single nation can take the initiative of reducing its armaments, for in the present state of the world such a step might jeopardize its existence. It is, therefore, clear that a reduction of armaments is possible only if it is jointly undertaken by all the great nations.

It has often been recommended that armaments should be reduced by mutual agreement of the powers. Hitherto that step has proved impracticable, and even if successful it could only bring transitory relief to Europe as long as the fundamental cause has not been removed.

Why Europe Is Divided.

The Hague Tribunal has done very valuable services in settling disputes among nations, and it is to be hoped that its beneficial activity will become greater and greater in the course of years. However, although the service rendered by The Hague Tribunal and by ordinary arbitration in preventing war may be very great, it can do little or nothing in preventing the armament race which is slowly destroying the nations in time of peace.

It is obvious that, if we wish to abolish war and the ruinously expensive preparations for war, we must deal with the fundamental cause of war. We must, therefore, above all, endeavor to abolish the division existing among the great powers and replace it by harmony and by a firm and lasting union.

The warlike burdens of Europe are due to its divisions. Europe is divided into two armed camps: the Triple Alliance, composed of Germany, Austria-Hungary and Italy; and the Triple Entente, composed of France, Russia and Great Britain. Both groups are nearly equally strong. Each group watches the other with jealousy and distrust. As they are competitors for power and influence each opposes the other, as a rule, and almost as a matter of principle, in every step which it desires to take, be it never so necessary and beneficial. From this equality of strength in the opposing groups and from their distrustful attitude to one another spring two evils.

The armament race imposes upon the peoples of Europe a load of taxation the weight of which is becoming from year to year more oppressive and more unbearable. The hundreds of millions of pounds which are taken every year from the taxpayers of Europe handicap Europe severely against those nations which are free from excessive militarism, and notably against the United States. That handicap should amount at present to about 10 per cent on the cost of production. A most dangerous position, which, cannot last much longer without consequences. In fact, it threatens Europe with the loss of our leading economic position in the world.

The Dangers of the Future.

Europe is a comparatively small continent. It is very small if compared with America, Asia and Africa. It is in a position not dissimilar with that of ancient Greece. The Greeks were the most civilized, cultured, the ablest and the most warlike people of antiquity. In the words of their great statesman-philosopher, Aristotle, they were fit to rule the world were they united. But they were not united. The states of Greece, like those of modern Europe, were divided into two camps. Instead of standing together, disregarding their different forms of government and organization, Greeks fought Greeks, and while they were occupied in intrigue and plotting, in fighting and in combatting each other, they were easily conquered by barbarian nations. Europe may have a similar fate. The teeming millions of overcrowded Asia require more land. They contemplate with envy the magnificent but thinly populated territories on the Pacific, which belong to the Anglo-Saxons. The armament race endangers not only the future of Europe, but the future of the white race in the world over. Nobody can tell what may happen if we are overpowered by European war and unable to protect our dominions.

Unity Among European Powers.

The dangers to which Europe is exposed in consequence of its mad armament organization are really appalling, and there is only one possible remedy. The two antagonistic groups must be drawn together, their differences must be composed by friendly negotiation and agreement; they must become allies, the Triple Alliance and the Triple Entente must be combined into a Triple Alliance, and from this alliance should lead to a federation. The federation of Europe must be created.

Push.

Learn to labor and to wait;
Trust in work, not in fate—
No such thing as luck at all.
By your will you rise or fall,
Honor, Fame and Glory call,
But their portals only ope
You must push the gate ajar.
—ERNEST NEAL.

DAILY GRIST from the STATE'S POLITICAL GRIND

OWNERS OF ONE-HALF AUTOS IN STATE GUILTY OF MISDEMEANOR SINCE MARCH

Since March 1 the owners of about one-half the automobiles in the state of Georgia have been guilty of misdemeanor, according to interpretations of the "by" automobile license tax law by Phil Cook, secretary of state.

A large number of these delinquent owners, he believes, think the law unjust and are wilfully withholding their payment of the taxes, while others are merely negligent.

"The main trouble, as I see it," says Secretary Cook, is that many of the people of Georgia do not understand the law. They do not know that the money they pay for their licenses will be prorated back to the counties on a road mileage basis. This having been explained to many of the objectors to the law has completely changed their opinion of the merits of the law."

According to Secretary Cook, though, there is not nearly so much holding out against the law in some objecting quarters of the state as publications in the newspapers of these sections would indicate.

For instance, in Americus, where there has been much said about not paying the tax, about 190 licenses have been issued, which, thinks Secretary Cook, includes the great majority of the machines owned in that city.

In Fulton county there are about 1,100 automobiles which have not yet had the license tax paid upon them.

In Baldwin county there are about 1,500 automobiles. The tax has been paid only on about 700.

Colquitt, Emanuel and Sumter counties are also behind.

To date Secretary Cook has received the tax upon about 12,500 cars in Georgia, amounting to a total of $64,356. This he estimates as about one-half the total number of cars.

And Secretary Cook is of the opinion that all the tax will be collected.

"The failure to comply with this law," he says, "makes a man guilty of a misdemeanor. That is the penalty attached to the law. To be sure, it is not my duty to enforce the law. It is the duty of the local officials in each county, and they are responsible for any non-performance of their duty."

LANDSLIDE OF CANDIDATES FOR GOVERNOR INDICATED

Indications are for a landslide of candidates for the governor's chair, should Governor Slaton announce for the senate. Meanwhile the silence of the governor is holding what promises to be a lively political season in check.

That C. Murphy Candler, chairman of the state railroad commission, will probably be a candidate for the governorship should Governor Slaton resign is the opinion of many.

He has already been urged by a large number of his friends to stand for election in the aforesaid event.

Mr. Candler himself admits that in case of the governor's resignation he would certainly consider the requests that his friends have made of him.

"Of course, and presume, of course," said he, "to cross a bridge before I have come to it, but should there be a vacancy in the governor's chair caused by Governor Slaton's election to the senate, I would consider the possibility of my running for the place.

"I have been repeatedly urged by my friends through letters and personal calls to run for governor under the conditions I have just named.

"But, of course, this is talking ahead of the game, and the only thing any of us can do now is to do what everybody is doing—wait for word from the governor as to what he intends to do.

"To be sure, I took the present place I have for six years, and I am not yet through with the work involved here, which would materially make me feel a hesitancy in standing for election for any other office now."

FRIENDS CONTINUE TO URGE SLATON TO RUN FOR SENATE

Friends from all over the state continue to call daily at the executive quarters in the capitol and letters are piling up, all urging Governor Slaton to enter the senatorial race.

Governor Slaton, however, maintains a profound silence upon the question.

It is predicted among some of the statehouse officials that the governor will not announce his candidacy for the senate until after April 4, at which time the executive committee meets and decides upon the rules for the primary.

However all that may be, though, there is not a word to be had out of the governor's office at present.

And then the question is: If Governor Slaton decides to run for the senate, will he stand for the unexpired term of the late Senator Bacon or the regular Senator Smith?

VOTERS OF THOMAS COUNTY ARE SLOW IN REGISTERING

The Thomasville Times-Enterprise of recent date has commented as follows on the fact that the voters of Thomas county are unusually slow this year in registering:

"Thomas county politics aren't going to be as exciting as they promised to be, unless some of the voters of the Thomasville district get busy and register."

Along with this The Times-Enterprise practically every daily paper in the state and many of the weeklies are calling the attention of their readers to the fact that those not on the registration books by April 7 will not be able to vote in the state primary in September, for all state house officers, but it in understood that the present clerk of the court, Col. Burt, will stand for reelection and that he will have no opposition. The present clerk's term will run again and it is understood that he will be opposed.

State and congressional politics now appear to be "up in the air" all the mentioned candidate being much in the lead.

Maryland Stands by Her Son.

(From The Baltimore American.)

Maryland should sustain its reputation of honoring its heroes. The financial committee of the state senate will strike a popular chord if it reports favorably Senator Campbell's bill appropriating $25,000 for a statue of Rear Admiral Schley, to be erected in the state, and it is earnestly hoped that the message of the bill will meet with the general approval of all patriotic citizens of the state.

The members of Admiral Schley Post of the Veterans of Foreign Service deserve praise for their patriotic efforts in behalf of the measure. They have proven their love and veneration of the memory of the Maryland hero. A leading professional and business men of the state and Baltimore city have indorsed the movement and signed the memorial to the legislature. These indorsements demonstrate the popularity of the project.

A national memorial has been proposed, and will no doubt some day be completed, but Maryland, as the home of the victor of the Battle of Santiago, should take the initiative and be the first to erect a monument to the famous naval hero, who was one of its favorite sons.

WOULD-BE CANDIDATES FEELING OUT THE VOTERS IN ELEVENTH DISTRICT

Valdosta, Ga., March 18.—(Special.)—Interest in the developments in the race for congress from this district, the eleventh, is gradually being aroused, and it is possible that entries from various counties of the district will make the contest one of the warmest fights in the state.

The best guessers are, however, as yet unable to foresee just what the line-ups will be. Mr. Converse, who also comes from Valdosta, Congressman Walker's home town, has announced that it will be some time before he definitely lets it be known whether or not he will enter. Judge Quinez, of Douglas, is known to be willing to announce if he thinks he can win, and was in this section last week looking over the field.

REGISTRATION BOOKS CLOSE FOR DOUGHERTY COUNTY PRIMARY

Albany, Ga., March 18.—(Special.)—The registration books for the county primary on March 24 closed yesterday and the books are now in the possession of the board of registrars, who will, during the next few days, purge them of all names of those ineligible to vote.

The registration this year is unusually large, over 1,200 names being on the books when they closed last night. The large number of candidates for the various county offices, and the resulting interest which has been aroused in the election, is responsible for the registration of many citizens who have not been on the list for years.

The entry list for candidates closed Saturday, and the next week will see some warm hustling for votes in every part of Dougherty county.

DR. L. G. HARDMAN ACTIVELY IN NINTH CONGRESSIONAL RACE

Athens, Ga., March 18.—(Special.)—A prominent citizen of Commerce, and a close friend to Dr. L. G. Hardman, let it be known here today that Dr. Hardman would be actively in the race for congress in opposition to former Speaker Holder and Congressman Bell. Mr. Bell has already announced his candidacy and Mr. Bell has tacitly let it be known that he will be in the race.

Dr. Hardman's friends say that he has received letters from all over the district asking him to get into the running, and that it is in response to these tenders of support that he has decided to make the race.

Dr. Hardman was representative from Jackson county for six years, and also represented his district in the state senate. He has for years been prominent in public life as a progressive democrat everywhere. He is an able physician and also a large farmer.

HOT CAMPAIGN NOW GOING ON FOR BETTS FOR COUNTY OFFICES

Jackson, Ga., March 18.—(Special.)—Butts county is now in the throes of the hottest campaign for county offices in its history. The primary is only a short time off and the host of candidates are very busy asking for the voters.

The race that is attracting the most interest is that for sheriff, the incumbent, L. M. Crawford, being opposed by J. W. Carter. Both are very strong in the county and both are pulling the "old guard" style. The race for county commissioner is also being closely contested, the C. O. Gaston, the incumbent, and former Sheriff W. W. Wilson.

FARMERS IN THOMAS COUNTY TOO BUSY TO TALK POLITICS

Thomasville, Ga., March 18.—(Special.)—In Thomas county this week, who had time even to talk politics, and the farmers are they all in putting in their crops while the fine weather is prevailing.

With the watermelon crop planted, the corn is being put in and the indications are that the acreage will be equally as large or larger than that of last year. The crop of corn made in Thomas county last year was an unusually large one, and the yields that were almost record and the farmers are anxious to do even better this year and show what they really can do in the way of growing corn when they try.

LAWS DRAWN BY JULIAN MCCURRY BEING UPHELD BY THE COURTS

Hon. Julian B. McCurry, of Hartwell, who formerly represented his district in the state senate, and who has a host of friends over the state, had been the legislative figure in the limelight the past week. This came about by reason of bills that he introduced and that were enacted into law being before the courts for adjudication, one of which, the constitutionality of the law making it a "local" hotels and boarding houses. The point was made in the case that the legislature of the constitution, which prohibited the imposition for debt. The court held that it was constitutional.

He was the author of the bill which was discussed widely over the United States, at the time, by the ridiculous charges made by a misdemeanor to defame a virtuous female. The first case brought under the law was had in Gwinnett superior court last week and the offender was sentenced to pay a fine of $50 on the chaingang by Judge Charles H. Brand, of the western circuit.

Mr. McCurry was also the author of the automobile registration law, but which was defeated at that time, but later became a law under the recommendation of Governor Slaton and it promises to be of great help to the good roads movement.

BLESSED ARE VOTERS OF UNION; ONLY ONE CANDIDATE IN THE FIELD

Blairsville, Ga., March 18.—(Special.)—Under the rotation system in the Union county's time to name the state senator from the Fifty-fifth district, Colonel Pat Haralson. Col. Haralson is the only candidate in the state to date who may be opposed by Colonel V. M. Waldrop.

There is no announced candidate for the house, but, in the form of names are being discussed. There are, so far, no announced candidates for any of the state offices, but it in understood that the present clerk of the court, Col. Burt, will stand for reelection and that he will have no opposition. The present clerk's term will run again and it is understood that he will be opposed.

State and congressional politics now appear to be "up in the air" all the mentioned candidate being much in the lead.

SEVENTEENTH SAYS FAREWELL TO CITY

Soldiers Off for Mexican Border Patrol—Questioned if They Will Ever Return to Fort McPherson.

Before daylight today the Seventeenth infantry, U. S. A., ordered to patrol duty on the Mexican-United States international boundary line, will be well on its way to Laredo, Texas, its first destination.

Eighty-one and three officers were forward late Wednesday in the first section of the four trains which will convey the command to the troubled dividing line between the Stars and Stripes and Mexican civil strife.

The small detachment sent ahead of the main body consisted of the cooks, the ambulances, wagons, horses, field equipment and tonnage, which occupied ten flat cars and one of the tourist sleeping cars. The three troop train sections which go forward today will carry some 800-odd men and officers.

It is believed, on good authority, that the Eighteenth regiment, now posted at Fort Thomas, Ky., will be transferred from that post to Fort McPherson within the month. This information is, as yet, unofficial, but common rumor around the local post led all conjectures to that agreement on Wednesday.

Laughter and Tears.

The last daylight hours of the post activity on Wednesday embraced many laughable as well as sad spectacles.

All during the day the non-commissioned officers were busily engaged in removing their household goods from the fort living quarters. Several of these officers made quick changes for their families by taking rooms in the vicinity of the post.

An exodus of officers' wives and friends began shortly after noon, many of the homes on officers' row soon presenting all but an abandoned appearance. There is a division of sentiment among the officers as to the permanency of the post at the border. Some of the officers have stated that the regiment, being located in line for foreign service, will not come back to Fort McPherson. Others believe the border patrol duty will only be temporary, and cite the fact that no permanent removal orders have been as yet sent from the war department. These officers also cite the original department order, which declares that the movement to Texas is "temporary."

Soldiers Say Goodby.

Friends by the score invaded the soldiers' quarters during the afternoon, bidding farewell to their friends of "eight years' standing. Now and then, rarely out of civilian clothing, sadly disappointed to find out that by enlisting at the local post they would not thereby enjitled to go "to war" with the regulars, were bundled off unceremoniously and sent to other posts in the south.

The loading of the mule train proved a vexing and laughable incident. The former for the loaders and the latter for the onlookers.

Uncle Sam's mules are not noted for more than ordinary intelligence, and the combined efforts of the renovated detachment of the Seventeenth were required at times to induce his Lordship Mule to enter a stock car.

Considerable trouble was found in finding baggage car space for camp equipment by the loading officers, and it was soon discovered that the railway inspectors were as careful as a United States marshal when it came to overloading a car.

Make No Statements.

None of the officers at the post would make a statement last night anent their leaving Fort McPhedson when seen Wednesday. In fact, Colonel Griffith, the new commanding officer of the regiment, and his adjutant, Captain Bankhead, were too busily engaged in actual leaving preparations to see reporters.

Down in the stock corral Colonel Griffith was stopped for a moment, but his excuse against talking was that he "had nothing to say," and "further than that, he did not care to be quoted."

Today any husky chap who believes he can stay awake all night and doesn't fear the queer hoot of a screech owl can get a job at long service. Such chaps can, by applying at the post and asking for the position of night guard, which pays $56 and rations. This service does not include enlistment.

KIRKWOOD BAD PLACE FOR ALL MALEFACTORS

Two negroes were caught in the act, it is said, in Kirkwood, by Doc Phillips, the marshal, while attempting a daylight robbery at the residence of Col. W. C. Cousins. The negroes were in the act of entering the front door with a skeleton key.

The negroes were Eugene and Charlis Broaglin, cousins, and the latter has served a four-year sentence on the De-Kalb county gang for burglary. They were tried last night in the recorder's court at Kirkwood and bound over under $200 bond to the superior court.

A short while ago Major Gilliam, of Kirkwood, remarked that no burglaries could take place in Kirkwood without the burglars being apprehended.

SOCIAL EVIL WAR BEGUN BY WOMEN OF NEW YORK CITY

New York, March 18.—Society women, church representatives and charity workers today began a campaign against the social evil. More than 300 men and women interested in the work attended a special meeting at the residence of Mrs. Whitelaw Reid, held under the auspices of the Church Mission of Help. Bishop David H. Greer presided.

Bishop Greer said he could assure the workers of the earnest desire on the part of the church to lend a helping hand to those in trouble. The Rev. Charles S. Tinker said the church could co-operate with the department of correction by furnishing a moral atmosphere in the workhouses and prisons.

For this city correctional work Dr. Katherine B. Davis, the commissioner, gave a few suggestions on how to cooperate.

Atlanta Has Been Made Southern Headquarters For Y. M. C. A. Committee

Atlanta has been chosen as the southern headquarters of the international committee of the Young Men's Christian association.

This choice was made after a tour by Fred P. Shipp, executive secretary of the committee, through all the larger southern cities, with a view to ascertaining which city would be best suited for the purpose.

The executive secretary for the south will make his finding shortly to select quarters. This choice of Atlanta as the southern headquarters will mean the location in Atlanta of about fifteen field secretaries, whose work it is to organize and build up the Young Men's Christian associations of the south.

EMERGENCY HOSPITAL RUNS SATISFACTORILY

Report Made by Chairman Kriegshaber at Rotary Club Semi-Monthly Meeting.

At the semi-monthly luncheon of the Rotary club, Chairman V. H. Kriegshaber and his special committee reported on the success of the co-operation of Mayor Woodward and the city health department the special emergency hospital for women had been established and was in satisfactory operation. The beds and furnishings in this hospital were the donation of the Rotary club, which raised $100 for the purpose.

The speaker at the luncheon was Rotarian W. D. Hoffman, who spoke on the ups and downs of the elevator business. The souvenirs were shamrocks, appropriate for St. Patrick's day, and green leather cigar cases.

Hubert W. Anderson, president of the club, presided at the meeting which was the most largely attended in the organization's history. The luncheon was held at the Ansley hotel.

COL. CHARLES G. MILLS DIES AT GRIFFIN HOME

Griffin, Ga., March 18.—(Special.)—The funeral services over the remains of Colonel Charles Gardner Mills, one of Griffin's most prominent citizens, whose death occurred at a late hour Tuesday night, will be conducted Thursday afternoon at the residence of Colonel Thomas R. Mills, on West College street. Rev. Murray Hall, pastor of the First Presbyterian church, of which the deceased was a member, will be in charge of the services. Following the services at the residence the interment will be made in Oak Hill cemetery.

Colonel Mills was the oldest child of Thomas R. and Elizabeth Mills, and was born at Savannah, June 28, 1845. He started his educational career in the schools of that city until he reached the age of 16, when he was sent to the noted school of Senuel Mills, of Media, Pa. In his 18th year he was called by his father to Liverpool, England, to be trained for the cotton business there, in that city he was associated with the brokerage house of Thomas Gorgson & Co., who soon realized the young man's ability, and placed him in charge of their sales department before he reached the age of 21. At that age he was chosen as one of the committee of three for classifying cotton in the Liverpool cotton exchange, which was no small honor.

Upon his return to the United States soon afterwards he was married to Miss Elizabeth Mary Wellington, of Macon, who survives him, together with one son, Charles G. Mills, Jr., and one brother, Colonel T. R. Mills, all of this city.

OVER SIXTH GRANDSON KAISER IS REJOICING

Brunswick, Germany, March 18.—A battery of artillery fired a royal salute in honor of the birth today of the Duke and Duchess of Brunswick to the counselor of the British embassy in Berlin. A salute of 101 guns on the birth certificate of the newly born prince, who is also a prince of Great Britain and Ireland.

Berlin, March 18.—Emperor William today ordered a general school holiday in Berlin in celebration of the birth of his sixth grandson at Brunswick this morning. The young Duchess of Brunswick, who is the only daughter of the emperor, was delivered of her offspring well.

The emperor has cancelled all his other engagements and will proceed to Brunswick tomorrow to see the new his latest grandson before departing for his annual trip to Corfu on March 22.

Berlin and Potsdam were decorated with flags today in honor of the occasion.

RARE RELICS WILLED TO MUSEUM OF ART

New York, March 18.—A bloodstained lock of Abraham Lincoln's hair and a number of relics of the assassination intimately related to the history of the United States were bequeathed to the Metropolitan Museum of Art in the will of the late General James Grant Wilson, filed here for probate today.

Among the bequests is a ring which contains hair of Washington, Wellington, Napoleon, Grant and Lincoln. Other items of note are:

Washington's sleeve links, a gold ring brought from Holland in 1647, and three silver medals issued in Holland to commemorate the recognition by that country of the independence of the United States and the making of a commercial treaty between the two countries at that time.

The total value of the estate is not given. In a foot-note to the document General Wilson explains that he makes no public bequests of money "because for half a century I bestowed 10 per cent of my moderate income to charity."

STRIKING BOYS HALED INTO FEDERAL COURT

Detroit, Mich., March 18.—Thirty-one striking Western Union messenger boys today were served with notices to appear before United States Judge Arthur J. Tuttle tomorrow and show cause why they should not be restrained from interfering with interstate business.

"Maybe they'll be calling out the troops next," said one of the boys when the court's order was served on him.

CHARTER AMENDMENT COMMITTEE TO MEET

Will Take Up Suggestion to Place Women on City Boards.

The initial meeting of the special council committee, elected from city council and charged with the careful consideration of any proposed charter amendments presented by interested citizens, organizations or individuals, will be held this afternoon in the city hall, at 5 o'clock.

Those voters of the city or organizations who seek to see amendments placed in the present city charter are urgently asked to be present at this gathering and to bring with them briefs of any proposed changes that they wish to see incorporated in that document.

The most important amendment which will probably come up for discussion today is the proposed change in the charter adopted some years ago in council, by Councilman Claude Ashley, which provides places for women on the departmental boards of the city government.

Another change of the charter to be suggested will contain a plan whereby the chief of construction of the city will be elected by the general council. Alderman Thomson is interested in this project.

Another project to be offered to the committee for consideration will be a plan whereby the city charter includes a street line schedule for Atlanta streets. The city is growing to such proportions and in such wide leaps that Alderman Thomson, who is also behind this plan, believes that the city will face a great problem which cannot be solved without such action unless the city government takes cognizance of street lines in general lines now.

On account of the large crowd which is expected to attend this first meeting of the new city council committee, the council chambers on the second floor of the city hall will be utilized to accommodate the people.

GOVERNMENT SUES LEHIGH RAILROAD

New York, March 18.—The Lehigh Valley Railroad company was sued here today by Attorney General McReynolds under the Sherman anti-trust law as being the dominant factor in a combination alleged to control the output of anthracite from Pennsylvania fields it touches.

More than a dozen other corporations and individuals were named as co-defendants and parties to a conspiracy to monopolize that trade.

Although suit was brought to break up an alleged monopoly, the attorney general charges that the Lehigh road, through the formation of a coal sales company two years ago, has escaped the supreme court decision under the commodities clause of the interstate commerce law, which forbids the railroads to transport coal belonging to a corporation whose stock it owns and whose affairs have been "commingled with" its own.

The further charge was made that the Lehigh has violated the provision of the Pennsylvania constitution prohibiting common carriers from engaging in mining or other business other than transportation. The usual injunction and decree of dissolution were asked.

It is understood that the suit is to be followed by others against some of the roads which enter the Pennsylvania anthracite field.

The assets comprise 1,300 acres of land in Sumter county, two stores and a house and lot in Atlanta valued at $9,000.

He stated on Wednesday that he is sure that the Fulton camps are now in the best shape ever, and he does not anticipate any further trouble or complaint.

Warrington Dismissed.

Washington, March 18.—As one result of the recent investigation into the lighthouse service by Secretary Redfield and a committee of officials of the department of commerce, Lucien Warrington, superintendent of naval construction of the service, has been dismissed and Edward C. Shildhauer, assistant engineer in the service, has been appointed by President Wilson to succeed him.

Stay Granted Schmidt.

New York, March 18.—Hans Schmidt, slayer of Anna Aumuller, was today sentenced to electrocution during the week of March 31, but was granted a stay of execution today by the filing of a notice of appeal. That is based on the claim that Anna Aumuller came to her death in the performance of an illegal operation.

WEATHER THURSDAY WILL BE CLEAR, BUT IT WON'T BE WARM

Following is the weather forecast for Thursday:

Another return to colder weather at Atlanta indicates that the advance of spring is not like the steady progress of the crest of a flood wave, but fluctuates, the advances now overcoming so that summer becomes dominant almost impercepibly. On Thursday morning the temperature will be about 50 degrees with a killing frost, but the temperature will rise appreciably during the afternoon and reach about 65 degrees and will not fall below freezing Thursday night. The wind will be fresh from the northwest, diminishing in velocity to nearly calm toward evening and then shifting to south. The day will be fine and clear with hardly a cloud in the sky. Warmer weather is indicated for Friday.

J. D. PRICE INVITED TO AUGUSTA MEETING

J. D. Price, state commissioner of agriculture, has been invited to speak at Augusta's meeting next Saturday, on the subject to the farmers of that county on truck farming next Saturday. On the Saturday following he has been asked to address the farmers at Commerce on apple-growing. He has not yet accepted on account of the fact that he does not know whether he will be able to fill those engagements.

COUNTIES CO-OPERATING WITH STATE WORKERS

The state department of agriculture is receiving a great deal of encouragement and co-operation from different parts of the state.

Dr. Babcock has recently and the Bibb county farmers have recently completed a strenuous campaign against the tick in Bibb. From Griffin comes the report of a market and dairy inspection under the rules of the department, and from various other points similar reports are received.

into the rebel rear at Jiminez were dispelled when it was learned that official rebel reports to Chihuahua were coming by wire from a point far south of that city. This was taken to indicate that while the rebel forces might have suffered a check at Escalon, the city of Torreon is not in any real significance.

Further doubt was thrown on federal reports of a decisive victory when General Benavides, said to have been killed on the occasion, telegraphed assurances of his safety to his father in this city.

$500,000 VOTED TO FEED REFUGEES FROM MEXICO

Washington, March 18.—After a vigorous defense by Senator Lodge, republican, of the administration's expenditures in caring for Mexican soldiers and other refugees interned in Texas and California, the senate today passed the sundry civil bill, carrying a total of more than $10,000,000, of which $500,000 was added by the senate appropriations committee for the maintenance of refugee camps.

An amendment was adopted to provide that the war department shall expend this money only in caring for soldier and military refugees. This, however, will not affect the status of women and children interned with the troops as they are regarded by the law of the Mexican army.

Senator Brown, of Kansas, opposed the appropriation, insisting that since the United States recognized no government in Mexico no foundation has been laid for claims of repayment. Senator Lodge declared the reception of the refugee soldiers was not only done in accordance with international usage, but was obligatory because of the treaty signed at The Hague by many nations, including the United States and Mexico. The matter of repayment, he said, must be left until peace was re-established. Senator Works agreed with him.

Senator Smoot sought to limit the appropriation to the amount necessary to pay the expenses of the camps up to April 1, urging that the government should dispose of the refugees by sending them to Mexican territory controlled by the Huerta government. Senator Lodge replied that this would be a violation of neutrality and virtual intervention in behalf of the Huerta regime.

The bill now goes to conference between the two houses.

NO SHARP REPLY SENT BY HUERTA'S GENERAL

Laredo, Texas, March 18.—Henry Hutchings, adjutant general of Texas, tonight denied published reports that he had received a sharp reply from General Miguel Gil Alvarez, Mexican federal commander at Nuevo Laredo, in response to request for the return of horses alleged to have been stolen from American ranchmen by bandits or Vergnra, who was put to death at Matias, Mexico.

Dispatches from Laredo several days ago quoted Alvarez as suggesting that the adjutant general "that the state of Texas, if it fails to command adequate, employ some person who will advise you that the demand for the return of cattle must go through proper diplomatic officers."

The text of Alvarez's reply, made public by Hutchings tonight, read:

"I have received all of the comments of yours of today. I must advise you that we are not governed by the manner in which you can address yourself through the proper channels to treat with it the matter to which you refer. I referred to your communication of distinguished consideration, liberty and constitution.

She Darkened Her Gray Hair

A Kansas City Lady Darkened Her Gray Hair and Stimulated Its Growth by a Simple Home Process.

She Tells How She Did It.

A well-known resident of Kansas City, Mo., who darkened her gray hair by a simple home process, made the following statement: "Any lady or gentleman can darken their gray or faded hair, stimulate its growth and make it soft and glossy with this simple recipe, which they can mix at home. To half pint of water add 1 oz. of bay rum, 1 small box of Barbo Compound and 1-4 oz. of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. Then every few months. This mixture relieves scalp troubles and is excellent for dandruff and falling hair. It does not stain the scalp, is not sticky or greasy and does not rub off. It will make a gray haired person look 10 to 20 years younger."—(Adv.)

Leaders and Followers

In every walk of life these two elements are encountered.

The one makes roads, the other wears ruts in those roads.

Take the matter of Young Men's clothes as an example: The house of Stein-Bloch is easily the leader in these United States, not only in marking each season's styles, but in maintaining values season after season.

We are privileged to represent

Stein-Bloch Smart Clothes

in Atlanta and vicinity. We count that a distinct advantage, and we are glad to share it with you.

What So Precious As a Healthy Baby?

Every Youngster Can Have Fine Digestion if Given a Good Baby Laxative.

HOWARD ROUSE.

In spite of the greatest personal care and the most intelligent attention to diet, babies and children will become constipated, and it is a fact that constipation and indigestion have wrecked many a young life. To start with a good digestive apparatus is to start life without handicap.

But, as we cannot all have perfect working bowels, we must do the next best thing and acquire them, or train them to become healthy. This can be done by the use of a laxative-tonic very highly recommended by a great many mothers. The remedy is called Dr. Caldwell's Syrup Pepsin, and has been on the market for two generations. It can be bought conveniently at any drug store for fifty cents or one dollar a bottle, and those who are already convinced of its merits buy the dollar size.

Its mildness makes it the ideal medicine for children, and it is also very pleasant to the taste. It is sure in its effect, and genuinely harmless. Very little of it is required, and its frequent use does not cause it to lose its effect, as is the case with so many other remedies.

Thousands can testify to its merits in constipation, indigestion, biliousness, sick headaches, etc., among them reliable people like Mrs. James R. House, of Marinette, Wis. Her little son Howard was fifteen months old last April, but he was sick with bowel trouble from birth, and suffered intensely. Since Mrs. House has been giving him Dr. Caldwell's Syrup Pepsin all trouble has disappeared and the boy is becoming robust.

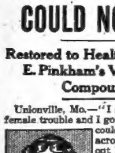

Thousands keep Dr. Caldwell's Syrup Pepsin constantly in the house, for every member of the family can use it, from infancy to old age. The users of Syrup Pepsin have learned to hold cathartics, salts, mineral waters, pills and other harsh remedies, for they do but temporary good and are a shock to any delicate system.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live.

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me so good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefitted by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly; just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

Van Winkle Trucks

For Every Business

Everywhere a wagon is—there a truck should be.

All business houses today are conforming to the fundamental principle that motive power should carry a minimum of upkeep when not producing.

All beasts of burden require as much upkeep—that is, food, which is fuel—when resting as when working.

Van Winkle Trucks do more work, better and quicker than horses or mules, and use fuel only when delivering your goods.

GIN OWNER ARRESTED FOR BURNING GINS

Guthrie, Okla., March 18.—Edward J. Coyle, a prominent cotton gin owner of Perry, Okla., was arrested today charged with hiring William Shaffer, a negro, to burn two cotton gins at Crescent City yesterday, causing a loss of $40,000. His bond was placed under $20,000 bail, his bondsman being his brother, W. M. Coyle, president of the Independent Cotton company. Shaffer was arrested yesterday.

SCHOOL SURVEY REPORT IS NOT YET COMPLETED

Will Be Made Public Promptly, as Was Case With Sanitation Report.

The report of the social survey experts of the Russell Sage Foundation on school conditions in Atlanta has not yet been made to the Atlanta chamber of commerce, under whose auspices and at whose invitation the survey was made.

Robert L. Foreman, chairman of the survey committee of the chamber of commerce, stated yesterday that the members of the board of education who had said the report had been made, were entirely mistaken.

"The survey made in Atlanta by the Russell Sage Foundation," he explained, "was in three parts: one on sanitation and health, one on schools, one on general conditions. The report on sanitation has been made to the chamber of commerce, and was promptly made public. The other two have not yet been made to us, having been delayed by reason of the illness of Mr. Harrison, head of the bureau of social survey of the Russell Sage Foundation.

"When they are made, they will be given to the public. The whole purpose of the survey was to have an impartial investigation and to give the result of this investigation to the responsible publicity."

Neil R. Wilkinson, president of the chamber of commerce, also gave out a statement yesterday, correcting the impression held by several members of the board of education, that the report on the school survey had been completed.

"The report on health and sanitation was received and made public," he stated, "but we have not yet received the report on schools."

Fifteen Freight Cars Burn.

Brunswick, Ga., March 18.—(Special.) Fifteen freight cars on the Atlanta, Birmingham and Atlantic railroad were almost totally destroyed by fire yesterday afternoon. The cars were on a sidetrack just out of the city limits of Brunswick, and although the fire department responded to the alarm and rendered what assistance it could, the fire was beyond the reach of a water connection and consequently the department was of but little assistance.

Amis Quits Independents.

Nashville, Tenn., March 18.—Jonas T. Amis, chairman of the state independent democratic executive committee, resigned today, as a result of the action of the committee Monday in indorsing the administration of Governor Tom C. Hooper, republican. He says the action of the committee was intended to prematurely commit the independent democrats of the state to the candidacy of Hooper for a third term, simulating thereby to forestall all efforts to harmonize the democratic factions.

HAIR WOULD FALL BY HANDFULS

Scalp Covered with Dandruff, Itching so Intense Could Not Sleep. Cuticura Soap and Ointment Completely Cured. Now Has Long Hair.

P. O. Box 49, Clinton, La.—"I had the malaria fever and lost all my hair. My head would itch me terribly and the scalp would be covered with dandruff. It looked so disgustly like corn meal and could be seen plainly. The itching was so intense I couldn't sleep at night. I would scratch until my head was sore all over and my hair would fall by handfuls.

"I used ——— and ——— and different shampoos and tonics without effect. About one month later I bought a cake of Cuticura Soap and then sent and bought a box of Cuticura Ointment. I used the Cuticura Soap with warm water and gave my hair a good shampoo and used a light application of the Cuticura Ointment. Relief was almost instantaneous. I used three boxes of Cuticura Ointment and the Cuticura Soap to complete my cure. I now have a full head of long hair." (Signed) Mrs. Laura A. Greene, June 14, 1913.

THREATENS DEATH TO CHIEF WITNESS WHEN HE'S RELEASED

Gainesville, Ga., March 18.—(Special.)—John Frederick Crews, alias Brown, was tried at a special sitting of the city court this morning and sentenced to serve seven months in the penitentiary for having stolen two quilt cases and an overcoat and skipping his board bill at this place a few months ago.

Downes was originally from Mississippi, but is alleged, has traveled all over the southern states on a deadbeating tour. He was arrested at Buford, Ga., a few weeks ago by Sheriff Speed, just as he was about to marry the pretty young widow for some life insurance money that she had received from the death of a former husband.

James Merritt, a prominent bank official in this city, was the chief witness against Downes at the preliminary hearing mentioned. As Mr. Merritt was about to leave the court, Downes told him that as soon as he got out of the chaingang that he was going to kill him.

Downes requested Judge Looper in sentencing him to state that it should be hard labor. Said he had been used to hard labor and would not be at home without it.

SKIRMISHING IS BEGUN ON TOLLS CONTROVERSY

Jones Declares Repeal of Exemption Clause Would Be "Craven Action."

Washington, March 18.—Preliminary skirmishing on the Panama tolls controversy will occupy the senate for a row as the result of an effort made today by Senator Jones, of Washington, to have passed his resolution calling upon President Wilson for information as to what foreign governments have protested against toll exemption for American coastwise ships, and for correspondence between the United States and foreign powers relating thereto.

Wilson Men to Oppose.

That supporters of President Wilson's plan for repeal of the exemption provision of the canal act will oppose passage of the resolution was indicated today. Senator Hoke Smith, of Georgia, moved that the Jones resolution be referred to the foreign relations committee, declaring that the senate should not hastily consider a resolution calling for information relating to foreign affairs.

Senator Bristow, of Kansas, who is opposed to repeal of toll exemption, urged that the resolution be referred to the committee on inter-oceanic canals, of which Senator O'Gorman, of New York, is chairman. Opponents of the repeal, of whom Senator O'Gorman is the leader, believe that the canals committee would give a favorable report on the Jones resolution, and that the sentiment in favor of foreign relations would pigeon-hole it. Upon this issue the senate may be forced to vote tomorrow. That such a vote could not be considered as a test on the repeal issue, however, is maintained by some of the senators, because some might vote in favor of a request for the information who would not vote against repeal on the final roll call.

No Attempt at Delay.

Senator O'Gorman will return to Washington tomorrow from New York and conferences with democratic leaders have been scheduled for the purpose of inducing the chairman of the canals committee to take up at once the repeal bill introduced by Senator Owen. Several members of the committee said tonight Senator O'Gorman has no intention of attempting to delay consideration of the matter, and that he would call a meeting of the committee in advance of action on the repeal in the house.

In urging his resolution today Senator Jones charged that exemption repeal was the price to be paid by the United States for non-interference in Mexico by foreign powers, and that President Wilson's plan to congress for repeal followed negotiations with Great Britain wherein that nation had agreed to support the principles of the Monroe doctrine. The Washington senator assailed the views of the president in the matter, declaring that to reverse the policy of the government would be a "humiliating, cowardly, craven action."

BULL MOOSE TICKET BOOMED AT MEETING

Seab Wright and Harry Stillwell Edwards Are Proposed for Senators.

After a lively discussion last night in a meeting at the Kimball house, the new organization of Fulton county unanimously adopted resolutions endorsing the submitting of a full state progressive ticket, "from United States senator to bailiff," to the voters of Georgia in the election of next summer. The resolutions are to be presented to the state convention of the progressive party, which is announced to be held on May 12.

The names of two prominent Georgians were mentioned for the senatorships and discussed among a number of the progressives after the close of the regular meeting. They were Seaborn Wright, of Rome, the prohibition leader, and Harry Stillwell Edwards, the widely known writer and former Macon postmaster. It was said it is quite possible that these two Georgians will be proposed for the two United States senatorships at the progressive convention in May.

The meeting Wednesday night was presided over by Bernard Mottier, C. W. McClure, Alexander Hamilton and several others. A committee was appointed to present the resolutions in reference to the state ticket to the convention in May, composed of Dr. F. W. Peck, D. E. Hyman and Alexander Hamilton.

As soon as the warrants were issued, the habeas corpus proceedings which had been instituted were dismissed. When arrested here March 1, two of the men carried large quantities of nitroglycerin and safe-blowing implements of all kinds.

Maddox stated that the fight started when he refused to indorse a check for Guest. Guest's wounds were given attention by house physicians. Maddox was were docketed against the two men, and they will be tried at 2:30 o'clock this afternoon before Judge Broyles.

OLD CROP SHORTS RENEW COVERING

May Cotton Contracts Gained 14 Points Over Previous Close—The Market Closed Firm.

New York, March 18.—The feature in the cotton market today was the renewed activity of old crop shorts to whom covering sent May contracts up to 12.69, or 24 points above yesterday's day's closing figures. Thereafter business was probably restricted by a poor transservice with the south and fresh buying for long account may have been discouraged by some uneasiness, by the favorable advices from the steel trade or possibly by the later public estimate by New England mill circles this summer. Moderate reactions were followed by prompt rallies, however, and the market closed firm at a net gain of 5 to 12 points.

Cables from Liverpool did not fully meet yesterday's American decline and the local market steady at unchanged prices to an advance of 3 points. Some of yesterday's late sales are supposed to be buying, while there was renewed demand for May and July from foreign sources, which was attributed to a further enlargement in the lines of straddling shorts. The market took some realizing at prices worked higher, and after active old crop months had been run into, the market became irregular and closing prices were within a point of the top on March against 24 points on May. It continued covering and local buying. There was some selling on account of March purchases of July during the afternoon, when the market on hand was reduced to about 57 points over May, but May months and the new crop months were relatively quiet during the entire day.

Some local authorities estimate that there is still an interest of from 50,000 to 70,000 bales outstanding for March delivery, although the amount of cotton is now arriving here from the south for contract purposes and the recent advance selling some 20 to 22 points above the May option is based on the steadiness of Liverpool to free continental buying and the new crop months.

Hubbard Bros. & Co.

New York, March 18.—As to Liverpool market will withdraw bear pressure from the arbitrage, but the main factor is the shortened business, leading to a recovery from yesterday's decline. All the covering here is quiet, pending new information as to trade and general conditions while the shifting of interests from one market to the other continues. All the time as it can be done to advantage. In the present situation the fluctuations in the markets are sustained in a remarkable manner by the manipulation of the crop and can cotton, it is apparent that the new factors in influences in the near future are liable to come from the crop preparations.

New Orleans Cotton.

New Orleans, March 18.—Cotton had a firm undertone today and closed at the highest a gain of 9 to 10 points. At no time were offerings pressing and shorts were better buyers than sellers.

Gossip of the market put the bulk of the buying of the day to the account of strong buyers of the bear side. Talk was also heard chiefly concerning the extent of the short interest and the amount of new crop cotton that earliest receipts of the belated and backward lack of rains in Texas also attracted attention.

Around the opening, and for some time after, the bullish stand of the Liverpool market was the main influence. Against this the bears pointed out that the loss of foreign trade accounts was not favorable.

CHARLES THOMAS HEADS THE CUBS

Secretary Under Murphy Is Named President Under Taft Administration—To Retain O'Day as Manager.

Chicago, March 18.—Charles H. Thomas today was elected president of the Chicago baseball club. C. P. Taft, majority stockholder of the club, was present at the election and declared that he would retain his stock at least a year, during which time Thomas would remain president of the club. Thomas was secretary of the club when Charles W. Murphy was president.

Thomas has been in baseball fourteen years, and has been closely associated with Charles W. Murphy during that time. He came to Chicago at Murphy's request in 1906. The formal meeting of the club today resulted in Thomas being made a member of the director, and finally being elected president. Temporarily, it was understood, stockholder and business associate of Mr. Taft, was made secretary.

Has to Please.

Thomas declared he had no plans for the governing of the club and no ambition besides "bringing some more pennants to Chicago." He said he would retain Henry O'Day as manager.

The reorganization followed a conference between Mr. Taft and a representative of the Conney-Spalding syndicate. The syndicate raised its offer of $750,000 for the controlling interest in the club, but Mr. Taft declined it as too behind high enough. Belief that they would have to make extensive improvements in the Chicago grounds, it was said, swept the bidders from again raising the price offered.

Mr. Taft and Mr. Murphy are reported to be principal owners of the land on which the Cubs play.

Johnson Caused Changes.

The change in the organization of the club was the result, it is generally reported, of a demand made by President Johnson, of the American league, that some one besides Murphy be put at the head of the Chicago club. Johnson contended that some of Murphy's unpopular moves were dangerous to organized baseball with the Federal league threatening destructive war, and demanded of President Taft and the National league that a change be made.

Trouble between Johnson and Murphy dates from the world's series of 1907 between Detroit and the Cubs. It was the result of a ticket scalping scandal. Some of the officials of the West Side club, of which Thomas was then secretary, were directly accused by Johnson of having made the scalping possible.

Because of this trouble, some of the American league leaders, it was predicted tonight, might oppose the appointment of Thomas, though whether their opposition will have any influence is a matter of conjecture.

ATHLETICS WILL PLAY IN WAYCROSS TODAY

Waycross, Ga., March 18.—(Special.)—Final arrangements for the pleasure and profit day celebration today and all tomorrow were made today, and all is now in readiness for the big events scheduled for the days.

Aviator Beach has tested his biplane and finds it in fine shape for flights. The flights will be made from a large tract in a convenient location, and not from the races, which will be held during the morning, with one at the aviation field.

The indications are that several thousand out-of-town people will be here for the day, and merchants anticipate a record business. Everything but the ball game is being paid for by the business men of Waycross and will cost nothing.

By special arrangement the local team of the Georgia State league will play an exhibition game in the afternoon with the world champion team of Philadelphia. Manager Connie Mack will accompany the team.

"Pepper George" and His Hook Slide

The Crackers' recruit outfielder, snapped by The Constitution's staff photographer just after he had slid into third base with his famous hook slide. Kircher stole 74 bases with Meridith, in the Virginia league, last season. Kircher's pepper is earning him a place in the hearts of local fandom. Kircher has been hitting the ball hard in practice.

Cleveland Naps Here Today; Play Crackers Three Games; Stars With the Visiting Club

The Crackers had two strenuous workouts, morning and afternoon, Wednesday, and it was a tired bunch of athletes that piled into the hay last night.

Today they will resume their exhibition games, the Cleveland Naps coming here for games Thursday, Friday and Saturday. The battles will start at 3 o'clock. The admission fee will be 25 cents.

With the Naps are players who are some of the biggest drawing cards in baseball, and local fandom is certain to be out in force to welcome the visitors here.

The Naps arrive here this morning at 9:55 o'clock from Athens, Ga., where they have been in training, and will be quartered at the Ansley while here. There will be thirty persons in the party.

Those in Party.

Th party will be headed by Manager Joe L. Birmingham, Trainer Hitte and Secretary Blackwood. Four newspaper men are sending all the news from the front back to Cleveland papers.

The newspaper men with the team are Sam Rice, of the Plain Dealer; Tom Terrell, of The Leader; Fred Curry, of the Press, and E. J. Daniel, of The News. The last named is coming here for games. He is the editor of the Memphis News-Scimitar and New Orleans Item. He was sent from the last named paper to Cleveland.

The ball players in the party are as follows:

Outfielders—Jackson, Graney, Wood, Leibold, Lellvelt, Birmingham.

Infielders—Johnston, Lajoie, Olson, Paulet, Knight, Hartford, Dunlap.

Catchers—O'Neill, Carisch, Bassler, Billings.

Pitchers—Standing, Mitchell, Cullop, Steen, Bowman, Collamore, Kahler, Hagerman, James.

Players Not Here.

Several players will not appear here with the Naps for various reasons.

Fred Falkenberg, the lanky twirler, whose comeback last season was one of the features of the American league season, has jumped to the Federals.

Vean and Dave Gregg, pitchers, are not on the list of the twirlers announced by the Cleveland management. Why they will not be here is not given.

Ray Chapman, the team's regular shortstop, broke his leg sliding into second during practice at Athens, and has been sent home. He will be out of the game for months.

Terry Turner, the veteran third baseman of the club, is still at Hot Springs boiling out. Terry is getting in shape for a strenuous campaign.

Chief Attractions.

From a local standpoint, there will be three chief attractions with the Naplanders, Joe Jackson, Nap Lajoie and Doc Johnston.

Jackson and Johnston played ball in this league with the Pelicans and were seen then considered great ball players. Local fans will give them the once over as Naps, wondering how much they have improved since their Southern league days.

Lajoie is always an attraction. The big Frenchman has been an attraction everywhere he has played for the past twenty years, and is the most gracious fielders that ever cavorted between first and second and covered the game's greatest hitters, he is always a card.

Gene Paulet, that baseball wonder of his last season; Nick Cullop, twirler; Joe Lellvelt and Jack Knight will need no introduction to local fandom. They have played here before.

Trainer Hitte, with the Naps, is known here by reputation by reason of his training of the Army football teams. Many former Army men living in Atlanta know Hitte personally.

The Cleveland club will use their same batting order against the Naps. Two pitchers appearing in action for the first time.

The batting orders of the two teams will probably be as follows:

CLEVELAND.	ATLANTA.
Leibold, rf.	Mosciell, 2b.
Olson, 2b.	Schwind, ss.

JAY GOULD WINS AT COURT TENNIS

Defeats George Covey, the British Professional Title-Holder, Seven Sets to One. Champion Plays 5 Games.

Philadelphia, March 18.—Jay Gould, American amateur court tennis champion, won the open professional championship of the world here today from George F. Covey, of England, the professional title-holder.

The championship, one of the finest exhibitions of the game ever seen here, started off the club tennis suits to run. The scores of the match were: 6-0, 6-7, 6-4, 6-3, 6-2, 4-6, 6-4.

Incidentally, another championship was added to the long list already held by the United States, many of which were wrested from British athletes.

Gould, who is 26 years old, proved himself to be the best tennis player who ever lived, according to experts who viewed the match. His service today was equally as strong as on the first day and he displayed even better head work. His fore play was errorless. He played ground strokes with few misses and seldom drove into the net.

The English champion, experts say, proved he is a great player mechanically, with few weaknesses in physical build. Instead of being master of his own play, however, he was forced to play the game that Gould wanted.

The American's victory marks the first time an amateur ever has been a professional court tennis player for a title. It also meant the second world's championship to this country from Great Britain by racquet athletes within a year, Jack Foulkes having won the racquet title from Howard Kingsley, London, last spring.

Covey had no excuse to make. "I was beaten by a better man," he said. "I think Mr. Gould is the greatest tennis player the world has seen."

Hon. Neville Lyttelton, who employs Covey as a professional, added to this remark, saying: "I do not think there has ever been or ever will be a greater court tennis player than Jay Gould."

The new champion declined to comment on his victory.

Philadelphia, March 18.—A feeling that the time is not ripe for organic union of the seven church bodies represented in the council of Reformed Churches in America, holding the Presbyterian system, was voiced by virtually all speakers at today's session of the council here.

Organic union, if effected, would merge into one body all the Dutch and an and Reformed Churches of the country, with a total membership of about 2,600,000.

Dr. T. H. Summerdale, University of Illinois, presided.

The council is holding its fourth biennial session here. It includes representatives of the following denominations on a basis of four delegates to each 100,000 communicants:

PERRY AND HANLON ARE WORKING STEADY

The support of local boxing fans will be equally divided in this bout, as each boy has his select following of supporters.

The outcome is hard to figure. A young, willing, hard-hitting, inexperienced mixer, against an experienced boxer, is the outlook. Which do you like?

Both boys have been in the city over a week and are working hard to get into tip-top condition.

A good card of prelims will also be arranged.

FINED FOR SLANDER FOR CALLING WOMAN A "SUFFRAGETTE"

Cologne, March 12.—For calling a woman school principal a "suffragette," the wife of a physician in a suburban village was today convicted and fined on a charge of slander.

The offense was committed in the course of a quarrel over the punishment by the school principal of the physician's daughter.

The complainant, in supporting the charge before the court, argued:

"The suffragettes have shown themselves to be scarcely normal. Educated people are enraged against them owing to their outrages, and nobody would entrust children to me if I were a suffragette."

The defendant refused to apologize and declared that the teacher had "acted like a suffragette." She was thereupon ordered to pay a fine.

MRS. SMITH IS KILLED IN ELEVATOR ACCIDENT

New York, March 18.—Mrs. Mary H. Smith, widow of the Rev. Courtenay H. Smith, D. D., late rector emeritus of St. James' Protestant Episcopal church, in this city, was killed tonight in an elevator accident in an up-town apartment house, where she had gone to dine with friends.

Mrs. Smith was about to leave the elevator on the seventh floor of the building, when the car, because of a defect in its operating mechanism, it is stated, started to descend. The operator jumped to the landing. Mrs. Smith, attempting to follow him, fell prostrate across the elevator entrance and was crushed to death.

Mrs. Smith was 75 years of age.

FEDERAL CENSORSHIP FOR "MOVIE" FILMS

Provided in a Comprehensive Measure Introduced by Senator Hoke Smith.

(By John Corrigan, Jr.)

Washington, March 18.—(Special.)—Rigid supervision of motion picture film concerns, amounting to government censorship, is provided for in a comprehensive measure introduced today by Senator Hoke Smith.

Motion pictures showing prize fights or bull fights, or any other matter tending to incite youth or adults to crime or corrupt morals are to be strictly prohibited, under the direction of a federal moving picture commission. The commission is to consist of five members appointed by the president. The chairman is to receive $5,500 and the other members $5,000 per annum.

Each motion picture film before being exhibited publicly must be submitted to the commission for approval, and receive a certificate designating its character, number of lineal feet and date of approval. Interstate transportation is denied to any motion picture reel not so certified. A $2 fee for each 1,000-foot film that be charged. Any alteration in the film after approval will result in the forfeiture of the exhibitor's license, and violations are also punishable by a fine not exceeding $500 or imprisonment for one year, or both.

BOWLES HIRED DE KNIGHT TO DO SOME LOBBYING

The Admiral Wanted Railway Owned Ships Allowed to Use Panama Canal.

Washington, March 18.—Refusal of Clarence W. De Knight today, on advice of counsel, to submit to the senate lobby investigating committee papers demanded in connection with the inquiry into De Knight's alleged activities as a lobbyist, brought a temporary halt in the proceedings of the committee. The attitude of De Knight, who is a Washington lawyer, will be the subject of consideration tomorrow.

Bowles in the Stand.

Former Rear Admiral F. T. Bowles, president of the Fore River Ship-Building company, was examined today with relation to his efforts to prevent the exclusion from the canal, except from the use of the Panama canal. Mr. Bowles admitted that he employed De Knight to work for him against railroad-owned ship exclusion during the pendency of Panama canal act before the senate committee and that he had paid De Knight $1,000. A contingent fee of $4,000 was not paid or demanded, he said, because the exclusion clause finally was incorporated in the act.

Questioned by Chairman Overman, Mr. Bowles said that he resigned from the navy to accept private employment with shipbuilding interests and that while naval constructor at the Brooklyn navy Yard, he had appraised shipbuilding plants for a private corporation, with the navy department's permission. He said he had seen intimations in the newspapers before he resigned from the navy that he had been in the employ of the so-called steamship trust.

Service Furnished Letters.

The witness furnished the committee with correspondence relating to his legislative activities, several letters from De Knight included in the correspondence detailing the latter's dealings with Representative Knowland, of California, and others, with a view to preventing the exclusion of railroad-owned ships from the canal.

After Mr. Bowles had been excused Henry De Lavia, counsel for De Knight, announced that he had advised his client not to testify nor produce papers concerning matters not now pending before congress on the ground that the committee had no authority to investigate such matters. As several members were absent, the committee adjourned until tomorrow.

BUCHU FINE FOR WEAK KIDNEYS

Mixed With Juniper, Is Old Folks' Recipe for Clogged Kidneys and Backache.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders, dizzy spells, spots before the eyes, frequent desire to urinate.

To avoid these troubles you simply must keep your kidneys active and clean, and the moment you feel any of the above symptoms, get a 14-oz. bottle of Stuart's Buchu and Juniper Compound from any good drug store, take a tablespoonful in a glass of water after meals. Stop eating sweets or sugar. In a few days and your kidneys will then act fine and natural. Stuart's Buchu and Juniper is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer burns to pass water, thus ending bladder disorders.

Everybody should take Stuart's Buchu and Juniper now and then to keep their kidneys clean.

PRETTY GIRL ROUTS BOLD NEGRO BURGLAR

Miss Virginia Jordan Believes She Wounded Black Who Invaded Her Home.

The pluck of pretty Miss Virginia Jordan, and her ability to handle firearms, last night routed a negro burglar whom she discovered climbing into a window at her residence, 98 West Peachtree place.

Her mother, Mrs. Laura Jordan, was first to discover the intruder. Hearing a noise shortly after 10 o'clock in the rear of the home, the mother stole cautiously into the dining room. As she parted the portieres over the double-doored entrance, she caught sight of the negro.

When her mother summoned her, Miss Jordan seized a revolver and entered the dining room. She opened fire upon the robber at once. At the first shot, he uttered a yell of pain. It is believed the bullet found its mark. Policemen Cantrell and Cockran, called from police headquarters, but could find no trace of the black.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Girls! Try This! Makes Your Hair Thick, Glossy, Fluffy, Beautiful.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy your hair is, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.
