CONLEY CONFESSION WITNESS IS CALLED BY HUGH M. DORSEY

Annie Maud Carter Due for a Long and Severe Grilling Before Judge Ben Hill Today.

WILL ASK EXPLANATION OF THE CONLEY LETTERS

Solicitor General Dorsey Asks Delay in Hearing of Petition to Set Aside the Frank Verdict.

Solicitor Dorsey will spring another sensation in the Frank case this morning when he orders Annie Maud Carter before Judge Ben Hill at 11 o'clock for a rigid examination in reference to her testimony to the effect that Jim Conley confessed to her the murder of Mary Phagan.

She will be interrogated in the court room on the fourth floor of the Thrower building. Mr. Dorsey will demand a complete explanation of her evidence and will insist upon learning the source of the letters purported to be from Conley.

Annie Maud Carter is one of the star witnesses for the defense in its fight to gain a new trial. The Jim Conley letters in possession of Frank's counsel purport to have been sent to her from Conley, and were given by her to the defense.

Shortly after making her affidavits to the defense, she was sent from Atlanta, on the advice of Detective William J. Burns. Burns declared on the witness stand that he had suggested that Frank's lawyers send her away in order to keep her from the detectives, who, he feared, would intimidate her.

Woman Is Brought Back.

Burns stated that she had been sent to New Orleans. During the re-trial hearing, Judge Hill issued an order instructing the defense to return the woman to the jurisdiction of his court, saying that otherwise he would decline to consider any of her evidence or any evidence in which she was involved.

She was brought back to Atlanta Thursday and put in the hands of the sheriff. She was already under bond of $300 awaiting new trial proceedings in a case on which she had been sentenced to a term in prison. By order of Judge Hill, her bond was raised to $2,000.

She stated in her affidavit that Conley was in love with her and that she had talked with him frequently. She says that he confessed the murder of Mary Phagan, and that he went into complete detail of the crime. This, she swore, occurred while she and Conley were in prison, and on occasions when she would visit Conley in his cell.

The "Love Notes."

The "love notes" which were produced by the defense, and which are alleged to be from Conley, have been declared by handwriting experts to be in Conley's hand. They are unprintable messages. Detective Burns said on the stand that the letters had been secured by C. W. Burke, the investigator for Frank's defense.

Mr. Dorsey will demand today that she explain in full how she came in possession of these letters, and all the cumstances of the confession she says at Conley's door. She will also be asked to explain the two conflicting affidavits she made—one to Chief Lanford and the other to the defense.

Jim Conley denies the woman's story. Affidavits will likely be presented from him during the woman's examination this morning.

Will Ask for Continuance.

Solicitor Dorsey Friday asked Judge Ben Hill to grant a continuance into next week of the John L. Tye motion to upset the verdict of guilty in the Frank case. The solicitor will not be able to prepare his counter showing by 10 o'clock this morning, which is the time set for the hearing.

It is stated by a member of the solicitor's staff that he has gathered a large amount of evidence with which to combat the Tye motion, some of which is said to be testimony to the effect that Frank, on the day the verdict was rendered, was aware that his attorneys had waived his presence.

Mr. Dorsey will not talk, however. He merely stated that he expected to "make a fight against the motion."

The bill of exceptions to the defenses which will carry Judge Hill's denial of a new trial to the supreme court has been prepared. Attorneys for Frank will confer with Judge Hill this morning regarding the bill.

It was understood, although the report was not verified, that Detective William J. Burns will return to Atlanta on his own initiative and conduct a fight against those who have accused him and his agency during recent developments. It has also been said that unless Burns returns to Atlanta and the grand jury investigation, he would be summoned by the solicitor.

Mr. Dorsey would have nothing to say regarding this.

Animals Are Killed By Hail Storm in Southwest Georgia

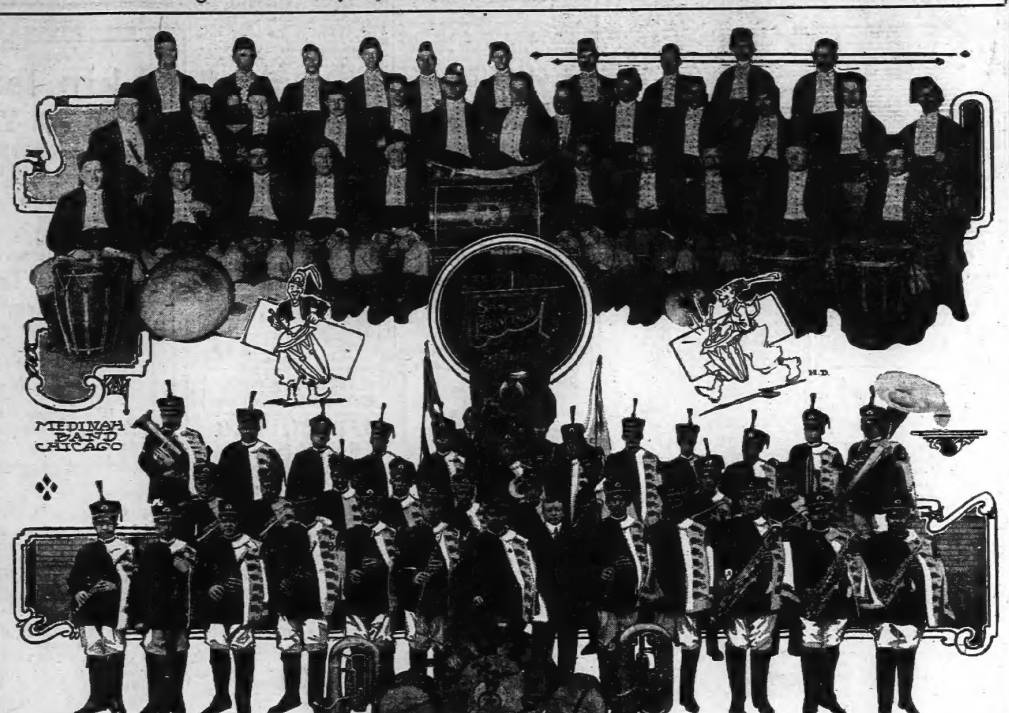

The Streets of Edison Are Completely Covered by the Stones—Crops Are Wiped Out.

Albany, Ga., May 8.—(Special.)—Reports of destruction wrought by the most destructive hailstorm which fell yesterday at Edison, and for several miles in every direction from that town.

In fields and gardens the hail made a clean sweep of growing plants, leaving hardly a vestige of cotton, corn and cabbage. Chickens and pigs are reported killed, and in the streets of Edison the hailstones completely covered the ground.

Old residents agree that it was the heaviest fall of hail ever witnessed in that section.

Roasting Match Between 'Tom' Watson and 'Bill' Harris Rakes Leading Politicians

By John Corrigan, Jr.

Washington, D. C., May 8.—(Special.) Director of the Census William J. Harris, candidate for governor of Georgia, has sent a red-hot letter to Thomas E. Watson, of Thomson, Ga., replying to one received from Watson, acknowledging receipt of Mr. Harris' circular letter sent to several thousand Georgians in making soundings for his contemplated candidacy.

Chairman Harris sent to Georgia as many as fifteen thousand letters, covering every county in the state, and among those it seems that one was inadvertently sent to Hon. Thomas E. Watson, who replied to Mr. Harris as follows:

"Mr. William J. Harris. Dear Sir: Your letter to me received. While somewhat surprised, I did not faint.

"You run, by all means. Hold the office your boss gave you, and go after another, just as he did. We want to show you how much we love you for the manner you tricked Old Man Peepul at the Macon convention. We are going to give you h—ll, and we are going to give your flatulent boss the same thing.

"Your cowardly boss is a two-faced humbug and so are you.

"Very dearly yours,

(Signed) "THOS. E. WATSON."

April 27, 1914.

Mr. Harris' Reply.

To this letter of Mr. Watson Chairman Harris makes quite a lengthy reply, the chief features of which are summarized as follows:

"I would not ask your support even if I knew by doing so I could become the governor of my state. I would not so offend the more than 92,000 loyal democrats of Georgia, who supported our great president. Of all the false and malicious statements ever made against Woodrow Wilson, you are responsible for the worst. Without the slightest foundation or scintilla of truth, you published in your paper a statement that Governor Wilson had sent a telegram of sympathy to Booker Washington when he was arrested in New York for trying to enter the apartment of a white woman. Your statement was made in such a plausible way that thousands of Georgians believed it. It was telegraphed to the papers all over the United States, especially in the south, and some of our best papers published it.

"If there is a single public man who has earned the people of Georgia unselfishly and with distinction in the past few years whom you have not denounced, I am not aware of it.

"I do not believe there is a prominent democrat in the Tenth congressional district of Georgia whom you have not maligned through the columns of your paper or on the stump.

Turned Down Watson's Son.

"After you were elected chairman of the state democratic executive committee, I was urged to appoint your son a member of the committee from the state-at-large. Just to please you I appointed him in a good humor with the democratic party. I refused to appoint him for any such reason, and stated I would resign the chairmanship before I would do so.

"By your false and malicious statements, you had attempted to do Governor Woodrow Wilson such an injury, I knew you would not support him, and to appoint any man, however good, just to please you, would have been an affront to every loyal democrat in Georgia.

"You refer in your letter to my ruling as chairman of the state convention, which nominated Hon. J. D. Price for commissioner of agriculture. I do not read your paper, but I am informed that you made at numerous times false and such statements. There was not a fair-minded man present at the convention who will say I ruled unjustly. Except for my ruling which forced the colegates on the first ballot to vote the instructions of their county, Mr. Price would have been nominated on the first ballot. As chairman I ruled justly to all, but I did use my influence to defeat Mr. J. J. Brown, the candidate supported by you and the fertilizer trust.

"While a member of the legislature a measure of mine was enacted into law which required all fertilizers sold in Georgia, not only the analysis, but the number of pounds of other material worthless as fertilizer, to be stated. It an offense to use cinders, sand, or other deleterious matter in the manufacture of fertilizers. When this matter was before the senate, the agents of the fertilizer trust filled the lobby to defeat it, and many of the same men were at the Macon convention—some as delegates to urge the nomination of Mr. Brown for commissioner of agriculture. When the convention met between Mr. Brown and Mr. Price, so many agents of the fertilizer trust went on the floor to vote for the delegates and try to influence them to vote for Mr. Brown, it was difficult for me to restore order. If the agents of the fertilizer trust, who were at the convention supporting Mr. Brown, had helped nominate Mr. Price, your paper would have given columns each week to denouncing them and saying the farmers had been sold out to the fertilizer trust, which had elected the commissioner of agriculture to do their bidding.

"I do not favor any law which would destroy the fertilizer industry of our state, which has so many millions invested in the enterprise. The use of fertilizers by our farmers is wise, and every farmer, laborer, merchant and professional man is deeply interested in having a commissioner of agriculture who will protect the farmers from worthless fertilizers. It is apparently very important to you to elect or defeat some one for personal reasons than to protect the farmers.

His Railroad Attitude.

"If instead of denouncing public officials who are trying to serve the people honestly, you would devote your time and talents to calling attention to the great importance of electing the right man to the legislature, who would not be influenced by the corporations, such as the Georgia & Atlantic railroad, you would be of real service.

"I am not unfriendly to the railroads and their employees. I am a friend of the friends and employees of the railroads. I believe in encouraging the railroads to assist in upbuilding our state. Neither are the people of Georgia unfriendly to the railroads. It does not indicate an unfriendly spirit when they are railroad attorneys, but under the law a railroad attorney is disqualified to serve as a member of the legislature. If a railroad lawyer gets into the choice between the state and the railroad by which he is employed, and his client's interest should not, as governor, be allowed to serve as the state's attorney in the railroad which he is serving. If a railroad lawyer gets into the choice of a majority of the people of Georgia, is nominated for governor by the convention, when the Western and Atlantic railroad is to be leased to the railroads, it will be a great help toward sounding the death knell of the county unit plan. The length of time that the county schools will be open each year for the next quarter of a century will depend largely upon the revenue from the lease of the Western and Atlantic railroad."

To Rush More Troops to Mexico; Situation Takes Warlike Aspect

Forces May Be Increased Sufficiently for Expedition to Mexico City if Huerta Regime Collapses.

ARMISTICE NOT BROKEN, SAYS REPLY OF BRYAN

Governors Asked if National Guards Are in Fit Condition to Proceed at Once to the Border.

Washington, May 8.—High tension marked the Mexican situation today, on both the military and the diplomatic.

The war department was the chief center of activity, and while no authoritative statement was made beyond Secretary Garrison's formal reply that "no orders for any national troop movements have been sent," it became known that the administration was considering sending off additional troops to Vera Cruz, and probably would do so.

This step would not be intended as an aggressive measure, but as a caution. An evidence of the serious conditions was contained in a report today that German merchants were about to arrive at Puerto Mexico with arms and ammunition for Huerta. It was realized that this, if true, would present an incident similar to the arrival of the Ypiranga at Vera Cruz, which led to the American occupation of that port.

Reply to Huerta's Protest.

Huerta's protest to the mediators that the United States had broken the armistice by landing additional troops at Vera Cruz, was considered by the cabinet and later Secretary Bryan announced that the reply of this government stated that no aggressive steps had been taken by the United States forces and that nothing had been done to violate the suspension of hostilities. The American reply was delivered to the mediators late today. The mediators themselves also took the view that the question raised by Huerta over the observance of the armistice could be cleared away, and that Huerta could be convinced that the United States had not violated, in spirit at least, the armistice.

The cabinet meeting brought out a general discussion of the situation. It was said after the meeting that there was little doubt as to the sending of additional forces, wholly for precautionary purposes. It also became known that inquiries had been made of the governors of states to ascertain the condition of national guards and how soon they could be prepared for active service. This also is a precautionary measure. Indications are that if national guards are called on, they

EMERY ATTACKS ANTI-TRUST LAW

He Declares That the Clayton Bill Might Result in Great Harm to Business Interests.

James M. Emery, chief counsel of the National Association of Manufacturers, in his address before the Georgia cotton manufacturers yesterday on "Legislation and Business" assailed several of the administration's bills regulating big business now before the house.

He declared that the people of the country would lose their sovereign rights as individuals if section 7, of the Sherman anti-trust law, commonly known as the Clayton bill, was passed. He claimed that the ambiguity of the section gave unrestricted privileges to labor unions, so that the result would be that organized labor would be able to make unwarranted demands upon business interests and the result would be harmful to the best interests of the people. He urged that business men organize to compete with the demands of the labor unions.

Allen P. Johnson, president of the Exposition Cotton mills, of Atlanta, was elected president of the Georgia Cotton Manufacturers association at its annual meeting at the Piedmont hotel.

Fred Gordon Remembered.

At the banquet held at 6:30 o'clock Lee M. Jordan, attorney for the association, made the presentation speech, delivering to the retiring president, Fred B. Gordon, president of the Columbus Manufacturing company, a handsome silver service.

Over 150 cotton manufacturers of the state attended the convention, and fully 60 of the leading mills in the cotton goods industry were represented.

At the afternoon session Dr. K. G. Matheson, president of the Georgia School of Technology, addressed the association, and asked the aid of the manufacturers in securing for the Tech a new power house plant. A resolution was passed unanimously by the association indorsing Dr. Matheson, and pledging him their support in securing for the Tech a new power house plant.

Governor Welcomes Visitors.

Governor John M. Slaton made the welcoming address at the afternoon session, which was responded to by J. D. Massey, treasurer of the Phenix mills, of Columbus, Ga.

At the night session Stuart W. Cramer, of Charlotte, N. C., the retiring president of the American Manufacturers' association, delivered an address upon the benefits of "Duke's Warehouse Plan," explaining the devices for saving money that have been scientifically worked out in this well-known warehouse plan. He recommended that the Georgia manufacturers try out the plan, and presented figures showing the savings under its use.

For the office of first vice president, C. P. Truitt, of LaGrange, Ga., of the Unity mills, was chosen, and Harry L. Williams, president of the Swift Manufacturing company, of Columbus, was re-elected secretary-treasurer.

VETERANS INDORSE POLICY OF WILSON

"Great Wisdom and Discretion of President" in Mexican Imbroglio Supported by Heroes in Gray.

Jacksonville, Fla., May 8.—Indorsement of the policy of President Wilson in handling the Mexican situation was one of the last official actions of the twenty-fourth annual United Confederate Veterans' reunion which concluded here tonight. A general exodus of veterans and visitors began this afternoon and continued tonight.

Approval of the policy of the president was contained in the following resolution adopted by the veterans this afternoon:

"Whereas, the present unsettled condition in the commonwealth of Mexico appears likely to involve some action on the part of the United States,

"Be it resolved, That this convention of United Confederate Veterans recognizes the great wisdom and discretion of the president of the United States and will heartily support such action as he may take, in every possible way."

Commander-in-chief Bennett H. Young was instructed by the convention to forward the resolution to President Wilson.

Peace Jubilee Approved.

Among other resolutions adopted at the final session was one approving the peace jubilee to be held in Vicksburg, Miss., next year. The resolution states that the invitation tendered veterans to "meet the confederate soldiers on southern soil is approved provided the spirit of the occasion be to accord equal honor for patriotism to Jefferson Davis, leader of the people of the south, and Abraham Lincoln, leader of the people of the north."

The present departmental commanders, General Theo S. Garnett, Norfolk, commander of the Army of Northern Virginia; General George P. Harrison, Opelika, Ala., commander Department of Tennessee; and General K. M. Van Zandt, Fort Worth, Texas, commander

GEN. HUERTA WOULD SEE CITY IN ASHES BEFORE HE'D QUIT

Vera Cruz, May 8.—Mexicans arriving here today from Mexico City declare that General Huerta shows no intention of abandoning the presidency of Mexico. The president, they assert, is popularly credited with having made the statement that he would see the capital in ashes before he would quit.

The American forces at Vera Cruz are violating the armistice by landing more troops, ordnance and supplies, according to Mexican papers under the domination of Huerta.

ATLANTA DRESSED IN SHRINE COLORS FOR BIG FESTIVAL

3,000 Nobles Due to Reach Atlanta Oasis Today After Long Tramp Across Hot Sands of the Desert.

LOW RATES IN EFFECT ON ALL THE RAILROADS

Six Thousand Visitors Expected in Atlanta for Convention Before the Sunday Rush Begins.

Atlantans got their first glimpse of the splendor and brilliance of Five Points, with its decorations for Shriners' week completed, for a brief while last night. The gigantic star suspended in midair at the junction of Peachtree, Edgewood, Decatur and Marietta streets, and its wires of electric lights leading in every direction to the buildings around, were lighted up for several hours in the early part of the evening. It made a dazzling sight, such as Five Points has never before seen in all its checkered history.

The streets beneath this brilliant display surged with people. The vanguard of the Shriners had already begun to swell the crowds in the downtown section. People stood around by hundreds and watched the fascinating electric display. The illumination was kept on till about 9 o'clock, when it suddenly shut off and Five Points became its natural self again.

Atlanta today is the mecca of more than 3,000 Shriners—heralds of the advance guard of the pilgrims that are trudging across the hot sands of the desert to the Georgia oasis.

Almost every train entering the Imperial City carries delegates to the conclave. Potentate Forrest Adair, of Yaarab Temple, estimated Wednesday that there would be fully 10,000 visitors in Atlanta before Sunday night.

Atlanta has the "Shrine spirit." Almost every building in the city is decorated with the colors of the imperial council. The streets are crowded with visitors who are coming to enjoy this big occasion with the Shriners.

Low Rates in Effect.

On Friday the low rates promulgated by the Southeastern Passenger association went into effect, and during the afternoon and night the crowds in the hotels and on the streets began to thicken. Low rates are in effect from every village and hamlet in the United States and in Canada.

In and about the Shrine headquarters there is activity. Potentate Adair made the announcement that before noon on Saturday all the arrangements for welcoming the visitors will be complete. "The Welcomers," a committee headed by Noble W. A. Fuller, was organized Wednesday night. Noble Fuller will be in charge of the committee at the terminal station, and Noble Lee Hagan will be in charge at the union station. The committee is having telephones installed at both stations, and in every way will facilitate the registration of the visitors just as fast as they arrive.

Chief of Police James L. Beavers and his staff of officers are busy making arrangements for handling the crowds. The traffic men have been fitted out in their new uniforms, and the commanding officer has given orders to the rank and file of the department to appear in their smartest togs during the Shrine week.

Physicians Ready.

Dr. A. B. Elkin announced late Friday afternoon that the detail of physicians and nurses to be on duty during the week was complete.

sicians selected to look after the welfare of any visitor who may be taken ill on the streets will be stationed at the following points during the morning and night parades of the imperial council May 12. The physicians will go on duty at 8:30 a. m. and 7:30 p. m. They will be identified by red cross bands on their arms. Their stations will be as follows:

Georgian Terrace, Peachtree and Ellis, Peachtree and Forsyth, Peachtree and Auburn, Five Points, Viaduct, Alabama and Whitehall, Hunter and Whitehall, Mitchell and Whitehall, Mitchell and Broad, Hunter and Broad, Alabama and Broad, Broad and Marietta, Forsyth and Marietta, Spring and Marietta, Walton and Forsyth, and at the Lyric theater.

Canadian Flag.

The Canadian flag will be included among the official decorations on headquarters of the Shriners (the Empire Life building), Masonic temple, the Lyric theater (meeting place of the imperial council), and the Auditorium. This will be in honor of the visiting Canadian temples, which make up several very large delegations that are already on their way.

On Thursday Potentate Adair was informed by the Hills-Watson Drug company that one of the trained nurses on their register had tendered her services free of charge to any Shriner who may fall ill during his visit to Atlanta.

"Within ten minutes," said Mr. Adair Friday, "three other nurses called on me directly and made the same offer. Either the same spirit moved them, or they held a little conclave and decided to do this together, I thanked them and asked them to report to Dr. A. R. Elkin, in the Grand building, who has organized the volunteer corps of physicians for the week. To my mind, this demonstrates a highly creditable state of the public mind toward the visitors we expect. We see nothing on every hand but the most cordial cooperation Atlanta can give."

Don't Want Auto Race.

"I want to indorse with all the emphasis I can lay on it Mayor Woodward's pronouncement and warning against automobile speeding while the crowds are here," said Potentate Adair Thursday. "We don't want a single accident, and the only way to keep the streets will be congested to the limit. We simply must take things easy then, and be patient. That means we will have a much better and safer time."

Atlanta's traffic squad of police shone forth Friday morning in brand-new caps of metropolitan pattern, primarily because the sun was shining, and the traffic will be tremendous, but also because the police will have a flaring top and a drop visor, which will shield Atlanta's finest from the front. The entire police force has been instructed to appear as natty smartest and best to make a lasting impression on the visitors.

Three big electric signs on the Kimball, first to be completed in the illumination of that hotel by the Shriners, were put in operation last night, proclaiming the slogan, "California," that the four temples from that state will make a bee-line for Atlanta. Electricians and other decorators are working night and day to have the hotel ready when the Californians get here Sunday afternoon. Other big electric signs will bizzon the new and tempting slogan, "Come to Atlanta—Not California."

The Californians, in their four special trains, were en route Friday to Albany and New York city. They will leave New York tonight, visiting Washington and Richmond tomorrow. Richmond is their last stop until they arrive in Atlanta.

The reduced rates promulgated for the Shriners' meeting by the railroads in the Southeastern passenger association went into effect Thursday.

Marietta street will be converted into a vast open-air dancing space each night during the Shriners' meeting. The street will be closed to all but dancers from Forsyth to the Kimball monument. Three bands will furnish the music, one being stationed on the Bijou theatre balcony, another on the balcony of the old Folsom hotel, and the third at a point not yet determined. The dancing of the tango and hesitation and other fancy figures will begin each night about 11 o'clock, and will continue till the last redeemer goes to sleep or everybody goes home. The street will be made light as day by the special illumination now being installed. The city will appropriate for making a dancing floor of the wood block pavement. Nobles Lewis Gregg and Hall Miller, of Arab temple, have been placed in charge of this feature.

Office window space in the downtown buildings is already at a premium for the parades. The grandstands now being erected by private enterprise will not be nearly sufficient, of course. The stand on the University club block will not be for the public, the ladies of the Shriners occupying it during the morning parade, and the imperial council occupying it for the evening parade, next Tuesday.

All clubs in Atlanta will keep open house for the visiting Shriners, no courtesy cards will be issued. The 1914 Shrine card, possessed by every noble, will be the open sesame of all doors.

The white way lights and special street illuminations will stay lit all night till dawn, every night while the Shriners are here.

33 Burros Arrive.

Thirty-three burros, shipped from El Paso, Texas, by El Malda temple of that city, arrived in Atlanta Wednesday afternoon and are now quartered in John J. Woodside stables. These burros will be used in staging El Malda's own spectacular burlesquing of the Mexican revolution. After the Shrine meeting they will be sold for what they will bring. Over all the burros will be musicians, dancers, medicine men, chiefs, squaws and papooses. The sunstation of the camp has been assigned by special arrangements. This will be one of the most picturesque features of the great meeting. The Indians will march with Algeria's fakirs in the parades and appear with them at other stunts. In addition, they will stage their own dances and pow-wows here and there on the downtown streets.

"Shrine postence," for no mail but that of the Shriners, will be opened Sunday in the Piedmont hotel, as a branch of the Atlanta postoffice. Postmaster Bolling Jones has made arrangements with the hotel management for the installation of the office in the Luckie street entrance corner of the big reception room on the ground floor. Government clerks will be in charge, of course, at all hours of the day. The Shriners will receive all their mail there.

Marietta Will Help.

Noble A. B. Adams, chairman of the automobile committee, was notified Friday that the nobles of Woodruff will join the Marietta caravan of automobiles very early Tuesday morning, to turn over their cars to the automobile committee here for use in the parades and later by the ladies. About thirty-five cars are coming from Marietta. At least two other cars from Keyesville will start with them.

Noble Adams asks that an urgent appeal be made by the papers for the loan of automobiles for Tuesday. "We will need hundreds, literally," he says. "We haven't near enough yet."

At 12 o'clock Saturday the official welcomers representing Yaarab temple will go on duty at the two railway stations, to remain at work until the last big delegation comes in shortly after daylight Tuesday morning. Noble W. A. Fuller will be in charge of the forces at the Terminal station, and Noble Lee Hazan in charge of those at the union depot. The workers have been sub-divided into squads, each in charge of a sub-chairman; and each squad will have its regular hours of duty, the squads relieving each other in turn. By this arrangement there will be welcomers on duty at every hour of the day and night. Telephone and information booths were installed at both stations Friday.

John Boyle Coming.

Potentate Adair received the following telegram from John W. Boyle, of Utica, N. Y., emeriti member of the imperial council, dispatched at Chattanooga, Tenn., "Will arrive Atlanta evening. Would like game of golf daily with some good fellow who can't play much."

Yaarab temple executive committee has issued cards entitling the Shriners to the free stenographic service provided for them at 52 Whitehall. Pryor street, the office of the Remington typewriter company, where they are required to furnish only brain and stamps," says the card.

The first visitors from cities and towns in this territory were to pour into Atlanta all afternoon and evening. Every incoming train is likely to bring more hundreds. By noon Friday strangers were in evidence everywhere in the downtown section, but the real crowds will not begin to appear before Saturday afternoon.

Mecca temple, of New York, the original temple of Potentate Adair, requested Potentate Adair recently to see if he couldn't find somebody who would serve an old-fashioned fried chicken dinner, southern style, has accepted the offer of the Ladies' Aid society of the Ponce de Leon Baptist church. Reports from the nobles of Mecca is that they are looking forward to a royal feast.

Rotaries to Entertain.

A good many Shriners are expected to rotate around the home and other headquarters of the Rotary club, on the fourth floor of the Chamber of Commerce building, during the forthcoming week.

The Rotary club, being a country-wide organization, and being celebrated for its wide-awake membership, has an unusual number of Shriners in the organization. Hubert W. Anderson, president of the Atlanta Rotary club, and Albert S. Adams, president-elect, are both Shriners, as are many other officers and members. Consequently, the local organization has made plans for keeping open house.

The headquarters takes in the entire fourth floor of the Chamber of Commerce building. It will be thrown open today. Visitors will be provided with free stenographer service, telephones, music, cigars and whatever else—well, it would surpass previous demonstrations here.

Every state in the union will be represented and many of those who took part in the suffrage demonstrations throughout the country Saturday are in Washington prepared to carry their sex's fight for the vote to congress. The marchers have come bearing petitions and resolutions addressed to their congressmen urging the passage of a constitutional amendment.

When the marchers reach the capitol they will be met by a congressional committee consisting of Senators Thomas, Bristow, Owen, Chamberlain, Poindexter, Hollis, Gallinger, Kenyon, Sutherland, Jones and Thompson; Representatives Mann, Kendall, Falconer, Stone, Rapley, Bryan of Washington, Saban, Campbell, Knowland, Kahn, Keating and Madden.

Representative Mondell, author of the resolution proposing a constitutional amendment, which has been reported to the house from the judiciary committee, today announced he would call up the measure for action on the resolution if the administration program-makers refuse to give it room elsewhere.

The suffragists have been promised ample police protection and no untoward incidents which marred the suffrage procession here on March 3, 1913, are looked for.

Wireless Travels 8,500 Miles.

San Francisco, May 8.—Officers of the Pacific Mail liner Mongolia, which is in port here from the Orient, announced yesterday that on the night of April 21, the ship's wireless operator picked up a message from Boston 8,500 miles away. This is said to eclipse all previous distance records.

Butte Shriners on War.

Washington, May 8.—(Special.)—Wearing the red fezzes of the order and gray suits that looked like they all came from the same bolt of goods, a large delegation of Butte Shriners stopped over in Washington today en route to Atlanta for the convention.

A band on the arm of each pilgrim bore the inscription, "Buffalo—1916," showing that the delegation from the shores of Lake Erie are looking ahead. They spent today visiting the two houses of congress and the other sights of Washington.

In other words, the visitors will be made to feel thoroughly at home.

The committee in charge of the preparations is headed by Fred Houser. The other members are Howard Cole, Jim Scott, Ben Lee Creye and Lee Duncan. Mr. Duncan is chairman of the committee.

SUFFRAGISTS TO MARCH ON CONGRESSMEN TODAY

Will Demand Passage of Constitutional Amendment Enfranchising Women.

Washington, May 8.—With but a day remaining before they will march on congress and demand the passage of a constitutional amendment enfranchising women, women suffragists from all over the United States were prepared today for their final charge. Everything is in readiness for the demonstration and only the word from the chief marshal, Mrs. George Odell, is awaited to set the procession in motion.

The pageant, it was said today, will surpass previous demonstrations here.

Every state in the union will be represented and many of those who took part in the suffrage demonstrations throughout the country Saturday are in Washington prepared to carry their sex's fight for the vote to congress. The marchers have come bearing petitions and resolutions addressed to their congressmen urging the passage of a constitutional amendment.

When the marchers reach the capitol they will be met by a congressional committee consisting of Senators Thomas, Bristow, Owen, Chamberlain, Poindexter, Hollis, Gallinger, Kenyon, Sutherland, Jones and Thompson; Representatives Mann, Kendall, Falconer, Stone, Rapley, Bryan of Washington, Saban, Campbell, Knowland, Kahn, Keating and Madden.

Representative Mondell, author of the resolution proposing a constitutional amendment, which has been reported to the house from the judiciary committee, today announced he would call up the measure for action on the resolution if the administration program-makers refuse to give it room elsewhere.

The suffragists have been promised ample police protection and no untoward incidents which marred the suffrage procession here on March 3, 1913, are looked for.

Wireless Travels 8,500 Miles.

San Francisco, May 8.—Officers of the Pacific Mail liner Mongolia, which is in port here from the Orient, announced yesterday that on the night of April 21, the ship's wireless operator picked up a message from Boston 8,500 miles away. This is said to eclipse all previous distance records.

CONGRESS PLANNING EARLY ADJOURNMENT

House Leaders Issue Formal Call for Democratic Caucus Tuesday Night.

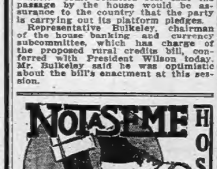

Washington, May 8.—Plans for an early adjournment of congress took more definite shape today when the senate advanced its meeting hour from noon to 11 o'clock and house leaders issued the formal call for a democratic caucus Tuesday night. A "legislative program" will be laid out at the caucus, which will include adjournment as a leading feature. Leaders now believe the hope of adjournment July 10 may be realized. The house caucus Tuesday will consider a resolution announcing it to be the sense of the party that the anti-trust, interstate trade commission and rural credits measures and the appropriation bills should be passed and the house then adjourn.

The senate changed its meeting hour today to hasten passage of the agricultural appropriation bill. This bill has dragged along for more than a week and several senators are anxious that it be disposed of before other appropriation bills are reported.

There was one cloud on the adjournment horizon today when talk was renewed of an attempt to reach a vote at the present session on the proposed constitutional amendment for nation-wide prohibition. There is little likelihood that the amendment will be taken up in the Tuesday caucus. Its passage requires a two-thirds vote and leaders expect the fight to be close.

No matter what the house does at this session with the prohibition resolution, the senate has its hands as full of other subjects that it is not believed it will be taken up here for the present. Senators are taking the attitude that if the house passes the anti-trust legislation and the others become so tangled up with it that there is little prospect of an agreement for months, an adjournment should be taken without anti-trust legislation passed by the senate. Some senators feel that the passage by the house would be assurance to the country that the party is carrying out its platform pledges.

Representative Bulkeley, chairman of the house banking and currency subcommittee, which has charge of the proposed rural credits bill, conferred with President Wilson today. Mr. Bulkeley said he was optimistic about the bill's enactment at this session.

Methodists Asked to Build Great University Here

Two Resolutions Introduced by Dr. DuBose Urge the Establishment of Second Vanderbilt in Atlanta.

Oklahoma City, Okla., May 8.—(Special.)—At the general conference of the Methodist Episcopal church, in session here, Dr. H. M. DuBose, of Atlanta, offered two resolutions proposing the establishment of a second Vanderbilt university from Nashville and establishing the principal educational institution of the church in Atlanta.

One resolution calls for the removal of the university from Nashville, or rather the theological department, and the withdrawal of future support of the church from the other departments, and the other resolution suggests the establishment of a university in Atlanta. Both resolutions were referred to a special committee on the Vanderbilt question. The committee, appointed at the session held Thursday, has organized, but, because of the flood of matters touching on Vanderbilt, none of the questions submitted was discussed.

Change Strongly Favored.

Evidently there is a strong sentiment favoring the changing of the location of Vanderbilt. When Dr. DuBose was questioned, he stated that it was his belief that the general conference will appoint a special committee to consider the location of the university. It is reported that the movement is looked on with favor among the delegates. If the plan is adopted, the conference will consider definite offers which will be made to the conference. This committee would have power to provide for the removal of the church interests in the university and the establishment of a new university.

Dr. DuBose strongly favors the creation of a commission. He says that it will be to the interests of Georgia and Atlanta. He made the statement, according to report, that the resolutions he offered looked also to the building up of Emory college.

The recent decision of the Tennessee supreme court, which was favorable to the trustees of Vanderbilt, is the cause of the present discussion.

Service Opened With Prayer.

In view of the many great problems before the church, and realizing their dependence for wisdom and strength upon God, the third day's session of the general conference of the Methodist Episcopal church, south, was opened with a service of prayer, in accordance with a resolution adopted the previous day.

Bishop Hendrix presided, and the Rev. J. C. Orr, a noted singer of the Holston conference of Tennessee, led the singing. After Bishop Hendrix read the forty-first psalm, Bishop Wilson made a brief talk on "Prayer."

"There is urgent need that we should lay emphasis on prayer in this our time," he said. "Our homes are mostly prayerless. The customs of our fathers, who prayed night and morning, has passed away, through the urgent demands of business and the clamor after society. The victory of the church over the world can only be assured through prayer. None of us are sufficient; it requires a greater wisdom than we have."

The prayer and devotional service was closed by a brief talk by Thomas B. King, of Memphis. He declared the laymen had brought their religion with them to the conference, and would do all possible to help the clerical members dispatch the work in the proper spirit.

Bishop Candler Presides.

When Bishop Warren A. Candler, who presided over the day's session, called the roll of conferences, additional memorials on the change of the name of the church came up from various conferences. Among the names suggested were "The Methodist Episcopal Church in America," "The American Methodist Church" and "The Episcopal Methodist Church."

Dr. H. M. DuBose, of Atlanta, fraternal messenger of the general conference to the Methodist Church of Canada, presented a report of his visit to the Canadian conference at Victoria, in 1912.

The only reference to the Vanderbilt case at today's session was when a number of memorials sent up from annual conferences were received and referred to committee. The Vanderbilt special committee has organized by electing H. D. Lineaugh president and Dr. Frank Thomas secretary.

A roll of standing committees was called for reports on papers heretofore referred to them. A large number were presented and placed on the calendar for action by the conference.

When the report of the committee providing for a joint commission to advise with the colored Methodist church came up, Dr. James Cannon offered a substitute, and the report was made a special order for tomorrow morning.

The missionary department is emphasized on the floor of the conference by the presence of Bishop W. R. Lambuth, who has just returned from Africa, where he recently established three missionaries and their wives in the Congo field, 1,600 miles inland. Missionaries in Mexico, China, Japan, Soochow, China; S. A. Stewart, Hiroshima, Japan; J. L. Gerdine, Seoul, Korea; J. M. Terrell, South Brazil; R. C. Elliott, J. A. Phillips and D. W. Carter, of Mexico, and E. E. Clements, of Cuba.

Proposals made on the floor of the convention, suggesting changes in the phraseology of a resolution which urged co-operation with the Colored Methodist Episcopal church in America, caused spirited debate today in the quadrennial conference of the Methodist Episcopal church, south. Discussion of the proposed amendments had not been concluded when the conference adjourned for the day.

Bishop E. R. Hendrix, of Kansas City, presided during the devotional session. Among those who led in prayer were Rev. G. Carter, a missionary from Mexico; Rev. J. W. Cline, president of the Methodist university at Soo Chow, China; Rev. William Bradfield, fraternal delegate from the British Wesleyan church, and Bishop W. A. Candler. Mr. Carter prayed that a solution of the present difference between Mexico and the United States will be found without recourse to war.

Bishop Candler offered a special prayer for Baron Yun, a member of the Methodist Episcopal church in Korea, now confined in a Korean prison, charged with conspiracy against the life of the governor general of Korea.

Several resolutions presented today urged the church to adopt resolutions against the use of tobacco. One was offered in behalf of the Woman's Christian Temperance union of Alabama.

MISS LAW, OF ATLANTA, WINS JUDGMENT ABROAD

$3,000 Annually From Breach of Promise Suit Against British Army Aviator.

London, May 8.—As a sequel to a breach of promise of marriage, judgment was given today to Miss Derryle Elizabeth Law, of Atlanta, Ga., in a suit brought to enforce payment of a settlement of $3,000 a year made in her favor by the late Captain Patrick Hamilton.

Captain Hamilton, a British army aviator, was killed while flying at Stevenage, England, on November 4, 1912.

Miss Law is the only daughter of Mrs. N. Latham Law, of Atlanta. She became acquainted with Captain Hamilton on Long Island and shortly afterward, it was alleged, accepted his proposal of marriage. Counsel for Miss Law, in his opening speech, declared that the family of Captain Hamilton, when it discovered that Miss Law was not an heiress, persuaded the captain to break the engagement. Miss Law thereupon brought suit for breach of promise, and the captain on her agreeing to postpone the wedding until the following October, settled $3,000 on her for life. The suit, however, was continued for trial.

Soon after the captain's death the present suit was brought against his executors in the chancery court.

A letter produced during the hearing was sent by Captain Hamilton's mother to Mrs. Law and suggested that the sole object of Miss Law was to obtain money.

Miss Law on the witness stand said that Captain Hamilton had told her after the telephone that he wished to break off the engagement. He gave as a reason that they would have only a bucketful of debts to live on. This was the last she heard from him, and she asserted that she had never released him from his engagement.

Well Known in Atlanta.

Miss Derryle Elizabeth Law, the Atlanta girl mentioned in London press dispatches as having secured through the courts a settlement of $2,000 a year from the executors of the estate of the late Captain Patrick Hamilton, the English army aviator, is prominently connected in Atlanta. Her uncle, Thomas Latham, lives in Inman Park, and her grandmother, Mrs. Frank McCaugher, resides on Ponce de Leon avenue.

Relatives, however, were reluctant when approached on the subject of Miss Law's engagement and the subsequent estrangement, but her friends recall the invitations and the announcements of the wedding of Miss Law and Captain Hamilton, which was to take place about three years ago.

For a time Miss Law and her mother lived at the Kimball House. They entertained frequently. At the time of her departure for New York, where she subsequently met Captain Hamilton, Miss Law was only 19 years old, and was exceedingly pretty and accomplished.

Friends here say that after Miss Law's return from New York the announcement was made, or rather Mrs. Law, when asked about her daughter's engagement, said that it had been broken off.

According to information gathered among friends here, Miss Law and her mother are now in Europe, supposedly waiting to hear the results of the trial. Mrs. Law is understood to have inherited a comfortable sum from her husband at his death.

Report says that Miss Law met Captain Hamilton in New York. With her mother, she lived at a fashionable boarding house in Central Park, and Captain Hamilton was in New York at the time. He was making flights at Long Island in the spring of 1911.

Dainty chiffons in light blue, mais and pink, made attractive with laces, ribbons and little French flowers.

For the young folks who will dance, who will enter into the festivities of next week, this is a very opportune sale.

An early choice will be best.

DEMAND OF TILLMAN FOR PROBE GRANTED

Washington, May 8.—The senate today passed Senator Tillman's resolution authorizing the naval affairs committee to investigate the alleged discrimination of railroads and the "coal trust" against ports on the Atlantic seaboard south of Cape Hatteras. Witnesses from the Pennsylvania, Baltimore and Ohio, Norfolk and Western, Chesapeake and Ohio, and Southern railway systems and from some of the big coal companies which ship to the territory will be summoned before the committee.

GIRL GIVES UP LIFE TRYING TO SAVE CHUM

Fort Smith, Ark., May 8.—Frances Spankes, 16 years old, met death today while trying to save Mary Aberlee, her 9-year-old companion. The girls were walking over a trestle near Clarksville, when they heard the approaching train. Both ran. Frances cleared the trestle, but when she looked around Mary was sitting on the structure, her foot caught between the ties. Frances ran back and as she bent to extricate the imprisoned foot the locomotive struck both of the girls and hurled them from the trestle. Frances was killed and Mary suffered severe injuries.

CUT GOOD ROADS CASH DOWN TO $5,000,000

Washington, May 8.—A bill appropriating $5,000,000 for the construction of good roads probably will be agreed upon by a sub-committee of the senate postoffice committee. This measure is a substitute for the house bill authorizing an appropriation of $25,000,000 for this purpose. The present plan is to hold a meeting of the sub-committee this week.

COLORED METHODISTS MEETING IN ST. LOUIS

St. Louis, May 8.—Seven bishops and more than 500 delegates were in attendance at the general conference of the Colored Methodist Episcopal church which was opened here last night.

The quadrennial address of the bishops, read by Bishop Williams, urged a closer affiliation with the Methodist Episcopal church, south, from which the negro Methodists, now said to number 300,000, were set aside in 1870.

TO CONGRESS—QUIT!

House leaders have called a democratic caucus for next week to debate the chances of adjourning congress by July 10.

In the name of business, in the name of prosperity and for the good of the democratic party, The Constitution wishes the movement a fervent "God speed!"

The United States suffers from a chronic case of legislative indigestion.

Ill-assorted, freak, good, bad and indifferent laws have been stuffed into the country's craw by congress and the legislatures of more than two-score states.

The wonder is that business can hold up its head, much less crawl along on all-fours as it is doing now.

Since the first year of the Taft administration, congress has been almost continuously in session.

It has kept business and prosperity on the grill.

The legislatures have contributed their quota to the process.

Suspense hangs over the head of business, like the sword of Damocles.

There has even been, in the senate, a mad revival of the talk of putting through radical legislation against corporations. Not content with the two capital, and needed, operations on the tariff and currency, the legislative quacks meditate another operation before the patient has had time fully to recover from the anesthetic.

OUT UPON THIS ILL-ADVISED PROGRAM!

If it is kept up until the approach of fall, the democratic party is coming in for a wigging at the polls.

The best, the safest service congress can render the country and democracy is to get through and go home!

Empower the president to act in the Mexican situation.

Pass the canal toll repeal bill!

Then stand pat before the voters on the achievements already recorded!

THE PAN-AMERICANS.

At Niagara Falls, Canada, on May 18, the diplomatic representatives of the Argentine Republic, Brazil and Chile will begin their task of attempting to adjust by mediation the differences between the United States and Huerta, with a probability that ultimately Carranza and the constitutionalists will enter, thus embracing the entire Mexican question.

It has been the very practical dream of hard-headed business men and statesmen in this country to create such a sense of good feeling between the different nations of this hemisphere as to justify to the world the title—Pan-America.

By that is not meant anything resembling an organic or political union. Such a development is out of the question, for an indefinite reach into the future at any rate. But it is possible to create a strong moral, ethical and commercial bond of sympathy which will eliminate past jealousies on part of Latin America, promote mutual understanding and strengthen our mutual trade relations.

The citizen of the United States who wonders why we have been so slow in forming an intelligent entente with the other nations on this hemisphere, particularly those to the south of us, overlooks the enormity of the task. Latin-America is a domain vastly different from what may broadly be called English America, or Canada, with its underlying French influences.

The Latin-American has a civilization all his own. He does not think, feel or act as does the resident of the United States or Canada. Those Atlantans who heard the recent address of Bishop Kinsolving, the Episcopal bishop of Brazil, will at once recognize the radical contrasts. Agriculture is going forward in Latin-America, but slowly. Mining and forestry and lumbering are important industries, but yet in their infancy. There is no broad industrial system anywhere in Latin-America. The countries in South America are more advanced and infinitely freer from the germ of revolution than those in Central America. But even with these advantages there is a great gulf between the general intellectual status of America, with its myriad education and business opportunities, and South and Central America.

All this, preliminary to the statement that the exaltation of Latin-American influence in the role of mediators for this country is bound to give the Pan-American movement a material impetus. Whether mediation is or is not successful, it will be productive of good reaching far into the future.

JUST "SNIPERS."

The Constitution is in receipt of one or two communications protesting its classification of the Greater Grady bond opponents as "snipers."

Of course these communications are not signed—all anonymous! Same old sniping!

How significant it is that the bond opponents shun the open!

If they came into broad daylight, proud of their cause and not ashamed of it, The Constitution would be glad to answer them. As it is—

"Snipers"—that's all!

KEELEY'S NEW VENTURE.

Profound changes in the newspaper world of Chicago, second largest city in the country, are of significance to all the United States. From this point of view the acquisition of The Record-Herald and The Inter Ocean, of Chicago, and their merging, by James Keeley, foreshadows a new virility in the Chicago newspaper field and in Chicago itself.

Up to this time and for several years Keeley has been the general manager of The Chicago Tribune, which he now leaves. But he has been a great deal more than the title implies. Keeley, in the minds of the newspaper profession, is synonymous of The Chicago Tribune, and The Chicago Tribune is indicative of the best, the most aggressive and effective types of American journalism. His is the original James Gordon Bennett style of journalism on a modernized and more galvanic scale. Knowing the game from reporter to editorial room, he has infused his vigorous personality through the length and breadth of this great paper. Himself a prodigious worker and indomitably resourceful, his prime rule has been to "get the news and get it first." He presented it with vigor, yet with effectiveness. Some people have complained that he is more a machine than a man. At least, he is a machine every cog and gear of which is inspired with intelligence and whirling to a definitely constructive end.

Keeley has done a great deal for Chicago. He has done much for the country, for the craft the country over has been influenced by his methods, which are pungent without being "yellow" and accurate without being dull. It is a safe assumption that with his remarkable personality thrown behind these two papers, hereafter to be published under the name of The Record-Herald, Chicago and the country will be the gainers. The Constitution extends its good wishes to Mr. Keeley and its congratulations to the people of the wide territory now to feel the impulse of his influence.

O'SHAUGHNESSY AND LIND.

Our imbroglio with Mexico has done us at least one substantial service. It has developed the fact that there are in the American diplomatic corps two men of rare and impeccable discretion, Nelson O'Shaughnessy and John Lind.

The one at the heart of things in the Mexican capital and the other at Vera Cruz have served their country with signal efficiency. Above all, they have done so with unflagging reticence. They are in a class by themselves.

A revealing glance was secured at O'Shaughnessy in his fifteen-minute stop in Atlanta last week.

The man was travel-worn, exhausted, frayed out from tension of months' duration. It was natural to assume he was bubbling with resentment, bursting with opinions.

The trained reporters of the town were loosened on him. Yet they pried out not one leading bit of information, despite their most ingenious questionings.

O'Shaughnessy left them as ignorant as when he found them. But he left them with a good taste in their mouths, a fine impression of breezy, enduring, courageous American manliness.

For he told them frankly he couldn't and wouldn't talk about his experiences in Mexico, where they touched his diplomatic mission. Anything, everything else, he talked about with engaging freshness and candor. Once the interviewers got on the danger zone, he shut them off with a smile and joke, that disarmed offense and left them humorously baffled.

These two men are, we hope, precursors of new types in our foreign service. Not stiff, not taking themselves too seriously, reserved, yet sociable, they represent the great genius of this country.

May the O'Shaughnessys and the Linds multiply in America without regard to the speed limit. We can't have too many of them.

Trouble in the Home Camp.

"The mere talk of war makes more or less trouble at home," says The Whitsett Courier. "For the horn colonels and generals fat outnumber the self-made ones, and all demand recognition of their rights. Then, there's a clash, and that brings the war to the home-threshold. May the trouble be over before we go to fighting among ourselves!"

We suspect that the Sweet Singer of Southwest Georgia contributed this city garden lyric to The Kansas City Star:

"He went into a hardware store,
And, when he made his exit,
I Hoe, 1 *Spade*, 1 Wheelbarrow.

"From these, the hero promptly went
Into a seed establishment,
And on these things his money spent:
1 box Bulbs, 1 lot of Shrubs, 1 package assorted Seeds.

"He has a garden under way,
And, if he's fairly lucky, they'll
He'll have about the end of May
1 Nasturtium, 1 Radish, 1 bunch of Mignonette."

And now shines the name of our old friend, Michael Hinchey, at the head of a new magazine—The Phoenix. He is remembered for his real contributions to literature in the pages of The Forum, a magazine he founded and edited for several years. Of his new venture he says:

"The Phoenix is a rebirth of Papyrus. I may bid the friendly reader note that it has the same number of letters as Papyrus. Allah send it longer years!"

The home of The Phoenix is at South Norwalk, Conn., and there is no doubt that Mr. Monahan's friends of Papyrus will rally to it.

Would Have No Autos Parked in Town's Center During Visit of Shriners

Editor Constitution: I notice the city council has suspended certain rules during the Shriners' week.

Allow me to make a suggestion, which I think will be of much more benefit than anything which has been done in that line: The prohibition of parking automobiles, buggies and carriages on Whitehall and Peachtree streets between Mitchell and Ellis during the week when the city is in such a congested condition.

CONSTITUTION THANKED FOR GRAND OPERA WORK

Editor Constitution: It is my pleasant duty to advise you that the board of directors of the Atlanta Music Festival association passed a unanimous resolution at its meeting today thanking you for the work done by you in aid of the week of opera.

Such work was immeasurable and incalculable in dollars and cents, and absolutely invaluable to our association and the success of the opera season.

It is of the character not duplicated or approached by any newspaper in any other city in the world. Hence, words can feebly express our appreciation.

Yours very sincerely,

DISTRACTING NOISES

DAILY GRIST *from the* STATE'S POLITICAL GRIND

DORSEY BOOM TAKES BIG SPURT; LETTERS FROM ALL OVER STATE

Following the publication in an afternoon paper that Hugh M. Dorsey, solicitor general of the Atlanta circuit, would be a candidate for governor, and the statement from Mr. Dorsey in The Constitution that he had not had time to consider any matter not directly connected with his official duties, the Dorsey boom, which seems to have developed spontaneously all over the state, took on fresh impetus.

Not since the famous Joe Brown ground swell of some six years ago has the name of a person, hitherto little known in state politics, been on so many lips. Many of Mr. Dorsey's admirers are divided on the subject of what office he should run for, but all of them are a unit in saying that, no matter what office he runs for they will support him.

Mr. Dorsey's mail was very heavy Friday and it was impossible for him to go through one-fourth of it. It included letters from all parts of the state. On Thursday he received eight telegrams from prominent citizens of Commerce, all urging him to make the race. Early Friday morning he was called up by long distance telephone before he had had time to get to work and assured of the support of the citizens of Cherokee.

Around the Kimball house lobby, where politicals foregather, there was little talk of any candidate other than Dorsey. Friendly bets of hats and suits of clothes have already been made that he will run for governor and be elected.

In the meantime, Mr. Dorsey is not letting the sudden boom disturb him in the least. He has two weeks of the hardest kind of work before him—work that requires every moment of his time, and it is doubtful if he will have leisure to consider politics.

Speaking of Mr. Dorsey's capacity for work, a well-known attorney, who has had a wide experience, said:

"I never knew a man in all my career who has such a capacity for detail as Hugh Dorsey. I never knew a harder worker or one who has held up better under a strain which would have killed stronger men. During the past four months he has done more legal work than any lawyer I know of ever did in the same length of time."

Another man who has traveled pretty well all over the state said:

"I don't care where you go you will hear the name of Hugh Dorsey mentioned, and coupled with it will be the statement that the speaker is for him no matter what he wants to run for."

Since Mr. Dorsey's name has been mentioned so prominently there has been little talk of several other prospective candidates who for a time seemed "almost persuaded." It is more than probable that, pending some declaration on his part, they will hold off for ten days or two weeks.

LITTLE JOE BROWN'S ATTITUDE STILL CAUSES SPECULATION

With Hugh Dorsey attending strictly to his knitting and former Governor Joseph M. Brown busily engaged in writing cards on labor—the subject which he says is of far more interest to him just now than state politics—the public has two conspicuous figures to figure to figure by, or that the plastering might fall down and kill all of them, and no one would then have more trouble than she could bear.

"Poor Georgia! I am sorry for the good old state of mine. I think I see a set of fools Chairman Harris pictures in the next convention. I propose to take a little more favorable view of the case and shall rather believe that the convention will be composed of good, honest, sensible democrats, who love the state and its interests, as well as either the chairman or myself."

JUDGE F. M. LONGLEY CANDIDATE FOR CONGRESS; OPPONENT OF NEXT SENATE

Along with the announcement that Judge F. M. Longley, of LaGrange, is to be a member of the next senate from the thirty-seventh district, probably Troup and Coweta, comes the statement that the judge is going to be a candidate for the presidency of the senate.

Judge Longley is now in Texas visiting two sons who live there, but expects to return soon.

The judge has really been put into the contest for the senate by his friends. He did not wish to enter the race, but the pressure from every part of his district was so strong on him as to force his consent. His election is considered certain, his friends are going to push his name very vigorously for the presidency for the next senate.

What About Fair Street?

Editor Constitution: Fair street, the longest, one of the oldest and most important streets in Fulton and DeKalb counties, has been worked out and put in good shape by the Fulton county chaingang up to the city line at Whitsford avenue. From there to East Lake it degenerates into the worst kind of a country road, which, in the winter and spring, becomes practically impassable.

Its condition is somewhat better just at present, as some pre and pro election work has been done on it, the object of which is clearly palpable.

What we Fair street people want is to have work of the same kind and quality as that done by the county of Fulton carried on to Whitsford avenue out to East Lake or further if possible. Parties with property abutting the street on each side have already given ten feet and are willing to give more if necessary to make the street fifty or more feet wide and raise it to the dignity of at least a macadam highway. The attention of the power that is has been frequently called to the deplorable condition in which it has lain for many years; petitions have repeatedly been sent in asking for relief, and letters written to call attention to the dangerous condition of bridges or the entire absence of them, where needed, to all of which no attention whatever has been paid. Citizens of Fair street, how long do you propose to stand for this outrageous neglect of duty imposed upon your rights and privileges? There is a remedy and it is coming very soon. You know what it is!

HUTCHENS GIVES HIS REASONS FOR OPPOSING CHANGE IN RULES

Rome, Ga., May 2.—(Special.)—Hon. C. B. Hutchens, announced as a candidate for the United States senate short term, has written a communication for the press in which his reasons why, as a member of the state committee, he opposes the proposal of State Chairman William J. Harris to reconvene the committee for the purpose of changing the rules of the state primary.

Among other things, Mr. Hutchens states that prior to the meeting of the state committee he received a letter asking him to meet Chairman Harris at the Ansley hotel the night before the meeting of the state committee, which letter contained the injunction. "Please do not tell anyone that I have written you." He says that he supposed Mr. Harris wanted to see him about something and never thought that he had written similar letters to other members of the committee calling a caucus.

He says when the meeting assembled Major Tyler, Governor Slaton's executive secretary, presented a draft of rules to govern the primary, in which provision was made for the adoption of the county unit plan in nominating candidates for the senate and providing that the county unit plan should be adopted for the nomination of governor and statehouse officers.

"This," says Mr. Hutchens, "was favored at that time by Mr. Harris and others," but was finally defeated by a vote of 13 to 1. Mr. Hutchens states that he openly opposed the plan, saying the effect if the committee once differed with him he would fight it in the next day before the whole committee.

The next day the committee met and the county unit by unanimous vote was made to apply only as to the senatorship and the governorship.

Mr. Hutchens concludes as follows:

"In the meeting I did not see the necessity for Mr. Harris' caucus, except perhaps it might have been better for those opposing the democratic platform in their effort to destroy the democratic rights, and the integrity of the election system of the state to try out their strength in a secret caucus rather than before the public in a meeting of the committee, and I also think Mr. Harris' statement that the county unit plan is right, in the face of the fact that he and his associates tried to defeat it in this caucus, I think, in justice to the members of the committee, who differed with them, and in fairness to the public, the whole matter ought to be made known.

"I see Mr. Harris said in his letter to the press that, in considering a second call for the committee to meet, he has 'discussed the matter' with some members of the committee, and I had a similar view to me. I think the public is entitled to know what members of the committee held similar views to his, and to know also whether or not these members of the committee have asked him to call it together again.

"The chairman's position in fear that we will have a deadlock convention and that, as a result of this, some monstrosity might be nominated for governor, etc., reminds me very much of a story I heard of an old maid, who was about 58 years old, who said she would not get married under any circumstances because she feared that she might have a large family, perhaps thirty or forty children, and they might all be crippled, or that the plastering might fall down and kill all of them, and she would then have more trouble than she could bear.

"Poor Georgia! I am sorry for the good old state of mine. I think I see a set of fools Chairman Harris pictures in the next convention. I propose to take a little more favorable view of the case and shall rather believe that the convention will be composed of good, honest, sensible democrats, who love the state and its interests, as well as either the chairman or myself."

HUTCHENS GIVES HIS REASONS FOR OPPOSING CHANGE IN RULES

Rome, Ga., May 2.—(Special.)—Hon. C. B. Hutchens, announced as a candidate for

COUNTY BOARD CONTEST BEFORE THE COMMITTEE

Fulton Democratic Body Will Consider the Hightower-Turner Race.

A special meeting of the Fulton county democratic executive committee will be held at 12 o'clock today for the purpose of deciding whether or not there shall be a recount of the votes cast in the primary for T. J. Hightower, Jr., and Charles G. Turner, candidates for commissioner from the county-at-large.

According to the returns certified by the election managers, the total vote cast for Turner was 4,748 and the total for Hightower was 4,743. When the executive committee met on Thursday to declare the result of the election, Mr. Hightower, through his attorney, Walter R. Brown, asked for a recount, and because there was a difference of only six votes between the candidates the committee was in favor of granting the request. Attorney Carter, who appeared in the interest of Mr. Turner, agreed to the recount, but afterwards it developed that Mr. Turner had not authorized his attorney to make such an agreement.

Some members of the committee take the position that because of the narrow margin of votes between the candidates a recount should be granted, but other members say that to recount the votes would be setting a bad precedent. Meanwhile, there has been no official declaration by the committee. Dr. W. L. Gilbert, one of the candidates for commissioner from the county-at-large, although he led the ticket by more than 400 votes, has agreed to the recount in the event the executive committee takes such action.

BENJ. M. HALL, JR., JOINS RECLAMATION SERVICE

Benjamin M. Hall, Jr., left yesterday for Provo, Utah, where he will be engaged by regular appointment as junior engineer in United States reclamation service, assigned at present on the Strawberry valley project. Mr. Hall is one of the Georgia Tech graduates (class of 1912), whose honor course in school gave promise of a career worth while in the engineering world. He spent seven months last year as assistant hydraulic engineer of the Everglades engineering commission, in preparing report on the Florida Everglades. The appointment was offered him by the chief engineer of reclamation service without any special application, his standing under a former civil service examination placing him high among the eligible men for this service. He retains his position as a member of the engineering firm of Hall Bros., of which his father, Ben M. Hall, is the senior member.

Charged with engaging in a duel with a knife and a pistol, two brothers-in-law, M. C. Garrett, colored, 1 Kennedy street, and J. F. Dobbs, of No. 29 Kennedy street, were bound over by Judge Hannah Friday for appeal, each with intent to murder, under bonds of $500 and $100, respectively.

Garrett and Dobbs, both street car men in the employ of the Georgia Railway and Power company, several nights ago fought over a debt of $15, which Dobbs claimed Garrett owed him, and would not pay.

Dobbs was shot underneath the right arm, and in the tussle Dobbs stated that he wrenched the pistol from his brother-in-law and struck him over the head with it.

"Shrine Park" Is Dedicated By Mayor James Woodward; Leading Shriners Present

"Shrine Park," in which the Southern railway has provided for parking its Pullman cars during Shrine week and giving their occupants practically every convenience to be had in a modern hotel, was officially dedicated last night at 8 o'clock, when, following a short address by Mayor Woodward, the Shrine pennant and the national emblem were flung to the breeze. Several hundred Atlantans, both man and woman, were out to see "Shrine Park" lighted up for the first time and all seemed themselves as surprised and delighted with the completeness of the arrangements.

In his address Mayor Woodward called attention to the fact that "Shrine Park" constitutes the largest and most complete arrangement for parking cars ever provided anywhere, and said that the Southern railway deserves great credit for the work it has done in helping Atlanta make provision for its thousands of guests.

Leading Shriners Present.

Potentate Forrest Adair of Yaarab temple had charge of the ceremonies and other prominent Shriners on hand included Joseph C. Greenfield, George R. Gerard, W. C. Stamps, "D" Kendall and Lewis Gregg. Assistant General Passenger Agent J. C. Beam, Superintendent E. E. Norris of the Atlanta division, and Superintendent of Terminals W. W. Wallace, the men who have charge of the creation of "Shrine Park," were on hand to welcome the visitors on behalf of the Southern railway.

By Monday night "Shrine Park" will literally be a city on wheels, as the cars to be parked here will furnish homes to several thousand of Atlanta's guests. Some of the temples will not only sleep in their cars, but have arranged to have their meals served in dining cars which will be parked there with them.

The arrangements made at "Shrine Park" take care of every feature of the convenience of those who will make it their home. Cars will be parked on tracks between which paved walkways have been laid and pipes and wires have been placed, so that cars can be supplied with water and lighted by either oil or electricity without being moved. Complete sanitary arrangements have also been made and cars will be regularly supplied with ice. Along each of the walkways electric lights have been installed and the walkways have been numbered, and cards erected so that occupants of cars will have no trouble in finding them.

Information for All.

At the entrance to the park a car has been fitted up as an office and information bureau. Representatives of the Southern railway will be on duty here at all hours and telegraph and long distance telephone offices have been fitted up for the convenience of visiting Shriners. Local phones of both companies have also been provided, the service of which will be without charge. Two cars have also been fitted up as bath houses, each having six shower baths and dressing rooms.

Twenty-five special officers will guard the yards.

Feeling that the Southern railway has provided at "Shrine Park" something of which Atlanta has cause to be proud, the local officials are anxious for Atlanta people to see it and cordially invite all to go out and look it over. While the park presents a good appearance in the day, it is particularly attractive at night, and will be lighted every night until the close of Shrine week. "Shrine Park" is at the intersection of Marietta street and North avenue, and can be easily reached either by automobile or street car.

PROPRIETOR OF HOTEL AND CLERK BOUND OVER

J. C. Gore and William Hunt Charged With Assaulting Confederate Veteran.

J. C. Gore, proprietor of the Forsyth hotel, at 58½ South Forsyth street, and the hotel clerk, William Hunt, were both bound over by Judge Broyles Friday afternoon under bond of $100 each, on the charge of assaulting G. A. Buchanan, an aged confederate veteran, who fought in the Battle of Atlanta. Buchanan was stopping here in Atlanta Thursday, on his way to the reunion at Jacksonville.

Hunt was also fined $75.75 for cursing the old veteran. Mack Wallace, a roomer at the hotel, who was in the lobby with him at the time of the assault, was also bound over for varying under a bond of $100.

The old veteran stated that he was on his way to the reunion, and expected this to be his last. He was beaten over the head with a screw-driver and the handle of a billiard cue, receiving several severe cuts.

He claimed that his assailants came into his room to drink some of his liquor, and that while entertaining them they assaulted him.

Hunt claims that he was erroneously reported as the name of the hotel in which the trouble took place in Friday morning's paper. This mistake was due to an error in police records, which gave the name of the hotel as the Pryor hotel.

ABBOTT THANKS THOSE WHO SUPPORTED HIM

William H. Abbott, who came within 176 votes of being elected tax receiver, writes the following letter of thanks to his friends and supporters:

"To the Citizens of Fulton County: I wish to extend my heart-felt thanks to the large number of people who so generously and loyally supported me in my race for tax receiver. I have only the kindliest feelings for the candidates opposing me on May 6, 1914, and their supporters.

"My race was conducted on a high plane and without bitterness toward anyone. Though defeated by a small plurality of 176 votes, I cheerfully accept the verdict.

"I shall continue, as in the past, to give my best efforts in serving the people of Fulton county.

"WM. H. ABBOTT."

A. C. SHULER TO PREACH ON ATLANTA HERETICS

"Atlanta is overrun with heretics and false doctrines. The devil is on his job day and night in this city offering all sorts of evil devices to draw men away from the truth of the Bible, and the good old-fashioned way of life eternal."

Thus spoke Pastor Shuler in announcing his special service in his church Sunday night at the East Side tabernacle. A large chorus choir will sing at both hours Sunday.

WILL ARREST CROOKS DURING SHRINER WEEK

Chief Beavers has planned the arrest of all notorious crooks who might be attracted to Atlanta by the great Shrine gathering next week. He has secured the services of a half dozen well-known detectives, who during next week will become a part of Atlanta's police force, and attempt to identify all crooks the minute they appear in the city.

FORMER POLICEMAN WANTS COURTS TO PROVE HE IS WHITE

Savannah, Ga., May 8.—(Special.)—Declaring that, while known under the name of Albert Augustus Sheckells, it has been stated that he had negro blood, and that he is a white man, and his real name is Albert Leo Williams, the man who heretofore has been known as Sheckells today filed in the superior court a petition to be allowed to change his name.

The petition sets forth some interesting facts, and tells of the humiliation suffered by Sheckells, or Williams, through the belief that his blood was tainted. On December 26, 1908, states the petition, Sheckells married Miss Annie McKale. It was told to Mrs. Sheckells that her husband had negro blood. She threatened to bring divorce proceedings, and left him. He secured proofs and demonstrated to the satisfaction of his wife that he was white, and they became reconciled. Since that time two children have resulted from the union.

Some time ago Sheckells secured a position as policeman, and walked his beat one night. The next day he was discharged, the reason being given that some of the men claimed he was a negro blood, and they refused to remain on the force with him.

He accepted the discharge, but, on second thought, demanded an investigation. He declares that it has been impossible for him to get an investigation so he could prove that he is a white man.

No Fatted Calf Killed.

It's not surprising that when Representative Hobson returned to the house fellow-members demanded to be introduced to the stranger.—Pittsburg Gazette-Times.

A., B. & A. ROAD ASKS FOR A HIGHER RATE

The Atlanta, Birmingham and Atlantic railroad has filed a petition with the railroad commission asking permission to put in and use rates at the rate of 2½ cents per mile instead of 2 cents per mile. The date of the hearing has been set for May 26.

The reason set forth in the petition of the railroad is the fact that the company is in the hands of a receiver, that it has been losing money and cannot afford to sell passengers at the rate of 2 cents per mile, as ordered by the commission.

DR. DANIEL TO PREACH AT ALAMO NO. 2 SUNDAY

Dr. Charles W. Daniel, pastor of the First Baptist church, will speak at the Alamo theater No. 2 at 87 Whitehall street Sunday afternoon at 3:30, from the subject, "The Man Not Far from the Kingdom." Miss Mildred Parks, soprano singer of the Second Baptist church, will sing "Almost Persuaded." The Baptist Young People's unions of the city are conducting these Sunday afternoon theater meetings and great throngs are attending them.

Still Seeking Sanity

"I am come that they might have life and that they might have it more abundantly."
—John 10:10

In the May McClure's, Connie Mack, manager for years, and today, of the Athletics, baseball champions of the world, says:

"Moderate drinking gets a baseball player in the end just as sure as boozing—

"I wouldn't bother with a youngster who drinks. That's my fixed policy—

"I have proved up to my own satisfaction this business of clean living and quick thinking. It's the stuff champions are made of."

Of forbidding beer and wine on board our vessels, Current Opinion says:

"Secretary Daniels issued the order. President Wilson approved it. Rear Admiral Braisted, Surgeon-General of the Navy, recommended it. Colonel L. M. Maus, Chief Surgeon of the United States Army, Eastern Division, seems to have instigated it.

"Colonel Maus says:

"'Lord Kitchener allowed his men no spirits in the Soudan campaign; Lord Roberts was equally opposed to its use in South Africa, and Sir Frederick Treves, who served at Ladysmith, said that the drinking men fell out and dropped as regularly as if they were labeled with the big letter D on their backs.'

"'One of Lord Wolseley's experiments, in which his troops were divided into three marching squads. The first had a daily ration of whisky, and at the start it marched gaily ahead. The second had a ration of beer, and it soon overtook and passed the whisky squad. The third squad marched on water. It maintained an even, steady gait, passed both the other squads and reached its destination long before the others.'"

"In the maneuvers of the Connecticut Militia last summer Colonel Maus notes similar results.

"The majority of the young men who fell out of line in the hot weather were declared inefficient by the medical officers because of the drinking of beer."

"Moderate drinking gets a player."

"Men who fell out of line."

RECALL THEM IN YOUR LIFE! Possibly your brother—certainly some relative and more than one friend known personally to you—once good fellows all, but now dead or out of the game, fallen out of God's battle line because of drink. And back of each of these are scarred hearts and the tears of mothers and wives.

Well may drinkers sing: "Wine, woman and song."

For without the drug of alcohol there could be neither laughter nor song while pitiless wrong is being wrought upon womankind.

And yet, when a great body of men, Masons all, whose very creed is help for the helpless and the defense of women, the fatherhood of God and the brotherhood of man—when such as these come to the capital of Georgia, whose laws forbid the sale of liquor, law breakers are able to go to our City Council and get a special license to ply their traffic into the small hours of morning.

Atlanta will remember.

AND HER CHURCHES SEND WORD TO THE WORLD THAT THIS ACTION, THIS AFFRONT TO MASONRY DOES NOT SPEAK THE WILL OF OUR CITY, BUT ONLY OF THE FEW WHOSE DAY IS RAPIDLY WANING. A MINORITY OF JERUSALEM SHRIEKED AGAINST THE CHRIST: "HE HATH A DEVIL AND IS CRAZY," WHEN HE SAID:

"I AM COME THAT THEY MIGHT HAVE LIFE, AND THAT THEY MIGHT HAVE IT MORE ABUNDANTLY."

But He has conquered.

Sanity? You know—

The Cross, sacrifice of self for the salvation and happiness of others, is the summit of wisdom.

Christ calls to the broader, braver, better life of joy for all, as opposed to the narrow, self-centered existence that seeks sensual pleasure for the few regardless of the agony and suffering resulting to the many.

And you—you will come with your Lord.

The orchestra added to the gayety and furnished music for the May-pole and folk dances.

The seniors were the May-pole dancers and made a lovely picture as they held the gay ribbons of the many-colored pole.

The folk dancers in their peasant costumes were much admired, the dancing adding much pleasure to the afternoon.

QUEEN MARY A PATRON OF COUNCIL OF WOMEN

Rome, May 8.—Queen Mary of England has consented to become a patron of the International Council of Women, according to an announcement made today by Mrs. Creighton, one of the British delegates to the International Council of Women in session here. Mrs. Creighton added that the English council was in favor of women suffrage but not of militancy, which was advocated by only an insignificant minority of English women.

Lady Elizabeth Richards, of Washington, was the bearer of greetings from the Daughters of the Revolution, the Daughters of 1812, and from the Federation of Women's Clubs of the District of Columbia. FAMOUS PLAY ON FILM TO ENTERTAIN SHRINERS

Berlin has sent to America the great Vitascope production of "The Blue Mouse" after more than 200 exhibitions in that famous German city, and Jake Wells is sending the photo-play novelty to Atlanta to be exhibited from noon until midnight daily during Shrine week. And that isn't all Mr. Wells has done. He has dispatched skilled scenic artists and master mechanics to build a reproduction of the famous Herpel and Strand stage arrangements for the production of pictures. This is going to be a revelation to local theater-goers and a treat for the visitors.

Potentate Robert D. Williams, of the Mecca temple, of New York, had a hand in the arrangements that will make "The Blue Mouse" one of the feature entertainments of the Shrine week. This European novelty has created something close to a genuine sensation where it has been exhibited and in all the larger cities of Europe it has registered wonderful returns.

GEN. SICKLES IS BURIED IN ARLINGTON CEMETERY

R., and the funeral procession then moved up Fifth avenue from the generals home to St. Patrick's Cathedral, escorted by the Twelfth regiment, New York National Guard, the Old Guard, Grand Army posts and a battalion of regular troops from Governor's island.

A solemn requiem mass was celebrated at the Cathedral, Monsignor M. J. Lavelle officiating.

Late today the body was taken to Washington for interment in Arlington.

Statesboro, Ga., May 8.—(Special.)—In the county primary held here yesterday B. T. Mallard was elected sheriff over W. H. DeLoach and J. T. Jones. DeLoach ran third second.

FIFTH WARDERS HOLD INDIGNATION MEETING

Veto of Sidewalk Project Fails to Meet With Approval of Members.

Protests against the action of the aldermanic board in failing to concur in the action of the council in overriding Mayor Woodard's veto of the Echo and Franklin street sidewalk projects, were voiced at an indignation meeting of the Fifth Ward Improvement club last night.

Councilman Jesse B. Lee, who was the target of Mayor Woodward's attack in the message he sent to council, was the only representative of the ward present at the meeting. He explained that the sentiment among the members of the aldermanic board is to have the tenants of houses, rather than the property owners, petition for sidewalks.

Committee Appointed.

On his suggestion a committee, composed of A. J. Elliott, J. P. Hood, A. P. Williams, M. C. Adams, A. C. Burton, L. E. Davis and J. R. Butler, was appointed to secure the signatures of residents to a petition urging council to have the sidewalks laid.

Attention of the club was called to the condition of Bellwood avenue from Capitol square it begins to Echo street. Members complained that in rainy weather they cannot traverse the street without being forced into the part of the way, or as one member expressed it: "We have to wear bathing suits when we leave our homes."

Councilman Lee told the club that it will be necessary to condemn some property before the street can be widened or improved, but he assured the property owners that he will consult with City Attorney Hammond in view to getting the proceeding started.

The club also discussed the advisability of changing the location of the West end engine house from Marietta street to Bellwood avenue near English avenue, and will urge the board of firemasters to make the change.

Meet Again Next Friday.

Plans for the next meeting of the club, which will be held in the English Avenue school, next Friday night, were also discussed. The club will take up several important projects, and promises a lively time when the question of improving the old county schoolhouse is called up.

President J. E. Bowdin and Secretary Elliott will make arrangements for the meeting, which is expected to bring out the entire membership of the club and attract every fifth ward resident interested in the school improvement.

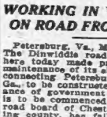

WORKING IN VIRGINIA ON ROAD FROM ATLANTA

Petersburg, Va., May 8.—(Special.)—The Dinwiddie road board in session here today made provision for the maintenance of its share of a highway connecting Petersburg and Atlanta, Ga., to be constructed under the guidance of government engineers. Work is to be commenced immediately. The road board of Chesterfield, an adjoining county, has voted to make provision for the maintenance of the highway between this city and Richmond. There is little hope of the government's project of Washington to Atlanta highway being built further south than Petersburg at the present time.

HELMET GIVES WAY TO A MILITARY CAP; POLICE ARE HAPPY

The historic helmet, which Atlanta policeman have worn from time immemorial, has been relegated to the past.

Police Chief Beavers, in line with the program for a city beautiful, recently decided to discard the old helmet, and he selected as headgear for his men a strictly modern military blue cap, which greatly improves the appearance of the Atlanta police force.

ROAD WHICH CARRIED LYNCHERS LOSES SUIT

Jackson, Miss., May 8.—A railroad that charters a train to transport a mob to lynch a person is liable to damages, according to a compromise decree handed down in the federal court here today. The court allowed Mrs. Alice Rogers a judgment of $7,000 in her suit for $50,000 against the Vicksburg, Shreveport and Pacific railroad. It was brought out in the testimony that a Monroe, La. mob chartered a train, went to Tallulah, La., and lynched Rogers, a white man, and the plaintiff's husband, after he had been acquitted of the charge of murdering Jesse Brown.

WILLIAM ROCKEFELLER IS CALLED FROM JEKYL

Washington, May 8.—William Rockefeller, George F. Baker and George McCullough Miller, of New York, all directors of the New Haven railroad, have been called to testify next Wednesday before the interstate commerce commission in its investigation of the New Haven road. Former President Mellen, of the road, will be called later to tell of transactions between the railroad and the Billard company.

It is probable that Thomas E. Byrnes, one time assistant to former President Mellen, will testify Monday. F. D. Robbins, chief counsel of the New Haven, who has been prominently identified in the testimony with the sale of the Billard company, is expected to take the stand Tuesday.

New York, May 8.—William Rockefeller, it is understood here, is at Jekyl Island, Georgia. Messrs. Baker and Miller were not at their offices today.

NEW DEVICE TO RECORD CONGRESSMEN'S VOTES

Washington, May 8.—Members of the house will have their votes recorded with an electrical device at the opening of the next session of congress. Decision to install such a device was agreed upon at a conference of Democratic house leaders. Speaker Clark, Democratic Leader Underwood, Chairman Adamson of the rules committee; Representatives Lloyd, of Missouri, and Walsh, of New Jersey, participated. The house will be asked to appropriate $10,000 to purchase the apparatus and Elliott Woods, superintendent of the capitol, will supervise its installation during the recess of congress. The device will simplify and shorten the roll calls, which now consumes considerable time.

WORKED WONDERS SPITE OF UNBELIEF

"At First I Had No Faith," Says Mother, "But Soon There Was Such a Change."

Ontario, Va.—Mrs. M. L. Anderson, of this town, gives out the following for publication: "I went to Richmond seeking relief, and tried almost everything in the medicine line, but nothing proved a cure until I tried Cardui, the woman's tonic. I had indigestion very bad, and a complication of diseases.

Although, at first, I had no faith in it, I bought a bottle of Cardui, but soon, there was such a change. I was certainly benefited. I felt so different! Then I began to take the medicine in earnest. Now, I can do my work, and I eat and sleep like a young person.

Cardui also cured my daughter of womanly troubles. I keep Cardui in the house, all the time. It is a great blessing to all women who need it."

Thousands of ladies have written like Mrs. Anderson, telling of the wonders worked by Cardui in the relief of various forms of weakness and distress, after other remedies had failed to help.

Isn't it likely that you will be helped by Cardui, this remedy which has been in constant successful use for more than half a century? Its record of years of success, in relieving troubles such as your own, is proof that it will help you, too.

Try Cardui.

MAYO THANKS FRIENDS FOR THEIR SUPPORT

The Constitution has received the following card from Captain W. M. Mayo, who was defeated in his race for sheriff by a small plurality:

"I desire to express for myself and deputies our grateful thanks to the voters who cast their ballots for me in the primary of May 6, 1914, and I beg to state that neither myself nor deputies will ever forget their steadfast loyalty to us. It is my pleasure to further say that we do not entertain the slightest ill will towards those who did not vote for me. The people have expressed their preference and we sincerely submit to their will.

"Respectfully,

HOUSEKEEPERS Must be Watchful

For great efforts are being made in this vicinity to sell baking powders of inferior class, made from alum acids and lime phosphates, both undesirable to those who require high-grade cream of tartar baking powder to make clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest strength, and care should be taken to prevent the substitution of any other brand in its place.

Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world.

BANKERS WON'T EXTEND NOTES OF GOULD ROAD

New York, May 8.—The latest attempt to readjust finances of the Gould railroad system came to naught today, when Kuhn, Loeb & Co., bankers, refuse to extend the $25,000,000 of Missouri Pacific railway three-year notes, maturing June 1. The bankers stated no reasons for their conclusion except to say that "conditions governing the affairs of the property do not warrant such an undertaking at this time."

Directors of the Missouri Pacific were holding a special session when the bankers issued their statement. They adjourned to meet tomorrow, when it is likely some arrangement will be made to meet the notes. This may be done by an issue of new notes or by an extension of a year or more, together with a cash bonus.

Missouri Pacific and other Gould issues were among the weakest features of the day's reactionary stock market.

ATTORNEY AND WIFE HELD FOR MAIL FRAUD

Boston, May 8.—Francis H. Griffin, a New York attorney, and his wife, Clara H. Griffin, were arrested at Groton today, charged with using the mails to defraud. Government officials claim that by fraudulent representations the Griffins have obtained between $200,000 and $500,000.

It is charged that Mrs. Griffin represented to many persons that she had contracts for stenographic work in connection with anti-trust prosecutions by federal and state authorities. Owing to secrecy attending such investigations it is charged that Mrs. Griffin represented she was unable to obtain from banks the funds needed to carry out the contracts. One man is said to have supplied $100,000 and two others furnished $40,000 each. Mrs. Griffin is about 42 years old; her husband is 47.

Griffin and his wife were brought here and arraigned. They were held in bail of $15,000 each for trial at New York.

SAYS FRIEDMANN "CURE" IS WITHOUT ANY VALUE

Washington, May 8.—Delegates at the closing session of the National Association For the Study and Prevention of Tuberculosis were told today by Dr. George Mannhaimer, of New York, that the Friedmann vaccine had exhibited "neither curative nor preventive powers," and that it could not be recommended. Dr. Edward Archibald, of Montreal, also outlined details of two kinds of operations that have proved effective in the treatment of certain cases.

That some tubercular patients received marked advantages if they were given more vigorous exercise than the usual one of walking, was outlined in a paper by Dr. Charles W. Mills and Herbert Mason King, of Liberty, N. Y. Their investigations indicated, however, that most consumptives do not go to a sanitarium until too late.

MISSISSIPPI APPLE MEN HONOR LOUIS B. MAGID

Mr. Magid is also first vice president of the Georgia Apple Growers' association, whose headquarters are at Cornelia, Ga.

BLOODHOUNDS BEGUILED BY BLACKS THEY CAUGHT

Columbus, Ga., May 8.—(Special.)—Two negro convicts, Bud Thomas and George Irby, one of them a lifer, escaped from the county chaingang today, making a break for liberty when the guard's back was turned and succeeded in getting to cover. The guard fired once, but the shot went wide. Bloodhounds were put on their trail, but when they caught the men the convicts patted them on their heads, tied a rope around their necks and carried them along.

The two men are still at large tonight, although a search is being made for them. This is Thomas' second escape from the gang.

J. C. BRITT MISSING, BUT WOMAN IN CASE IS PUT UNDER BOND

John C. Britt, alias John Price, a salesman of Marietta, who was arrested Thursday night in a room at the Cumberland hotel with Mrs. Rosa Knight, the carbolic acid victim, was a fugitive from justice Friday, skipping trial under a $50 bond, but Judge Nash Broyles bound the woman over for adultery and fornication under a $500 bond, and ordered the arrest of Britt.

I. C. Clark, the bondsman, is searching the city for the fugitive.

Britt secured the consent of Mrs. Knight to leave her in prison, so she says, in order to get out and arrange for her release. At the trial he failed to make an appearance, and it was discovered that he had given the police officers his wrong name.

A lady who runs a boarding house at No. 55 Nelson street testified that Britt and Mrs. Knight had been living at her house since last Saturday as man and wife. When Mrs. Knight was asked to disclose Britt's real name, she appeared not to know it.

The husband of Mrs. Knight, whom she accuses of trying to destroy her beauty by throwing the contents of a bottle of carbolic acid in her face at the Piedmont hotel on the night of March 8, will now sue his wife for divorce. Knight was recently tried for this charge of his wife, and the case against him was dismissed.

"This is nothing but a piece of spite work," said Mrs. Knight, "on the part of my husband. He has been trying to get me in trouble simply to get revenge on me for having him jailed for forty-one days, but my time will come, and he will suffer for this."

Knight told Judge Broyles that he was afraid of his wife, declaring that she had made several threats to harm him. He claims that the bitterness of his wife toward him is due to his having her little 9-year-old girl taken away from her custody by the courts.

Seth Low Honored.

New York, May 8.—Seth Low, former mayor of New York, yesterday was elected president of the chamber of commerce, the office held by his father fifty years ago. It was the first instance of a son following his father as head of the chamber.

CRACKERS UNFURL PENNANT TODAY

Edited By DICK JEMISON

CRACKERS LICKED FOR SIXTH TIME

The Moosemen Won Friday 8 to 6—Twice the Locals Were Able to Get a Tie Verdict.

By Dick Jemison.

Please pardon us dear fans, while we arise in the remark, that those Moosemen have went from here."

It was getting extremely monotonous to write about the walloping that they have been handing out to our brave boys here, until Smith, Ford and Friday they handed us another.

Which was the stick that they have handed us the eight games, the best we have been able to do being to garner a couple of seven-inning ties.

If it is any consolation, they had a tougher time of it Friday than at any time thus far, as it took an 11th to count to bring the score reversed to seven innings. But win they did, and after all, that is the wins and not how they happened that counts.

Only seven innings were played, it being decided in advance to call the game after seven o'clock, to allow the Lookouts to catch a train to New Orleans, the heavy hitting of Atlanta making a full game impossible in that time.

Have Our Argument.

The Moosemen appear to have the Crackers' number. They have trimmed us so steadily this season as we did them the early part, and have reversed things with a vengeance.

But despite this, we make this prediction: They are going to get better than they know how right now and hitting the old ball better they will, a little later when it warms up and the lightened get "right."

Incidentally, they will not hit as easily as they have been hitting. They have been hitting them off the bunches for singles, and not a few four-for three-base hits, and clouting them off their deliverings for doubles.

Smaglie a batter with one man on base, undoubtedly, and having the pitcher three balls and no strikes, imagine that fellow hitting one of the ball's squarely for extra base drive. That's not baseball. That's pure unadulterated luck, and that's a sample of what the Moosemen pulled here in every game.

Wait until they begin to miss a few of those wild pitches and the baserunner gets caught by a batter hitting under the pitch-nothing condition and then see what'll happen. McCormick will be a better pitcher and he won't be winning as many games as they have.

Coyle and McConnell.

Mickey Coyle and Amby McConnell were the hitting stars of the two teams. Mickey got two singles, a double and a triple in four tries. Amby got a single and a two-bagger in two attempts.

Mickey drove in five of the eight runs the Lookouts counted, and McConnell drove in four of the five that the locals counted.

Hack Eibel also had a grand day with the willow, getting two singles, a double and a home run in four trips to the plate.

Doescher who had not lost a game this season, was the Cracker twirler to get his Friday, the visitors not getting more than one and eight hits off his delivery in three innings. Kissinger, who finished the game, went strong.

Harding was routed by the Crackers in the sixth inning and Lorenzen stopped the Crackers when they were threatening to tie up the game, having the bases full and one out.

How They Scored.

Johnson hit into the first ball pitched for a single. Balenti sacrificed and when Doescher errored, both runners were safe. Jacobsen sacrificed, McCormick hit to Coyle and Johnson was forced out, but at the plate. McCormick stole and he and Balenti tallied on Coyle's single to right center.

Grant got to second base when McConnell dropped his high fly in the second and tallied when Johnson hit one off the ears for a triple to left.

With one gone in the second, Eibel doubled. Holland walked. Reynolds singled, scoring Eibel. Doscher sacrificed and McConnell replied, scoring Holland and Reynolds.

Bingles by Jacobsen and McCormick, Coyle's triple, Graff's single, which was a fly that fell back of the infield too close in for the outfield to get, and Harding's fly, which the wind blew under the signboard for a home run, tallied four runs for the Mooses in the third.

McCormick's triple, which took a hop over Fisher's head, being only a single but for that and Coyle's single tallied the final Lookout run in the fourth, this being made off of Kissinger.

A base on balls to Eibel, singles by Holland and Reynolds, filled the bases in the Crackers' sixth. McConnell singled, scoring Eibel and Holland. Two singles later put Balenti in with the bases again.

Lorenzen relieved Harding at this stage and Wiltshire and Long, the

Hitchcock in Fine Fettle; Georgia Wins First Game; Tech's Errors Are Costly

By Clark Howell, Jr.

Athens, Ga., May 9.—(Special.)—Before the largest crowd that has ever been present at Georgia Field, Coach Bear's Red and Black nine defeated Coach Heisman's Yellow-jackets Friday afternoon by the score of 6 to 1.

The crowd, a great mass of color mostly red and black with sparse scattrings of yellow and white, overflowed the grandstands and bleachers, necessitating the use of ground rules.

From the very first Hitchcock as though the Athenians would be the victorious and he always got what the locals had annexed a fourth inning that Tech's backs began busting in a dangerous manner.

Stockdale-to-Ware Feed.

Hitchcock, on the rifle pit for the Seminoles, was in fine fettle and for eight innings allowed only two hits, a safe bunt and a clean single, leaving Tech's lone counter in the initial canto of whitewash for eight frames.

In the final game, with the score 4 to 0 against them and two men gone, the Techmen got their busy with the willow and tallied their only marker. After Johnson had gone out, Stockdale to Holden to Henderson and Wooten had fanned, Tyler Montague stepped into a fast one for a single. Burr produced a timely single through short, the ball getting by McWhorter in center, scoring Montague and sending Burr to third. Johnson ended the game by fanning.

Georgia started the festivities in the opening stanza when Ginn singled. Clements sacrificed out to left, McWhorter was safe on Wooten's error, Ginn going to second. Both men scampered on a passed ball and Ginn scored on Henderson's infield out, second to first.

Georgia Counters.

The Red and Black added another in the third when Clements opened up with a single right and McWhorter fouled out to Witherington on an attempted sacrifice. On the hit and run signal, Clements was forced to third when Henderson went out, short to first. Stockdale produced a single and Clements scored.

This added the run getting until the eighth, when Georgia got two more without the aid of a hit. Clements walked, stole second, went to third on McWhorter's infield out and scored when Wooten threw Henderson's ground out to first, Henderson going to second. In an attempt to get Henderson stealing third, Newsom, who had just been substituted for Witherington, threw the ball to left field and Henderson sauntered home.

For eight innings only twenty-six men faced Hitchcock's offerings, twelve playes were pulled, one from Torbett to Harrison to Henderson, one from McWhorter to Henderson and one from Clements to Harrison to Henderson.

Fine Catches.

Some magnificent catches were made during the fray. Torbett got a low foul out of Montague's bat in the first after a long run. Ginn robbed Stockdale of a hit in the third by a magnificent shoestring catch and Henderson pulled down Shank's line drive in the same inning by a one-hand stab. Burr pulled one out of the clouds in the second, which looked good for a three-bagger and Hill robbed Clements of an extra-base drive in the fifth by a fine catch.

The batting honors of the day went to Burr, Hitchcock and Harrison, each of whom got two safeties, while Tyler Montague connected for the only extra-base hit.

The Yellow Jackets pulled a double play in the fifth, from Wooten to Burr to Hill, when Henderson attempted to steal third on Harrison's grounder to short.

Coach Heisman made a change in his line-up in the eighth inning. Pitts batted for E. Montague and later went to right field. Johnson shifted to center and Tyler Montague took second base in place of E. Montague. Coach Heisman, who umpired the game, gave satisfaction at all times, which is the indication it the most approved style.

In Saturday's game, Corley will twirl for Georgia and Pitts for Tech.

INMAN TROPHY PLAY POSTPONED A WEEK

The play for the E. H. Inman trophy over the Capital City Country club's golf course at Brookhaven, which was scheduled to start with the qualifying round today, has been postponed a week.

The two postponement was made necessary by reason of the invitation tournament being held in Birmingham, where several Atlanta golfers are participating.

Birmingham, Ala., May 8.—Birmingham's fifth straight defeat came this afternoon, three local pitchers being hit hard by the New Orleans players. The score was 6 to 3. Johnson opened in the box for Birmingham and was wild and was replaced by Gregory in the third inning. Gregory held two and two-thirds innings, after which Harbin went in the box.

Styles opened for the visitors, but in the fifth inning became wild and was taken out, Bagby going to the mound. The game was largely lost by the pitching of both teams running wild on the bases and many errors were made.

Moley and His Barons Help Crackers Raise the Pennant At Poncey This Afternoon

Carleton Molesworth and his Birmingham Barons will assist the Crackers in raising the pennant that Bill Smith and his crew won after a 154 game campaign last season.

This is the first appearance locally of the Barons this season and the first meeting between the two old rivals this year.

The pennant raising date was given to the Barons last season on promise. The Barons gave the Crackers their pennant raising date and at that time, Manager Bill Smith, of the Birmingham management that they would reciprocate. The first time that Atlanta won a pennant since the raising took place.

There will be the usual festivities that go with a pennant raising, a band, a parade by both teams from the grandstand to the flagpole and back and the raising of the flag by Manager Billy Smith, the third flag that he has won for Atlanta.

New Faces Face.

Moley will bring a smattering of old and new players to the local club. His team was a little slow getting started Thursday, but otherwise is a pretty good club and he expects to have them in the fight all the way. The games between the Barons and the Crackers are sure to be as closely contested as they always are, and in the infield, Moley will show a man and four base, in Covington, formerly of the Browns. Marcan at second, Hilann at short, and McDonald at third are from last year's team.

In the outfield he will show one old face in Pete Knisely, who has been shifted to right field, and two new faces in Magee in left and Stewart in center. Cutshaw McBride, last year's left fielder, is with the team, as is Carroll, utility man.

Behind the plate, Dilger, of last year's team, and Tragresser as the new man.

On the hill, Hardgrove and Gregory, of last year's team, are the only old men. Harbin, Robinson, and Johnson and Curry Benton, last year with Montgomery, are the new men.

The batting order today will probably be:

THREE TEN-ROUND BOUTS AT ORPHEUM

Jake Abel and Terry Nelson came to terms yesterday for their ten-round battle at the Orpheum theater next Wednesday night. The scrap will be the semi-windup to the Hanlon-Ferry bout.

Nelson has been seeking a match with the Chattanooga boy ever since Jake stopped him in forty-one rounds of a private fight held here two years ago. Terry has improved a heap since, and is confident that he can take his opponent's measure next Wednesday.

Jim Ferry arrived in the city Friday night from his home in Philadelphia. Jimmy has trained hard in Quakertown and will not do but little work before he climbs into the ring.

Hanlon is working faithfully every day at a local gymnasium and declares that he will stop Ferry. "I can box fast as well as Jimmy and hit harder," said Eddie last night. "Now, how can I lose?"

Promoter Castro signed Kid Underwood and Stump Goodwin yesterday for another ten-round bout. These lads have hooked up twice, once in a six-rounder and once in a eight-rounder. The bouts were about even in each match. A ten-round affair ought to prove which is really the better man.

A battle royal between six of the hardest colored sluggers in the south will open the card Wednesday night.

JACK COOMBS WILL SOON PITCH AGAIN

Philadelphia, May 8.—Jack Coombs, pitcher for the Philadelphia American league baseball team, who was injured in the latter's series of 1913, may be able to take his turn in the box in six or eight weeks, according to physicians, who examined him yesterday.

The famous pitcher, who received the returns of last year's world's series money while lying on a hospital cot, arrived here on Wednesday from Palestine, Texas. He was wearing a specially made brace to support his back until about three weeks ago and wanted a thorough examination of the old injuries before attempting to don his baseball togs again.

The physicians said they found that Coombs' health is fine condition and weighs 188 pounds.

They gave him permission to start exercising next week and told him that he could probably work into playing shape. He will begin by assisting in the work of coaching the young pitchers.

BEAVERS OF NATION CONVENE IN ATLANTA

Mayor Woodward Welcomes Visitors and John Piazza Responds.

The first session of annual convention of Beavers was held Friday morning at the Beaver hall, 57½ East Hunter street, about 150 delegates were present. Others arrived last night.

The meeting was called to order at 9 o'clock by W. C. Munday, president of the Atlanta dam. He introduced Mayor Woodward, who delivered the welcoming address in behalf of the city. The mayor touched upon the great good accomplished by secret orders.

This address was responded to by Supreme President John N. Piazza, of Vicksburg, Miss., who spoke on "Fraternalism As It Is and As It Was." He told of the abuses of fraternal orders by those who joined from selfish motives. He expressed hopes for a better order and more fraternal spirit for Beavers.

A business meeting was held Friday afternoon and upon adjournment, the supreme representatives were guests at a ball game. Friday night a big banquet was tendered them at the Kimball house. The delegates will be given a sight-seeing automobile trip today about the city.

Officers Are Elected.

The following officers were elected Friday at the annual convention of the Royal Dam of Beavers of the World:

Supreme president, Sam E. Jones, of Chattanooga; supreme past president, Judge J. N. Piazza, Vicksburg; supreme vice president, W. C. Munday, Atlanta; supreme chaplain, C. W. Clark, Shelburg; supreme secretary, W. H. Fruitticher, Bingham; supreme treasurer, W. W. Holt, Mobile; supreme guide, George Crosthwait, Nashville; supreme guardian, G. R. Shipand, Memphis; supreme sentinel, F. P. Wallace, Dora, Ala.; supreme trustee, E. A. Commings, Vicksburg; supreme counsellor, A. J. Graham, Atlanta; supreme organiser, H. H. Enzlish, Birmingham.

The next meeting will be held in Chattanooga.

Banquet Enjoyed.

At 9 o'clock Friday night the delegates were entertained at an elaborate banquet at the Kimball house. W. C. Munday acted as toastmaster, and toasts were given by Judge Dick Russell, Robert F. Davison, John Y. Smith, J. T. Dabney, Sam Jones and others.

The speakers elaborated upon Atlanta's hospitality, while the Atlanta speakers laughingly declared that steamroller methods had been used in securing the Beaver convention for Chattanooga next year.

Columbus, Ga., May 8.—(Special.)—William Clein, merchant, was today placed under $10,000 bond on the charge of concealing from the trustees goods belonging to his estate, which had been placed in bankruptcy with intent to defraud.

Clain has been indicted by a federal grand jury. He surrendered himself to the deputy marshal this morning. He gave bond and was released.

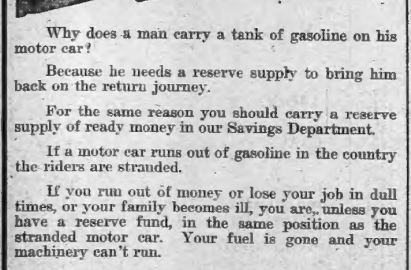

CORDELE GAS PLANT WORK TO START SOON

Cordele, Ga., May 8.—(Special.)—A franchise was granted by the city council of Cordele last night to the Illinois Gas and Water company to install a gas plant. RETURNS FROM WEST; SAYS SOUTH IS AHEAD

After spending four years in California, Arizona and New Mexico, J. De-Witt Bowen, a former Atlanta boy who has been here on a visit for several days, declared Friday that he had decided that Georgia is the best place. Mr. Bowen has made close comparisons of business conditions and general prosperity and says that the south is far ahead of the Pacific coast. He leaves Saturday for Los Angeles to wind up affairs and return with his wife and family to Atlanta, where he will locate permanently.

Why does a man carry a tank of gasoline on his motor car?

Because he needs a reserve supply to bring him back on the return journey.

For the same reason you should carry a reserve supply of ready money in our Savings Department.

If a motor car runs out of gasoline in the country the riders are stranded.

If you run out of money or lose your job in dull times, or your family becomes ill, you are, unless you have a reserve fund, in the same position as the stranded motor car. Your fuel is gone and your machinery can't run.

PLANNING TO RUSH TROOPS TO MEXICO

Continued From Page One.

would not be sent out of the country, but would be used on the Texas border.

Cabinet Members Differ.

The discussion of reinforcing General Funston at Vera Cruz has developed a marked difference of opinion in the cabinet. Some take the view that the mediation negotiations might be embarrassed by such an act; others believe it a necessary precaution. General Funston is understood to have told the war department that his lines are vulnerable at different points and that a sudden attack along the railroad would necessitate the withdrawal from other points, which would be left unprotected. He has informed the war department that he will need 15,000 to 18,000 men to hold Vera Cruz and outlying districts.

Secretary Garrison today said no orders had been issued for any troop movement, but it became known authoritatively that contracts had been closed for the chartering of several merchant steamers and that within a day or two formal orders would be issued.

It was understood that within two weeks at least nine transports will have been secured. Secretary Garrison declined to discuss the chartering of the steamers. The only thing he would say, was:

"There is no contemplated aggressive movement at this time."

This is in line with the attitude of other high officials of the administration who say that the sending of reinforcements to General Funston is not an aggressive act and does not violate the arrangement for a suspension of hostilities.

Reinforcements Recommended.

The general army officers had recommended the sending of at least 50,000 to 60,000 men to Vera Cruz because of the unhealthy official quarters. A number of officials admitted that the administration was confronted with the problem of deciding whether it would limit its military activities to protecting the forces already at Vera Cruz or whether a sufficient number of men would be placed in readiness at Vera Cruz for a flying expedition to Mexico City in case the Huerta regime collapsed and irresponsible bands threatened the lives of Americans and other foreigners in the capital.

The mediators continued their sessions today. Reports that Mexican delegates would come by way of Saline Creek and Vancouver, B. C., and thence across Canada to Niagara Falls, gave some concern as likely to cause delay. The Huerta delegates planned to avoid passing through the United States, but telegraphic inquiries are under way from which these plans may be changed so as to permit the conference to proceed on May 18, with the Mexican delegates present.

The names of American delegates to the mediation conference will be announced shortly and it is known that Justice Lamar, of the United States supreme court, and Mayor Newton D. Baker, of Cleveland, are two of the men who probably will be named.

Hopeful Over Mediation.

The administration is still hopeful that mediation will accomplish something and there is every desire that the conference shall proceed without any untoward incident.

The landing of marines at Tampico to protect the oil wells has been under consideration by foreign governments, but has been rejected. The report brought by Tampico refugees that the guard already had been landed by the Holland warship Kortenaer, to protect the Corona properties, owned by a Holland company, was denied from Tampico.

Extensive preparations are being made for participation by the president, the secretary of the navy, the secretary of war and a delegation of seven senators and twenty-one representatives in congress in the funeral ceremonies at New York and Brooklyn, Monday, for the marines and bluejackets killed at Vera Cruz.

Secretary Daniels sailed late tonight on board the Mayflower, and will join the funeral ship Montana, off the Virginia capes tomorrow, arriving in New York Sunday afternoon.

The president will ride in a carriage with the parade from the battery to the Brooklyn navy yard. He will return to Washington immediately after the memorial services and his address at the navy yard.

Carranza Changes Stand.

Secretary Bryan today made public a long formal communication from Raphael Zubaran, in behalf of General Carranza, declaring the friendly attitude of the constitutionalists toward the United States. The document reversed the position announced by Carranza, immediately after the occupation of Vera Cruz, that he resented the occupation. He now regards the American movement as directed against Huerta and not against the Mexican people who, he says, are on friendly terms with the United States. The document was significant as being the first official communication announced by the state department from Carranza received from an official of the Carranza government. Eliseo Arredondo has addressed his communications to the state department through agents of American consuls in Mexico.

Zubaran, who is minister of foreign affairs in the Carranza government, communicated to Washington on this particular occasion.

Word came to constitutionalist headquarters here that Carranza forces had ordered the campaigns against Tampico and San Luis Potosi quick conclusions; that reinforcements were on their way to Tampico and the march of the constitutionalists to the vicinity of San Luis Potosi, but cut off railway communication, according to dispatches. General Carranza's telegraphic and official reports of the reported quarrel between himself and General Villa over General Villa's governor of the state of Chihuahua. He reported that General Carranza ordered him in Torreon and not in person, as reported, and was still in command of Chihuahua.

Reports of hostilities at Tampico Secretary Daniels telegraphed Admiral Mayo for information concerning reports that the mines had been ordered from the river. American pilots, however, were withdrawn days ago, but it is understood that constitutionalists, as well as Huerta forces, not permit any ships to land supplies or passengers.

Secretary Daniels also telegraphed Rear Admiral Howard, on the Pacific coast, for information on reports that reported fall of Mazatlan.

Late tonight the Holland American mediators were notified by the Huerta government that the election of Carbajal to succeed Mexico City tomorrow. Niagara Falls, via Vera Cruz and Key West.

MORE REBEL VICTORIES REPORTED AT VERA CRUZ

Vera Cruz, May 8.—Reports of rebel victories continue to reach Vera Cruz. It was reported today that Emiliano Zapata had taken Cuernavaca, capital of the state of Morelos, and is now only forty miles of Mexico City. Reports of rebel successes are still being suppressed in the capital and foreigners there know of General Villa's steady advance from the north.

Americans traveling between the capital and Vera Cruz were impressed most by the solicitude of Huerta's officers for the safety of foreigners, especially Americans. The recent arrest of two Englishmen, however, subsequently were released, called forth a reprimand of the federal officers from President Huerta. Travelers who arrived here from the capital today report that normal conditions prevail there.

The military situation in Vera Cruz is unchanged. Various reports today of large bodies of federal troops near the city were characterized by army officers as exaggerated. The military officers are agreed that any extension of the lines is desirable for the protection of food and water supply of Vera Cruz.

Orders from Washington that the lines be not extended thus far have prevented any action being taken, but it is believed officers are pressing the war department for permission to broaden the lines. Whether or not it approves the troops here probably will be increased for an extension of the lines, whereby leaving as an advanced base a marine regiment or more, to answer any calls from consuls.

Advices from Mexico City say that refugees are moving freely from the capital toward Puerto Mexico. The naval transports Hancock and Mere Castle are still here.

TROOPS AT GALVESTON MADE READY TO EMBARK

Galveston, Texas, May 8.—On orders from Washington the Fourth and Sixth brigades of the United States army at Texas City were made ready today to embark for Mexico at a moment's notice and tonight the troops are prepared to go aboard transports quickly as orders are received.

Three steamships, the Denver and Concordia of the Mallory line, and Seguranca, of the Texas City Steamship company, were chartered today to be used as transports and carriers of army supplies.

The Denver came into port tonight from New York with eighty-four recruits for the army. The Morgan line steamer Gulfville is here and will also be drafted for service by the government. It also was reported tonight that certain railroads have been asked by the war department to keep themselves in readiness to move a large number of troops on short notice. Major General J. Franklin Bell will arrive here Saturday or Sunday to take command of the two divisions.

All day long great quantities of supplies for the army were delivered at the government pier by motor trucks and as fast as possible these were loaded on the transport Kilpatrick, which had orders to sail as soon as she was loaded. The Kilpatrick will carry one hundred horses. The Antilla was almost ready to leave for Vera Cruz tonight with permanent camp equipment for General Funston's troops. Several torpedo boat destroyers sailed for Vera Cruz this afternoon.

The second division now at Texas City embraces the Fourth brigade, composed of the 25th and 26th infantry regiments, and the Sixth brigade, composed of the 11th, 16th and 22d regiments. There also is in camp at Texas City two battalions of engineers and the Fourth field artillery. The company of army aviators at Fort Crockett here is also ready to embark.

POLICY OF AMERICA INDORSED IN FRANCE

Paris, May 8.—Statements published in the United States that French opinion concerning the Mexican situation is hostile to the United States have brought forth protests in the French press. On the contrary, the Matin this morning says that the policy of President Wilson is approved generally by the French people.

Gabriel Hanotaux, president of the Franco-American committee for the development of political, economic, literary and art relations.

"The many manifestations in certain papers," says M. Hanotaux, "originate with persons who do not realize fully the vast difficulty with which the United States is faced in perfectly recognized form. Panic has made material interests in Mexico and desires an end of the anarchy and the establishment of peace and security, which is exactly what the United States is laboring to bring about.

"It is thoroughly understood that no regime in Mexico could last without the approval, and, to a certain extent the help of the United States."

While not believing for a moment the talk of conquest, the Matin points out that the best way to bring a conquest about would be by placing the United States in an untenable position by insulting her national pride.

MEXICANS CAPTURE CALIFORNIA YACHT

San Francisco, May 8.—Reports received here yesterday that the yacht Iola, carrying Arthur Hayne, of Menlo Park, Cal., and a sportsting expedition, had been captured by Mexicans caused Hayne's relatives to call to the aid of the state department. The Iola was bound for the Tiburon islands and touched at San Diego April 8.

GOVERNMENT CHARTERS SAVANNAH LINE BOATS

Boston, Mass., May 8.—The steamer City of Memphis of the Savannah line, was chartered by the government today and ordered to proceed immediately to New York. It is supposed that she is intended for transport service.

The City of Macon, one of the fleet now at New York, is also included in the charter.

Auditorium for West Point.

West Point, Ga., May 8.—(Special)—Plans are on foot to secure a $10,000 auditorium for West Point. Committees have been appointed from the city council and board of education to discuss ways and means and it is hoped a handsome building will soon be erected.

Unable to Wed Man She Loved Beautiful Young Girl Suicides

Augusta, Ga., May 8.—(Special.)—Miss "Tommie" Whittaker, 18 years old, daughter of Mr. and Mrs. W. H. Whittaker, whose plantation is located about a mile from Barnwell, shot herself through the heart at the home of her brother-in-law, William Partridge, depot agent at Barnwell, at 5 o'clock this afternoon.

Partridge, who was in the depot, heard a revolver shot in his residence, where Miss Whitaker was alone, and on examination, found the young lady lying on her bed dead.

It is understood that of two suitors the family favored one while she favored the other. She was particularly popular and an unusually beautiful young woman. The family is a large and prominent one.

Negro With Clothes Ablaze Riddled by Posse's Bullets

St. James, La., May 8.—Driven out of the cane sugar mills where he had been employed and from a building which had been fired over his head by a posse, his clothing ablaze, Jesse Washington, negro desperado, hurled defiance at his pursuers here late today and fell dead, his body riddled with bullets.

Before being brought to bay by the posse the negro had added to his roll of deeds the name of Charles Bolin, railroad engineer, a posseman. Bolin died two hours after being wounded. He also shot and slightly injured Sheriff Milliot, another member of the posse, whose horse was killed under him. Within the past ten days the negro had killed two white men and wounded two others.

The tragedy today is the sequel to an attempt to arrest Washington on April 19, the negro at that time fatally shooting Deputy Sheriff T. C. Simon, of this parish, and wounding Judge A. M. Wilson. Simon was rushed to New Orleans for treatment and died in a hospital there on April 30.

When a posse, searching for the negro last night, saw two men riding on the blind baggage of a passenger train they fired. The negro escaped, but his companion, a white man, whose name is not known here, fell from the train, his scalp punctured with shot. It is thought he will recover.

The first attempt to arrest Washington was on complaint of citizens of Gramercy, who telephoned officers that the negro had terrorized a lumber camp, displaying a revolver, and later a shotgun. Deputy Simon, accompanied by Judge Malancon, drove to the negro's home in a buggy. When the officer knocked on the door the negro emerged from the rear and, coming around the side of the house, fired with a shotgun. Simon was fatally wounded. Judge Malancon returned the negro's fire and Washington fired at him, inflicting slight wounds.

Washington then disappeared from his home, and had eluded the officers for more than a week. It is presumed that he was driven from hiding yesterday longer, as he appeared in a field near here and held up two overseers, taking their dinner pails. A posse, led by Sheriff Joseph Demarier, was at once formed and started in pursuit.

Bloodhounds trailed the negro today to the Sidney plantation, near here, where, after wounding two members of the posse, he took refuge in a barn. The building was set on fire and, being filled with hay, burned rapidly. Washington came out, his clothing burning terribly, but seeing no avenue of escape, dashed into the building. In a very short while he emerged again, hurling oprobrious language at his pursuers. He carried his rifle, which had been rendered useless when a bullet fired by a posseman broke the magazine. The posse fired and the negro fell dead.

The barn and a few outbuildings were destroyed by the flames.

VETERANS INDORSE POLICY OF WILSON

Continued From Page One.

Department of Trans-Mississippi, were re-elected by acclamation.

Survivors of Forrest's cavalry tonight sent President Wilson a copy of the resolutions adopted yesterday offering the services of a hundred men from their ranks for duty in Mexico in the event of trouble with that country.

Thousands Cheer Veterans.

Thousands of enthusiastic citizens and visitors today loudly cheered survivors of the confederate army who participated in their twenty-fourth annual parade. While not so picturesque as former parades, because only a few attempted to march, the spectacle furnished a thrilling sight to crowds who saw the heroes for the first time.

Veterans, maids and sponsors, in nearly two thousand automobiles, took part in the parade. All of the departmental officers of the three divisions were on horseback, as well as a detachment of Forrest's cavalry. Mounts could not be obtained for a number of survivors of this noted troop. They, as well as other veterans, attempted parade, but sadly fell out of the formation unable to stand the strain of the pace set by those mounted and in automobiles.

Rain fell just before time for the parade to start. Participants and spectators were forced to rush for shelter. The shower lasted only a short while and bright sunshine prevailed during the greater part of the day. The weather was extremely warm.

Papers with dispatches from Washington and Mexico in regard to the situation were being sold among the spectators as the parade passed through the business section of the city. Hearing the cry of the newsboys, many of the veterans took it up, and wild cheers for the confederate flags, they shouted "On to Mexico!"

There were numerous ambulance calls during the progress of the parade, but all cases reported by the hospital authorities to be due to exhaustion. So far as death has been reported among the veterans.

SPANISH DEPUTIES IN STORMY SESSION

Madrid, May 8.—A figure of speech used today by Francisco J. Ugarte, minister of public works, caused a violent scene in the chamber of deputies.

The ministry of public works had been criticized by several deputies for its connection with the construction of a new railroad.

Replying to the criticism, Senor Ugarte, who in 1906, was procurator-general and reported on the unsuccessful appeal of Francisco Ferrer, founder of the modern school, for a reprieve from the sentence of death imposed in Barcelona for causing a revolutionary outbreak, said:

"My critics have been holding an autopsy on a corpse which does not exist."

Senor Castravido, a republican deputy and editor of El Pais, leaped to his feet and shouted:

"The only corpse here is that of Ferrer, and it still is palpitating."

Pandemonium then broke out, republican deputies insisting that Ugarte was an assassin while the government supporters retorted by calling the republican blackguards. It was with difficulty that the president was prevented from degenerating into a fight.

Revival at Senoia.

Senoia, Ga., May 8.—(Special.)—A successful revival meeting at the Baptist church closed last night. There were with eighteen additions to the church, the majority of whom were grown people. Pastor J. H. Cowart was assisted by Rev. Graham Forrester, of West Point.

Kryptok Bifocals

Why we make Kryptok Bifocals and recommend them. First of all, because of their convenience. They give Near and Far Vision in one solid glass, doing away with two pairs of glasses. They can be more perfectly ground than any other bifocal known, no ugly seams or pieces to blister or come loose. We make them in Toric or Curved form, giving a larger field both for reading and distance. Each pair is made to order, conforming to the face in every detail. Your best friend would never know you have on bifocals. They are absolutely invisible while on the face. They are a joy, not a discomfort. Ask some of our patients how they are pleased.

CHAPIN'S IMPERSONATION OF LINCOLN PLEASES

Benjamin Chapin, impersonator of Abraham Lincoln on the stage, appeared last night at the Baptist Tabernacle before a large audience, the event being the closing number of the Alkahest lyceum course.

Mr. Chapin is a tall, slim man, with deep furrows about his mouth and eyelids that droop down peculiarly over clear blue eyes; his hair is gray and thin. He does not look so much like Lincoln; but he is Lincoln just the same—or the Lincoln, at least, that has come down through history and tradition. His gospel is Lincoln's—the gospel of freedom and, above all, humanity.

TRADING IS QUIET IN COTTON MARKET

Fluctuates Within 6 Points and Closes Steady at Loss of One to Seven Points. Opening Was Steady.

New York, May 8.—The cotton market was very quiet today and fluctuated within a range of 5 or 6 points, closing steady at a net loss of 1 to 7 points. Old crop positions were relatively steady, while there was scattering selling of new crop deliveries owing to the generally favorable character of the weather map, encouraging private crop accounts from the Mississippi delta and the forecasts for generally fair weather following the cyclonic storm in the Texas belt. The local showers in the Carolinas at the opening was staged at an advance of 4 points due to a decline of 10 points on May and July being higher, while later months were unchanged to 1 point lower. Liverpool made a steady showing and there was some buying credited to shorts here by houses with foreign connections.

After the close of the English market this demand was withdrawn, and prices later eased off under scattered selling. Offerings were not large enough, however, to cause any material weakness and the somewhat bullish showing of the week-end figures helped to sustain the near months, which were only 1 point off from last night's close. April was relatively easy. April contracts in the near future market represent government grades, according to the present rules, for the first sale on that delivery was 38 points over March. The difference at the close tonight, however, was only 29 points. Arrivals of cotton reported at the New York docks today, 1,000 bales from northern mill points, which tended to emphasize reports of unfavorable conditions in some branches of the textile trade.

New Orleans Cotton.

New Orleans, La., May 8.—The cotton market was very narrow today and closed at net declines of 4 to 6 points.

At the outset indications pointed to lower prices on account of the weakness of the decline in values at Liverpool and a lessening in the local demand, together with the influence of improved weather conditions and a continuation report of the cotton belt. But there was a mild buying movement in evidence during the forenoon that served to stiffen the market a bit and prices showed up slightly.

The reaction was not important, however, and during the remainder of the session prices fluctuated over a range of only a point or two, but with a mild downward trend.

John F. Black & Co.

New York, May 8.—(Special.)—The market was very quiet today, closing steady at a decline of 1 to 7 points. Liverpool continues unfavorable in many sections, but there was no new bad report today to have any marked influence and it was simply a waiting market. Liverpool is due to come a point down.

Hubbard Bros. & Co.

New York, May 8.—(Special.)—Weather conditions are growing more favorable in the southwest and we look for weather is predicted for tomorrow. Therefore the market slowly eased from the opening on new crop, without however, showing any decided tendency. Demand was very light and is a dull period, with the trade waiting some new development upon which to base the course of the market. We need a large crop of cotton and will have to have it for the ordinary requirements of the world. While the present crop prospect is very poor, it is well known that stocks of cotton goods are small, and the mills and spinners think the chances are as we had two small crops, as crops go, one more and we will probably have a large crop the coming season.

Jay, Bond & Co.

New York, May 8.—(Special.)—Although showers fell in central and southwest Texas late yesterday, the weather cleared over night and consequently apprehension as to a wet spell in that state was allayed. The forecast called for fair weather, and as rains occurred where needed in Alabama and Georgia, conditions were not considered as favorable to active buying at the same time offerings were light which resulted in little change in prices. There is really no feature to the market at present aside from day to day weather changes.

WHEAT WAS STRONG BUT GREW WEAKER

Predictions of Early Harvest Offset Bullish News From Abroad—Other Staples Have Setback.

Chicago, May 8.—Predictions of the earliest harvest ever known in the United States made the wheat market ease off today after an unexpected show of strength. Closing prices were steady at 1 to 1½c net decline to 1c decline. All the other leading staples, too, had something of a setback—cash 1-8 to 1-8@1-4c; oats 1-8 to 1-4c, and provisions 5 to 10c.

It was from Oklahoma the news came that upset the views of many speculators in wheat. Dispatches were received saying the Oklahoma fields were all headed, and that signs pointed to current weather bringing on the season ahead of any previous record. The effect on prices here was immediate. Longs, selling and was continuous for the rest of the day, although the market was far from being demoralized.

Bullish trans-Atlantic advises more than offset the best half of the session any bearish influence from the United States official crop estimate by Washington. Europeans appeared to regard the situation as being more fully discounted and were giving attention instead to the Argentine acreage and to the prospect of the yield being poor in France and Austro-Hungary. Trade in the latter country was somewhat by improved reports about the crops. Cables said seeding in Minnesota and North Dakota, it was added, was under way. Word was heard from that the market turned sharply downward.

Increased country offerings in the southwest led to selling of futures on corn. Wet weather delay to planting, though, had at first made the market incline to the bull side.

Good conditions for the growing crop in Illinois, Indiana and Ohio, as well. Besides shipping demand was not so large as of late, influenced prices.

Provisions fell owing to talk of hog receipts running more plentiful soon. There was but little call for cash product. Shorts were the only buyers.

STOCKS ARE SOLD ON DULL MARKET

Traders Disregard Old Axiom and Succeed in Pulling List Away From Its Dead Level.

New York, May 8.—Professional traders today disregarded the old axiom of Wall street, that it is never safe to sell a dull market. The last few days were so unusually dull that professionals eagerly accepted as bear as conditions favored the short side, though little advance followed the resulting level, and speculators reasoned that if the market would not go up it might go down.

London prices for American stocks were lower, and there was some selling of Canadian Pacific account, although European operations here were not on a large scale. Continued rumors of a rate decision particularly Missouri Pacific and Chesapeake and Ohio, disclosed no advance in either issue, and Ohio broke to the lowest price since 1911. Another feature of the session was the Mexican news, conveying initiation of peace negotiations at Niagara. The combined result of these influences was a dragging market, with the prices of the liveliest selling since the second session of the fortnight ago.

The copper producers' monthly figures, although representing an increase in output of 3,727,662 pounds, made a good showing as had been expected, and abroad. YOUTH ADMITS THEFT OF COLLIER'S AUTO

Absolves His Companion From Any Participation in the Matter.

Crazed by a desire to see the country and out of spirits because he was broke and had no job, Willis Smith, a 16-year-old youth, living at No. 190 Luckie street, last Monday took possession of the automobile of Virgil Collier which was standing in front of the Winecoff hotel and invited a companion, C. O. Hagan, 17 years old, of No. 392 Simpson street, to take a trip with him. Friday the boys were brought back to Atlanta from Lafayette, Ga., by Sheriff A. C. Catron and Virgil Collier, in the stolen machine. Young Smith assumes all responsibility for taking the car, and says that his companion did not know exactly he was making the trip in a stolen car until they were many miles from Atlanta, beyond Acworth, Ga., when the gasoline gave out.

When this happened the two boys were sixteen miles this side of Lafayette, and they left the car in the woods and traveled the balance of the distance through the country on foot, sleeping in the woods one night.

The car was found in this county by a farmer and reported to the sheriff. The boys had been seen in the car, and when the sheriff questioned the newcomers his conclusions were confirmed.

Mr. Collier was communicated with and early Friday left Atlanta to bring his car back to Atlanta.

The sheriff, Collier, and the two boys were all driven into Lafayette in the country and the boys are now lodged in jail awaiting a hearing before Judge Nash Broyles.

SYSTEMATIC EDUCATION NEEDED BY THE NEGRO

Memphis, Tenn., May 8.—Practically completing their third annual convention with the election of officers and general meetings today, the National Sociological congress recessed tonight in order that the delegates might attend on Charities and Corrections at the opening session of that congress.

Headed by former Governor W. H. Mann, of Virginia, president, and the old officers were re-elected except the second vice president. Mrs. Percy Baker, of Houston, Texas, who was succeeded by Miss Fannie Hicks, of Raleigh, N. C. The selection of the next meeting place was left to the executive committee.

The two meetings of the day were devoted to "hindrances to country progress" and "the church and social service." The speakers devoted themselves to conditions of the negroes were: Professor Thomas E. Frazier and Professor G. E. Haynes, of Nashville; Dr. D. J. Hammond, of Augusta, Ga., and Mrs. Mckeever, of New York. New York. Organized society, it was pointed out, must recognize the problem and take up the work of improving the standard of living and systematic education. Wherever the negro has been offered aid in the improvement and encouraged to take advantage of it, it was declared, he has responded in a way to rejoice every friend of humanity and religion.

Other speakers today included Dr. Magruder, of Baltimore; Dr. C. S. Gardner, of Louisville, and Dr. W. P. Mangold, of St. Louis. Dr. Mangold spoke on the "Organization of social service and the training of social workers."

Two essentials required for training in the field of social service are a study of the social field and its intricate relations, problems and development and skill in method and technique, according to Dr. Mangold.

"We have entered on a new era in the development of social work," he said. "Most social workers have been occupied with the relief of suffering. We have been so busy with the relief we have given little time to the consideration of distress. A new task, however, almost dead upon us. We are the novices or on those who have no vision of the relations of life and the possibilities of community building.

"Length of service is not a prime qualification, in fact, it frequently is a disqualification. It is nonsense to give a broken-down preacher a church or a disproving social condition. It is idle to use the same methods in city and country. A teacher in promoting the public welfare.

ATLANTA'S STRIDES FROM DAY TO DAY

An exchange of properties was announced by O. D. Gorman, Jr., of the Smith & Irwin agency, on Peachtree.

Mr. Gorman sold for Mrs. Bertie V. Gorman to Mrs. Kate G. Roper a one-half interest in a vacant lot on the west side of Piedmont avenue, 150 feet southwest of Edgewood avenue, for $6,250. The lot is 25x78.

The seller took in part payment a one-fourth interest in 121 acres on Peachtree road, west of and adjoining Folsom farm, in DeKalb county. The valuation of this interest was not given.

Thompson's Atlanta Luncheons.

John R. Thompson, who operates a string of luncheons in Chicago and through the west, and has recently leased No. 57 Peachtree street to open a luncheon in Atlanta, has taken out permit for $20,000 for the remodeling of the building.

His alterations and improvements in the building are extensive. He is just taking possession now, although he closed his old lunch room last night.

TWELVE MEN SELECTED FOR BECKER RETRIAL

New York, May 8.—The jury which will determine whether Charles Becker, former police lieutenant and head of the "strong arm squad," was the victim of the plot that resulted in the murder of Herman Rosenthal, the gambler, was completed late today and will probably promptly taken until 10:30 o'clock tomorrow morning, when District Attorney Whitman will address the jury, charging that Becker actually was the "brains" of the conspiracy. The first witness probably will be placed upon the stand early in the afternoon.

After a hundred and twenty-one talesmen had been examined, the panel was completely shortly before noon today. Directly after the ninth juror was selected, however, Justice Seabury retired to his chambers. There he called Assistant District Attorneys Whitman and Martin T. Manton, of Becker counsel, just what time during the conference, which lasted about fifteen minutes, was not revealed, but when the district attorney, Mr. Manton emerged from the chambers, jurors selected as numbers 10, 11 and 12 were sworn in and Mr. Smith, were called in. Soon after Justice Seabury returned to the bench and announced that the two jurors had been excused upon their own application. No reflection, said the court, was to be cast upon either of the men. The work of examining talesmen was again resumed and the jury completed quickly and taken to an uptown hotel to spend the night.

GEORGIA BANKERS MEET AT BANQUET

First Day's Session of the Association Closes With a Brilliant Affair at Capital City Club.

No more brilliant or unique banquet was ever given in Atlanta than that which was tendered the Georgia Bankers' association at the Capital City club last night.

If the bankers don't want to come back to Atlanta for their next convention or the next after that it is not the fault of the committee having last night's affair in charge.

Fully 400 bankers from Georgia and many prominent members of the American Bankers' association attended last night's banquet.

Unique Decorations.

As each guest was seated he discovered at his plate a handsomely engraved document which is a familiar object in banking houses. It was a bond with coupons attached. A perfectly correct bond, too, negotiable by any individual with a good appetite and a sense of humor. The coupons represented the various courses of the menu and the several cabaret numbers which were sandwiched in between courses. The bond, dated, as it should be, in the future. The tables were exquisitely decorated and the menu was an excellent one.

Robert F. Maddox acted as master of ceremonies and introduced the various cabaret numbers, all of which are to be seen at the Forsyth this week.

One number which was not on the program, but which provoked a great deal of merriment, was the presentation to Harry Hawes, of Philadelphia, of a beautifully gowned young female, who persisted in sitting at the table with him and staring fixedly at Colonel John Temple Graves. Other than the fact that her first name is Vivian and she is a friend and roommate of Henry Kennedy, of the Fulton National bank, little seemed to be known of her.

Roommate? Yes, roommate—that and nothing more. But, you exclaim in surprise, Henry Kennedy is a bachelor! Yes, that is true—Henry is a bachelor and Vivian—well, Vivian is a wax figure which was not made but melted one little bit despite the close proximity to so charming and eligible a young man.

Some of Henry's friends left Vivian in his bedroom one night and left Henry has kept her ever since.

Vivian Much at Home.

Vivian seemed as much at home with Mr. Harris as with Mr. Kennedy and was just as communicative in the presence of Colonel Graves as to either!

Colonel Graves was the last coupon on the bond and he acquitted himself in his usual satisfactory way. A lengthy one he said that he for the first time realized the true greatness of William Jennings Bryan when, during his journey out of office, came in keen competition with "bottle balancers and yodelers." He did not feel himself equal to the occasion of competing with the vaudeville performers and said so modestly, but his remarks were, greeted with fully as much applause.

Following the banquet, many of the guests remained for an informal dance in the ball room.

The officers of the association will be elected today.

Morning Session.

Friday's session was called to order by President Ollie Hillyer, who read the convention hall of the Piedmont hotel.

Governor John M. Slaton made the address of welcome to the visiting bankers. Following him was Captain P. D. Bloodworth, of Savannah, who paid Governor Slaton a high compliment, and said he was sure he voiced the sentiment of the assembled delegates when he said that he hoped future honors might be in store for him.

The suggestion was met with rousing applause.

Friday morning's session was for the most part taken up with routine business. President Hillyer read his annual address, the report of the executive council was adopted, the report of Secretary Haynes McFadden was read and the report of the treasurer, R. J. Smith, of Griffin, showed the organization to be in a thriving condition, and steadily growing in membership.

The keynote of those present was one of optimism, and it was freely predicted that the state of Georgia and the south generally were on the eve of the best period of good times.

At 1:30 o'clock the delegates were tendered a luncheon at the Piedmont Driving club, and later went to the ball game.

Today's Program.

The program for today follows:

By Joseph Mason Brown, Atlanta, executive council and currency commission. American Bankers' association.

By Eugene W. Stetson, Macon, member of executive council and committee on laws, American Bankers' association.

Address, "Banks and Agriculture," B. F. Harris, vice president First National bank, Champaign, Ill., chairman agricultural commission, American Bankers' association.

Address, "The Relations of Country Banks to Their City Correspondents Under the Federal Reserve Act," Charles S. Caldwell, president Second Exchange National bank, Philadelphia.

Address, "Beet, Bread, Bacon and Banking," Melvin A. Traylor, vice president National Bank of Illinois and chairman Stock Yards, Ill.

Address, "Enforcement of County and Municipal Bonds by the States," Hon. William J. Harris, director of the census, Washington, D. C.

Adoption of new constitution and by-laws. Report of legislative committee by Chairman Joseph A. Goetz, president Bank of Jonesboro.

Unfinished business. New business and election of officers.

ARBITRATORS REPORT ON G. & F. STRIKE TODAY

Augusta, Ga., May 8.—The board of arbitrators, to whom was submitted contentions between the engineers and firemen of the Georgia & Florida railroad, demanding more pay, and the management of the road, will announce their finding tomorrow morning at 10 o'clock, when there will be a dissenting opinion, it is said. W. L. Peele, formerly of the federal court of claims, Washington, is chairman of the board. W. W. Anderson, general manager of the C. & W. C. railroad, represents the road, and C. E. Davis of Augusta represents the trainmen.

The demand for an increase which would bring the Georgia and Florida trainmen to the rate paid by standard roads of which is $4.22 per day, these trainmen heretofore being paid $3.75 per passenger run.

Judge Peele and Mr. Davis agree on an increase of an average of 13 per cent, or $.40 for passenger runs and $.95 for freight runs. Mr. Anderson takes the position, it is understood, that the road is now only operating expenses under the present wage scale, and can't pay the increase.

OLLIE TAYLOR MUST GO TO REFORMATORY AGAIN

This a story for boys—boys who are just reaching that stage between boyhood and manhood when they think they are apt to look with scorn upon being considered "tied to their mothers' apron strings," and to whom even many mothers to them to be considered the Jesse Jameses of the neighborhood.

Several years ago a boy about 11 years old was brought before and tried into the juvenile court upon the charge of stealing a 5-cent bottle of soda water. He was a mischievous urchin he had been warned against being dishonest, but apparently to no avail.

Then the judge said that he must go to the reformatory farm and stay there until he was 21 years old, or until his reformation was assured.

Appealed His Case.

That boy's name was Ollie Taylor. Ten years seemed a long, long time to the father and friends of little Ollie Taylor, and they at once began the confines and the rigid rules of the reformatory farm against all the freedom and fun of boyhood.

The case was appealed until at last it reached the supreme court in Atlanta, but because of the peculiar machinery of the law the court men and wise pondered long over the case of little Ollie Taylor, but they were was able to do nothing.

Then Ollie's case announced that it was not within its power to release Ollie Taylor, and the decision appeared. The newspapers printed the story. The boy Ollie read it.

And after a while all the nation knew that Ollie Taylor was behind the stone reformatory because he had stolen a 5-cent bottle of soda water and could not get out until he was a man.

To everybody it seemed a great pity. To every boy it would miss all the pleasure and the freedom of boyhood. To almost every part of the United States the people were convinced that justice demanded, that little Ollie Taylor be released from the reformatory.

Released on Parole.

So he was released on parole and had to report to the court every month. The joys and the care-free life of a boy, and the reformatory authorities never heard of him before thought he ought to have them.

Ollie had his chance, but it seems he has not improved it.

Friday afternoon he was taken before Judge Pendleton Brown, in chambers, for charge and was sent again to the reformatory and to stay until he is 21 years old.

And the lesson for boys in the story of Ollie Taylor is one that they must inevitably learn. It is this:

You can't get anything by lying to your chance, but if, having been given that chance, you lie to it, you lie to it with the world, the world will relentlessly force you to the consequences.

REPORT AGAINST GENERAL STRIKE

John D. Rockefeller, Jr., Is Blamed for Loss of Life in Colorado Before the Mine Workers of America.

Indianapolis, Ind., May 8.—That "it is not the part of wisdom for the miners in the organized states to engage in a general strike at this time," was the report today of the special committee to the executive board of the United Mine Workers of America, in session here. It was decided, however, to push the strike in Colorado and an appeal for financial help was issued.

John D. Rockefeller, Jr., could have prevented the loss of life in Colorado by favoring a settlement of the coal strike through conference of the operators and miners, according to a statement issued today by the international board of the United Mine Workers of America, in session here. The statement declares that "there can be no turning back or turning aside. The sacrifices already made are too great."

The statement reviews the strike, deplores the loss of life, acts of violence and property destruction, declares for peace and recites that the miners asked for a conference time after time, but quit only after they had been refused a hearing repeatedly. The statement says that the operators are attempting to force 90 per cent is called absurd and unqualifiedly false.

Massacre of Ludlow.

"A long list of persecutions culminating in the massacre of Ludlow on April 20," the statement continues. "The state of Colorado was covered with infamy, and the whole nation looked on with awe. No fouler crime or more brutal deed was ever recorded on the pages of American history.

"This is an awful sacrifice, all of which could have been avoided, if John D. Rockefeller, Jr., who occupies such a powerful position in the financial world, would take a position one word favoring a settlement through a meeting between the representatives of the coal companies and the representatives of the striking employes. And how shall this battle of extermination go on? It is no longer a struggle for the Jesse Jameses of the neighborhood.

"Shall these powerful interests crush and destroy the hopes, ambitions and aspirations of these striking miners and their families? The answer must be 'no.' There can be no turning back or turning aside. The sacrifices already made are too great. The slaughter of innocent women stands from us our fullest measure of devotion.

To Push Colorado Strike.

"With the resolute purpose and firm determination, the United Mine Workers of America hereby pledge themselves to support the struggle in Colorado and aid them as long as this contest goes on even though it lasts for years to come.

"We pledge to them the support of the international organization and hereby solemnly declare our unyielding purpose to supply them with financial help and moral support, until their rights are recognized and an honorable wage settlement is brought about. We owe this to the memory of the dead of the Colorado miners to belong to the United Mine Workers of America as inherent.

"Without the protection of the labor organization that chances has an individual miner in dealing with powerful financial interests well organized and controlled by men of John D. Rockefeller, Jr., whose name is synonimous with Standard Oil."

After stating that the situation had been carefully considered, the report on the general strike subject continues:

"We believe we can better aid our gallant brothers in Colorado by remaining at work, thus insuring in a financial way our fullest support to the men, women and children who are now being engaged in the great struggle in Colorado. We believe in a position to finance properly the strike in that state indefinitely, until the success of the miners' cause is assured; and a general strike at this time might jeopardize our position in this respect, without adding any material benefit to the success of the Colorado strike.

"Of course, if conditions in Colorado do not improve and we fail to receive the proper protection from the federal government, this policy may be changed to meet exigencies of any new situation that the future may develop.

Appeal for Aid.

"We call upon our membership everywhere to hold themselves in readiness to answer such appeal as may make upon them. You can rest assured that we are firmly resolved to carry out any move which we believe to be beneficial to the Colorado strikers, but at this particular time we are convinced that the policy we have outlined is the wisest course for us to pursue."

The appeal for aid is signed by Jhon P. White, president; Frank J. Hayes, vice president, and William Green, secretary-treasurer.

"We need your help, your sympathy and your support," it recites. "We appeal to you to respond promptly and liberally and thus place yourself fairly and squarely on the side of all the people as against John D. Rockefeller, Jr., whose name is inseparably associated with Standard Oil."

In dealing with the hazardous work of the miner, the report on the relation situation declares that "government statistics show that, covering a period of ten years past, more men were killed, per thousand, employed in the coal mines of Colorado than in any other mining district throughout the entire world."

The Colorado report also attacks John D. Rockefeller, Jr., declaring that he, "by one word favoring a settlement through a meeting between the representatives of the coal companies and the representative of the striking employes," could have avoided the loss of life and damage to property in that state.

All Arms Demanded.

Trinidad, Colo., May 8.—All persons in the strike district of the southern Colorado coal fields, under a military proclamation issued today, must surrender firearms by tomorrow.

Federal troops have been distributed throughout the district in order to receive the weapons and ammunition. Three hundred condemned army rifles and 200 rounds of ammunition for each weapon, consigned to Lieut. Col. Hugh L. Scott, of America's agent at Raton, N. M., from New York arrived today and were taken over by the officers.

Colonel Lockett, commanding the Eleventh United States cavalry, said he considered the situation in other fields, especially at Glenwood Springs, Oak Creek, and Crested Buttes, extremely grave. He recommended that Governor Ammons dispatch additional national guardsmen to those sections as federal troops could not be spared now for duty there.

Colonel Lockett said he had reported the situation to General Garrison and was awaiting further advices. He informed union leaders that he had reserved the question of the rehabilitation of the Ludlow tent colony to President Wilson and recommended that they address further negotiations in that regard to the president himself.

WILSON'S REPEAL STAND IS ATTACKED BY GOFF

Washington, May 8.—Quoting from members of the platform committee of the Baltimore democratic convention, Senator Goff, West Virginia, republican, today criticised President Wilson's action in "discarding the Panama tolls exemption plank and asked why the president was convicted in silence of the platform on woman suffrage and the progress declaration on tolls. "Oh, consistency, thou art a jewel!" declared the senator.

He asserted that the president's message asking for the repeal was one of the most astounding state papers ever submitted to congress.

WIFE ASKS FOR NEWS OF HUSBAND IN MEXICO

Savannah, Ga., May 8.—Mrs. Robert C. McQueen, a British subject, called on the British consul here today. Mrs. Brookfield, today to enlist his services in an effort to locate the whereabouts of her husband, who has been living in Tampico for two years, being employed there by the Pearson oil interests as an accountant. Mrs. McQueen reached Savannah April 29 from Tampico, coming by way of Galveston. Her husband had planned to follow her in a few days, but she has heard nothing of him since leaving Mexico. Mrs. McQueen expects to go to Washington in a few days to take the matter up with the state department.

LEWIS PAYS TRIBUTE TO VERA CRUZ DEAD

Impressive Ceremonials to Follow Arrival of Funeral Ship at New York.

Washington, May 8.—Senator James Hamilton Lewis spoke today in the senate in eulogy of the American blockade and marines who fell in the first fighting at Vera Cruz.

"Behold them," exclaimed the senator, "the first four completing the ever present mystic equal personifying all: Daniel A. Haggerty, a descendant of those who found with Patrick Claburne, from the south, and Phil Sheridan, from the north.

"John Schmacher, the descendant of those who fought for us under Steuben.

"George Poinsett, of the generation of those who marched with Lafayette.

"Samuel Meisenberg, the Jew, child of a people without a country, but now a son saluted by every nation.

"We call to the watching world to attest to the civilization of men, the attachment of America for her children and the prise and triumph she ever pays to the hero who serves her cause."

Preparations Completed.

New York, May 8.—The first step in the national tribute to sailors and marines who fell before Mexican bullets during the American occupation of Vera Cruz will be taken tomorrow afternoon when the dreadnought Wyoming leaves the Brooklyn navy yard at 2 o'clock to proceed to sea to meet the funeral ship Montana, steaming northward with seventeen dead. Near the Montana will be the president's yacht, the Mayflower, carrying Secretary of the Navy Daniels. The Wyoming will meet the two vessels to a position in the harbor near the battleship arriving at 5 o'clock Sunday afternoon.

Arrangements all but completed for the funeral ceremonials, were made known today by Captain Albert Gleaves, commandant of the Brooklyn navy yard, who, with Brigadier General Robert K. Evans, commander of the department of the east, will officially represent the navy and army, respectively.

The funeral procession will leave the battery about 9 o'clock with a police escort at the head. In sequence will be a battalion from the Wyoming, one from the battleship Texas, the naval militia, the marines, with the caissons, with their honored dead, and the carriages with the officials. The latter will include the secretaries of the two service branches, Governor Martin H. Glynn and Mayor John Purroy Mitchel; Admiral George Dewey, General Horace Porter, former ambassador to France, heading the mayor's citizens' committee; Surgeon John F. Gray, head of the state national guard; high army officials, and Captain Gleaves and others. It was not known tonight whether President Wilson will enter the procession.

The line will move up Broadway, Park Row, Center and Canal streets, across the Manhattan bridge, through the East river, and through Brooklyn streets to the navy yard. At the city hall the cortege will be greeted by 500 singing children and there will be a fifteen minutes it will halt while this tribute is given. Mayor Mitchel may hear the children's chorus on the bridge.

Crossing Manhattan bridge the procession will pass immediately beneath the navy yard, where the funeral procession or on the Mayflower, he will be greeted by the president's guns with a one gun salute. The memorial service will be brief, but impressive. Nothing it is expected, not more than an hour. Chaplain William G. Cassard, of the battleship Texas, will read the service, head will read the service with a salute from the cruiser Tennessee.

These services will be held on the marine barracks grounds, with more than 10,000 persons. After that number has entered, the gates of the yard will be closed to others. A committee of senators and representatives will represent congress.

TWO ARE KILLED IN BIRMINGHAM FIRE

Oscar Underwood's Brother Escapes by Sliding Four Stories Down an Elevator Shaft—Loss $150,000.

Birmingham, Ala., May 8.—Two persons were killed and one badly burned here late today, when fire completely destroyed the general office building of the Birmingham Railway, Light and Power company. The property damaged was estimated tonight at $150,000.

About 200 employees were in the building when the fire was discovered. Company officials tonight said they believed all had escaped outside of the two known to have been killed. Firemen have been unable as yet to search the ruins on account of the intense heat. The company has advertised for all employees to report tomorrow in order that the list may be checked.

The two persons killed were Moody Childers and Henry H. Keyser. Both met death by jumping from one of the upper floors of the company building and missing the life nets. A. S. Millhouse, a newspaper reporter, but believed tonight that he would recover.

Flames completely enveloped the building within a few minutes and many of the employees made their way from the building by using the fire escapes. The origin of the fire has not been determined, but it is believed to have been caused either by a gas leakage or a small quantity of gasoline in the basement of the building.

Fred V. Underwood, brother of Congressman Oscar W. Underwood, escaped from the fourth floor of the burning building by first sliding and then hanging in an elevator shaft and sliding to the ground floor. His only injury is badly lacerated hands. Mr. Underwood is superintendent of the electrical department of the Birmingham Railway, Light and Power company.

MEXICAN REFUGEE NOW WITH DAUGHTER AT BRENAU COLLEGE

Gainesville, Ga., May 8.—(Special.)—W. E. Lucas, of Tampico, Mexico, and Evanston, Ill., is spending the day at Brenau with his daughter, Miss Leonora Lucas, and talks interestingly of experiences in Tampico during the recent serious disturbances in that city.

When the attack was made upon Vera Cruz and the American vessels were withdrawn from their station in the river near the city and anchored several miles out in the gulf, the more lawless elements of the Mexicans formed a mob and began to shoot down the streets of the city for several hours, threatening the lives of the 2,000 or more Americans then in Tampico.

Many of the Americans were ordered to leave the city by the American consul and they were taken off in various foreign vessels. Mr. Lucas, with many others was taken off under the impression that there was to be a battle. He was very much pleased later to find he was en route for Galveston, where he was landed with no money and no friends from whom they could borrow.

Mr. Lucas has been in Mexico for fourteen years, the manager and part owner of a syndicate which controls large coal and oil interests in various sections of the country. He is now en route to Washington to represent these various interests and to give what information he may be able concerning the situation in the disturbed republic.

Miss Lucas is a member of the Brenau faculty in the department of romance languages. She speaks both Spanish and French fluently and is a graduate of Rrpn Mawr college.
