

WOMEN ARE DENIED PEACES WARDS BY COUNCIL GOING TO VETO

In His Veto, Which Was Sustained, Woodward Stated Law Would Make Commissions Unwieldy.

CHIEF OF CONSTRUCTION TO BE NAMED BY PEOPLE

Council Overrides Mayor's Veto of Resolution Giving It Permission to Break Board Deadlocks.

Atlanta women who desire to participate politically in the administration of the city's affairs saw their hopes blasted yesterday when the general council sustained Mayor James O. Woodward's veto of the proposed amendment admitting women as members of four chartered boards.

In his message to council, Mayor Woodward took the position that by adding five more members to the educational, park, library and board of public works, making the membership sixteen instead of twelve, these bodies would be made too unwieldy to be useful, and he pointed to his attitude in the recent charter fight as a precedent for his action.

When the mayor's message was read before council it was voted to appoint a committee of five to discuss the amendment in number, and which was the outgrowth amendment. Three members of the committee voted in support of the amendment. They took the position that while women should be allowed on boards, still they should not be added along with the twelve now provided by the charter, but should be made eligible to take the place of retiring members. The other members of the committee thought that women should be made eligible to take places on the board and serve whenever elected.

When the veto was finally ordered by council for vote it was sustained by a vote of 17 against 10.

Woodward's Explanation.

Mayor Woodward's explanation of his veto was given in a statement made at the city hall. He said that the amendment would add five more members to the boards, making the total sixteen. He said that the amendment would be a serious handicap to the city, and that it would be a great mistake to pass it. He said that the amendment would be a great mistake to pass it, and that it would be a great mistake to pass it.

55,000 RAIL MEN MAY GO ON STRIKE

5,000 MOTORS ASKED FOR GAS INVESTIGATION

Vote Being Taken on 98 Roads West of Chicago. Efforts to Settle the Trouble Have Failed.

Chicago, June 1.—A referendum vote as to whether the 55,000 engineers and firemen on twenty-eight railroads west of Chicago shall strike will be taken at once. This was the announcement of Warren K. Stone, grand chief of the Brotherhood of Locomotive Engineers, and W. S. Carter, president of the Brotherhood of Railroad Firemen, tonight after negotiations between the firemen and engineers and the general managers committee representing the railroads, had been broken off.

The railroads late today gave a final refusal to the demands of the trainmen for wage increases and new working conditions.

Mr. Stone said it probably will require about thirty days to complete the vote. In the meantime no further proposals will be submitted.

Negotiations have been going on here for nearly three months. The railroads involved include practically all the lines in the United States west of Chicago including the Illinois Central, Great Northern, Santa Fe, Union Pacific, Rock Island, Missouri Pacific, and others.

The general managers' committee in a statement said that the demands of the men would increase the payrolls of the departments approximately 10 per cent.

President of the State Board of Health—Funeral in Athens Today.

Macon, Ga., June 1.—(Special).—Dr. Samuel C. Benedict, of Athens, president of the state board of health of Georgia and conspicuous in Georgia medical circles for a great many years, died this afternoon at 3 o'clock at the residence of his wife.

Petition Filed With Council Asking Appropriation With View to Securing a Cheaper Rate.

The Gas Consumers' league, through City Electrician R. C. Turner, yesterday filed with council a petition signed by 5,000 registered voters urging the city to appropriate \$10,000 for the use of the Georgia Railroad commission to make an investigation into the affairs of the Atlanta Gas Light company.

The petition is the first filed invoking the initiative and referendum granted under the charter amendments which were passed up by the legislature last year.

The resolution accompanying the petition was referred to the finance committee to consider it. The committee to find the money to be used in making the investigation. The question will then be submitted to the voters at an election to be held probably in August to determine whether or not the investigation should be made.

RENOUNCES WORLD IN ORDER TO NURSE HIS LEPER COMRADE

Milwaukee, June 1.—When physicians at the Soldiers' home, at West Allis, definitely determined last week that an inmate, Vernon D. Bennett, was a leper, they called for volunteers to nurse him. Fred W. Curtenious, another inmate, has announced he would take the place.

Curtenious, like Bennett, served through the Spanish-American war. He is listed in the "books" at the home as "a laborer, a Protestant, unmarried and friendless."

In accompanying Bennett into the exile which the latter's isolation in a shed at the home means, he virtually renounces the world. Physicians say that in time he will probably contract the disease. Ten civil war veterans also volunteered to nurse Bennett. All were over 70 and too feeble, it was decided, to do the work.

BETTER FACILITIES FOR FIGHTING FIRES

Present Facilities of Local Department Criticized at Many Points in National Fire Underwriters' Report.

ASK INDEFINITE TERM FOR THE FIRE CHIEF

Additional Companies Declared Needed in Outlying Districts—Third of Hose in Questionable Condition.

The committee on fire prevention of the National Board of Fire Underwriters, which was sent to Atlanta last week, has just rendered its complete report on the city of Atlanta, recommends many important changes and improvements in the city's fire protection system.

The report criticizes Atlanta's fire-fighting facilities at many points. It states that the pumping capacity is inadequate, and that while pressure generally is well maintained, they are only fair in the congested water district.

The report gives Chief W. B. Cummings a clean bill of health as a capable fire chief. The department, however, the report says, is badly undermanned and supervision is not wholly satisfactory. Additional companies are needed in the outlying districts. The chemical engine is declared deficient. One-third of the hose supply is found to be in questionable condition. The report also criticizes the manner in which records are kept and found by the committee to be mainly satisfactory.

Financial Support Needed.

The department is in need of more financial support, declares the report. The department is in need of more financial support, declares the report. The department is in need of more financial support, declares the report.

Mediation Boat Roughly Rocked By Mexic Rebels

WIFE OF HUERTA SONS FLEEING MEXICO?

Reported That They Are Secret Passengers on the Steamer Ypiranga Which Sailed From Vera Cruz Monday.

Vera Cruz, June 1.—Coinciding with the sailing of the Hamburg-American steamer Ypiranga, from here late yesterday, General Carranza's headquarters at Durango, Mexico City and brought here by refugees, were circulated that Senora Huerta and her four sons were aboard the ship. The Ypiranga cleared for Europe by way of Havana. As she left the harbor the German cruiser Dresden unexpectedly hailed up her anchor and followed at sea. There was a report that the liner's destination was Puerto Mexico.

Neither Brigadier General Funston nor any other army or navy officer had the rumor that some of the Huerta family were aboard the Ypiranga. The steamer had sailed before there was any news to verify the report or to get a positive denial.

Elusive of Mystery.

A similar report of a more vague nature was in circulation Saturday, but it was not confirmed. There was an element of mystery, however, in sight locked rooms, originally reserved for Dr. Urrutia, the former minister of the interior, which were not otherwise disposed, although he had proceeded to the United States.

According to the reports in Mexico City, Senora Huerta and her sons went to Puerto Mexico several days ago on a special train, escorted by palace guards, aboard the Ypiranga. The Ypiranga was in the harbor during the steamer's stay in this port.

The question in circulation during the steamer's stay in this port, was whether or not the Huerta family was aboard the ship. The Ypiranga was in the harbor during the steamer's stay in this port.

Gen. Carranza and His Advisers Issue a Statement Sharply Attacking Work of the A. B. C. Envoys at Niagara Falls.

OUTSIDE INTERFERENCE WILL NOT BE TOLERATED ACCORDING TO REBELS

Declare They Have Conquered Huerta and Intend to Settle Mexic Problems in Their Own Way. Amazement Is Expressed at the Proposals of the Mediators.

El Paso, Texas, June 1.—A semi-official statement from General Carranza's headquarters at Durango, Mexico City, sharply attacking the work of the A. B. C. mediators at Niagara Falls, and an announcement from General Villa, declaring his allegiance as a military leader to Carranza, were the developments today in the Mexican situation. The situation arrived at Chihuahua City from Durango on his way from Juarez. Carranza's official action, although it was not a formal declaration, was not a formal declaration.

ABANDONMENT OF DOMINANT SENTIMENT.

The telegram, in part follows: "The dominant sentiment of the constitutionalists regarding the proceedings of the mediation commission at Niagara Falls is one of astonishment that there should be such an apparent lack of understanding on the part of that body, not only with regard to conditions in Mexico, but as to the attitude of the constitutionalists regarding the mediation. This lack of understanding is not confined to the commission members themselves, but seems to be shared by a large portion of the American press as well as by the government."

Judgments from what has been published from day to day, the mediators appear to consider General Carranza as a man of a negligible quantity, scarcely worthy of attention who, however, must be taken into consideration the commission may reach. They do not seem to be aware of the fact that the constitutionalists are conquerors, that they have inaugurated and carried almost to a successful conclusion a revolution, and that this means the establishment of a government worthy of recognition by the rest of the world. Recent successes of the constitutionalist army, and others that they are in a position to take the power of Huerta is practically a foregone conclusion. They are either run away or join their opponents with every sign of willingness."

DR. PICKARD CHOSEN PRESIDENT OF MERCER

Savannah Pastor Was Elected Over Dr. Landrum and Professor Sellers.

Macon, Ga., June 1.—(Special).—Dr. W. L. Pickard, pastor of the First Baptist church, was elected president of the Mercer county board of trustees tonight, after the board of trustees had spent three hours debating the question behind closed doors.

A wire was immediately sent to Dr. Pickard, who is conducting a revival meeting in North Carolina, asking him if he would accept. His friends here were not quite so sure of the result. The names of Professor J. F. Sellers, acting president of Mercer since the resignation of Dr. W. J. Jamison, and Dr. W. M. Landrum, of Louisville, Ky., were considered by the trustees.

One of the first ballot Dr. Landrum, of Louisville, Ky., received nine votes. Professor Sellers, and another candidate, eight votes, and Dr. Pickard, five votes. On the second ballot Dr. Pickard received twenty votes, while Dr. Landrum holding his original nine and Professor Sellers dropping back to three. Then a motion was made to make Dr. Pickard's election unanimous, which was carried.

Dr. Pickard, previous to becoming pastor of the First Baptist church at Savannah, was a prominent physician in the north and south.

Dr. Pickard, who accepted the resignation of Professor J. F. Sellers as pastor of the Mercer board of trustees, is in his place a business manager to handle the finances of the institution. The board will continue in session through tomorrow.

Dr. Pickard's election, the abolition of fraternities will probably be taken up tomorrow.

Less Than One Month's Work May Get You an Automobile; Special 200,000 Bonus Votes

The Constitution will give away the latter part of this month thirteen high-grade automobiles, ranging in value from \$1,500 to \$2,500 each. Also nine Ludden & Bates self-player pianos, valued at \$150 each. These prizes must be given away, and twenty-two prizes are given to secure these prizes.

The list of candidates as published in Sunday's Constitution showed startling conditions existing in the contest for the automobiles and other prizes offered in the big circulation campaign.

Which is just now beginning to get well under way.

Among nearly five thousand names which have been sent in as nominees for the high honors, only a few have shown any evidence of activity. This too, when the aggregate amount of awards exceeds \$25,000 or an average of more than \$1,000 for each of the nine districts.

With so little competition it would seem that the contest is a foregone conclusion.

Pass Prohibitive Tax On Bar Phenologists And Readers of Palms

A prohibitive tax of \$300 was placed on palm-readers and phenologists upon the recommendation of Chairman C. W. Smith and the tax committee, yesterday afternoon.

Some months ago Councilman Claude Ashley put through an ordinance which

prohibited palm-readers operating in Atlanta under any terms, but it is stated that recently a clause was inserted which prohibits palm-readers and phenologists from entering the city for the purpose of practicing their craft. The ordinance also includes a tax of \$40 on peddlers of fruit, produce, poultry or commission merchandise. The ordinance does not interfere with Confederate Veterans or farmers who peddle their own products.

MILLIONS TO PUSH VOCATIONAL TRAINING

Measure Authorizing Federal Grants to States Must Act to Secure the Appropriations.

Washington, June 1.—National grants to the states for vocational education are recommended in the report of the commission on national aid to vocational education, which was submitted to congress today. A bill authorizing these grants was introduced in the senate today by Senator Hoke Smith, Georgia, chairman of the commission, and in the house by Representative Dudley M. Hughes, of Georgia.

Seven million dollars, as a maximum annual appropriation for this purpose, is advocated by the commission. This amount is to be reached by a graduated scale in the year 1914 and is to be made annually thereafter. It is provided that in the year 1915, \$1,500,000 be appropriated and that each year thereafter a stipulated increase made until the maximum is attained.

This money is to be expended under careful federal supervision for the salaries of teachers, supervisors, directors of agricultural subjects and of teachers of trade and industrial subjects, and for the training of teachers of vocational subjects.

For Agricultural Teachers.
The group of agricultural teachers is recommended that \$500,000 be appropriated for the fiscal year 1915-16. This annual amount is to be increased at the rate of \$100,000 a year until a total of \$1,000,000 annually is reached in the fiscal year 1921-22. After that the increase is to be at the rate of \$500,000 a year until a maximum appropriation of \$5,000,000 annually is reached in 1923-24. This sum is to be distributed to the states in the proportion which their rural population bears to the total rural population including outlying possessions, according to the last preceding census.

For the salaries of teachers of trade and industrial subjects, a similar scale is provided. In this case the percentage of urban population is made the basis of distribution.

For the training of teachers of vocational subjects the sum of \$500,000 is appropriated for the fiscal year 1915-16, \$700,000 for 1916-17, \$900,000 for 1917-18, and annually thereafter. The percentage of urban population is made the basis of distribution.

To give the national government supervision over the expenditure of these grants a federal board of vocational education is to be created. It is to have power to supervise the states in carrying out the plan of the federal grants for vocational education, and reports with particular reference to the establishment of vocational schools and the training of teachers in vocational subjects. This board is to consist of the secretary of the interior, secretary of commerce and secretary of labor. The commissioner of education is to act as the executive officer. An appropriation of \$100,000 a year to finance its activities is provided.

What States Must Do.
To secure the benefits of these appropriations the state must accept, through its legislature, the provisions of the bill and create or designate a state board consisting of not less than three members, with power to co-operate with the federal board. The state board of education or other body having charge of the state or of the state board having charge of these matters may be designated as the state board for the purpose of this act. The state board must prepare plans showing the kind of vocational training for which it is proposed that the appropriation shall be used, the kind of school and equipment, courses of study, methods of instruction, and qualifications of teachers. These plans must be approved by the federal board.

Appropriations for salaries of teachers must be devoted exclusively to this purpose by the state board. For each dollar of federal money expended for this item the state or local community or both must expend an equal amount. The expenditure must be made under the plan of supervision set up by the state board and approved by the federal board.

To secure the benefits of the appropriation for salaries the state board must meet definite requirements in its plan for agricultural education. The education must be given in schools and classes supported and controlled by the public. Its purpose must be to fit for useful employment. It must be less than college grade and designed to meet the needs of persons over 14 years of age, who have entered upon or who are preparing to enter upon the work of the farm or of the farm home as a vocation. The state or local community or both must provide the necessary plant and equipment determined upon by the state board with the approval of the federal board. The schools must provide for directed or supervised practice in agriculture, either on the home farm or on the farm provided for by the school for at least six months a year.

Trade and Industrial Education.
Substantially the same requirements must be met by the state board for trade and industrial education. The plan for such education must not extend over a period of more than nine months in the year and not less than half of the time of such instruction must be spent in a commercial shop, useful or productive bank either in the school or in a commercial shop. One-third of the money expended for salaries must be applied to part-time schools or classes. Sixteen years of age must be the minimum age for entrance to the school. The plan of the state board for trade and industrial education must be given only to persons who have been employed in the line of work for which they are preparing themselves as teachers or who are acquiring this experience or contact as part of their training.

The state must appoint its state teacher as custodian of the federal grant. If any portion of the fund annually allotted to any state has not been expended for the purpose provided for, a sum equal to this portion must be deducted from the next succeeding annual allotment. The federal board may withhold any allotment whenever it shall appear that the money is not being expended by the state for the purpose provided. If any portion of the money received by the state custodian is diminished, lost or misapplied, it must be replaced by the state. Until this law is in effect no appropriation will be made to the state. No money shall be expended for the purchase of land, or for the purchase or rental of land.

Precedent for Speed and Economy.
For speed and economy in preparing this commission has established a precedent. It has made its report on time. It has made its work in less than two months. Or an original appropriation of \$150,000 has been secured a substantial amount.

The commission was created on January 25 with instructions to consider the subject of national aid to vocational education and to report its findings and recommendations not later than June 1. It organized April 2 by electing Senator Hoke Smith, of Georgia, as chairman. On April 17, Ernest A. Wreidt, director of the Public Ed-

ucation association, New York, was appointed secretary. The full commission met practically every morning thereafter. Subcommittees of the five non-congressional members was in session every afternoon and frequently at night. Despite the limited time at its disposal the commission made an exhaustive study of the subject through questionnaires, public hearings and bibliography. The members of the commission served without compensation.

Members of the commission are: Senator Hoke Smith, of Georgia; Senator Carroll S. Page, of Vermont; Representative D. M. Hughes, of Georgia; Representative S. D. Fess, of Ohio; John A. Leno, director Indiana bureau of legislative information, Indianapolis; Miss Florence M. Marshall, director Manhattan Trade school, New York; Miss Agnes Nestor, president International Gloveworkers' union, Chicago; Charles A. Prosser, secretary National Society for the Promotion of Industrial Education, New York; and Charles H. Winslow, special agent, bureau of labor, Washington.

A Thousand Cool White Waists at \$1.00

We will not tell you they are \$1.50 and \$1.25 waists according to the Chamberlin-Johnson-DuBose Co. standard; we have prettier waists at those prices.

But we will ask you when you have seen daintier, smarter styles at \$1.00. We never have!

Twenty styles to choose from—buy by the half dozens and dozens, for waists go hand in hand with summer comfort and style.

Voiles, Crepes, Dimities, Linenes

Embroidered voiles, voiles with colorful flower designs, plain crepes, striped dimities and dotted dimities, linenes in white and natural shades. Long sleeves, short sleeves, three-quarter length sleeves; collars as cool as they are stylish—that turn back from the neck, the flat, that stand out at the back—sometimes of sheer organza; again showing a touch of color; again with an insert of lace or embroidery or plaiquot edged.

See them!

For the White Sale \$1.50
250 Waists at

Six styles—each one individually attractive. Mostly voiles—with fronts so embroidered that the work looks much like handwork. Others with embroidered dots over them. Others with fine, soft laces, dainty as can be. All fashioned in the loose, blousy style. They will not stay long, once women see them.

For the White Sale \$2.25
New Waists at

Here is one of cream white voile, with lace set in the front panel with hemstitching; another with a band of shadowy lace extending across the front and back into the half-length sleeves; another with scalloped collar; another with embroidered design in front and back.

Values that command a woman's interest.

Something New--The Coat Cape \$15 to \$25

We are now showing the novelty Coat or Cape, as you please, for those who will travel this summer.

Usually it is of a light, firm serge and is styled variously—perhaps in a tunic effect or plain. It has a vest at one time white, again in green or black-and-white striped silk.

The most distinctive style that has been brought in some while. Smart women will appreciate its novelty.

HOOPER ALEXANDER GIVES TO STUDENTS EXAM LASTING WEEK

United States District Attorney Hooper Alexander has made a new record for the giving of final examinations in the Atlanta law school. He gave Monday to his class on "Constitution Law," an examination that will

last a solid week, allowing the students to take the examination home with them. He finished classes at 11:30 Monday, signing a pledge that he would not receive from fellow students or from outside persons. He said, however, involving practical questions relating hours and hours of investigation in digesting law, encyclopedias and judicial decisions, that they could easily spend the entire week in working out the examination and then not exhaust the investigation. He said

that he would allow them the whole week, so that each man could put just as much time as he desired into it. Both the junior and the senior classes are in the midst of the examination and the graduation exercises of the term on June 15.

HATCHER SUCCEEDS RICH ON BOARD OF EDUCATION

W. H. Terrell Opposed for Re-election But Wins Place Over V. O. Rankin.

Harvey Hatcher, ex-councilman from the second ward, was elected by council yesterday to fill a place on the board of education caused by the retirement of Walter Rich, and elected W. H. Terrell, of the first ward, to serve another term. Six-councilman Hatcher's name went before council unopposed, but a contest was started against Commissioner Terrell when Councilman Colcord offered the name of V. O. Rankin in opposition to the first ward delegation choice nominated by Alderman Beawright. Terrell received 15 votes and Rankin 12.

KNIGHTS OF PYTHIAS CONFER PAGE DEGREE

The degree of page was conferred by Atlanta lodge, No. 15, Knights of Pythias, last night at a large and enthusiastic meeting. At this meeting also the following officers were elected for the ensuing year: Young H. Frazer, chancellor; commander, Otto A. Morris; grand master, J. H. Turner; prelate, A. A. Craig; recorder, J. H. Turner; treasurer, F. O. McKee; master of finance, F. J. Ridge; master of arms, Rev. Russell K. Smith; master of work, C. D. Mayers; inner guard, G. Goethe, outer guard.

AT LAST RAIN COMES; MORE EXPECTED SOON

Weather Prediction for Today, However, Is "Fair With Temperature Not Over 90."

There was a big shower yesterday that hurried pedestrians to shelter and drenched those who didn't. It lasted for thirty minutes in the morning, after which the sun broke through the clouds in all the splendor it has shown for these past many days of dry weather.

It was only a summer shower, however, and not near enough to satisfy the parched and thirsty soil of the territory that has been held so long. Weather Forecaster von Herrmann stated that the probabilities were that rain would fall sporadically for the next few days.

The following is the latest weather prophecy: "Fair weather is predicted for Tuesday, but the drift of air will be from the north, and the temperature during the day will not be so high, probably not exceeding 90 degrees. Some cloudiness is expected."

Strikers Say Only 100 Of 1,800 Operatives At Mills Are at Work

That only 100 of the 1,800 operatives employed by the Fulton Bag and Cotton mills are now at work, on account of the walk-out at the mills, which began about three weeks ago, when over eight hundred operatives were discharged, was declared Monday morning by labor leaders at an experience meeting of the strikers. Some 400 strikers were present at the gathering, which was held in the Odd Fellows hall, on Moore street.

Mrs. Alice Simpson, an operative, told of being insulted while at her machine by one of the men in charge of the plant, who, she said, brushed rudely against her. Mrs. Alice Carlton declared that she also had been working for the company thirty-six years—ever since she could stand on her own work—and that the officials told her she was the most skilled worker in the mill and one of the strikers in the establishment, but she testified that she was making only \$1 a week and had barely ever made more. Mrs. Julia Church testified to practically the same thing, only she had been working thirty years.

Charles A. Miles, of New York, general organizer of the American Federation of Labor, and Mr. J. H. Beavers, well known Atlanta labor leader, were principal speakers among some fifteen.

The speakers told of the aid offered the strikers by some of the labor organizations in the city and the rapidly with which others are coming to their rescue.

They declared that Police Chief James L. Beavers had refused to arrest any striker for talking on the streets, and had told the strikers that if they were arrested for such by an officer they would just have a free automobile ride.

S. B. Marks, president of the Georgia branch of the Federal Union of Labor, said the mill officials declared they would refuse to pay the strikers' wages, even if headed by Governor John M. Slaton. Some of the women testified that they would never return to the Fulton mills where they had been men were in charge.

Another operative said she will hold another experience meeting this morning at 10 o'clock at the Odd Fellows hall. The socialists of Atlanta will hold a syncretistic meeting in behalf of the striking textile workers next Wednesday night on the lawn of the Temple of Labor, at 112 Trinity avenue. The strikers have been invited and a colony of socialists of South Bend will also be present. Addresses will be delivered by Charles A. Miles, a prominent socialist of New York, and Mrs. Minnie Wyman, who is connected with the socialist party of Cleveland.

Police Chief's Action Sustained by Council Over Lee's Objection

As the result of a tilt he had with Chief James L. Beavers, of the police department, Councilman Jesse B. Lee offered a resolution in council yesterday urging the police board to make an investigation of the chief's action in the matter of placing police protection around the property of the Fulton mills where a strike is in progress. Council voted against Councilman Lee's resolution, members taking the position that in view of the fact that the police are being called on to preserve order that now is not the proper time to indulge in personal differences. The resolution was tabled.

It will be recalled that Councilman Lee took exception to Chief Beavers sending men to guard the mills during the strike. He called on Chief Beavers and asked him to withdraw the police, and when the chief refused, Councilman Lee demanded to know by what authority the police were being loaned to a private corporation to preserve its property. Apparently, the interview with the chief did not satisfy Councilman Lee, so he took the matter to council with the above result.

METHODIST CHURCHES ARE PLANNING REVIVAL

The Methodist churches of the city are planning an evangelistic campaign of six weeks' duration to be held in the near future. The plan is tentative, but will probably include a series of meetings at the Methodist churches with sermons by the leading evangelists of the country.

EXPOSITION PHOTOS ATTRACT ATTENTION

The J. M. High company is exhibiting in the Whitehall street window a framed photograph of the French Market coffee as was made at the Atlanta exposition in 1885, and a framed duplicate of the gold medal awarded to the New Orleans Coffee company, of New Orleans, at the same time. These pictures are attracting much attention and being back to many the remembrance of that great exposition.

Sues Former Marshal

In the United States court yesterday, Judge Newman presiding, a suit was filed for personal damages filed more than a year ago by Bob Heath, late marshal of Lawson county, against Walter H. Johnson, then United States marshal for the northern district of Georgia, and the United States Fidelity and Guaranty company, his official bondsmen, was put on trial. A jury was secured during the morning, and several witnesses were presented. The plaintiff, Bob Heath, sets out in his papers that on March 22, 1913, Marshal Johnson sent W. S. Kemp, one of his deputies to Dawson county to arrest him. While the prisoner was being conveyed to the Ellery jail, he asserts that one of his legs was crushed and that he was otherwise permanently injured because of the careless driving of Deputy Marshal Kemp, who had him in custody.

Handsome Mid-Summer Suits of Linen, Palm Beach, Poplin, Shantung and Pongee Silks

Attractive models, beautifully made and trimmed in a variety of fabrics such as you would naturally expect to see in a Shop like this which features the uncommon in both style and materials.

The experimental stage of men's washable fabric suits for hot weather has been passed. We are now confronted with a demand, a permanent one, in our opinion, so great that even our second supply this season has been practically exhausted.

This feature of the clothing business has given us an unlimited opportunity—kind of a coming into our own, as it were—for creating and showing uncommon ideas, advanced styles and exclusive fabrics in ranges and sizes which no other store has yet attempted. Ours is the Shop

and has just the proper environment for the successful selling of these specialty lines and the opportunity, you may be sure, has not been allowed to pass.

Today we show more than five hundred new suits of various fabrics and in many styles that you will certainly not find elsewhere. Materials that are new to you—uncommon—styles that haven't been shown before, as well as the more staple and conservative styles, with sizes to fit any man who happens to walk in our door.

Here's a list of the fabrics and the price range, with a suggestion for the best means of Laundering.

Cotton Pongee, rich golden sheen (washable)	\$ 7.50 to \$ 8.50
Palm Beach, the imported quality (dry clean)	8.50 to 10.00
Linen Crash, white and unbleached (washable)	8.50 to 10.00
German Linen, natural unbleached (washable)	8.50 to 12.00
French Linen, white and unbleached (washable)	12.50 to 15.00
Irish Poplin, snow white (dry clean)	13.50 to 15.00
Japanese Togo, pongee looming (dry clean)	13.50 to 15.00
Pongee Silk, various styles (dry clean)	18.00 to 22.50
Shantung Silk, hand loomed (dry clean)	25.00 to 40.00
Silk Alpaca, dark colors (dry clean)	18.00 to 20.00
Tropical Mohair, dark colors, silk lined	15.00
White Flannel, single and double breast	12.50 to 20.00
Blue Flannel, coats only, double breast	11.50
Flannel and Serge Trousers (dry clean)	5.00 to 8.00

Extra trousers to any of the above suits can be had at about one-third the cost of a two-piece suit.

As a fitting complement to the mid-summer suits, we have provided a striking array of hats, caps, shirts, neckwear, belts, hosiery, underwear, soft collars and the like, which are particularly adapted and in perfect harmony with the ensemble.

No single item of news was read with more interest than the statement of former Governor John M. Slaton for the Senate, that he would not support Governor John M. Slaton for the senate. However, among those who realize that the governor is a man of high character and high ability, there is a serious question that he would make it his duty to support Slaton in this race. The question now is: Will Slaton, against the opposition of Smith, or will he enter the gubernatorial race? He is receiving letters urging him to do so. He is confident that he will be elected, and he has predicted as the date when he would be elected, the date of the announcement. Well, June 1, will come and all he has said in what he will do, will be done. He will not go a step further and say that he will

CLIFFORD WALKER ENCOURAGED BY REPORTS HE IS RECEIVING

While Clifford Walker, of Monroe, candidate for attorney general, is not making any campaign at all, he is being covered ground about as fast as any candidate could be won before Georgia voters. In addition to having visited many counties in middle and north Georgia, Mr. Walker has been in every county in the Florida line and many of those adjoining them. He goes on all the time, not only meeting and shaking hands

people, but is forming organizations to look after the interests of the people.

"Everything looks good to me," said Mr. Walker in passing through Atlanta to fill his duties as governor. "I have been in every county in the state from the Florida line and I am satisfied from what my friends tell me down here I am going to win very easily."

"I have the greatest confidence in the outcome, but in any event, all the end of the campaign will be to get the required majority of the state of Georgia which would be invaluable to any citizen of the state."

Discovered.

THE CRACKERS seem to have uncovered a coking good twister in Matt Williams, the big right-hander from Washington. He uncorked a great game Monday in Montgomery. He deserved a shut-out. Errors permitted the lone Billie run. Four hits, two of them scratches, were all the Billie could collect.

TODAY'S game in Montgomery will be called at 3 o'clock to allow both teams to catch a train for Atlanta. Callier King will be at his usual place.

Try to Please.

WE TRY to please our readers. We have received so many letters of late regarding Whiffs, and such a general demand that they be resumed, that we are going to do our best to keep a column going every day. But there has been so little doing that was worth whiffing that we passed it up.

Crackers' Chances.

BILL SMITH and his boys are fast becoming the new stars of the Southern league rag. We make this statement after a perusal of the standings one year ago. On June 1, 1913, the Cracker had won 31 games and lost 24. This year, won 20 and lost 32. Little difference. They are 129 points from being the first-place team this year. Last year, standing two places higher in the percentage table than they are today at the same time, they were 141 points behind the first-place team. What's your hunch?

The Winning Stride.

THE LOCALS struck a fairly benign clip during the month of June, last season. They won 13 games, lost 10 and tied 2, but it was not until July that they struck their real winning stride. Let's see what they do this month of June, and then we'll be in position to judge just what our chances are for finishing high in the race.

Two Good Buries.

THERE are many who think the Crackers have many weak points, and we're not going to argue with them on that score, but we believe that if it

Want to Know.

IT'S UP TO JUDGE KAVANAUGH to issue definite instructions to his umpires regarding the daily chasing of George Kavanagh by the fans in the other towns in the league. He has seen brave roasts the umpire when they chased him. Judge Kavanagh wants to get wise to himself and see that he is making enemies of the towns he is visiting. He is a good old man, but that he is chasing dollars away from the box office, by refusing to allow fans to get close to him. He has been introduced around the league and he has been chased by the fans. The city who go just to see his antics.

Watch them.

OUR TIP now is to watch Bill Schwartz and his Nashville Vols. Bill has collected a formidable following. He is that playing good team ball.

splendid fielding team, and one that even if it is hitting above its stride, is hammering that old pellet timely and hard. He is the first catcher in the league. Gibson, four good twirlers in Moore, Berger, Boland and Kroh, a good outfield in King, Callahan and Sloan, and an average infield in Hemingway, Lindsey, Williams and Paulet. Our tip is to figure on the Vols when you're figuring on the first division occupants if not the pennant winners.

Another Cause.

THE MASCOT of the Crackers, Dick

Demison, r., may be another cause that they are not winning. The youngsters have been so busy cutting teeth for the past month that he has had little time to pull for the team. But he pulled across 19 out of 21 victories at the talent and of last season, and he says he's going to get busy and root that Jimmie shortly.

Watch Him.

THE COLFERS of the south, and especially those who will start play in the southern golfing tilt at Memphis today, had a bad omen to watch on one William E. Rowan, from Atlanta, during this tournament. Our dope chief Bill is that if he were able to play offense, that he does that he would be a real force over the entire field.

Playing at twice a week now, he is better than any golfer in Atlanta. His preliminary round at the Memphis Sandhills was a 77, looks good, and he's the man that these other cracks had better watch when they are figuring on the championship this year. Stick to it in this prediction.

Send Correct One.

WE HAVE received numerous letters from fans in the towns in the Georgia-Alabama league inclosing standing of the clubs, that they desire us to insert references to them. The Constitution carries, which they claim is wrong. Standings should add the same number of games on the won and lost column as to those that have not yet received have. Wires to President Boy

kin, of the Georgia-Alabama league asking for a correct standing, have been ignored, and we're going to rectify along with the standing. We have until someone in connection with the league has the courtesy to at least answer the communication sent them, or sends in a correct standing.

EXECUTIVE COMMITTEE
FOR TECH CAMPAIGN

Representative Citizens Agree
to Lead Movement for
\$500,000 Fund.

The progress of the greater Tech campaign was apparent yesterday at the luncheon meeting at the Piedmont hotel, when an exceptionally strong body of business men of Atlanta agreed to serve as the executive committee for the campaign.

They are: J. R. A. Hobson, chairman; R. M. Atkinson, J. M. McBurney, W. H. Krieger, Captain J. W. English, Brooks Morgan, W. T. Gearty, Allen Johnson, W. L. Post, David Woodward, T. K. Glenn, Mail R. Wilkinson, George Baldwin of Savannah, Walter F. Andrews, A. R. Colcord, Charles J. Haden, R. A. Carter, P. R. Arkwright, J. T. Holloman, J. E. Fisk, W. W. Orr and J. W. Patterson.

The meeting was enthusiastic and well attended. There were present thirty of the most prominent business men of the city, who enlisted heartily in the spirit of the movement. Although no work of solicitation has yet been done by the committee, several large subscriptions have already been made and will be announced shortly.

Another meeting Tuesday, June 2, in a private dining room at the hotel, will be held. The meeting will be organized and the work of each assigned.

Dr. K. G. Matheson, president of Tech, called the meeting to order and announced the selection of Mr. Hobson as chairman of the executive committee. Dr. Matheson briefly thanked those who were in attendance for their presence, and expressed his confidence that the campaign will succeed. "There is too much at stake not to win," he declared, "and I am sure that all of us realize that it will take work, but we have the kind of men interested who are willing to work, who are able to do the work and who are accustomed to success."

In accepting the position of chairman of the committee, Dr. Matheson said that he was able to give more of his current time to the station and school others whom he considered more capable than he.

He believed that it will have the active cooperation of the most and what hopes would make certain the success of any movement.

The committee, the work will be appointed as the executive committee. The success of the campaign depends upon the cooperation of the city to begin with, stated Mr. Hobson.

Eighty men have agreed to serve on the executive committee. A luncheon meeting will be held Tuesday at 12:45 P. M. in room 123 of the Piedmont hotel. There the organization of the subcommittees will be completed, and the campaign for subscriptions will begin in earnest.

Although no efforts have been made as yet to secure subscriptions, a fund, it was announced Monday that a number of them aggregating a considerable amount, had already been received.

EAST ATLANTA SEEKING
FIRE HOUSE AND SCHOOL

At a big open-air meeting held by the East Atlanta Improvement club last night, great impetus was given for improvement of the East Atlanta district, especially in the direction of erecting a fire house and a school building.

A. Minor, chairman of the club, spoke upon what the club has accomplished in the future. J. W. Brittain, of the city construction department, spoke upon the city's plans for improvements in the East Atlanta vicinity. H. C. Blake, chairman of the need of better school facilities, spoke upon the need of a new school building in the East Atlanta vicinity. J. C. Miller, county commissioner-elect, J. C. Carpentier, candidate for mayor from the ninth ward, and W. S. Lottie, Jr., spoke upon the need of a new school building in the East Atlanta vicinity.

CONSTRUCTION OFFICE
CHANGES ARE APPROVED

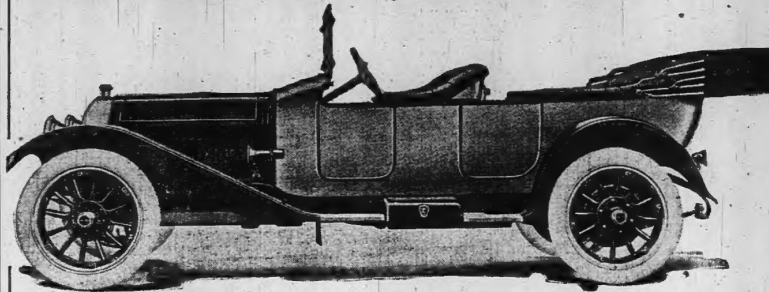

Chief R. M. Clayton, of the construction department, submitted to council Monday for approval the changes in the personnel of his staff made necessary by the resignation of W. A. Hanes. J. C. Miller, county commissioner-elect, J. C. Carpentier, candidate for mayor from the ninth ward, and W. S. Lottie, Jr., spoke upon the need of a new school building in the East Atlanta vicinity.

FIGHT TO OPEN FRIDAY
ON THE FRANK VERDICT

It was announced from Solicitor Dwyer's office yesterday afternoon that there were no prospects for a further continuance in the trial of the man outside the Frank verdict, and that the trial would begin Friday at 10 o'clock before Judge Ben Hill.

The action was based upon a mass of evidence bearing on the motion, and has arranged his master-showing. Summons affidavits have been made for him by court officers and attached, and will be used in his fight to prevent the verdict being reversed.
