"BLIND LADY"

Diva Schumann-Heink Intensely Interested in Loving Phrases Her Husband Showered on Alleged Affinity.

RAPP AND MRS. DEAN SEEN HOLDING HANDS

And Sitting in Each Other's Laps—Rapp Also Wore an Apron and Washed the Dishes for Mrs. Dean.

Chicago, June 6.—A letter purporting to have been written by Mrs. Catherine K. Dean, of New York, to Madame Schumann-Heink, the famous German singer, was the subject of a sensational story in the Atlanta Journal. The letter, which was signed "Blind Lady," was said to be a love letter from a woman who was blind and who was in love with the singer. The letter was said to be a copy of a letter which had been written by the "Blind Lady" to the singer, and it was said that the singer had been very much interested in the letter. LITTLE JOE BROWN SPEAKS AT LAST

In Very Few Words, Which Cannot Be Misunderstood, He Tells Just Exactly What He Is Going to Do.

For weeks and weeks the press of this state and the politicians—which means every male person of age in Georgia, for they are all politicians this summer—have been asking the question: "What is Little Joe Brown going to do?"

Following his announcement that he would not oppose Governor John M. Slaton for the short term, some further statement from him has been momentarily expected.

It has come. It is Joseph M. Brown has actually spoken. He has told what he is going to do, and it did not take him many words to tell it. It is one of the shortest statements on record, and there is no doubt meaning in what he says. It is definite, clear-cut, convincing (as the dramatic critics would say), and it is what he had to say in substance.

It is what he has to say in substance. It is what he has to say in substance. It is what he has to say in substance. It is what he has to say in substance. It is what he has to say in substance.

Dancing Partners Held After Loss Of a Lavalliere

Police Say Jewelry Disappeared After Visit of Al Wright to Home of Atlanta Woman.

Al Wright, alias Van Meter, a dancing master, and Miss Nina Dowling, a dancing partner, have been arrested in connection with the disappearance of a valuable diamond lavalliere from an Atlanta woman whose name is being withheld.

The owner of the lavalliere, a married woman, met the handsome dancing master about two weeks ago at a local dancing club, and it is said, invited him to her home to teach her his art.

It was after this visit that the valuable piece of jewelry disappeared. The professor is charged with having stolen the lavalliere, a married woman, met the handsome dancing master about two weeks ago at a local dancing club, and it is said, invited him to her home to teach her his art.

ORDER CAUSES NEW CRISIS AND MAY AGAIN INVOLVE THE UNITED STATES IN A CLASH WITH HUERTA

PORT DECLARED OPEN BY THE UNITED STATES

Huerta's Gunboats Leave for Tampico and Are Trained by U. S. Warships Tacoma and Sacramento.

Mexico City, June 6.—The foreign office sent a note to the legation this afternoon notifying them that the port of Tampico had been blockaded by order of President Huerta. The United States government was also notified through the Spanish minister at Washington.

Caused a New Crisis. A new crisis in the Mexican situation developed late tonight when two Mexican federal gunboats closely trailed by two American gunboats, the cutter Tacoma and gunboat Sacramento, steamed from Puerto Mexico for Tampico to enforce a blockade of that port decreed by General Huerta.

No specific orders have been given, the American commanders merely having instructions to keep the Mexican boats under surveillance, but it is known that Rear Admiral Bland has been advised that the United States government regards Tampico as an open port and desires that there be no interference with commerce there.

Notice of General Huerta's decree was given formally to Secretary Bryan in the night by Señor Nino, the Spanish ambassador, who represents the Huerta government here. This is the first time that the decree has been made public.

How far the decision of the Washington government to see to it that Tampico is kept an open port will go toward preventing interference with the export of arms for the Mexican constitutionalists, no official would discuss tonight.

The steamer Albatross, with a cargo of war munitions, is due at Tampico Wednesday; the federal gunboats Albatross and Albatross are leaving Puerto Mexico tonight by Admiral Badger should arrive there Monday.

Admiral Bland has given due consideration to the possible effect suppression of the proposed blockade may have on the mediation conference at Niagara Falls, and opinion on the subject is said to be sharply divided.

Orders will be issued tonight, the only comment of Secretary Daniels. Secretary Bryan was not awakened to see to it that Tampico is kept an open port will go toward preventing interference with the export of arms for the Mexican constitutionalists, no official would discuss tonight.

DAVID C. BARROW MAY OUT-GEORGIA

Chancellor Intimates at the Faculty Meeting That He Will Send Resignation to Trustees in 1915.

Athens, Ga., June 6.—(Special.)—This afternoon at a faculty meeting of the University of Georgia, the chancellor, David C. Barrow, intimated that he would send his resignation to the trustees at the next meeting in 1915.

There was considerable discussion of the chancellor's intimation, and it was generally believed that the chancellor was not serious. The chancellor, however, is said to be a man of his word, and it is possible that he will actually resign in 1915.

Monday--A Special Sale of Embroidery Remnants at Half Price

These sales always bring hundreds of buyers early—as soon as the doors are opened, and the counters are cleared entirely by nine o'clock. That's what happened the last time.

This time there is every kind of Embroidery to choose from: Swisses, cambrics, nainsooks, voiles, etc., edges and insertions, ribbon headings, seam headings, flouncings, corset cover embroideries—dainty kinds for babies' wardrobes—all widths, from 1/2 to 27 inches—and ranging from 3/4 to 2 yards.

A Sale of Wanted Laces at 39c Yard--Values to 75c Yard

They are the laces most in demand now—Shadow Lace Flouncings, 18 to 24 inches wide—and Cameo Laces, 15 to 18 inches wide. Various patterns to select from—priced regularly up to 75c yard—special for Monday at 39c yard.

Embroidery Skirtings at 49c Yard--Values to 75c Yard

These are specially popular now, for children's summer dresses; they are 25 inches wide, very dainty embroidery with lace bands inserted, and finished at bottom with lace edge. Priced here regularly up to 75c yard—special for Monday at 49c yard.

"It is the month of June,
The month of leaves and roses,"

And the woman who appreciates the true fitness of things will use this—

Jacqueminot Rose

A Remarkable Special Offer on Sewing Machines for Monday

We are going to sell FIVE regular \$66 central needle, "sit-straight," "Standard" Rotary Sewing Machines at \$37.50.

THREE \$40 ROTARY machines at \$29.50. (The \$40 machine at \$29.50 is not a central needle machine.)

An offer worthy of careful thought on your part.

With a ROTARY machine there is no lost force; every foot pressure counts for power, and in the time that other machines make four stitches the rotary kinds make seven. Add to this their many new devices for sewing better or more easily and their strong, light-running construction, and you see why so many women do their home sewing with their aid.

Our method of selling, from the factory to the customer, eliminating the middleman's profit, is the reason we can offer you, at \$29.50, machines which sell in other retail channels at \$40.00; and other values equally great.

If you are at all interested in a machine, we suggest your coming early Monday, to make sure of getting one of these at the special price.

A Saving Word to Women About Summer Dresses

New Dresses—Distinguished and Most Artistic, Have Just Arrived

They Are Going Out at the Most Remarkable Special Prices Monday

Mainly Long Tunic Styles

To those who are planning for the long summer holiday, with its need of airy frocks—we would like to say, you can buy here, tomorrow, the best and most charming Dresses we have ever offered you at such modest prices.

They are every one new, and the last word as to style, fabric, color tones, etc. Many beautiful novelty Dresses, of which there is only one. Just such as will be needed for many occasions of summertime wear, at home or abroad. Those who share them must buy early Monday—for we believe there is not enough to last the morning through.

There are two collections, at two prices. And—let us add—these prices are the lowest we have ever put upon dresses of such value—prices only made possible by a special purchase of our buyer, who has just returned from market. But—

Share these tomorrow:

Dresses at \$5.75; Dresses at \$15

Those at \$5.75 are sheer, cool, airy little frocks of such materials as crepes, voiles, plain and novelty silk stripe voiles, fancy weave rice cloth—so many different styles that to tell you of all is impossible—but we invite you to see them all, and to make your selections from them. There are also in this collection some stylish three-piece suits of ratine. No end of long tunic dresses of fascinating styles.

Those at \$15.00—Dresses of beauty and elegance—and when we say that we know that it comes far short of expressing their real charm.

The fabrics are exquisite, and the color tones just such as fashion has decreed for the season. Mainly long tunic dresses; soft, beautiful crepes in lettuce, maize, pinks or white with color touches. Some very dressy dresses among them are of white crepe de chine with long tunic that make them really wonderful at this price. Many of them—had they been bought in an ordinary way—would be priced to you Monday at \$35 and \$40—as it is, you may choose from them and pay only \$15.

SUITABLE COSTUMES *for the* RESTAURANT DINNER

THE standing figure on the left wears a Dresden crepe of white and colored roses, elaborately washed with Japanese blue, in bustle effect. The waist is bolero one, with long V of organdie net or shadow lace. Brilliant glass buttons placed close together fasten the waist in the back. The three ruffles are edged with narrow frills. The skirt is five inches from the floor, showing smartly cut pumps. The hat of tango yellow leghorn, is trimmed with cherries and black velvet ribbon.

The central figure wears the new velvet basque. It is close fitting, with high lace collar and soft chemisette of white. The skirt is of mahogany organdie, with three pleated flounces. The edge of each flounce has a rolled hem or binding. The corage rose is a charming addition. It relieves the plain effect of the basque, which is called the Riviera basque. A hat designed to show the hair and ears, tilted smartly on one side, is trimmed with tiny flowers of various delicate shades.

The figure standing by the curtain wears another beruffled dress. This ruffling is of lace. Four flounces are placed at becoming intervals around the skirt, beginning about nine inches from the waist-line. The Riviera jacket is of the unique design suitable for fancy silks, crepons and cottons. This jacket is of closely woven Japanese crepe. The chiffon poplin, which is edged with rose quilling of fringed silk, is cut about fourteen inches deep. This is also of Japanese blue to match the jacket. The hat is a milan straw, trimmed with roses and wide ribbon.

PTER XVIII.

There came a knock, and a new nothing of his plans. She recalled all that happened before in her warfare to regain possession of the stolen papers, seeing the hand of a guiding Providence in the events that followed, and she knew that she had made from what appeared certain death.

The car leaped like a living thing through the streets of the city and then doubled upon its tracks so that she might have no chance to plan her escape. She knew that she was where her ultimate destination was. Lucille studied her captor from under cover of her heavy lashes. She could see but little of the face for the heavy mourning veil covering it. She only saw the eyes, which appeared to be uninterested, saw her portion of the work assigned to her had been carried through. It seemed as characteristic attitude of all who worked for the cause. There were no smiles, no glances, but only the master's stern, obedient, but

with which she was embowered here came upon her, and she was startled to find that the man had disappeared. Hopelessly, she waited. It was half an hour before he turned and shot a swift glance toward her. Then she realised that he was wise enough to make his place known to her by a gesture casual, by not passing the place often, but frowned impatiently as she shook her head and turned and passed on with a significant glance toward the house.

It was in their little locked room that she had, the store the blank strip off the top of the newspaper page, tore it so that the headline regarding Lieutenant Gibson appeared beneath the word "MIRACLES" in mirror, lay there fastened. Meticulously in the lower corner of the page when she withdrew them a tiny drop of red blood appeared upon the delicate skin. If she had had a pencil or pen, something to write

Her moaning loudly answered him. The tightness of her dress was a torment.

"Answer!" His voice was hoarse with repressed passion. "Tell me the truth or—"

"You will break my heart, I presume. I seem quite in your line, sir." The gilding in her eyes made her smile a little more than the cry of mingled apology and chagrin.

"Come," he said quietly, his tones still dry and cold and hard. "Come, young lady. I know you understand the papers and the news, and I must have a few horrible things to tell you."

He did not wait for her to speak, he touched her arm and assisted her to the top of the stairs.

He stirred slightly. Came the white messenger, almost as if by magic, and found more the room was in motion, going up this time. She closed her eyes instinctively, for the mystery of it all. When she opened them once she was in the place of the first one.

"You have too many friends, Lucille," murmured, a hint of the same admiration in voice that she had caught earlier in his eyes.

"Yes," he murmured, after a moment's silence. "You are also a very popular person among the prisoners. I think, while the search of the packet is going on, it would have scarcely occurred on our considerations to move you to the ranch on your ranch in Montana. A beautiful day, he smiled. "I trust you will enjoy it as much as I have."

Lucille looked at him steadily. In the glow of both glowed an indomitable purpose, a certain determination to see the day when, once more, this time grimly.

"Honors have been too even till now. I, the ranch will settle the rubber satisfactorily as any rate, satisfactorily to me."

BAPTISTS WILL HOLD MASS MEETING TODAY

A mass meeting of the Baptists of Atlanta, which will be an aftermath of the great religious campaign conducted

at recently in the Baptist churches of the city, will be held this afternoon at the Auditorium-Armory, beginning at 2 o'clock.

A chorus of nearly a thousand voices under the direction of Chorister Beaman, of the Baptist Tabernacle, will furnish the music. Dr. M. A. Kraft, the city organist, will preside at the great organ, which will accompany the chorus.

The services will be led by Dr. W. W. Bruner, head of the evangelistic de-

partment of the home mission board of the Southern Baptist convention. Dr. Lincoln McConnell, pastor of the Tabernacle, will make the final evangelistic appeal of the campaign.

The chorists, Sunday schools and other religious organizations connected with the Baptist churches of the city will attend the mass meeting in a body. Special cars have been chartered for the occasion by the city and the Auditorium-Armory will be filled to its capacity.

Collier Storstad Which Sank Empress of Ireland

What will the government inquiry into the Empress of Ireland disaster be? The vessel is responsible, the ill-fated Empress of the Northwest collier, which rammed and sank her? Captain R. G. Kendall, of the Empress, placed the blame on the Storstad while testifying at the coroner's inquest at Rimouski, where the wrecked and the bodies recovered from the river were

taken. Captain Thomas Anderson, of the Storstad, denied this and places the blame on the Empress. When the Storstad reached Montreal under her own steam it was seen that her bow was badly crushed in, but far above the water line. The way for the water at the stern and high at the bow, her coal having been shifted to protect her. That the impact with the Empress of Ireland had been great

was evident by the way the vessel's stern was twisted to port, the hawser hole completely smashed, plates cracked, rivets twisted or missing, while the heavy anchor had evidently been driven back several feet into the bow. The Storstad was immediately asked for \$100,000 damages on application of the Canadian Pacific railway, owner of the Empress of Ireland.

Going Some.

Pretty soon some one is going to demand that the national commission investigate the Cincinnati flood. The way the Reds are running is getting to be an open secret and it is more than a suspicion that Herrold has been using some right and left. First thing you know those fans out there will be claiming the pennant.

SURPRISE PLANNED FOR AD MEN'S MEET

Local Delegates Are Keeping Their Scheme a Secret, But Promise to Give Toronto a Sensation.

The Ad Men's convention in Toronto, Canada, June 21 to 24, is going to be a big thing. The convention promises to be the most successful in the history of the association and will only be eclipsed by the one which the Atlanta Ad Men are going to get for Atlanta in 1915.

The Atlanta Ad Men are planning to duplicate the success of the Boston convention two years ago, when they were the sensation of the meeting, and pulled off an old-fashioned watermelon cutting on Boston common.

Just what is to be done is more or less of a secret which is being kept by the Atlanta Ad Men, but they are going to pull off another surprise.

Just now, however, they are making a collection of choice Georgia poems. Enough cotton bolls for each visitor to the convention to have one of them were shipped Saturday by freight to Toronto. Each cotton boll is packed in a neat cardboard box, which contains advertising matter descriptive of Atlanta, and which will be a real novelty in Toronto.

The committee on arrangements in Toronto has been advised of the fact that Atlanta is "coming strong" and is making preparations to "give 'em room."

There is nothing mean about Toronto, either, by the way, and they are preparing to spend money on the entertainment of the delegates.

They are going to have five bands at week, all the time whenever possible, furnishing music for the occasion, and they have planned a water carnival in honor of the event.

One of the big steamers has been chartered for a moonlight picnic, to which all the delegates are invited. A fireworks display, which will be one of the most brilliant events of the year, will be pulled off.

CANADA OFFERS MARKET TO DIXIE MANUFACTURER

Many American manufacturers have taken advantage of the vast territory Canada affords them. But few in the South have done so.

Many southern manufacturers have thought of the great territory in Canada, on account of the distance from them, and have been slow to take advantage of the opportunity. The thought has never crystallized into action.

which is rapidly expanding. It affords exceptional shipping facilities for raw materials and water.

Electric power is very cheap, averaging from one-half cent to one cent per kilowatt hour. In most Canadian towns, labor troubles are practically unknown. The climate is a haven for branch plants and factories. Best of all is the fact that due to the earnest competition of the different cities with each other, remarkably liberal inducements are offered in factory sites and other services.

The difficulty of obtaining information concerning industrial conditions in Canada is a serious barrier to southern visitors to avail themselves of the service. (These are free) can put their fingers on just the information a manufacturer wants.

The feature of this service is the result of co-operation of Canadian cities, who have organized in this manner for the dissemination of practical information.

Any Canadian will make an earnest effort to give a manufacturer the information he wants; they all have the same aim in view. This respect, but the Houston agency has complete information on all matters of this kind, and can back it up with figures. Canadian manufacturers offer many opportunities to manufacturers who will investigate the possibilities.

JURY RECOMMENDS ABOLISHING OF COURT

America, Ga., June 6.—(Special).—General public indictment of various recommendations of the Sumner county grand jury, which adjourned last night, are heard today.

Designs recommended that the city of Americus be abolished in the interest of economy, and that four sections of superior court be held annually instead of two sessions at present.

The abolition of the city court is heartily favored, and has been for some time.

The grand jury also recommended the establishment of a mounted police force for Sumner county for the better preservation of law and order.

A bond issue of \$100,000 county roads improvement is strongly urged.

Let me men who are too wise to try to carry water in a sieve will argue with a lame dog, when we get these running riot, there will be a law against carrying lame dogs.

ASK FOR MORE TIME TO MAKE UP BUDGET

Until Mayor James Committee to Sell Property No Settlement Will Be Reached.

When the general council meets Monday, Chairman W. G. Humphrey, chairman of the finance committee, will ask for additional time for the committee to make up the June budget.

Although no statement has been issued by the chairman of the committee or the members, it is understood that further effort will be made to adjust the differences until Mayor James O. Woodward appoints a committee of five to investigate the advisability of selling approximately \$25,000 worth of city property.

At the last meeting of council a resolution was offered by Councilman Farringer empowering the mayor to appoint the committee. Saturday afternoon Mayor Woodward stated that the resolution has not been submitted to him, but he intimated that he will approve it when it comes to him for confirmation.

Members Concerned.

Just what will be the attitude of the council regarding the delay over the June sheet is causing some members of the committee considerable concern.

The city code is plain that the sheet must be presented by the finance committee at the first meeting in May. In strict accordance with the code, the finance committee submitted its report last Monday, but because there were two reports—one by Chairman Humphrey and the other by Vice Chairman Kelley—no action was attempted until the committee had met Monday afternoon. Alderman Kelley are present and distributed among the members of council for study. And in order to live strictly to the letter of the code, the committee adjourned the meeting for one week. Words were necessary for council, and action on the sheet at Monday's meeting adjourned the meeting to the next day, which cannot be later than Monday next, which is the date for the regular meeting of council.

The contention among the members of the finance committee is \$15,000 apportioned to the second ward in January for the widening and regrading of South Pryor street. Locomotor Alex (earlier stages), Bright's Disease (when not too far advanced), Liver and Bladder troubles, Catarrhal troubles, Skin and Blood diseases, troubles peculiar to women, and other troubles of a nature kindred to those above mentioned.

Regarding these springs as America's greatest gift to the sick, the Government has never allowed them to be exploited for private gain. The price charged for the baths is strictly regulated, and the charges are extremely low, and every consideration is afforded the visitor.

The city of Hot Springs is one of the foremost delinquent resorts to be known anywhere in the world, and the visitor here are by means confined to those "seaside" health.

The Train That's Going Home.

(From Judge.)

Maybe home ain't nothing but a room, right by ten;

Nary picture on the wall; absence when There ought to be the lap of baby lips

Maybe home ain't nothing more than that, but, ain't it good to hit the train that's going home?

Maybe the you've gone a-roaming in the land, Seen the dunes and the towering mountains stand

Against the blue, maybe seen the water blend With the crimson of the evening sky—

Ain't it good to hit the train that's going home?

Everything's so natch'ral there and true, Seems like just the pavement may, "Howdy-do!"

Maybe that there ain't no baby lips at play; Maybe home ain't nothing but a room—but, ain't it good to hit the train that's going home?

If you're an ad man you know that advertising is not restricted to newspapers, form letters, street cars and billboards. If you're a MUSE customer, you may not know it, but you're at once an advertising man for MUSE'S—for or against this store—according to the character of the service we render you. You're the very best advertisement we count on—if you're pleased.

If not—But you are. We don't have it otherwise. Even if you imagine it—why that's our very best claim on you as a life-long customer. That's one of the interesting problems of the clothing business—pleasing a customer about his clothes. Our first principle is to see that everybody is happy.

If you have purchased anything at this store in which you didn't receive 100 per cent satisfaction we claim the privilege of assuring the value of the purchase.

When you go away with the thing you want you come back to the same place for more, for the sake of your own economy of time and insurance of confidence.

It is this sort of "value received" advertising that keeps regular customers constant, that brings old ones back, that makes steady patrons of new ones, that turns the stranger in our direction.

As you have valued what you have many times carried away from this store in quality and good form, come here this season and let us provide you again with the clothes conspicuous for their excellence.

Thuswise you draw to us your acquaintances who haven't yet learned the advantages of coming here.

You see we would extend our usefulness and do for everyone what we're already doing for many.

Some opportune examples are in our summer suits of Crash, Mohair, Linen, Silk and Palm Beach cloth.

"On to Toronto" in one of these and every well-clad happy ad man, having been a MUSE patron, is likewise a valuable MUSE advertisement.

Trusting there'll be a comfortable good time for everyone,

Forsyth-Vermilye.

The wedding of Miss Nell Forsyth, formerly of Bravard, N. C. and Dr. John H. Vermilye, of Brooklyn, N. Y., was an event of yesterday morning. The bride wore a becoming traveling gown of wistaria cloth with hat to match, and a carriage bouquet of lilacs of the valley. She was given away by her father, Mr. James Ader Forsyth, of Bravard, and the groom's father, Dr. William G. Vermilye, of Brooklyn, was best man, and Dr. C. R. Wilmer performed the ceremony. Following the ceremony was a luncheon given by Mr. and Mrs. R. Graham Forsyth, whose guest the bride had been for two weeks. Dr. and Mrs. Vermilye left for their home in Brooklyn, N. Y.

The bride is a graduate of Winthrop college, South Carolina, and of Pratt Institute, Brooklyn. For the past two years she has taught art at the Girls' Technological school at Montevideo, Ala. The groom graduated the past week from the Atlanta School of Medicine.

Silver Anniversary.

Mr. and Mrs. Frank Reyon will celebrate at their apartment in the Century Court on Tuesday evening, June 9, from 8:30 until 11 o'clock in celebration of their silver anniversary.

Ivy Leaf Embroidery Club.

Mrs. R. B. Warren was hostess Wednesday afternoon for the Ivy Leaf embroidery club. Mrs. H. Sellers furnished a number of pretty selections to the piano. Salads and sweetmeats were served in a dainty fashion.

McLarin-Haynes.

A beautiful wedding of Wednesday evening at Fairburn was that which united Miss Hope McLarin and Dr. Othmar Lamar Haynes at the residence of the bride's parents, Mr. and Mrs. R. P. McLarin. The ceremony was performed by Rev. J. C. Emory, the bride standing before an altar of ferns and magnolia and bouquet. The wide veranda, studded with electric lights. The attendants were Mrs. R. E. Boyka, of College Park, and Mrs. Grant, of St. Augustine, Fla. Misses Mary Johnson and Jimmie Lee Haynes, and Misses Lottie Smith and Nell Smith, of Green Cove Springs.

"Oh, Promise Me" was sung by Mr. J. M. Wilson of Atlanta, and Miss M. Letitia Swann, of London, Ark. sang "I Love You Truly." Miss McLarin is the only daughter of Mr. and Mrs. R. P. McLarin, who are well known in the city. She is a graduate of the University of Georgia, and is a member of the Phi Kappa Phi Honor Society. She is a grandniece of General Alfred Austin and the late Mr. R. B. Swann.

Dr. Haynes is a prominent young dentist of Clarke, Fla., having graduated from the Atlanta Dental School and taken a post-graduate course in Philadelphia. Dr. and Mrs. Haynes left for a trip down the east coast of Florida, down to Key West, returning later to reside in Clarke, Fla.

Many out-of-town guests were present from St. Augustine, Fla., Jacksonville, Fla., Palm Beach, Fla., and other places. The guests were seated in the hall of the academy. The academy of the Immaculate Conception will be held Tuesday afternoon at 8 o'clock in the hall of the academy. Miss Mary Catherine Conley will graduate with the highest honor. The friends and patrons of the institution are cordially invited to be present.

Studio Recital.

A piano recital of delightful interest was given on Friday evening by Mrs. Lillian Woodberry Johnson in her studio. Her piano students were given great pleasure by their careful technique and musical appreciation. Among the composers heard were Schubert, Offenbach, Liszt, Wagner, Chopin, Verdi and Von Weber. An informal reception was held at the close of the program, the students, eighteen of whom were heard in duets and solos, receiving the congratulations of many friends.

Mr. and Mrs. Andrews Entertain.

Mr. and Mrs. Walter Andrews entertained at an all fresco dancing party Friday evening. Their guests were invited at 8 o'clock. Mr. and Mrs. Andrews have had a pavilion built around their picturesque spring house. There the guests assembled for the dance. There was a fine display of flowers to the decorative effect of the occasion, and the music was performed from the rose garden, and later the moonlight made an atmosphere ideal for the summer gathering. A delicious supper was served at twelve, and the occasion was one markedly enjoyable. Mrs. Andrews becoming toilet was all white.

WOULD PREVENT FAKE ADVERTISING

Atlanta Ad Men's Club
Would Father Bill to Pro-
hibit the Use of Mislead-
ing Ads.

The Ad Men's club of Atlanta will have introduced before the next session of the Georgia legislature a bill to prohibit untrue and misleading advertisements. Representative John T. Smith, of Fulton county, will father the bill, and ad men propose to get right in behind the legislators and see to it that their proposed bill becomes a law.

Work to get this bill before the legislature was begun in 1911, and since that time the ad men have been busy upon it. The committee now active in this matter, which is known as the legislative committee, is composed of William F. Parkhurst, publicity agent for the Georgia Chamber of Commerce, chairman; Ben Lee Crew, vice president; Phillips & Crew Piano company; B. I. Paly, advertising manager, Chamberlain-Johnson-Dubose company; I. H. Currett, advertising manager, M. Rich & Bros., and Howard Gelfand, secretary of the Ad Men's club and a prominent insurance agent.

Following is a copy of the resolutions adopted by the committee, and also a copy of the proposed bill:

"Resolved, that the committee on advertising, and during its life with advertising, and during its life with advertising, be it."

"Resolved, by the Ad Men's club of Atlanta, in regular meeting assembled, that it is the sense of this organization that the general assembly of the state of Georgia, in its next regular session be introduced and passed the bill hereunto attached for the purpose of prohibiting the use of misleading advertisements, and to punish violations thereof."

"Be it enacted by the general assembly, state of Georgia, that any person, firm, corporation or association, who, in any advertisement, or by any printed sign, poster or printed matter, or by any other means, knowingly makes or disseminates any statement or assertion of fact, or of the quality, quantity, value, the method of production or manufacture, or the motive or purpose of the sale, intended to give the appearance of other advantages to the purchaser, which is untrue or calculated to mislead, shall be guilty of a misdemeanor."

"Sec. 2. Any person, firm, corporation or association, or any employee thereof, who violates any of the provisions of this act shall, upon conviction, be punished as provided in the criminal code of the state of Georgia of 1910."

BIG MIX-UP RESULTS WHEN OFFICERS RAID ALLEGED DOPE DEN

New York, June 6.—A detective seriously wounded by a policeman who did not recognize him as a detective, a woman hit by a stray bullet from the same policeman's revolver, an investigator from the district attorney's office stabbed with a knife and an alleged seller of cocaine shot through the nose—these casualties attended a raid made on a house in West Houston street to suppress traffic in cocaine.

Ernest F. Berfer, the detective, and Harry C. Gibson, the county investigator, entered the house and arrested James Reggino for selling the drug. Reggino stabbed Gibson in the arm. Berfer shot Reggino through the nose, then chased him through a window. Dennis H. Mitchell, a patrolman, rushed in from the street, and under the impression that a murder was being committed, opened fire. Berfer fell with a bullet wound that may prove fatal. Mitchell took up the pursuit of Reggino on the street, but fell and dropped his revolver. The weapon was discharged and a bullet struck Mrs. Lillian Cuskey in the leg.

Mitchell caught Reggino and brought him to the police station before he learned the truth of the situation.

Dobbs Tells of Wonderful Work of Advertising Clubs

By Samuel C. Dobbs.

Mr. Dobbs, while en route to New York, and dropped up in the Pullman car on pillows as the result of a bad fall in Atlanta several days ago, has written for The Constitution Ad Men's edition the following interesting article, and announces that he will join the Atlanta delegation in Toronto:

"Education is the fundamental principle of progress."

"Men develop and civilization makes progress through education."

"Men travel to obtain broader viewpoints on things material and otherwise."

"No line of endeavor has developed more rapidly during the past decade under the influence of broad educational methods than that of advertising."

"Under this new order of things the annual convention of advertising men has evolved from that of a frolic, which was well enough in its way, to that of a magnificent educational institute attracting a world-wide attention."

"During the week of June 20 there will foregather in Toronto some ten thousand men, who come in the spirit of good fellowship, and who love both their play and their work. These men come from every section of the globe. Britain will be represented by a large and influential delegation. Every European country will be represented by strong, able men in the profession of advertising. Why? Because at Toronto they expect to get and give. They

have caught this new spirit of advertising."

"During that week one hundred and fifty-four addresses and papers will be heard, covering every form and phase of advertising, and all by men who are leaders in their special line of work. Almost an entire college year crowded into one week, and so arranged that anyone may select just what subject they wish to hear discussed. Some busy week!"

"Don't let all. Men who work hard, play hard, and then just enough play injected into the program to insure every one having a good time from the standpoint of recreation. So the convention at once becomes an educational institute as well as a vacation period."

"Toronto is most beautifully located on the shores of Lake Ontario, and lends itself admirably to all sorts of water sports. There will be boat races, canoe races, water illuminations, etc. Tuesday afternoon and evening will be given over to a water carnival. The Toronto club has engaged specially for this occasion the world's champion canoeist—Bruce Ridgway."

"In no country in the world is the military spirit more pronounced than in Canada. On Wednesday evening there

will be given the "military tattoo." A carnival in honor of the 100 years of peace between the United States and Canada. This program will depict every phase of camp life, together with memorial drill by the Fort-eighth Highlanders. Then the massed bands with something like 400 pieces, will play the national airs, introducing a patriotic display of fireworks. The week is filled to overflowing with a feast of good things, intellectual and physical."

"Go to Toronto! See Niagara—ride on those wonderful inland seas, the great lakes. Broaden your perspective. You will come back a bigger man or woman, with new ideas and ideals, proud not only of the fact that you are a Georgian, an American, but an advertising man."

SON OF EX-SENATOR IRBY KILLS HIMSELF ON FARM

Charleston, S. C., June 6.—G. Pope Irby, son of former United States Senator Irby, yesterday shot and killed himself at his home on a farm near here, according to the coroner's verdict. No reason for the act is known. Irby was 22 years old.

**GEORGIA PASSENGER
DERAILED AT MADISON**

Several Passengers Are Hurt.
Spreading Rails Are

Madison, Ga. June 8.—Georgia railroad passenger train in the August 10, Atlanta, was derailed near here about 10:30 o'clock this morning. Several passengers were painfully injured, but none killed.

Spreading rails are supposed to have caused the accident. All except the Pullman and baggage cars left the track.

About three hundred yards from the depot, opposite the electric light plant, the rails were spread by the heavy coaches left the track and tumbled down the bank of a deep cut at this point. The Pullman and baggage cars were spared, and the coaches were also more or less damaged. The train was turned up possibly for about one hundred yards, some of the steel rails being bent and the ties damaged.

Mose Johnson, negro porter, was seriously injured, and many die.

William A. Wright for controller general of Georgia, was slightly injured, and the train was derailed.

Two negro passengers were also

A working crew is fast putting the track in order, and with the exception of the damaged train, all other trains have not been delayed, but are running on schedule time. This is due to the fact that the tracks on which give ample room for all trains to pass.

The passengers on the train were delayed about four hours, continuing their journey on the vestibule train No. 5.

"Safety First" Mirrors on Berlin Cars.

(From The Railway Journal.)

In Berlin, Germany, mirrors have been attached to the sides of cars at the height of a passenger's head when standing on the lower step. It is hoped by this means to reduce the number of accidents to passengers when being run down by on-coming traffic.

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 3, 1862. It is a very long letter, and it contains a great deal of information about the state of the country at that time. It is a very important document, and it is one of the most interesting documents in the collection.

THREE SMART COSTUMES *for the* WELL- DRESSED GIRL

CHARMING and most girlish is the shell pink tulle gown to the left, with bouffant ruffles of tulle to a deeper shade. Tulle also trims the corsage and forms ruffles on the sleeves. Silver lace fills in the V of the corsage. The girle is of velvet in a charming old blue shade. The corsage bouquet of the roses and forget-me-nots carries out the main scheme of this most effective gown. The suit in the middle can be made of either a heavy serge silk or of some of the new crêpe cotton materials. This would be an excellent way to make the suit for that cool day in summer. Embroidery trims the cuffs, which are of an unusual shape and cleverly shaped in the bolero jacket, buttoned as it is to the girle of the same material. Most graceful is the draping of the tunic, which is quite long on one side and very smart is the modish little hat worn with this costume. Blue gray moire faille forms this attractive silk costume for afternoon wear. Very cleverly managed is the draping of the skirt. Notice the ornaments at the side which holds the draping in place. Cream colored embroidered braid forms the collar and cuffs. Clipped ostrich feathers trim the smart and becoming little hat, which completes this costume.

Address at State Normal Delivered by Mrs. Willet

Atlanta, Ga., June 6.—(Special).—The day was turned over to the alumnae and the alumni-for there are both kinds-at the State Normal school today.

Mrs. Hugh Willet, of Atlanta, made the annual address to the former students of the institution, and the present class, which became a part of the annual home with the next week—a thousand being present—to hear the eminent woman of the state speak on "The Joy of Life."

Mrs. Willet's address, "The Joy of Life," was a most inspiring and timely one. She spoke of the joy of life, not only in the present, but in the future. She spoke of the joy of life, not only in the present, but in the future. She spoke of the joy of life, not only in the present, but in the future.

WOMAN'S SUFFRAGE NEWS NATIONAL-STATE-LOCAL

At the Hotel Ansley on Wednesday afternoon an audience gathered at the usual bi-monthly meeting of the Atlanta Equal Suffrage association to hear Mrs. Abby, president of the Psychological society, of Atlanta, Mrs. M. M. Tibbitts, director of playgrounds, and Mrs. C. A. Miles, of New York, and Mrs. Lindsey, both interested in the child labor law and other bills for the benefit of the child. Conditions in the world were discussed and the recent strike in Atlanta.

Congressional Education.

It was urged that women understand the need of children better than men, and all women organizations should have the congressional education of their own children. It was urged that women should be easier to get for obvious reasons.

Mrs. Tibbitts, of the excellent work done in Washington, D. C., by having playgrounds in the worst portions of that city. After working there for many years, she has been able to get the money to pay her way raised among the community leaders.

Atlanta, Ga. Playgrounds.

Atlanta, Ga. Playgrounds should be right at the door of every child. There must be no doubt that this could be done for that purpose.

Mrs. Roscoe, who spoke on the "Psychology of the Child," said that the "women should realize that by co-operating with their all they were contributing to the state. As a race, women have been willing for men to do the thinking, but psychology—that science which classifies and analyzes the phenomena of the mind has come, and women are realizing that they are living in a different age—a different civilization. Suffrage problems of compulsory education, child labor law and all others for the benefit of humanity, can now be solved. Law is universally working through all things, and men and women are governed by the same law. All efforts have a cause. Psychology finds the cause then looks for the effects. There must be equilibrium. Now, there is a great unmet, a great force is urging us on. It takes all the parts to make the whole, and men must live up to the women to bring about moral development, equality and balance—live up to the two. It is hard for men to give up race habits and thoughts, but it must be done for the good of the coming race.

Constructive Thinking.

Mrs. Abby continued: "We must have constructive thinking. We must have the use of the mind in the universe; no man has been able to do it. A woman to leave her household and go to work, to leave her household and go to work, is not a thought against a woman. All that is needed is the larger, higher, life. Operative thinking is the key to the door. Think beautiful thoughts—a beautiful thought is a beautiful thing. Think and will and contribute your part for the better development of the race."

There are not more than ten real automobile manufacturers in America. Of these ten, Studebaker leads all the rest in *manufacturing the largest proportion of parts used in its cars.*

In laboratory research, in refining processes, in intensive manufacturing, in costly but economical equipment, Studebaker is first.

In addition, Studebaker spreads these quality producing factors over *the largest "Six" volume.*

The net result is the greatest automobile value in the world today--the

Studebaker

ECONOMICAL
LIGHT WEIGHT

SIX
\$1575

Demonstration Will Sell This SIX Against Any Car of Any Size or Any Price

The Studebaker SIX will prove to you in half an hour its superiority over heavier, costlier cars.

It has a greater proportion of manufactured parts than the best of these heavier cars.

Each essential part is of special formula steel, heat-treated from two to four times to permit the use of light parts--with increased strength.

It will prove that this Studebaker combination of light weight and perfect balance holds the road far better than mere bulk.

Once set in a straight line the Studebaker SIX continues in a straight line.

It does not creep or slide toward the crown of a country road.

This roadability begins in the motor itself--one of the smoothest-running, most perfectly balanced "Six" motors in the world.

When the motor is developing its greatest power vibration is practically imperceptible.

At a speed of thirty or forty miles an hour you will probably guess that you are going twenty or twenty-five.

Your tire cost, gasoline cost and oil cost, are, of course, very much lower than they would be in a heavier car--even a "Four" of equal power.

Studebaker Demonstration Shows Even More Striking Superiority Against The Assembled "Six"

No assembled or semi-manufactured "Six" can stand up in demonstration against the Studebaker SIX.

Studebaker gives you special formula steels tested to 160,000 pounds per square inch.

The best steel the assembler can give you is the best he can get; tested by the mill--perhaps--to 100,000 pounds.

Studebaker doubles and trebles the strength of its own special formula steels by two to four heat treatments.

The assembler must pass the steel on to you exactly as he gets it.

Studebaker by this process produces parts two to three times as strong, and still holds down the weight.

To equal this strength the assembler would have to add weight which would be prohibitive.

So the factor of safety in the Studebaker SIX is bound to be immeasurably greater than in the best assembled "Six."

And the same elements work out in the Studebaker SIX to produce perfect balance.

As a result of this balance it rides better, makes better use of its power, is a better hill-climber, is easier on tires.

In short, the value, long life and roadability of a "Six" are in proportion to the number of manufactured and closely measured parts.

In that respect, as we said above, the Studebaker SIX leads the world.

That is why it is competing with the costliest "Sixes" and outselling them.

That is why assembled "Sixes" **MUST COME DOWN** in price; and **CANNOT COME UP** to the Studebaker in manufactured quality.

The Studebaker FOUR is of the same grade and quality of material and workmanship, and is manufactured with the same scrupulous care and closeness, as the Studebaker SIX.

Studebaker branches and dealers have, in stock, \$1,000,000 worth of service parts. This means service to owners of a sort that assemblers do not and cannot give. In this respect we believe the Studebaker organization to be unequalled. In addition to its \$3,000,000 machinery equipment for car manufacture, Studebaker maintains a special plant for the manufacture of service parts to keep all branch and dealer stocks complete at all times.

The Studebaker Proof Book describes and pictures the scientific manufacturing operations of Studebaker. Send for it.

100 Years After His Downfall

By James Morgan

[illegible][illegible]

Next Sunday.—The Little Corsican at School in Ajaccio; at Brienne, Where, as a Poor Boy, He Was Educated on the Bounty of a King Whose Throne He Took; and in Paris.—Mr. Morgan's Story of His Recent Visit to the Scene of Napoleon's Schooldays.

CRAWFORD FIRST IN THE AMERICAN

Wahoo Sam Tops American League Batters—Olding Is Second, Walker Is Third.

Sam Crawford, of the Detroit Tigers, led the batters of the American league to date with a batting average of .345. Olding, of the Athletics, was second, and Walker, of the Browns, third.

Here are the batters who are hitting .300 or better, and who have participated in fifteen or more games up to and including those played Wednesday, June 4:

GEORGIA LEAGUE

Cordeiro 1, Waynes 6.

Cordeiro, Ga., June 6.—(Special.)—Hankston's home run won the game from Waynes today with the score standing 1 to 0 in one of the fastest and proudest games played in the league. It was a pitcher's duel between Babe Wilder and McFarland, his being equally divided.

The little southpaw twirled the home club to victory with an unusual win, and had a shade of the better of his work against McFarland, with his workmanlike drop ball.

McFarland's two-base hit against a sign on center field won him the game, but Cordeiro's pitcher's duel was a perfect one.

Score by innings: R. H. E. Waynes, . . . 000 000 0—2 8 0 Cordeiro, . . . 010 000 0—1 2 0

Batteries—McFarland and Cordeiro; Wilder and Subanka. Time, 1:30. Umpire, Chappelle.

Valdosta 2, Americus 1.

Valdosta, Ga., June 6.—(Special.)—Valdosta made it two out of three from Americus by winning a pretty game this afternoon by the score of 2 to 1. The game was a pitcher's battle between Vaughn and Pratt, with Vaughn having the better of it all the way.

Pratt worked a good game with the exception of the eighth, when he was on base on balls, and intentional walks to Moore and Medley, and the bases and O'Brien doubled to short left field. Both teams played good ball in the field. Vaughn pulled a beautiful one-handed catch of a fly with a man on base.

Score by innings: R. H. E. Valdosta, . . . 000 000 1—2 7 2 Americus, . . . 000 000 0—1 2 0

Batteries—Vaughn and O'Brien; Pratt and Manchester. Time, 1:30. Umpire, Genta.

Brunswick 6, Thomasville 1.

Brunswick, Ga., June 6.—(Special.)—In one of the most peculiar games seen here in many days, Brunswick beat the final game from Thomasville this evening, 6 to 1.

Thomasville led in the third and fifth innings, made four runs on errors in the fourth, but were having been made up to the time. The locals fought back from behind, and after making one in the seventh came back with four in the eighth.

Pool became wild, and East, who succeeded him, was little better, walking in one man and wild pitching in another. With one run in the eighth, Thomasville tied the score in the eighth when East put the ball over the right field fence for a homer. Then with the score tied, Knappier, first man up for Brunswick, also hit the ball over the fence, winning the game. Wood, who had excellent ball all the way through, not one of the five runs being scored on a hit.

Score by innings: R. H. E. Brunswick, . . . 001 001—6 4 1 Thomasville, . . . 000 000—1 2 0

Batteries—Pool, East and Dudley; Wood and Schuman. Umpire, Collins. Time, 2:10.

MARIETTA'S NEW VELIE FIRE TRUCK

The above shows the new Marietta's fire truck and its driver after a run of nearly a mile in answer to an alarm. The truck covered the entire distance in two and one-half minutes. The alarm proved to be a false one, however, and it was found out later that one of the city's officials had turned in the alarm as a test to see what time the truck could make to the farthest end of Marietta. The fire truck is a one-ton Velie chassis, with the body

VANTIE SHOWS HEELS TO YACHT RESOLUTE

Rye, N. Y., June 6.—The bronze rival, the Resolute, in the fourth Long Island sound race, sailed today, winning by 1 minute 53 seconds in elapsed time.

As the Vantie gives the Resolute an estimated allowance over the 23 3/4-mile course of 1 minute and 13 seconds, the margin of the Resolute's lead over the Harroshorn creation was believed to have been 2 minutes and 30 seconds. Both Cora and Resolute, however, were on board the aloof today and sailed the course with her in her defeat.

The race was a fairer contest than Tuesday's contest, which has been regarded as more or less of a fake, and which the Vantie won by 14 minutes and 12 seconds. The yachts were slow in starting and both were handicapped. The start of the first leg, the Vantie went by the first leg, the Resolute went by the fourth leg, when the Resolute received the allowance. BOYS' HIGH NINE TENDERED A FEAST

By Robert Foreman.
Professor W. F. Dykes, principal of Boy's high school, gave a banquet to the members of the 1914 baseball team and to the program executive committee at the Winthrop hotel on Saturday night. Mrs. Dykes and her daughter, Helen, were present at the banquet, and helped to entertain the students. After the banquet several interesting speeches were made by those present. Manager Johnson and Captain Spauld, Marvin McPhail, Iman Kirk, Hinton Longino, John Stewart, Homer Starr and Homer Weaver were among the speakers. Professor Dykes was highly complimented by all the speakers, most of whom had been under his leadership for four years. After the banquet, on

AMERICAN AVIATOR WINS THE GOLD CUP

London, June 6.—W. L. Brock, the only American aviator among the early competitors in the "aerial derby," was today awarded the gold cup and a purse of \$1,000 as the winner of the first prize. Louis Moit, of France, although he was the first to complete the 25 mile circuit, was disqualified because he missed a turning point and one observation post. Reginald Carr, an English aviator, was placed second.

This Coming Week for Goodyear Tire Displays Like This. They'll Show You Where to Get These Tires

Goodyear Week

Here and everywhere, this coming week, all the leading Goodyear dealers will make window displays like this.

It is done to show you where No-Rim-Cut tires are sold, and sold at Goodyear prices. Mark these exhibits. These are the dealers who, despite higher profits on other tires, supply you the world's best.

They Undersell 16 Other Makes

These dealers will sell you No-Rim-Cut tires for 28 per cent less than they cost in March, 1913. They will sell them below the prices asked for 18 other makes. They will sell you four tires for the price of three of some of Goodyear's rivals.

They will supply you, at Goodyear prices, the utmost in a tire. The tire that out-sells any other tire in the world. The tire that won top place in Tiredom through millions of mile-age tests.

They will sell you the tire to which motorists are coming faster than ever before. This year's sales have broken every record, by 55 per cent.

Four Other Savings

In addition they give you these four features, found in no other tire:

Our No-Rim-Cut feature—the only feasible way to end rim-cutting.

Our "On-Air" cure—an extra process which costs us \$450,000 yearly. But it saves our users the countless blow-outs due to wrinkled fabric.

Our rubber rivets—hundreds of which are formed in each tire, during vulcanization, to combat tread separation.

Our All-Weather tread—the tough, double-thick anti-skid. It is flat and smooth, so it runs like a plain tread, but it grasps wet roads with a bulldog grip.

Not one of these features—mark you—is found in the costlier tires.

Note These Dealers

Note these displays—remember who sells Goodyears. You want these savings—mark where you can get them.

Goodyear places and prestige prove these the best tires built. And Goodyear prices show how mammoth output lowers factory cost.

Don't go to dealers who push lesser tires or tires at higher prices. Go to the dealers who sell at our prices the premier tire of the world. In first cost and last cost these dealers will save you a good many dollars per year.

1915 PREMIER

America's Greatest Touring Car

1915 Model 6-49. Price \$2385 F. O. B. Indianapolis

The Premier 1915 Model again sets a new standard of automobile value—a six-cylinder motor developing 76 H. P. at 1900 revolutions, new stream line body, and up-to-the-minute finish and equipment for \$2385.

The Premier 6-49 is a car of distinction and quality. The electric lights, starter, left side drive, one-man top, deep, soft upholstery and comfortable riding qualities make it the buy of the season. None but the best enters into the construction and equipment of Premier, and only through the fact that its popularity has permitted a low selling cost are we able to offer a Premier at \$2385, the best in every respect, at the price of a high-grade four-cylinder car.

Premier is the first of any of the high-grade manufacturers, whose four-cylinder cars commanded a price of \$3000 or over, to market a Six at less than \$2500. The same inherent qualities which make and has sustained Premier's reputation is in the new Six.

Actual visual proof is the only proof that permits of no argument—try the car. Its economy and efficiency of operation may readily be ascertained by demonstration.

Sheriff Flanders, of Laurens county, is looking for two negroes, Shad Hill and John Hill, who were taken from the jail here. Both negroes are under sentence in the state prison for armed robbery. They were taken from the jail when, by the aid of someone on the outside, they escaped. The negroes are being trusted at the jail, who acted as janitor, has been locked up again on the charge of aiding the escape. The negroes are being held in the jail, but are not allowed, and the negroes might reach the corridor and an outside window. The negroes are being held in the jail some time. A reward of \$50 each has been offered for the capture of the negroes.

ROSWELL ROAD

THE ROAD OF OPPORTUNITY, a thoroughfare leading to Cobb county, Milton county and DeKalb county, leading to Roswell Road and connecting with the proposed Riverside Drive. Frontage on Peachtree and Paces Ferry Road, same distance out, selling for \$25.00 to \$35.00 per foot. You can buy Roswell Road building sites at \$1.50 to \$3.00 per foot. There is no question but what Roswell is the prettiest road; the scenery is magnificent all the way to Roswell. We believe anything you buy on the road will make you money, and you will not go to another county, as you do if you buy any distance out on Peachtree.

COUNTRY HOME SITE at the intersection of Roswell, Dunwoody, Powers Ferry and Johnson's Ferry Roads, we have 60 acres with 2,304 feet of road frontage on a natural elevation. A beautiful building and about 1-4 of the entire tract in fruit. If you will look at it you will agree that it is an ideal place. Price \$12,000 on very easy terms.

CAMP SITES adjoining Sandy Springs camp ground on Powers Ferry paved road, we offer four tracts 200x500 at \$500.00 each, on terms of \$100.00 cash and balance monthly. They are located in clean white section, close to school and church.

NOTHING LIKE THIS in Fulton county, a beautiful elevation overlooking Atlanta. Stone Mountain and Kennesaw Mountain on a high ridge called the Hog Back, covered with magnificent oaks, two orchards bearing. A total of 161-2 acres bounded by three prominent paved thoroughfares; the other side bounded by dirt road, a total frontage of 3,627 feet of which 2,644 is paved; located six miles from Buckhead, at the intersection of Johnson's Ferry, Lawrenceville, Powers Ferry and Roswell Roads. Price \$7,500; \$1,000 cash, balance yearly for five years. Let's look at it.

12 ACRES, Roswell Road, a corner with 1,254 feet paved road frontage. Good 6-room house (not a shack), large barn and outbuildings, garden plot, bearing fruit trees, the apples and pears in orchard are said to be the finest in North Fulton county; one block of school; one-fourth mile of church; it's a beauty. Price \$4,500; \$500 cash, balance monthly or yearly.

6-3-4 ACRES, Roswell Road, near intersection Sandy Springs and Johnson's Ferry Road; 504 feet on Roswell paved road. Price \$1,200; \$250 cash, balance easy.

14 ACRES, 1,799 feet paved frontage, corner Roswell Road and Sandy Springs; adjoins Sandy Springs camp ground in rear. Price \$2,750; \$500 cash, balance \$500 yearly--figure the price per foot.

18 ACRES, 2,672 feet paved frontage, corner Roswell and Johnson's Ferry Roads, a beautiful grove, one-half cleared, used as truck farm. The entire tract is level. Price \$7,000; \$500 cash, balance easy--figures about \$2.50 per front foot.

27 ACRES fronting 1,140 feet on Roswell Road. It has two of the prettiest building sites on it that you will find anywhere. To see it will be to buy it. Spring branch, some bottom land and orchard. Price \$4,500; \$500 cash, balance yearly for five years.

34 ACRES fronting 2,396 feet on Roswell Road; large branch running through it; a little rough, but cheap. Price \$3,000; \$500 cash, balance yearly for five years. It cost almost this amount to pave the road in front. Figures less than \$1.25 per foot.

44-1-2 ACRES, fronting 1,304 feet on Roswell Road; rough, but some good timber and open land. Price \$5,000; \$500 cash, balance yearly for five years.

In our opinion, Roswell Road is the logical route for the car line to Roswell, in fact there has been, and is now, a movement on foot to get up the money to build a line to Roswell and make the Georgia Railway company a present of it if they will run the cars. This car line is bound to come, then frontage will sell for \$10 to \$15 per foot.

OGLETHORPE PARK vs. ANSLEY PARK
1914 vs. 1904

PROSPERITY vs. "CROAKERS"

Oglethorpe Park vs. Ansley Park

OGLETHORPE PARK is as directly in the line of development as Ansley Park was in 1904, and its increase in property values will be just as great.

Ten years from today Oglethorpe Park will have as many handsome homes in it as Ansley Park has today.

The Croakers will tell you differently, but watch my prediction. There are only two classes of citizens in Atlanta. THE ONES WHO LIVE ON THE NORTH SIDE AND THE ONES WHO WANT TO LIVE ON THE NORTH SIDE.

The plat of Oglethorpe Park has been completed. Each lot is carded, showing size and price. Call at my office for new plats.

Visit Oglethorpe Park immediately and you will be surprised at what you find there today. The streets are all graded and the lots are all staked. You can select anything from a three-quarter-acre building lot to a 15-acre chicken farm. Every lot will double in value within five years. You can buy these lots with your salary, or any way you please.

Have your own agent help you select your lot and take his judgment as to future values, if you are not willing to accept mine.

More homes have been built north of Peachtree Creek in the last twelve months than in the ten preceding years.

Peachtree Road will be built up solid to Oglethorpe university within ten years.

Peachtree Road frontage to the DeKalb county line is a good investment today at any price under \$75 per front foot and will double up in ten years.

The Peachtree Battlefield will be the handsomest and most popular national park in America within the next ten years.

1914 vs. 1904

In 1904 the city limits north ended at Sixth street. In 1914 Atlanta's population is 225,000--an increase of 253 per cent.

In 1904 Ansley Park was a tangled mass of open and limited and paid less than \$500 in taxes to Fulton county. In 1904 Atlanta's population was 65,000.

Bon Ton CORSETS

are just as necessary a part of every woman's wardrobe as are her shoes. The fact is, they are both indispensable.

When you buy shoes you buy them for LOOKS and service as well as for comfort. The same with corsets, except that the "LOOKS" are reflected in the SMART FIT of your handsome new summer costume.

Then, too, there are many other things that depend upon the perfection of your corset—for instance, your bodily support and poise, freedom for deep breathing and the shaping of your figure contour. SATISFACTION goes with every Bon Ton Corset.

There's a Bon Ton model for every figure, and our trained corsetiers will select the model best suited to you.

Bon Ton Corsets \$3 to \$25

Introducing "The Free" Sewing Machine

The Machine That Does Better Work With Less Effort
The Machine That Lasts Longest & Costs the Least

Having examined the merits of the leading Sewing Machines, we find that "THE FREE" stands head and shoulders over all other makes in the essentials that go to make a good Sewing Machine. Exhaustive examination and comparison prove beyond question that "THE FREE" Sewing Machine

Runs Lighter

—Ball bearings make machinery run lighter. For instance, ball bearings on a bicycle—same effect on a sewing machine. With more ball bearings the higher the machine runs. "THE FREE" sewing machine has six sets of ball bearings—so other sewing machine has more than three. Consequently, "THE FREE" runs lighter.

Sews Faster

—By reason of exclusive improvements like the toggle link takeup, round bearings, the celebrated Rotocut, etc., "THE FREE" sewing machine sews faster than any other make of machine.

Is More Convenient

—"THE FREE" sewing machine is the easiest machine to operate. It is full of features that work automatically like the rotary spool pin, the automatic shuttle ejector, the automatic head latch, the automatic tension release, the automatic lift, the automatic bobbin winder, the automatic drawer locks and many other special features and improvements that will save you time, labor and annoyance.

Is More Beautiful

—"Nothing has been left undone to make "THE FREE" the most beautiful machine in the world. The design is exquisite—the woodwork being a full rounded set of fine proportions, made of the very best quality quarter sawed oak, finished with a high piano polish. Then, there is the French leg stand done in brown to harmonize with the wood work, and which requires no dusting. The head of the machine is beautifully done in nickel plate, black enamel, also gold and peacock green transfers.

Lasts Longer

—"The durability of "THE FREE" machine is amply evidenced by the fact that "THE FREE" sewing machine company guarantees this machine for life, whereby no other sewing machine is guaranteed for more than ten years. Furthermore, "THE FREE" is insured against breakage, fire, water, flood, lightning or any other damaging source for a period of five years.

Has Less Vibration

—"THE FREE" sewing machine, while equipped with a long shuttle, has more rotary parts than any other sewing machine made. This, together with the greater number of ball bearings, the strong French leg stand, the metal cut-out in which the head rests, makes "THE FREE" have less vibration than any other sewing machine.

Makes a More Perfect Stitch

—"THE FREE" is equipped with the only formation positive square feed of any of the high-grade machines. Its operation is strong and perfect on all classes of goods. All manufacturers claim the fore-

motion square positive feed for their machines, but remember "THE FREE" is the only machine of them all that has a square fore-motion positive feed, which can prove to you. It is this feature that has made "THE FREE" machine famous for perfect sewing qualities on all material.

Is Guaranteed For Life

—"While all other sewing machines are guaranteed for five to ten years, "THE FREE" is guaranteed for life. If any defect in workmanship or material shows up in "THE FREE" machine during your lifetime or the lifetime of the machine, new parts will be given free of cost.

Is Insured For Five Years

—"This insurance is given with no other sewing machine but "THE FREE". Should your machine at any time within a period of five years be destroyed by fire, water, lightning—should your machine fall off the back of a wagon while you are moving, or should it get broken in any way so that it is useless, a new machine will be given without cost to you. If a needle or a belt breaks; if you should lose a bobbin or an attachment; if anything gets broke or lost in a period of five years, these parts will be replaced for you absolutely without cost. Over 1,000 "THE FREE" sewing machines were given away in 1913, due to the Indiana and Ohio floods, the Mississippi overflow, the Omaha cyclone, etc.

Sold For Less Money

—"Despite these many points of superiority over other machines, "THE FREE" is actually sold for less money than any other high-grade machine. You will be more than agreeably surprised at the reasonable price of "THE FREE".

Grand Opening & Demonstration of "THE FREE" Sewing Machine Starting Monday, June 8th, Continuing All Week

For the Opening Week "The Free" factory furnish us with experts to demonstrate their machines. They will show you the many advantages of "The Free"; you will see for yourself just why it is the Machine for you. GROCERS' PICNIC
NEXT WEDNESDAY

First of Mid-Week Hall
Holidays Begins—Basket
Dinner at Piedmont Park
Sports and Prizes.

The occasion will be made a jolly one for the men who stand behind the counter from early morn till late, for a 1 o'clock, the time for closing, they will journey to Piedmont Park, where a big basket picnic has been arranged.

O. T. Camp, of the Camp Grocers company, president of the Retail Grocers and Butchers' association, will be master of ceremonies for the occasion. He has been a hard worker to bring about the half-holiday for Wednesday and through he and his committee have worked up a fine program of sports and prizes for the afternoon.

The families of the merchants, with big baskets loaded with good things to eat, will proceed to the park during the morning, and will have everything in readiness for the merchant when they arrive.

To Mayor Woodward has been left the task of selecting the best picnic dinner as prepared by the housewives. A 25-pound bucket of Snowdrift lard

For the retail grocer or butcher with the largest family present the White Provision company, W. H. White Jr., the judge, will give a fine Corned ham.

for which the music will be furnished by the Tip-Top band. All customers and friends of the merchants are extended a cordial invitation to take their lunch to the park and spend an afternoon with them.

The sports will begin at 3 o'clock.

An Atlanta business man attended convention in Philadelphia last year at which he got two ideas. When he returned to Atlanta he immediately put them into practice in his own business and now, at the end of one year's time, he shows how they have been worth \$10,000 to him in cold cash. Money talks, and a wise man listens.

Making Good In Your Present Position

To a great many salesmen "making good" sometimes means "losing good." We often get discouraged and down in the mouth when things are going bad, and advise our customers to drop your line, with no more ability than you have. But they have had their fights, with discouragements, and are still sticking. Seek the companionship and advice

This is the time when one seeks sympathy, and the other person thinks about a salesman in the fact that he will often go to those who are in the same frame of mind as himself.

Negative thoughts present themselves and are given a hearty welcome to the salesman.

A salesman will say to himself: "I am one of those who are coming down," of those who are making good and who are doing big things in the hub of business.

Give yourself a square deal.

If you want to get into another line, or change your position, quit your present one with a big record, and you will find your next employer looking for you. You have a big record to show him, and furthermore you will be in

COMPROMISE PLAN ON TOLLS REPEAL

Democrats and Republicans
Agree on Amendment in
Regard to U. S. Sovereignty
—Vote May Come Monday.

Washington, June 6.—A compromise amendment to the tolls repeal bill, drawn by Senator Simmons for the administration forces and Senator Norris for the republican senators, will be offered today in the senate to a vote in the senate.

The new amendment embodies all of the original Simmons amendment, recommended by the senate international committee, as well as the more emphatic resolution proposed by Senator Norris several days ago as a substitute for the committee amendment. The strength developed for the Norris amendment, particularly on the democratic side, influenced the administration forces to modify their amendment.

The compromise reads:

"That the passage of this act shall not be construed to hold as a waiver or relinquishment of any right the United States may have under the treaty with Great Britain, ratified the 18th of November, 1861, or otherwise to exempt the vessels of the United States or to release them from the payment of tolls or passage through said canal, or as in any way waiving, impairing or affecting any right of the United States under said treaty or otherwise, with respect to the sovereignty over or the ownership, control and management of said canal and the regulation of the navigation or charges of traffic through the same."

The compromise on the amendment and the vote may be reached late Monday. An effort may be made after the bill is passed to press a resolution to arbitrate the Panama canal question with Great Britain.

Senator Hitchcock, democratic colleague of Senator Norris, announced today.

CITY SAVINGS BANK SUBJECT OF ATTACK

R. F. Bryan Is Charged With
Violating Agreement and
Seeking to Defraud.

The default City Savings Bank was the subject of a sensational petition filed before Judge Pendleton's division of the superior court Saturday morning, when counsel for Mrs. W. W. Wray, Mrs. C. W. Wray, the Whitehead & Sons Co. and others intervened, pleaded that an injunction be issued forbidding any change in the present status of the assets and liabilities.

The suit was filed by Attorneys John W. Moore, James A. Branch and Paul Bartlett. It sets forth the allegations that as trustee for the institution, R. F. Bryan had fraudulently violated an agreement entered into before the bank in November, 1912, and had sought to defraud depositors and creditors out of a portion of their funds.

This agreement, it is alleged, by which R. F. Bryan was discharged as receiver and Mr. Bryan was named as trustee, provided that the creditors and depositors should be paid in full within thirty days of a state bank examiner, on the same day, pronounced the institution insolvent and able to pay all claims in full.

The petition also charges that Bryan neglected to pay the claims against the default bank, and in doing so, had fraudulently violated the agreement.

"CRIMES OF PASSION" EPIDEMIC IN BERLIN

Women Are Killing Their Lovers
And Are Being Lightly Punished.

Berlin, June 6.—Berlin appears to have imported for itself what the French have called "epidemic of passion," and to have extended its range far beyond the French example. A series of recent murders and attempted murders of men by women have been so numerous that the police in Berlin press is criticizing criminal authorities and juries severely.

A conspicuous case of some months ago aroused the press to protest. A woman, informed by her lover that he did not care for her any more, was brought to trial not on a charge of murder, but of manslaughter, and she was acquitted. The case was so unusual that it did not realize what he was doing, or that he was a murderer, and she was acquitted. TAX ON AMUSEMENTS HURTS GERMAN SHOWS

One Circus and Several Picture Houses Close—Managers Are Protesting.

Berlin, June 6.—The proposed extension of the existing amusement tax now levied upon variety houses, moving picture theaters, circuses and other amusements in Berlin, so as to apply to the dramatic stage has evoked strong protests from many sides. The tax has already forced one circus to close its doors after an existence of many years, and driven a number of cinematograph houses out of business. The managers of the theatres are protesting that the tax will be even more disastrous for legitimate drama.

There is no reason to doubt the managers' assertion that the conduct of a theater in Berlin is an extremely precarious venture. Within the last four or five years there have been at least three theaters which have gone bankrupt, and in the last year only two out of ten have succeeded in paying their bills. The tax is a heavy burden, and the managers are protesting that it will be even more disastrous for legitimate drama.

ROOSEVELT IS SNAPPED FOR PARIS "MOVIES"

Paris, June 6.—Colonel Roosevelt to-day will be the subject of a sensational picture in the "movies" of the city.

The feeling of antagonism which the Japanese have developed against the United States, and which is being manifested in the most violent manner, is the subject of a sensational picture in the "movies" of the city.

suppress it. It fears to incur the enmity of women, who are the best supporters of the church. At a synod council meeting held last month, M. Matveyev, a provincial consistory member, declared that in many provinces **women** are almost the only supporters of the church, and the only benefactors. The peasant men are mostly hostile or indifferent. On the basis of this the synod decided that the movement for women priests must be treated with caution and that the chief point for it is whether women preach or not, but that if they do preach it shall be in orthodox spirit. So far, the women preachers are nearly all schismatics.

doctrine of celibacy for priests, for although the higher, or "Black" clergy themselves do not marry, celibacy for laymen is not required. Theologically, especially Roman Catholic and Catholics, is the only rival which the Greek or orthodox church dreads. In order to check such heresies women are to be ordained, but it is not to be allowed them to be ordained, but it is to be allowed them to receive theological education. This is a marked advance. The synod has also decided to start in some other towns theological courses for women, which will later develop into full theological seminaries. Moreover, the synod has decided that it has offered \$100,000 on condition that the synod allow women to be ordained. He says that the prestige of

NO WOMEN CONSTABLES FOR SCOTLAND YARD

London Police Officials Strongly Opposed to the Proposed Measure.

London, June 6.—A bill to enable the police authorities to enroll women constables is to be introduced in the house of commons by Lord Henry Cavendish Bentinck, unionist member for South Nottinghamshire.

The officials of Scotland Yard have declared themselves as opposed to the measure. A spokesman said bluntly:

employ special women for special purposes, such as vigilance work, and in all cases intimately connected with women or young girls, to a far greater extent than the public realizes. Moreover, in all our stations women are employed to look after the male prisoners and whenever there is a female prisoner a woman is constantly on the premises. Then, again, we work in close touch and sympathy with the many excellent societies that employ women detectives and watchers, and we step in with our constables on

unnecessary, but objectionable because they would inevitably lead to what one man called specialized enjurement.

Mrs. Dacre Fox, of the Woman's Moral and Political union, thinks that when an excellent one. "There should be no specializing between men and women," she said. "The community should have the pick of the best of both sexes. The doctrine of physical fitness and the sex question apply less to men than to any other, as policemen only exist by the moral force behind them."

SEX HYGIENE BARED

FOOD AND SCHOOL

Topic Is Barred by Education Board—Evidence All Against the Proposition.

London, June 5.—The education committee of the London county council has decided that under no circumstances should sex hygiene be introduced into class teaching in the elementary schools. This decision was reached after a long investigation and the examination of a large number of teachers.

The evidence was almost unanimously against the proposition. Dealing with the objections to the inclusion of such

port of the committee mention in the first place, that the knowledge of such matters amongst children depends very largely upon the type of home from which they have been drawn. It is pointed out that where, as is unhappily common in many districts, the parents and children live in one room in which all the events of life and death take place the knowledge of the child

of children who come from a home where the father is a drunkard, or who may obtain no information of this nature until they are 10 or 12 years of age. It would be a task of the greatest difficulty to teach the subject of sex to such children. The facts are already known to them, and the only knowledge might come as a shock to them, which would do more harm to the subject which might benefit one child might harm another. In the second place, the subject of sex in the classroom must tend to break down the respectability of the school. Nevertheless, the report agrees that the subject should be taught to children over fourteen in the highest grade of the elementary school. It is suggested that pamphlets dealing with the subject should be given to children leaving the elementary schools.
