**Has a Cure
For Pellagra**

Parrie Nicholas, Laurel, Minn., writes:
"Seems to me if I had not obtained your remedy when I did I would now have lived, much longer." It is glad you discovered this wonderful remedy."

This is published at his request. If you suffer from Pellagra or know anyone who suffers from Pellagra it is your duty to consult the resources of Baughn, who has fought and conquered the dreaded malady right in the Pellagra Belt of Alabama.

The symptoms—hands red like sunburn, burning sores on the face, lips, throat and tongue; flaming, itching eruptions on the chest and back; with much mucous and choking; constipation and nausea; either diarrhea or constipation.

There is hope if you have Pellagra. It can be cured by Baughn's Pellagra Remedy. Put this in your medicine cabinet.

Pellagra. Address American Com-
pounding Co., Box 3063, Jasper, Ala.
remembering money is refunded in an
case where the remedy fails to cure.

BOERS IN REVOLT; THEY AID GERMANS IN SOUTH AFRICA

Col. Maritz Takes His Command Over to the Kaiser's Forces—Martial Law Is Proclaimed in So. Africa.

London, October 12.—The rebellion of a section of the Dutch settlement in South Africa, which broke today with the suddenness of a bolt from the blue, is the first warning note in the harmony in the British empire since the outbreak of the war.

Boy or Girl? Great Question!

This brings to many minds an old and tried family remedy, an external application known as "Mother's Friend."

During the period of expectancy it is applied to the abdominal muscles and designed to soothe the infantine nature of nerves involved in this manner. It has such a splendid influence to soothe its use in all cases of colic, mother-bomb, it has been greatly recommended for years and years and those who have used it speak in highest praise of the immense relief it affords. Parents, hurry do these knowing mothers speak of the absence of nursing sickness, absence of strain on the ligaments and freedom from those many other distressing ailments looked forward to with such concern.

There is no "Mother's Friend" as such, but "Mother's Friend" has a marked tendency to relieve the mind and ease of itself in addition to the physical relief has given it a very wide popularity among women.

You can obtain "Mother's Friend" at almost any drug store. It has helped a host of mothers to a complete recovery. It is prepared only by Bradford Rogers Co., 501 Lamar Bldg., Atlanta, Ga. Avoid the many worthless substitutes.

It has momentarily diverted attention from the arduous near the heart of the empire.

That this rising was real and dangerous was sufficiently proved by official dispatches from Governor General Buxton to the imperial government and by the drastic step General Louis Buxton took in the whole Union of South Africa.

The proclamation of martial law directly against the widespread secret propaganda of the Germans with being responsible for the sedition of this command, which was one of the four hundred and thirty-five in the Union government undertook to relieve the home government of the task of dealing with the German colonies in the continent of Africa.

Germanies at Work for Years.

It is apparently the belief of General Buxton's government that others besides the immediate command of Colonel Maritz may have been affected, hence the inclusion of the whole dominion in the order establishing martial law.

British authorities say German factors have been at work for years in the frontier districts and have persecuted the natives and the Dutch.

Telegrams from Cape Town declare, however, that a majority of the Dutch remain absolutely loyal and some even turn out in numbers drawn up at an emergency meeting of the South African party summoned immediately after the news of the rebellion had leaked out.

The meeting, composed entirely of Dutch speaking Afrikaners, condemned Maritz in the strongest terms. A telegram was dispatched to the British government offering the services of the Cape Dutch in any capacity desired.

The Dutch party, One Land, published at Cape Town, indignantly denounces what it terms the treachery of Colonel Maritz and declares that the Dutch throughout South Africa loyalty to stand at the back of the government.

The union government's attitude is bound to bring matters to a head and to determine the true attitude of the Dutch element which, it is contended, is overwhelmingly loyal to the British empire.

MARTIAL LAW FOR SOUTH AFRICA.

Cape Town, South Africa, October 13. (Via London.)—It has been announced that Maritz has rebelled in the northwestern of the cape province. Martial law has been proclaimed throughout the union.

The proclamation imposing martial law reads:

Whereas a state of war exists between the British empire and the German empire, and whereas, the proclamation of martial law is necessary for the maintenance of the British empire.

Presented to the senate by Senator Joseph Smith. Among them was a telegram from the president of the United States Bankers' association, urging that Congress be kept in session until legislation to aid the south could be passed.

To reimburse the government for the loss of the cotton crop of 1913, the bill would make no provision for the cotton crop of 1914.

Senator Smith said that so extended debate on the amendment was extended, that the bill would be incorporated in the bill.

COTTON MAY DELAY ADJOURNMENT.

Washington, October 13.—Efforts to secure legislative relief for the cotton crop of 1913, which is about to be cut, are being made by the Senate.

Considerable progress was made on the bill today, but the bill will not be reported until tomorrow.

Senator Martin, chairman of the appropriations committee, replying to the charges of extravagance which have characterized practically every republican speech in opposition to the bill, stated that the bill was not a mere appropriation, but a measure to provide for the cotton crop of 1913.

TIFT BOY SPENDS EXHIBIT FLEND RESULTS WITH CORN

Tifton, Ga., October 13.—(Special.)—Twenty-five Tift county Corn club boys brought their reports to the county office in Tifton today and twenty-three of them brought exhibits. The other two had not finished gathering their corn.

The exhibits were displayed at the chamber of commerce, and the boys were addressed by Mr. J. C. Cunningham.

Three of the boys made over 100 bushels to the acre. After deducting the cost of seed, fertilizer, and all expenses of cultivation and for the corn raised, the boys made a profit of \$12.50.

George Conner made 164 bushels at a profit of \$12.50, and Fred King made 110 bushels at a profit of \$12.50.

The boys also brought in a corn exhibit of 40 bushels to the acre.

NEEDS OF TRADE MUST BE STUDIED

Many Manufacturers Meet
to Discuss the Problem to
Securing Trade of South
American Countries.

Fully a hundred manufacturers of Georgia and adjoining states gathered Tuesday at the Atlanta Chamber of Commerce to discuss the problem of extending their trade into South American countries, radiating with their goods what these countries have been buying from European countries now at war.

Well-known authorities on South American trade methods addressed the assemblage of prominent manufacturers, advising them how best they might promote a Southern market for their wares.

C. L. Chandler, foreign trade agent of the Southern railway and allied lines, at the morning session, stressed the importance of southern manufacturing agents learning how to speak Spanish, if they desired to extend their trade into South America. The merit of Mr. Chandler's suggestion was recognized at once, and put into effect in the form of the following resolution.

Resolved, That the Atlanta Chamber of Commerce, in co-operation with the Southern railway and allied lines, shall endeavor to secure the teaching of Spanish in the schools of this city and state.

Spanish in Schools.

Resolved, That the conference recommends to the boards of education in southern cities to include in their curriculum the study of Spanish in the schools, and that the merit of the study of Spanish in the schools of this city and state be given special attention.

Resolved, further, That we recommend to the faculties and the trustees of colleges and universities in the south that they give more attention to the study of Spanish in their curriculum, and that they be encouraged to take up actively the study of Spanish in the schools.

Learn Needs of Trade.

President Fairfax Harrison, of the Southern railway, was unavoidably prevented from coming to Atlanta to the convention, and an address prepared by him was read by Mr. J. M. McLeary, assistant general freight agent. Mr. Harrison recommended that the manufacturers of the south, in dealing with South American countries, should be given special attention to the study of Spanish in their curriculum, and that they be encouraged to take up actively the study of Spanish in the schools.

Mr. Clark stated that, although South America has annually \$150,000,000 worth of cotton goods, only about \$4,000,000 of this amount was purchased from the United States. He insisted that American salesmen must know how to speak Spanish, and know the Latin-American characteristics.

Francis H. Bartlett, special representative of the National City bank of New York city, which has established a branch bank in Argentina and Brazil, explained the situation of the American banking situation to the manufacturers, giving some instructions on the system of credit handling of foreign exchange, and the value of the two branch banks and the value of the information relative to credit of South American merchants would all be found in New York.

Other speakers were G. Groverman, Dr. Guy King, Cuban consul, located in Atlanta, told of the difficulties he found them in the foreign countries, stating that the trade with the American manufacturers would only after it was made.

ST. ANDREW'S DELEGATES TO CONVEY TONIGHT

Prominent Men From All Parts
of Country Will Be
Here.

The national convention of the Brotherhood of St. Andrew, bringing to Atlanta between 600 and 800 delegates from all parts of the United States, will convene tonight, and the first service will be held at St. Philip's cathedral.

The convention will be in session through Sunday, October 18. The service will be purely inspirational for the convention will not interest itself in legislation, or the government of the order, further than the election of a council, to which will be entrusted the entire management of the brotherhood for the next year.

The sessions of the convention, it has been announced, will be entirely open to all men and women who are interested in the order, but to men and women not yet initiated into the order.

The official headquarters of the convention will be the Hotel Ansony. Here will be the registration booth, the office of the executive committee, and the convention sessions. Some of the service will be held in the various churches in the city.

A great number of the delegates will be assigned to the Ansony and others will be entertained in private homes. The executive committee has arranged, a large cross in the form of an Ansony, has been placed in front of the Ansony.

The convention will bring to Atlanta more prominent men, business men, editors, statesmen and religious leaders in proportion to the number of delegates than any other convention possibly, that has ever been held in Atlanta.

Beginning with the Atlanta convention the Brotherhood of St. Andrew will endeavor to make its conventions more in the nature of a public religious gathering, and will invite delegates to the convention, than a clique convention.

A series of public meetings will be held on the streets in various sections of the city during the convention, and will be led by speakers of national prominence. These will be held at Five Points daily, another at the Southern Railway and Power company's barn, and another at the Georgia Hotel, and one will be held daily on the capital steps.

Meetings will be held each day at these points at noon. The services will be brief, and will not be in the sensational, nor will any appeal be made in the street meetings to attract seekers. They will be purely divine worship.

Sunday a public mass meeting will be held at the Grand theatre, and will be the climax of the convention, following immediately after the corporate celebration of the Holy Communion will be held at St. Luke's church.

For the reason that the delegates are to attend the convention of the Brotherhood are for the most part business men, to whom time is valuable, the delegates will arrive this afternoon and tonight, and there are at present only a few of the advance guard in the city.

Atlanta Boy Goes
to Take Pictures
of European War

Coming from a family of picture experts, Joe Hooker, an Atlanta youth, has been sent to Europe to take pictures of the European war for the Animated Weekly, with which he is connected as camera man.

The mother operates a picture slide plant on Peachtree street, and her son, George Hooker, is laboratory expert for the Sonnet Film company, of which Carl Rountree is manager. Joe Hooker broke into the business with the Sonnet studio, having gone north a year or so ago.

He has returned to New York to take up the European assignment, and to embark soon after his arrival.

Dave, editor of the official publication of the Chamber of Commerce of the United States, H. H. Richardson, acting director of commerce and industry of the Southern Section and development organization of Baltimore, Md., Dr. Z. Orr and Walter C. Cooper of the Atlanta Chamber of Commerce.

Officers elected for the coming year were J. K. Orr, chairman; J. H. Newkirk, Jr., of Chattanooga, Tennessee, chairman; and Dr. Guy King, secretary.

Before adjourning, a resolution was offered by Walter C. Cooper, secretary of the local chamber of commerce, which body called the trade conference, thanking the manufacturers, railroad men, government experts, representatives of banks and others for their attendance at the conference.

The conference decided to adjourn at the close of the first day, instead of attending into a second day, originally proposed.

PINK BOLL WORM LATEST MENACE

Enemy Fully as Destructive
as Boll Weevil Is
Headed This Way—Worsham
to Investigate.

An enemy to cotton, almost if not just as dangerous as the boll weevil, has just made its first actual appearance in a southern cotton field.

This pest, known as the pink boll worm, and evidently brought here from Egypt, has made its first appearance in a southern cotton field, near Madison, Ga., according to State Entomologist H. Lee Worsham, who left Atlanta last night for that place, where he will meet Dr. W. D. Pierce, of the United States bureau of entomology, for the purpose of investigating the matter and deciding what steps should be taken to control it.

Before leaving the city Mr. Worsham stated that unless the ravages of the pink boll worm are controlled immediately, it is liable to spread and cause even more serious destruction than that of the boll weevil. Mr. Worsham was evidently settled over the reports coming from Madison.

When this pest gets into a crop, Mr. Worsham said, it destroys fully one-half of it, while it does not spread in the same persistent manner as does the boll weevil, its actual destruction is more extensive.

May Declare Quarantine.

Information was received only on Tuesday that the pink boll worm had been discovered in a forty-three acre tract of cotton near Madison, Fla., and as soon as it was communicated to Washington a representative was ordered there at once. On account of the proximity to Georgia, Mr. Worsham considered it imperative that he get to Washington as soon as possible, and look into conditions in this cotton field.

If the facts turn out as reported, it is said, it may be imperative for the production of Georgia, to declare a quarantine against Florida cotton seed and to prohibit any shipments of seed into this state.

The pink boll worm, it is said, evidently came from Egypt, and was brought in from Egypt. It has been brought in from Egypt to time in Egyptian seed, but has been prevented from making its way into the cotton fields by the burning of the infected seed, which always comes in under strict quarantine regulations. It has also been known to come in in seed found in bales of Egyptian cotton. The Egyptians use rolling gins as a method of cleaning their cotton, and the seed is always packed in the gins, and the seed is always found in the seed, but up to date stringent observations of the pink boll worm regulations has prevented it from getting into any of the cotton fields of the south.

Very Destructive.

It is said the pink boll worm will destroy 50 per cent of a cotton crop under average conditions. A large percentage of the squares and bolls are so injured that they drop off, and a large loss of cotton will be the result.

ALL RECORDS BROKEN
IN WARFIELD SALE

Atlanta theatrical records were broken again yesterday when the public first saw the Atlanta theatre, and bought seats amounting to \$4,000 during the first four hours of the sale.

The "Auditorium" Friday and Saturday, with a Saturday matinee, will be a new record for three performances only, though the management is sure to be not here for a week, as it is the first time in Atlanta that a play has been run for a week.

The demand did not reach that of yesterday. Despite the fact that the theatre was open for three performances, the demand did not reach that of yesterday.

Braves Cop Four Straights; Rudolph Wins His Second; Evers' Single Wins Game

Boston, October 13.—The Boston National league club today completed the most successful season in modern professional baseball history by defeating the Philadelphia Athletics in the series at Fenway park, 3 to 1.

Beginning with their rout from last game in the series, the Braves in the middle of the season had broken traditions and records in the national sport with speed and abandon during the last three months. They emerged late-to-date champions of the world, leaving a trail of startling surprises and upsets in their wake which it will be hard to duplicate.

Least and far from the least of their accomplishments was the overthrow in four consecutive games of the most famous baseball marauder of Connie Mack, with his hundred thousand dollar infield, home run heroes and corps of skillfully blended veterans and youthful pitching stars. Tonight the champions gathered under the management of George Stallings, are celebrating their ascent to the championship, while the wreck of the Athletics' season, which was the home of William Penn, slumped and stupefied.

Unexpected as was the defeat, the Mackmen took it in good grace, priding themselves on their record for the season. In fact, none available, but the Philadelphia outplayed and outgamed the Braves in the first game of the series, and the warm admirers of the team, who had been collectively in the audience, appeared to get going in the manner in which they had been.

To crush completely and decisively the great combination which has represented Philadelphia in the national league in recent years is honor enough for any rival baseball club. But the Braves, in their youthful pride and winning, did even better. They have won a new world's series record by winning in successive the four games necessary to clinch the title.

Not since the national commission assumed charge of these annual inter-league contests in 1903 has this feat been achieved until today. Several clubs have won four of five games, however, and in the early days of the temple cup and World Series, the American association straight victories were chronicled.

ATHLETICS FIGHT HARD.

The Athletics fought doggedly until the end, and even late in the game today their adherents, who had made them two to one favorites, were still cheering before the opening contest, confidently believing they would win.

But the Braves, who were leading 1-0 in the fifth inning, were not to be denied. The Mackmen's famous punch, however, was not to be denied. The new champions were first to score, and, indeed, for the lead until the end.

Connolly, who had been in honor of scoring the initial run of the fourth season by working his way to the plate, was moved to third on Whittier's infield out, on Schmidt's infield out.

The Athletics tied the score in the fifth inning when Barry singled, took second on Schang's throw, and scored on Schang's double. Nothing daunted, the Braves came right back in the half of the same inning and won the game with two more out. Rudolph singled to center, took third on Barry's double to left and both came home when Evers' single won the game. The Athletics appeared to lose heart and never seriously threatened the remaining seasons at bat.

IS SHARED.

Because of the shortness of the series, the club owners and national commission divide a smaller sum than in any world's series since 1910. The attendance at today's game was 14,000, and the receipts \$12,000. Of this sum the players receive \$12,000, the club \$12,000, and the national commission \$12,000.

For the series for the series was \$11,000; receipts \$12,000; players share \$12,000; club share \$12,000; and the national commission's proportion \$12,000. The players of the series are eligible to share in the prize money. The players of the series are eligible to share in the prize money. The players of the series are eligible to share in the prize money.

WORLD CHAMPS.

The world's series of 1914 was the tenth between the pennant winners of the two major leagues since the national commission, the first since 1903, of baseball, took charge of the annual autumn championship league. Since American league and National league clubs have won the championship pennants. The American league victories and the clubs that won them follow:

1910—Philadelphia.
1911—Philadelphia.
1912—Philadelphia.
1913—Philadelphia.

him to have caught it. Jack Barry was tossed out. Mackinaw to Schmidt, who threw to Evers on second. Schang struck out.

The National league champions got a man on in their half of the second after two were out. Barry was hit by a grounder. Whitted sent a hot liner that clearing first. Barry was out. Barry was a grounder to Schang and was retired at second by Mackinaw. Barry making the toss to Collins.

CLASHING CURVES ARE STRAY.

Shawkey speed Philadelphia's third inning by striking out. Murphy went out on a quick one. Three by Deal. Rudy Olmstead made the Philadelphia error. Rudy Olmstead hit in the series, a clean single to centerfield. He tried to steal second and was out on Gowdy's fine throw to Mackinaw.

The Braves went out to one, two, three order in the third. Deal rapped a fly to Olmstead. Rudy Olmstead poked a grounder at Barry and was thrown out. Moran went out the same way.

The Athletics got two hits in the fourth inning, but did not have the punch to put a man across the plate. Collins opened with a sharp grounder to Johnson. Evers and Schang threw out. Baker smashed a hot drive at Schmidt, which Collins hit first baseman could not handle. Play was stopped while Schmidt regained his equilibrium. The ball evidently having struck him in the back, Schmidt slipped a base hit into left field. Baker made a great dash to third base. Collins threw out. On the throw-in, Melville tried to reach second but was thrown out. On the throw-in, Melville tried to reach second but was thrown out.

SHAWKEY DRIVES HOME

Barry made his first and only hit of the game in the fifth inning. It was a single which Mackinaw could not handle. Barry went to second on Schmidt's throw. Barry went to second on Schmidt's throw. Barry went to second on Schmidt's throw.

SALES FOR EXPORT ADVANCED WHEAT

Chicago, October 13.—Liberal export sales of wheat and flour, especially at Kansas City, have been the main offset today for a decided increase shown by the United States visible supply. Accordingly, the market finished steady. The visible supply of wheat closed 1-3 to 1-4 up, oats with a gain of a shade to 1-4 and provisions varying from 2 1/2 decline to a rise of 12 1/2. A bullish sentiment in wheat was given further impetus by reports that have that seeding operations abroad had made but little progress, and that the remarkable falling off in receipts at Winnipeg continued. Moreover, among the enlargement of the domestic visible supply of wheat made the total 2,700,000 more than at the correspond-

EFFICIENCY IS THE REWARD OF GOOD HEALTH

Efficiency is the watchword of the times. It is the search after this efficiency that drives out the weak point in so many different phases of business.

Are you physically efficient? Is your body as working in co-operation that you are able to produce the maximum of energy without weakening any energy in the body?

The chances are that you are not. The brightest physicians maintain that not a person out of a hundred in America could pass a physical efficiency test with a clean bill.

Nervous debility, the product of civilization, has weakened every man's demands assistance. Perfect rest is one efficient means of recovery, but how many of us can afford the time or money to take several months of rest? But science has produced a substitute in the form of a tonic.

Yona Vita will drive away that feeling of depression. It will bring vitality to your system. You will no longer suffer from that tired feeling, but will instead, with refreshing vigor.

Yona Vita can be obtained at any up-to-date drug store in Atlanta.

TECH IS GRATEFUL FOR WORK OF COMMITTEE

Dinner Will Be Given Those Who Raised Fund for the School.

Governor-elect Nat E. Harris will be in Atlanta today to attend the meeting of the board of trustees of the Georgia School of Technology, which will be the first since the recent campaign which resulted in the raising of a fund for enlarging the school.

The board has invited members of the campaign committee to be present at the meeting which will be held in the chapel. After the business of the meeting is disposed of the board and its guests will go to the Georgian Terrace, where dinner will be served.

There will be speeches by members of the board and invited guests.

President K. G. Matheson stated Tuesday that the board has invited members of the campaign committee to be its guests to express its appreciation of the school for the funds which resulted in the raising of a fund of \$100,000 for building a new school system.

He said that the school was assured of more than \$100,000 in gifts of machinery, gifts of manufacturers, which will add greatly to the equipment of the school already enjoys.

According to the recommendation of the time and place committee, which was adopted Tuesday after night dinner, the next convention will be held at Los Angeles, July 12 to 14, 1915. The recommendation was opposed by Dr. W. T. Moore, of Business, who is the most venerable minister of the Disciples on the ground that Los Angeles was so far away that many in the convention would be prevented from attending it.

Dr. Moore said that he would be over, that the 1915 convention was to be held at Los Angeles, the convention was so far away that many in the convention would be prevented from attending it.

The report of the treasurer, Rev. R. H. Thacker, was read at Tuesday's session, and adopted, showing that the convention had received \$10,000 for the year ending June 30, 1914. A number of other routine reports were also adopted.

The principal address of the day was made by Dr. W. O. Johnston, of the well-known leader of the Disciples, who spoke on "Men and the Church," making a strong appeal for the standard of membership in the church, and the need of a living faith in the men of the nation.

Dr. Johnston said that the church is the body of Christ, and that the church is the body of Christ, and that the church is the body of Christ. He said that the church is the body of Christ, and that the church is the body of Christ. He said that the church is the body of Christ, and that the church is the body of Christ.

Under the new plan, every member of the Disciples of Christ throughout the world would be a convention delegate who came to the gathering. Any delegate would be eligible to hold office, and also to vote in the ordinary business of the convention.

However, if the "yes" and "no" vote is called for, as it will be for important matters, then each state and territory of the United States, and also each foreign country represented, shall have ten votes, the entire number of delegates.

A feature of the day's program during the session of the Disciples of Christ association was the singing of the hymn "The Church of the Disciples," which was sung by the entire assembly.

The number of delegates was made in connection with the assembly members of the Disciples of Christ association. The number of delegates was made in connection with the assembly members of the Disciples of Christ association.

Plans for Christian Union.

Stirring appeals for Christian union were made at the Tuesday night dinner by Dr. W. O. Johnston, of Business, who is the most venerable minister of the Disciples on the ground that Los Angeles was so far away that many in the convention would be prevented from attending it.

The Humphobile.

It's a fine thing to sell quality, but it's a fine thing to deliver it, says John M. Smith Co.

The Humphobile has always delivered quality, and we think the new model goes further in that direction than any other car which is no slight praise for it.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts Before Breakfast If Your Back Hurts or Bladder Bothers You.

The American men and women must guard constantly against kidney trouble, because the way our blood is filled with the acid waste the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissue clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy; full of sediment or you are obliged to seek relief two or three times during the night; or you suffer with sick headache or dizziness, or nervousness, or stomach trouble, or rheumatism when the weather is bad, get from your drug store a bottle of four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will be cleansed and your blood purified.
