The Christmas Gift

"Back of all birthdays is the wonderful fact of birth, Nature's most holy manifestation." By the same token, back of all gifts is the beautiful spirit of giving, the noblest impulse of the heart of man.

It is fitting, therefore, that when we employ the art of giving to commemorate the greatest of all birthday anniversaries, that we select a gift that will really carry with it the spirit of the day and be a complete symbol of the love which prompts its sending.

NATIONAL CONGRESS MOTHERS AND PARENT-TEACHER ASSOCIATIONS

Letter From State President.

In order that our department may contain things of interest to the state-at-large, I earnestly request each district vice president, as well as the presidents of the various parent-teacher associations and Mothers' clubs to send their reports to the state chairman of the publicity committee just after their meetings. These reports should give the work accomplished through the different committees, as well as the programs that have been arranged. The work of your association will inspire and stimulate other associations to greater effort.

Never in the history of our great organization have we had more enthusiasm than now. Your president is receiving calls to visit different sections to organize parent-teacher associations and to assist in better habits of conduct. These two departments seem to be creating a state-wide interest, and they are all-inclusive. The better habits content and exhibit care for the child until school age, where the child's health, habits, character, and the child's eye, hair, nails, mouth, etc., shall be seen.

Child Hygiene and Nutrition.
The work of the Parent-Teacher Association is as broad as we wish to make the meaning. Every department included in the national and state work is included in this. The individual club can work as many or as few of these departments as they wish. But I sincerely hope every association will have a department of child hygiene and nutrition. I believe every mother is vitally interested in promoting good health for the community as well as for the home.

It is a well understood fact that each individual association has its own problems that must be solved. Each association is in a position to help the community in which it is located and by the association and its officers. Each association is an individual one, and its government is entirely in its own hands, hand-dipped neither by the state or national. But each is a part of the whole, and make up one grand organization, whose sole purpose is the welfare of the child and the present and future generations. Now, let me urge every mother who is not a part of this body to join the nearest parent-teacher association in her district. If you have no organization, consult your principal, school and organize one. If you don't feel equal to forming an association, write your district vice president for help. Every member of a parent-teacher association of church or school receives a membership card, stating the aims and purposes of the national body, when they send in their list of members to the state secretary, accompanied with the 10 cents per capita for each member. These names are sent to the national office, where they are registered and kept. In this manner it is possible to know the membership of each state.

What the National Does.
Five cents per capita is forwarded with the list of names, so you see the national only receives 5 cents from each member. Let me say here that I am frequently asked, "What do I get in return for the 10 cents I send from my own association?" First, let me mention that it is not a power that is so subtle that you feel you are being pushed, but it is a real fact. The national furnishes your president with means to supply each of the district vice presidents with amount necessary to extend the work in her district. This is far more than we receive from the state. The national, you see, gives us in return more than they receive from us. Then we have the inner consciousness of knowing that we are doing our best effort toward bettering the conditions for the children of our state. We may have laws that are adequate for the protection of children, but if mothers, real and universal, are not interested in the children of the community, will these laws always be effective?

While we have accomplished much, yet we need the support of many more organizations that we need have in order to carry out what we have undertaken. If every mother would use her influence toward raising the age of consent, how long would it be until this present law would be changed? We need what other mothers have, and everything is possible for Georgia that has been accomplished elsewhere. What we need is a united motherhood, all working for the one great purpose—the welfare of our children.

I stand ready to help in any district that specially needs my service, and let me again ask you to assist me in our state work by giving our department the news from your association or mothers' club just after our meeting. Please send the same to our secretary, address at top of page. Cordially yours,
MRS. HON. A. D. FAYNE,
State President.

North Avenue Association.
The things undertaken by the North Avenue Parent-Teacher Association, and that were carried through, are much to the city-at-large as well as our particular district. Under the leadership of Mrs. George Haugh, the old Fonce de Leon park was converted into a summer playground for the children of that district. No one could doubt the ladies of this district know how much work is required to accomplish all the things that this organization has accomplished. More than 40 children were enrolled during the summer at this playground. The average daily attendance was something over 200.

The city also provided recreation for the children, and the mothers were there daily to assist the children in games. A graphophone was furnished to our Parent-Teacher Association, and this gave the children opportunity for singing.

Mrs. Haugh, who was working so uniformly for this playground, was unable to attend our recent meeting, much to the regret of our secretary. At our meeting, Mrs. Haugh was present and presented. The afternoon was devoted to talking the matter over with the ladies. A most interesting talk by Mrs. Haugh was given. The ladies of this district are anxious to do their work. This was timely for the ladies of this district. The ladies of this district have recently contributed to the city a driving fountain, a memorial to his little son, who passed away during the summer vacation.

MRS. E. I. ASHLEY.

Gets \$250 Damages.
Valdosta, Ga., December 12.—(Special)—Willie D. Moore, a traveling salesman, who used the Valdosta Street Railway company for \$1,000 damages, alleged injuries sustained when a street car ran into his automobile, was given the sum of \$250 by the city court yesterday.

The accident in which Mr. Moore was hurt occurred on Hill avenue some months ago. Moore had stopped on the sidewalk to light his lamp, and while doing so the automobile struck by a street car, throwing it over and catching Moore under it. The automobile was partially wrecked and Moore laid up in the hospital for some time.

IN ATLANTA'S SOCIAL REALM NEWS OF INTEREST TO WOMEN

Engagements

In the Social Whirl

By Irma Dooley

Irma Dooley has been the social center of the week, both in home and at the club, and the tides of the President's election. Wednesday and that at David Hill yesterday afternoon both assembled large parties.

There have been many dinner parties and small luncheons, and the holiday spirit is already manifest. The Christmas decorations are showing themselves in hospitable homes, and Santa Claus, with his arms filled, is in the minds of the happy little folk, who still believe in the old story.

This week the college set will begin to arrive home, and their program will include festivities morning, afternoon and evening.

The dinner-dances will be numerous, but none could be more enjoyed than the two this week, the one Friday night at the Georgia Terrace, and the other Saturday night at the Piedmont Driving Club.

Mr. and Mrs. William B. Kiser gave a beautiful dinner Tuesday night, assembling twelve guests. The decorations were the most elaborate. The table was set with the most beautiful of the season, and the place cards and menu were of the most artistic.

Mr. and Mrs. Woods White gave the first of a series of dinner parties for the season, and were assisted by their lovely young daughter, Miss Lulu White. The party was given at the home of Mr. and Mrs. Woods White, and was a most successful one.

Mr. and Mrs. John N. O'Farrell announce the engagement of their daughter, Catherine Moeck, to Mr. Robert Deaver Caldwell, of Atlanta, the wedding to take place in January at home.

Atlanta Writers' Club.

One of the charming events of the week, both at a social as well as a literary viewpoint, will be the first of the Atlanta Writers' Club on Wednesday afternoon at the club. As this was the first social affair of this popular club, it was most appropriate that it should have been held on the birthday of Joel Chandler Harris, the south's greatest writer.

The president, Mrs. J. C. Harris, was the guest of honor and, standing with her to the right, were Mrs. Wm. C. Harris, the organizer of the Writers' Club; Mrs. J. C. Harris, first vice-president; Mr. and Mrs. William H. Miller, Mrs. Arthur Smith and General Skelly. Much to the regret of everyone, the president, Mr. W. C. Harris, was called out of town at the time. That he had not forgotten the occasion was signified by the dainty carriage house, the gifts to the ladies present, and the reading of a telegram received from him during the afternoon.

A delightful program was given, Mrs. R. B. Blackburn, one of the club members, recited in her inimitable way an original poem on "Uncle Remond's Christmas Eve," which she had composed for the occasion. The program was most successful, and the social hour was most enjoyable.

ability of procuring them from the usual sources, Mr. Yeager determined to prepare for "the rainy day" and to equip his children to meet any emergency that might arise. He took his two sons into the business and has seen them in research of dye products in this case. The two brothers, both educated brilliantly, are conferred with as to their choice of equipment for life in case the millions of their probable inheritance were cut off.

Miss Clara Yeager, the elder of the two daughters, at once decided to continue the study of music with a view to the concert stage. She has white studying attraction, the attention of managers, and will probably make a tour of the south professionally this season.

The younger sister, Miss Eleanor Yeager, decided to go to Columbia university, and take a course in domestic science. She is there now, and is making dressmaking her specialty. She is delighted with her progress, and will not come to Miss Campbell until the Christmas holidays, when she will have her vacation.

Not only does the principle attending these young women present itself as most practical, but what a helpful situation it is to the man of family, with the fortune uncertain in its duration, can feel that, what may matter, the children for whom he is responsible will be enabled to look after themselves no matter what may happen!

Another phase of the situation is the joy of an interest as well as that merely social, which enables a young woman to live life to the hilt, and to make youth the time for the purest joy, and rational pleasure will ever develop youth of its kind, and it is possible for the young woman of the present day to have some vital, some interest to combine with the social pleasures which are a part of her rights.

THE VALUE OF DOMESTIC SCIENCE. Mr. and Mrs. Yeager have selected domestic science as the business or profession, in case self-support should confront her, something may be said as a strange mistake idea, that there is a lack of dignity in the profession of domestic science.

So much dignity is attached to the knowledge women should have of the science, including a knowledge of handwork, that the education of the royal women the teaching of cooking and sewing is a necessary part of their education.

Any pursuit so essentially womanly, and a part of the equipment of the complete woman, has every right to be placed to the highest form of perfection as a science, and in the present day no form of woman's legitimate line of work has more of

HARVARD'S FOOTBALL DATES TO BE CHANGED

Cambridge, Mass., December 12.—The Harvard football team, according to a statement from an authoritative source, will play its first game on Saturday, December 19, at the stadium, instead of on the 12th, as originally planned.

During the last year there has been considerable falling off in the number of spectators at the Harvard games, and it is believed that the change in dates will result in a more successful season.

CLASS FOOTBALL STARTS AT TECH

In Double-Header Saturday the Teams Fought to Two Scoreless Ties—Good Football Played.

By Hal Reynolds.

The Tech teams began their football season yesterday afternoon with two exciting games, both of which were 0-0 affairs, between the seniors and the subs and between the juniors and the freshmen.

In the senior-sub game the former outplayed the latter all during the game. The subs never seriously threatened the seniors' goal line, while the upper classmen were in striking distance of the subs' goal repeatedly.

In the last minute of play in the first half the seniors carried the ball over for a touchdown. The play was ruled illegal, however, as the seniors had more than eleven on the field at the time the play was made.

Forward Pass Used.

The seniors made some nice gains at times by resorting to the forward pass. They scored the first gain in the first half, but when the ball was inside the seniors' ten-yard line, the play was broken up. The subs did not attempt any forward pass.

In the matter of first down, the seniors also had the better of the lower classmen. The former made their distance a number of times, while the subs made but one or two throughout the entire struggle.

At one time, when the seniors had the ball on the sub's 34-yard line, the seniors attempted a drop kick, which went wide by but a few feet. The seniors then made a march toward the seniors' goal line.

The subs recovered nearly all of their possessions, but the seniors' line of the ones made by their opponents.

GREAT FINN WINNER OF X-COUNTRY RACE

Hannes Kolehmainen Shows His Heels to Classy Field in Record Time.

New York, December 12.—Hannes Kolehmainen, wearing the colors of the Irish-American Athletic club, won the national senior cross-country run of the Eastern Athletic union today over the six-mile course in 1:24:40, a new record for the Van Cortlandt course.

The course is laid out over stiff hills and dales country. Among other obstacles it includes a formidable water jump where each of the contestants got an ice cold mud bath. Kolehmainen led all the way, winning by about sixty yards from Arthur J. Fogel, of the Irish-American Athletic club, who finished thirty yards ahead of his clubmate, Thomas Barlow. Fogel's time was 1:24:40.

George F. Holden, Y. M. C. A. Track, was fourth, Patrick Ryan, Irish-American Athletic club, fifth, and Raynor, Mercury Athletic club, Philadelphia, was third, with 67 points. There were twenty-two starters.

The team prize was won by the Irish-American Athletic club with 3 points. The New York Athletic club was second with 10 points, and the Philadelphia club was third with 17 points.

Maude Adams.

(At The Atlantic.)

Charles Froese, producer of the new Maude Adams in a double bill, consisting of "The Legend of Leonora" and "The Legend of the Blue Bird," has announced that on Monday, for three days and Wednesday matinee. There is always a demand for the part of the public to see Miss Adams and the desire in the present season to see her in the new production, securing qualities of her new production.

The chief play and the one with which the bill opens is "The Legend of Leonora," a play by the late Mrs. F. W. Howland from the pen of Barrie since "What Every Woman Thinks" it has had a success in London and New York. It has won lavish praise while in the United States.

"The Legend of Leonora" is a sublimely beautiful play, a comedy, it is styled by the author as a comedy, it is a play of the times as seen through the eyes of a woman, a play of romanticism. The question as to whether it is a comedy or a tragedy is outside the matter, for, as she is unfolded she is undeniably human and lovable. She has the right to be as she commits murder for her child. She is too good to be killed.

Liane Carroll, Anna Hild, daughter assisted by Tyler Brooks and a sextette of pretty girls, will headline at the Forsyth this week in a bright little musical comedy. In addition to the comedy, Harry Richards and Beaulieu Kyle, will appear in a little theatre piece, which will be seen in their new success, and Malita and Bart in a unique comedy, "The Bargee Smashers," will be additional features. Nonette, the violinist, who sings, is one of the best and has great many admirers. They will give a hearty welcome, and Whipple Houston and company, in their comedy of "ferling," "Pipoka," will contribute to the entertaining. Further notice of the

The two boys, in the absence of their parents who were just returning home, when the pistol shot was heard, had been playing with a pistol. Frank had been carrying a place on a bridge into the pistol, when it was discharged, the bullet entering the neck of Edwin and ranging upward, lodging in his cheek. The wound, while a painful one, is not dangerous.

STATE SCHOOL EDUCATORS' IDEALS ARE OUR IDEALS

No difficulty is experienced by bodies of workers in doing their work when they are assured of the goal. And for assured success our leaders must be intelligent, practical, experienced and wise.

Georgia club women are fortunate to co-ordinate their educational work with that of the state school officials. For we are learning that the community conditions are of vital concern in solving the school problems; we are learning that training the child for his everyday duties is of far greater importance than the ordinary lessons found in school books; we are learning that the physical side of life is of paramount importance; we are learning that the reason sanitation and hygiene are being stressed; we are learning that the child's mind to the possibilities about right kind of teaching and that training of this kind makes him alert, resourceful and ready for action; we are learning that by teaching practical agriculture through home arts, and that by teaching the child to be a good citizen through the study of the organization of our civil and military clubs, we are serving best the large task of the state school officials; we are learning that in order to get the best out of the child, the child only by making the child into a social citizen; we are learning that the cultivation of the beautiful is the recognized value in character-building; the planting of flowers, shrubs and trees is made a part of the school work.

All that represents the best in education we hope to absorb and put into practical use at our Tallulah Falls Industrial school.

A Visit to Our School

Tuesday and Wednesday of Thanksgiving week I spent at our Tallulah Falls Industrial school. I was there for four days of my valuable time helping the new pupils, the children, to adjust to the school machinery, and to map out an industrial schedule for the coming year.

The regular school curriculum. At my own expense I have visited the school five times since August. From the scrubbing to the teaching I have taken part in the school life, and in consequence, the children are my friends.

One morning when Miss Allen was engaged with Miss Parrish in teaching the sixth and seventh grade children. It was a privilege and an honor to be present and to see the children at their work.

Parents invited to dinner. The parent of the scholarship pupils were invited to dinner with us at the cottage. We explained to them in detail our ambition and plans for the school, and at the same time we let them know that our financial problem is a serious one. We urged that their children be sent to the school and that we could not hope to attain the high standard set by the school.

RECOMMENDATIONS TO THE COUNTY TEACHERS

The New Reo The Fifth—"The Four"

WHAT NEED WE ADD to what you already know of this great car? For of course you do know. If you have not owned one, you have many friends who do. And they have doubtless told you in more extravagant terms than we would care to use.

MORE THAN 40,000 of them are today in hands of users: 12,000 were sold last season.

AND AS PROVING the popularity of this model we need only say that on November 10th the last Touring Car left the Reo factory. And that for thirty days at least there has not been, so far as we know, a Reo the Fifth on any Dealer's sales-floor anywhere.

THE PROOF OF QUALITY in any product is "will it sell in the off-season?" Autumn is supposed to be the off-season for motor cars. Not for Reo cars though—we have never known a time when, even with our splendid factory facilities, we were able to make enough Reos to supply the demand.

WE HAVE JUST INCREASED our plants nearly 50 per cent—necessary to produce the new "Six." And we hope to be able to more nearly supply our dealers this year than formerly.

AS WE HAVE NO AMBITION, however, to be maker of the most automobiles, but of the best, we do not expect, ever, to supply all the demand for Reo cars. That would be our idea of—well the reverse of success.

TO MAKE THEM EVER BETTER—so much better that, always, the demand will beckon the supply—that is our desire.

FOUR YEARS AGO we announced that, after more than 23 years of experimenting—testing—proving—we had produced a chassis that we believed was finality in all essentials of design. And we said so.

SOME FRIENDLY RIVALS laughed at that statement—said that changes would continue to come with the seasons—as they always had.

NEVERTHELESS WE WERE CERTAIN in our own minds that, in the three-unit power plant and in other features that have become known as peculiarly Reo, we had established principles that would not change—so long at least as the principles of gas engines remained as they were.

IMPROVEMENTS? REFINEMENTS? of course—but only in minor details. The world moves and of course we expect to move with it. Reo has from the first been in the van—we mean to stay there.

BUT IN THE FUNDAMENTALS of a self-propelled pleasure car, we were convinced we were right. Events have only served to confirm us in that belief. Reo the Fifth is today, in all essentials, the same as then—and it is still the leader in its price class.

FROM SEASON TO SEASON we have made much improvement as the progress of the science has made possible. And as our facilities have increased and our purchasing ability become greater, we have from time to time reduced the price of Reo cars at the same time that we have increased the quality and the class.

IN THE CASE OF THIS FOUR we have been able to do two things we had considered impossible—we have made a bigger, at the same time we have made a still better car.

READ THAT AGAIN—MULL IT OVER—sense the significance of the statement—a larger, more luxurious car—refined and improved at every point where refinement or improvement was possible—and at a lower price!

HOW WAS THAT POSSIBLE? you ask. Tell you—

THE MOTOR PROVED to have more power than was necessary—more than was really desirable for the weight of the car. Refinements, recently made, increased that power still more.

SO WE FOUND we could add three and one-half very desirable inches to the length of the car, give the buyer a more luxurious equipage, and yet have a car of ample power.

THAT DIFFERENCE IN LENGTH—and we made it wide at the same time—makes all the difference in the world in the capacity and the comfort of the car. It gives a full door—without having to cut the corners to let the wheel-house in.

OTHER NOTICEABLE IMPROVEMENTS—in a car which formerly seemed about perfection—were:

IMPROVED UPFOLDING—higher backs to seats. Extremely low-back had been waiting. Now back to comfort.

IMPROVED WINDSHIELD support—with braces running from cowl to body sill—secret of success of "One Man Top."

POCKETS in all doors.

INSTRUMENTS mounted flush on instrument board.

HOOD FASTENERS—new and improved type. Stay put—and unfasten readily when you want them to.

ENTIRELY NEW TOP—a real one-man top. Can actually be put up or down by one man—after long use as well as when new. Secret is in the secure attachment mentioned above.

WINDSHIELD—Oval moulding and pressed steel construction throughout. New method of fastening—and top attaches direct to and is immovably supported by windshield.

Reo Purchasing Power Made

A Condition That Was To Others, Proved To B

WE PROMPTLY TOOK, and are giving you—full advantage of it.

READ CAREFULLY—It's the Silver Lining to the War-Cloud.

YOU ARE OF COURSE AWARE that the Reo Motor Car Company is financially the second strongest Automobile concern in the world.

OR WEREN'T YOU?—We had supposed that knowledge was common property. Anyway, you can easily ascertain the truth of the assertion.

WE WOULDN'T MENTION IT HERE—never have before—but it is necessary to state the fact in order to explain something that is otherwise unexplainable—the wonderful values we are able to give in the two Reo models shown and priced above.

FOR "WONDERFUL VALUES" is the only term that expresses it. Think of it!—The New Reo the Fifth—that incomparable four, improved at many points and a larger car than its immediate predecessor—and at \$125.00 less than last season.

AND THE SENSATIONAL REO SIX—A six designed and made the Reo way with the Reo guarantee at the amazing price of—\$1385!

THAT CALLS FOR EXPLANATION, for you nor anybody else dreamed it would ever be possible to produce such cars at such prices.

SO SURE WERE WE OURSELVES of that, we went so far as to state in an advertisement a year ago "no maker ever can—not even Reo ever can give greater value than this"—speaking then of Reo the Fifth at \$1175.

YOU RECALL THE STATEMENT doubtless—so when you saw the price, \$1050, quoted above—and realized also that this latest Reo the Fifth is a larger and an improved car, you wondered.

WELL HERE'S THE ANSWER—and it's mightily interesting.

THE GREAT EUROPEAN WAR has created two sets of conditions—contradictory in some aspects.

FOR EXAMPLE, while we know that Six Hundred Millions of dollars go into American banks every thirty days—a guarantee of prosper and of a market for automobiles in the coming months—at the same time you know that banks are most conservative about loaning out. And that is as it should be. Safety First. AND SO YOU KNOW, if you stop to think about it—that many manufacturers of automobiles and of other commodities, who were financially sound but who lacked a large surplus of cash, found it impossible to borrow during the past few months. These were necessarily limited in their capacity to their own funds.

AND THAT WAS WHERE REO, with enviable financial position—having the money in cash, and controlled, not by absent shareholders but by men who daily direct Reo destinies—was able to avail itself of the condition that then existed.

TO BUY WHEN OTHERS WERE EAGER TO SELL—and when there was practically no competition in the buying market—

TO MAKE MORE CARS at a time when makers must perform curtail—and to have them ready for our dealers and customers when the demand will be heaviest.

NO ONE COULD HAVE FORESEEN a condition that had arisen. The best authorities on world affairs did not anticipate the war. At the time when we said "this is the value it will ever be possible for us to give we had in mind of course the normal conditions that then existed. Those conditions changed over night.

WHY A FEW MONTHS AGO, if a manufacturer wanted a few thousand tons of steel, of special kind, he had to go to the mills, please—and wait his turn.

THEN THE WAR—The doubt; the uncertainty—stagnation for a time.

THEN IF IT BECAME KNOWN there was an order for steel in sight we found, figurative speaking, representatives of twenty steel mills camping on the steps of a morning, waiting say please to the purchasing agent.

"A Day at the Union Station" Big Success—Want It in Other Cities.

So successful was the play, "A Day at the Union Station," given last Saturday at the Atlanta theater, under the auspices of the United Commercial Travelers of this city, that the promoters have received many requests to repeat the performance complete here also. It is being the play again to their cities for a performance. The officers of the traveling club are planning to take one or two trips to other cities and will repeat the performance here for some of the many charities now suffering for aid.

A review of the play at this time is unnecessary, as it is well known that the play was a success. The play was a large success, and the audience was very large. The play was a success, and the audience was very large. The play was a success, and the audience was very large.

Charged for Cash.

"Come in and have it charged." was the inviting sign in front of a place of business in a Jersey town. A stranger, being somewhat lost in funds, walked in and was asked to charge. "I understand that I can get things charged," he said, addressing one of the employees. "I have charged my battery," replied the other man.

The REO SIX *The Six of Sixty Superiorities*

\$1385.

These Wonderful Values Possible an Insurmountable Obstacle Reo's Golden Opportunity

THAT CONDITION was of the moment only—but it existed. And only because we were alert and able to take instant advantage of it are we now able to give you the unprecedented—the unexpected—the un hoped-for values we announce in this ad.

WE HAD THE CASH—our own, to use on the instant without let or hindrance from anyone. We could declare another dividend—or invest it to vastly greater advantage in the future of Reo. We chose the latter course.

SO WE BOUGHT, and, paying the cash when cash was at a premium, bought right. Bought better than we had ever hoped—secured quality at prices theretofore impossible. From tires to electric starters—steel to leather—and hair—and paint.

DID SPACE PERMIT we would like to enumerate many points where we have been able to incorporate value heretofore impossible.

ONE MUST SUFFICE. Among the "Sixty Superiorities" you'll notice—and you'll be surprised to find—"worm bevel driving gears" in this \$1385 Six.

NOW THINK BACK and you'll recall that a year ago "worm bevel gears" were loudly emphasized as a feature of \$5000 cars.

A CERTAIN CONCERN owns the patents on the only practical machines for generating this type of gears. Their capacity had been spoken for by European automobile makers. Our engineers wanted them. We tried to buy—impossible.

THEN THE WAR BROKE OUT. European factories practically closed. Our opportunity again—cabled for options. Got them—and the machines.

AND NOW YOU WHO BUY THIS REO SIX obtain this desirable feature—one you have coveted to buy but considered unattainable at any price you could afford to pay.

THE WAR IS BENEFICIAL to those American manufacturers who, like Reo, are alert to take advantage of it.

AND SO WE HAVE NO APOLOGIES to make even to those friends to whom we sold 12,000 Reos last season. Nor for a statement that we made in the best of faith—and must now contradict in the same good faith.

FOR IN GIVING OUR CUSTOMERS the full benefit of the Reo purchasing power—instead of retaining the former price and taking the additional profit ourselves—we are only carrying out that policy which, adhered to from the first, has placed the Reo Motor Car Company in the splendid position it occupies today.

SPEAKING OF POLICY—let us correct an impression that we know is abroad.

OUR FRIENDS CRITICIZE US at times for what they call our "ultra-conservatism."

ABOUT THE ONLY COMPLAINT we ever hear from Reo dealers is that we are too modest in setting forth the merits of the Reo product.

WELL, PERHAPS THAT IS TRUE—if adherence to the strict truth in our ads; if a determination not to be carried away by the mania for mere quantities; if we prefer to be second in numbers of cars produced that we may be first in quality—if these be indications of "ultra-conservatism"—why then we plead guilty.

BUT OUR FRIENDLY CRITICS must concede that that Conservative Reo policy has produced tremendous results. Note the statement in the third paragraph of this ad.

WE DON'T CALL IT that, however. We call it conservatism militant. Aggressive conservatism. Alert conservatism. Being sure—absolutely sure—we are right, then going ahead unflinchingly—irresistibly.

DOESN'T THE VERY FACT that we were financially able to and did take advantage of a condition that we knew was transitory; and the further fact that, having bought better, we instantly offered the better values to Reo buyers—doesn't that look like "militant" rather than "ultra"—conservatism?

WE THINK SO—and so we leave the case in your hands.

The Six of "Sixty Superiorities"

THIS SIX IS SENSATIONAL not because it is a six but because it is a Reo Six. FOR REO WAS NOT one of the first to embrace the "Six" idea. Reo was one of the last. REO WILL NEVER BE one of the first to adopt any innovation—any new—any unproven idea. For our policy has ever been, not to sell ideas—inventions—but automobiles. Dependable automobiles.

AND YOU WILL ALWAYS find Reo "trailing" to just that extent. We will never be one of those to "take a chance"—with our customers' money.

NOT UNTIL EVERY uncertain or unknown quantity has become a certainty will any new type of car or motor or axle or part be offered with the Reo name-plate.

SO YOU CAN ALWAYS BE SURE—as you have in the past—that in buying a Reo you are investing in no experiment.

THIS SIX IS THE RIPEST result of Reo engineering experience. The very fact that we make and offer it to you is evidence that the "Six" idea has now passed the realm of uncertainty. AND FURTHER, let us assure you that, every one of the sixty points of superiority enumerated below have been tried—proven—in fact, helped make the fame of Reo the Fifth—the Fourth that has set the pace for several years and is today setting it faster than ever.

THE "SIXTY SUPERIORITIES":

- (1) FLAT TUBE RADIATOR—won't leak through freezing. Flat tubes expand—don't fracture under pressure of frost.
- (2) RADIATOR DESIGN—an asset because the sloping, curved vane and graceful contour give class to the entire car. Costs more—worth it.
- (3) STREAMLINE HUB CAPS—protect bearing from dust, keep oil in. Removed with small screw-driver—original with Reo. Will be widely copied.
- (4) EXTRA HEAVY, one-piece, forged front axle—50 per cent over-size.
- (5) TIMKEN BEARINGS (4) in front hubs.
- (6) REO CYLINDER DESIGN—guarantees straight cylinders, uniformity of water jackets. No distorted cylinders—no scored pistons.
- (7) SAFETY—FIRST—and sure—sailing system.
- (8) THREE-PIECE piston rings—more power—quicker acceleration.
- (9) FIFTY PER CENT over-size crank shaft. Ever hear of a Reo crank shaft breaking? Never.
- (10) EXTRA HEAVY cam shaft—extra large cam. One reason for silence and uniformity of power in this Reo.
- (11) ECCENTRIC FAN BELT adjustment—best appreciated after you've owned the car a while.
- (12) SPIRAL HALF-TIME gears. Silent—and 50 per cent stronger.
- (13) VALVE ACTION—roller lifters. Some high priced cars still have mushroom lifters. But they also have a chaffeur to adjust them every little while!
- (14) OVERHEAD INTAKE VALVE—not exhaust. Another reason for greater power and silence.
- (15) FIBRE ROLLER tappets on intake—another "silence" feature.
- (16) VALVE ENCLOSURES—silence, and keeps them silent—see next paragraph.
- (17) BREATHING TUBE exhausts in valve enclosure—keeps parts bathed in oil spray, and—
- (18) NO OIL SPRAYED on outside of motor by breathing tube, eliminates most fruitful cause of dirt accumulating.
- (19) TWO FLEXIBLE JOINTS between motor drive and generator. Most use one only.
- (20) ADJUSTABLE main crank shaft bearings. Only motor made in America in which main as well as connecting rod bearings can be adjusted without taking motor out of car. No shims. See the book.
- (21) DUAL—injector type—exhaust manifold. Perfect scavenging of cylinders—no back-fire from one to another—more power, better cooling.
- (22) WATER-HEATED intake manifold—Idea borrowed from high priced foreign cars.
- (23) REO STEERING gear—different and better. Not a "talking point" because it's so simple you can see it—but a driving convenience much prized by Reo owners. No back-lash—adjustable for wear.
- (24) DRY DISC CLUTCH—You know the superiority of this type—no tendency to drag. Seven gears, axle, drive—and the driver's tanger.
- (25) THREE-UNIT power plant. Always was, always will be a Reo feature. Only excuse for Two-unit line is cheaper and easier for maker—less accessible, more expensive to owner.
- (26) FOUR UNIVERSAL JOINTS—most makers get along with one or two—also at the buyer's expense!
- (27) BRAKE AND CLUTCH control system—only one hand-lever. Both brakes lock—both double acting—both "service brakes."
- (28) REO ONE-LEVER CONTROL—simplest ever devised. Broadly covered by patents. They all copied—but they copy at a distance.
- (29) REO Gear-shift—direct connected lever—you feel the gears as if your fingers touched them. "It's a pleasure to shift gears."
- (30) REO patented locking device—impossible for two gears to mesh at once.
- (31) HYATT bearings in transmission.
- (32) "INDEX" PLATE surrounding control rod—"a service could drive without a lesson."
- (33) FULL FLOATING rear axle—50 per cent over-size shafts.
- (34) TIMKEN bearings in rear axle—everywhere.
- (35) NEW TYPE torque-arm takes stresses that would otherwise be transmitted to delicate mechanisms. See the book.
- (36) WORM BEVEL driving gears—how we were able to incorporate this feature is told in the "story." Read it again.
- (37) CANTILEVER rear springs—most horridous riding springs ever invented. See the book.
- (38) RIGID attachment of cantilever springs to axle—act as radius rods—keep axle in perfect alignment at all times.
- (39) REMY electric starter and lighting. Made like the car—to stay good. Always starts. Some don't, you know.
- (40) STARTER hook-up—exclusively Reo. Worm-drive—connected all the time but no wear when car is running. No shifting gears—no over-running ratchets. A lot of better features—see the book for the rest.
- (41) STARTER LEVER—handy, but unobtrusive—you touch it only when you want it.
- (42) TIRE PUMP attached to starter shaft—connected at all times. Always ready—no lifting of the hood—hooked in special compartment.
- (43) DIMMING attachments to headlights.
- (44) INSTRUMENT light and tail light connected in series—if tail light goes out pilot light warns driver.
- (45) SPECIAL cell-light switch—a little thing but most important when leaving. Caution to regulations of all states.
- (46) PRACTICALLY one-piece pressed steel cowl. Pressed steel body on wood frame—so made it can't spring "cowl."
- (47) 6 1/2-INCH WIDE beams. Measure the others—measure them!
- (48) 50 PER CENT OVER-SIZE in all vital parts—the Reo factor of safety.
- (49) REO accuracy—Reo cars—Reo inspection everywhere. Parts ground to absolute perfection.
- (50) 100-odd steel forgings—in many places where others think castings good enough.
- (51) REAL LEATHER upholstery—all we saw found any substitute that was "just as good."
- (52) REAL HAIR—retains its spring as nothing else does.
- (53) REAL RUBBER and Real Island cotton in tires—not cheap cloth and Jersey clay.
- (54) VENTILATING, rain-vision, clear-vision windshield—and attached to stay put.
- (55) CLEVER—and strong—windshield and top support—have to study in detail to fully appreciate.
- (56) GENUINE one-man top. 4-how type—only other car using same kind axle for several hundred dollars more.
- (57) LIGHTER weight in proportion to power—result of using better materials.
- (58) EVERY PART—radius-rod to tail-light—Reo made and Reo guaranteed.
- (59) MOST ACCESSIBLE car in the world. Attachment can be made to any unit without disturbing any other. Value is dollar in the owner's hand—able.
- (60) FINALLY—and most important to you, the Reo name-plate. This signifies that the Reo guarantee, with all it stands for in integrity and financial stability, goes with the car.

VERY deep mahogany chiffon velvet forms the suit on the left. Fur is the only trimming on this simple one-piece afternoon gown. The hat is of a dark shade of velvet, ornamented with uncurled ostrich feathers.

On the central figure will be found a very practical and dressy blouse to wear with

a cloth suit. It is composed of a mustard-colored chiffon velvet vest, worn over an ecru net kimono waist.

Hat of white satin, trimmed with sigrettes.

White chiffon velvet forms the tonic of the third gown, trimmed with milles ermine, worn with velvet underskirt. The blue velvet hat is further enriched with ostrich feathers.

DIVIDING UP THE EARTH ON A RAFT AT TILSIT IN THE PATH OF NAPOLEON

By JAMES MORGAN

100 Years After His Downfall

A Journey of 20,000 Miles

When Napoleon had overthrown the kingdom of Prussia in 1806 and driven out of Germany in 1807 the Russian army that came to the rescue of the Prussians, his foes sued for peace. Alexander, the young Tsar, was on the Russian frontier, one of the most dramatic scenes in history, when the French emperor and the Russian czar sat down on a raft in the middle of a wide river, each on his own opposite shore, and divided the earth between themselves. That is the scene Mr. Morgan, who visited Tilsit last year, reconstitutes and sets before his readers today, adding to the story Napoleon's own words of his power and almost catch the accents of his voice as he talks with Queen Louise. The story of the last years and the fall of Napoleon and the unfortunate princess is told.

TWO EMPERORS ON A RAFT.

Napoleon declared that he wished to be neutral ground, his army being outside the town in what is now a district of pretty suburban villas. When the French came the plain was covered with the cottages of the poor, and those humble dwellings were ruthlessly torn down and the camp of

NEW CHILD LABOR LAW SOON GOES INTO EFFECT

**Children Have Been Sent
Out to the Proper Au-
thorities.**

The blank certificates needed to put the new child labor law into effect on May 1, 1915, have been sent to the proper authorities for necessary instructions by the department of commerce and labor.

The certificates for children dependent upon their labor for support and children of dependent widows must be signed by a commissioner of the county school superintendent, the ordinary and the head of the school where the child resides. The educational certificate must be signed by the superintendent of the county or city schools.

Under the new law no child under 14 years of age can work in any manner, including laundry or place of amusement, which includes motion pictures, shows, etc., unless they can qualify as orphans or the children of dependent widows.

The new law will take out of the hands of the parents of children who have heretofore been allowed to work. Children of dependent widows are not allowed, under the new law, to qualify under that clause.

The inspection work will be done by the commissioner, assistant commissioner and chief clerk, as formerly.

SERMONS OF INTEREST TO MARRIED FOLK

Those in Atlanta who are married and those who contemplate marriage have been looking for several weeks

to the First Christian church, where the Rev. L. O. Bicker, pastor, is preaching every Sunday evening a series of sermons on "The Problems of Married People."

The series consists of seven sermons, all dealing with problems of married life, and have been well received by the audience.

Next Sunday evening the fifth in the series will be preached. The topic will be "Home Life and Religion."

Dr. Bicker has been in close touch with many of Atlanta's married folk and knows from first-hand information just what are the problems that perplex their lives.

He takes his message from the shoulder, and his sermons have several unusually attractive appeals to the young people of Atlanta.

GREETINGS

My friends of the South—my friends good and true—my heart is filled with gladness tonight as I sit before the open grate fire of my home and pen you this little Christmas message.

I am so happy for I know you will all have a merry Christmas. Only a few short weeks ago, it grieved me to think how you had toiled so hard on your cotton all to no profit, but now my sadness is turned to gladness, for as I gaze into the glowing coals of the fire before me, I see written in the embers, the one word—Prosperity.

SANTA IS COMING SO IS CHRISTMAS

When you see Old Santa Claus way off in the distance headed from the icy North to the land of Cotton, it's a reminder that Christmas is coming.

And when you wake up Christmas morning and it's frosty and kind of wintry and chilly you'll want something to warm you and comforting-like to cheer you up.

So you better order now and the house to order from is the House of Rose. That's where old Santa fills all his orders for Dixie—always stops here on his way South and what's good enough for Santa, ought to be good enough for most of us.

FINE CHRISTMAS PRESENT FOR YOU

And this Christmas I have a fine present for you—something finer than was ever given away before—something so delicious you will smack your lips over the last lingering drop. It's a wonderful Raspberry Cordial.

My friend, you don't know how long I have been working over this Cordial—you don't know how many years it has taken me to perfect this perfectly smooth, harmonious drink,

and now I have it I want you to taste it yourself.

REAL ESTATE—For Sale

FRONT PAGE TODAY

Dealers in farm property in the Atlantic real estate field were interested Saturday in the appeal of T. B. Lafford, superintendent of the stockade, who urges the city council to establish a prison farm on which be prisoners, the victims of cocaine, morphine and other drugs that are constantly imprisoned in the stockade.

The committee of council to which the appeal was referred has agreed to take up the subject at its next session. In the meantime, the commendation of the farm idea was decided upon by the committee to establish a farm on which truck crops and other branches of agriculture can be raised.

The Retail Merchants' association, through President Harris G. White, has been making a strenuous effort to forestall landlors from raising rents during the strenuous winter months. White has addressed himself at a loss as to suggesting a modicum of procedure, and that landlords would do well to forbear during the crisis in which he was greatly appealing, and that more prosperous times would be at hand.

ability of the United States to play an important role in the conclusion of peace among the European powers. The Cologne Gazette says that the "peace movement in America is not inspired by Germany, and that "American bankers with German connections are urging the desirability of peace, in order to render a doubtful service to Germany."

Such language, the newspaper says, is likely to be misconstrued as an indication that Germany is exhausted by the war, and it adds, such notions only tend to injure German credit with neutral states.

Despite all friendliness with America

The Gazette continues, Germans must not allow themselves to be deceived and they must look in the face the fact that America cannot be an arbitrator in the light between Germany and Great Britain.

It would be an ostrich policy, the newspaper declares, not to recognise the public opinion in America, taken as a whole, is entirely friendly to Great Britain. It may be argued, it says, that the American Government has observed the strictest neutrality and that it can be neutral in an indifferent way, and, on the whole, American neutrality has been favorable to Great Britain.

The newspaper then says:
"In view of all this we cannot have in America the confidence which we ought to be able to repose in a power which would act as an impartial arbitrator in regard to an arrangement of peace."
We cherish no feeling of irritation against America because she is friendly to Great Britain. Such feeling is only natural, as Great Britain is America's motherland; but it is for this reason that we fear prejudice and we must in a friendly, but firm, manner reject America as an arbitrator."

FORCE OF AUSTRIANS REPULSED BY SERBIANS

Paris, December 12.—The Nish correspondent of the Havas agency reports that the Serbians have repulsed an Austrian force at Kosmaj, thirty miles south of Belgrade.

"Heavy fighting continues with large Austrian forces at Kosmaj, south of Belgrade and north of 'Milanovatz' says the agency. 'Austrians by the thousands' at Kosmaj, December 11, were repulsed with heavy losses. The Aus-

NO CHRISTMAS TRUCE FOR WARRING NATIONS

Rome, December 12.—The vatican authorities today made public a document setting forth the efforts made by the [redacted] to obtain a truce in the European war during the Christmas season.

The efforts of the pontiff, unfortunately, failed, according to the Vatican announcement, "owing to the opposition of a certain power."

First announcement of the pope's effort for a Christmas truce came through the German official press bureau two days ago, which said Germany was agreeable to the proposal provided the Russians accepted it.

Yesterday the press bureau said Russia had declined.

GERMAN SUBMARINES

RAID FIFTH OF ROYAL

London, December 12.—An Edinburgh dispatch to The Daily Mail reports two German submarine attacks were made on the Firth of Forth Wednesday morning, but they were repulsed. Two of the enemy's submarines, the dispatch says, were destroyed.

The admiralty has no confirmation of the report.

The Firth of Forth, facing the North sea, has a British naval base at Rosyth off the shore of Fife. Immediately west

Washington, December 11.—The American Red Cross today shipped 481 cases of hospital supplies and clothing for women and children to war-stricken countries of Europe. France will receive 83 cases and an additional donation of 8,000,000 cigarettes. Germany will get 71 cases; Austria-Hungary 71 cases and 39 bales of absorbent cotton, and Belgium 39 cases.

Massengale Advertising Agency,
Atlanta, Georgia.

Gentlemen:-

Replying to yours of Nov. 20th. inst., we wish to state that you have placed all of our advertising since the organization of this company, and we are very glad to say that our business relations have been both very pleasant and satisfactory.

We are today recognized as the largest mail order feather goods house in America, selling direct to the consumer; and we attribute our success, both to the merits of our merchandise and the capable manner in which you have placed our advertisements.

We realize the success of a mail order house depends on fair dealings to their customers and the satisfactory merchandise sold them, together with the co-operations of a reliable Advertising Agency.

These are the essential facts that are necessary to the progress of a successful mail order house. We are glad to hear of your growth and wish you the increasing success which you deserve.

Yours very truly,
AMERICAN FEATHER & PILLOW CO.

JG-LL.

"LET US FEATHER YOUR NEST"

WE ARE REPRODUCING above a recent letter in appreciation of our Service from a successful mail order house. The very fact that we say this firm is successful is proof positive that its members are of the progressive type, who have applied the principle of The Merchandising Combination to their business. This Merchandising Combination is one composed of meritorious merchandise, together with advertising that will tell the world it is meritorious. A business combining both of these attributes is infallibly successful; but one without the other is strictly inefficient. The American Feather and Pillow Co. saw to it that their products were par excellence; they delegated us to see to it that their advertising was of a like caliber. The result was inevitable—The American Feather and Pillow Co. is a successful firm.

Let us send you our interesting "Year Book."

STOCK MARKET TALES FIRST DAY FOREIGN SECURITIES

Can Offerings From Abroad Be Held Back So That Stock Market Will Not Be Flooded With Them?

New York, December 12.—(Special.) The restrictions regarding trading in stocks on the floor of New York stock exchange, which started today, are expected to safeguard the market from heavy liquidation, but it is less of the general feeling of confidence regarding stock trading, as was shown in the case of bonds when trading in them was resumed two weeks ago. In spite of the fact that the dealers have been marked with strength in prices of many issues, there is a widely held belief that foreign selling will be considerably heavier during the next few weeks, in stocks than in bonds. The stocks which will be traded in are nearly all of the type of issues, and the number of speculative leaders in which trading has been resumed. It is hoped that the impending flood of securities from Europe will be held back by means of a large amount of call money which is available here. If all these conditions are met, the market will be able to handle the influx of securities without undue strain. The market has been in a state of uncertainty since the resumption of trading in foreign securities. The market has been in a state of uncertainty since the resumption of trading in foreign securities. The market has been in a state of uncertainty since the resumption of trading in foreign securities.

Getting Balance in Our Favor.
Exports recently have been at a record level, and the trade balance in favor of the United States is growing. In view of the many factors which are working in our favor, it is impossible to call any large amounts from Europe by cable transfers. The market has been in a state of uncertainty since the resumption of trading in foreign securities. Amnest of Holdings Abroad.
The most recent estimates of the present holdings of American securities in Europe indicate that there are about \$2,000,000,000 of value there. This includes a large amount of American securities, and it is not likely that the market will be flooded with them. The Julia Jackson chapter, Children of the Confederacy, will hold its regular meeting Friday, December 18, at 248 Peachtree street, at 7:30 p. m. An interesting program will be given, followed by an appropriate Christmas entertainment. A prize will be given to the one making the most correct identification of the Confederate flag. O. E. S. Installation.

One of the most interesting meetings in its history was held at the Atlanta chapter, Order of Eastern Star, last night at the Atlantic temple. The installation of the new officers was a grand affair, presided by Mrs. Harriet Carpenter, Miss Amelia

and pledged his aid in the movement to secure the ballot for the women of Georgia.

In a brief address, Mr. Louis Marquardt spoke of the problem confronting Atlanta of having great numbers of men and women out of work during the winter months. Marquardt urged that the city be asked to provide work for the unemployed.

The win One quartette of the Central Baptist church furnished a light musical for the evening.

The executive committee of the Atlanta Equal Suffrage association held a meeting after the rally and adopted resolutions offered by Mrs. Marquardt, asking the city council to appropriate the money left from the \$100,000 bond loan to make various city improvements in order to give work to the unemployed.

Suffrage Rally.

The suffrage rally held by the Atlanta Equal Suffrage association on Tuesday evening at the Hotel Raleigh was most successful and enthusiastic. An eloquent address, Dr. Calhoun pointed out the need of woman's influence in the politics of today. He commended the courage and perseverance of those women who are working to secure the franchise. Dr. Ridley presided at the meeting and a beautiful tribute to the pioneer workers for the cause.

Mr. T. Kibb delighted his audience with the keen logic with which he refuted the favorite arguments advanced by the anti-suffragists. The anti-suffragists, Mr. Henry Grady Bell of the Atlanta Law school, also and eloquently defended the justice of woman suffrage.

**BURNED AT THE STAKE
THO: VOWING INNOCENCE**

Fifth Negro Is Lynched Near
Shreveport Within Ten Days.
Eighth Lynching in Year.

Shreveport, La., December 12.—Walter Lewis, a negro, accused of complicity in the murder of Charles M. (Hick) postmaster at Shreveport, La., was burned at the stake last night by a mob, despite his protestations of innocence, according to information received today. His charred body was found today bound to a tree near Shreveport, in the southern part of Caddo parish.

Walter Lewis was the fifth negro put to death by a mob in this parish within ten days and the eighth in a year. Two were lynched last week after alleged implication in the killing of Hicks and the robbery of his store, and early last night two others were taken from a deputy sheriff near Shreveport, after they are said to have confessed to the killing of Cyrus Motchkin, an oil field worker, and had.

District Judge Bell today ordered the grand jury to meet in special session next Wednesday to investigate the lynchings.

Lewis was taken from the parish jail here by five men, who gained entrance through a window and overpowered the jailer. He was taken from the prison in an automobile and no trace of either the man or his captors was found until the finding of his body near Shreveport was reported. It is said that several hundred men participated in the lynchings.

Sheriff Flournoy was absent from Shreveport yesterday on a hunting trip.

Troubled conditions at Shreveport were reported quiet and no further disorder is anticipated.

**BUDGET SYSTEM URGED
BY EX-PRESIDENT TAFT**

New York, December 12.—Former President William Howard Taft, guest at a luncheon today at the Lawyers' club, spoke on efficiency and economy in the national government and advocated a budget system.

"All countries that have respectable governments, spend our own, have budgets," he said. "We have acted like children. We have had no budget available through taxation that we have not been obliged to consult the revenue side of the ledger. Now we are coming to the point where we must keep out of bankruptcy. These three are the great instrumentalities that ought to be created: the reorganization of the executive departments of the government so as to eliminate duplications and overlaps; a budget directly responsible to the president, to report to him a comparative statement of economy and efficiency in each department; and a plan for the future of the executive and legislative departments joined together and the president to make an annual budget upon which congress intelligently act.

The co-operation of the executive and legislative branches can be best effected by carrying out recommendations to congress made in the president's last messages, that the heads of departments appear on the floor of congress to answer questions, to take part in the discussion, to introduce bills and through the secretary of the treasury to present the budget for which the executive departments, with the president at the head, should be held responsible. The opportunity of the secretary of the treasury and the other cabinet officers to appear on the floor in presentation of the budget, a means to be used for an intelligent discussion, and if congress chooses to ignore the recommendations of the executive, then the responsibility will be placed on congress to answer for the whole of government income."

**DEMOCRATS OF SENATE
WILL SPEED BUSINESS**

Washington, December 12.—Senate democrats in caucus today determined to speed up the legislative program to avoid an extra session after March 4. It was decided to adjourn a long holiday recess, the senators agreeing to confer with house leaders on the way to recess from December 22 to December 23, and to remain seated next Tuesday week, except on New Year's day. It also was decided to hold night sessions of the senate at least once a week, and to attempt to pass legislation found it necessary.

The corporation bill will have the right-of-way in the senate as rapidly as it can come from the house, said Senator Kern, chairman of the caucus. The legislative program will be extensive otherwise. The conservation measures, the Philippine bill and the ship purchase bill will be taken up as soon as they come from the house. The immigration bill was not discussed in caucus, but it is expected it will be voted on before many days.

**WILSON MAY ATTEND
FUNERAL OF PAYNE**

Washington, December 12.—President Wilson probably will attend the public funeral of Senator John Payne, which will be held at the Metropolitan church, New York, today. Mr. Payne, a congressman from New York, was a member of the senate from 1907 to 1913. He was a member of the senate, the cabinet members, the senate, the chief justice and the staff chiefs of the army and navy also are expected to join members of the house in the funeral.

The usual congressional eulogies by the legislative associates of the dead statesman will be omitted. A simple religious service conducted by the Rev. Henry D. Padden, chaplain of the house, and the Rev. Samuel H. Grimes, of the Calvary Baptist church, will mark the chief rites. After the service the body will be taken to Auburn, N. Y., accompanied by house and senate committees.

**FOUR MEN SENTENCED
TO ATLANTA PRISON**

Montgomery, Ala., December 12.—Remandment of seven years was imposed by United States Judge Henry D. Clayton in the federal court here upon John Williams, Harry Mark Frank, Moore and Mark, who were convicted of bringing explosives into Alabama from Georgia. They were taken to the federal penitentiary at Atlanta Monday. The men were arrested here last March, when a quantity of dynamite, nitroglycerine and burglar tools were found on Tom and Harry Moore and Mark. They were indicted at Tuscaloosa for robbing the Alabama Great Southern passenger train at Bibbville, Ala., in September, 1913.

For Aids to Navigation.

Washington, December 12.—An omnibus bill to authorize appropriations for the aid to navigation is favorably reported today to the house commerce committee.

The bill provides for the construction of a \$100,000 Florida reef, \$15,000 for the Florida reef, \$15,000 for the Mississippi river below New Orleans, \$15,000.

Case of Miss Cope.

Chicago, December 12.—The case of Miss Josephine Cope, of Los Angeles, charged with the abduction of a government official in connection with the indictment of the late Senator D. C. Brodhead, is being heard today in the federal court at Chicago. The case was called up before United States continued until December 22.

Thrilling scene from Second Episode of great serial shown at the Savoy and
Alpha tomorrow

"Unrest," a Selig psychological drama featuring Tom Santschi and Bessie Eyton, will be shown at the Vaudette Tuesday, December 15. The cast is a strong one, and includes, in addition to Tom Santschi and Bessie Eyton, the following well-known Selig players: Harry Lonadale, Joseph Hazelton and Roy Watson. The story of

With Ella Hall and Robert Leonard in the leading roles.

Every one of these emotions of human life vividly portrayed in this greatest and latest Universal Serial Drama.

Would YOU have left the girl you loved if you were convinced her father was a murderer? What would YOU have done, if, on one side stood blighted love, lost hope and a black future, while on the other side were wealth, position and the realization of true love?

That's the terrible problem John Dore faced. It's a supremely tense situation, only to be conceived and answered by such a master mind as John Fleming Wilson, author of the "MASTER KEY."

See it tomorrow.

"The Master Key," the second installment of the film, will be presented by the Navy and Alpha tomorrow, has already created an astounding interest among the people of the city. The presentation, which was presented last Monday, while only introducing the characters of the film, was a tremendous success, over 4,000 people in Atlanta, which smashes all records for the first showing of a picture in this city.

In the staging of the second episode shown tomorrow, an accident occurred which was very near resulting seriously to the life of the audience.

Everything was in readiness and the real action was about to start. Some of the men were standing on the strength of the cable before attempting the ride. The weight of about 500 men was on the cable. As the men were on their journey. Just as it reached the deepest part of the canyon there was a sudden change in the position of the fastenings and the bucket dropped with a crash into the chasm. While-faced, the audience was in a state of confusion, thinking what must have happened in

Marguerite Clark's presentation in the photoplay production, "Wildflower," at the Regent Theatre, is a performance that made such an impression upon the people of Atlanta that the management of the Montgomery took pleasure in announcing for the following week the same actress in the fascinating and irresistible actress in another feature, "The Crucible," by Miss Les Luther. The presentation of this dramatic drama, "The Crucible," the portrayal of a soul's ordeal in the melting-pot of the frontier, from the first scene to the last, is so gripping and so intense that it emerges unscathed and strengthened by its agonies. Marguerite Clark plays the part of a little Jean Fanning, the first-born and tom-boy, unjustly condemned to a reformatory, who later returns to her home town, only to find imprisonment and the sordid corruptions of her environment returning good for her. Those who worked hard with her life.

Jean Fanning brought us by her part of the family life, as possible. One day, at a picnic, a play-

Al E. Christie, of the Nestor Comedy company, has returned from his three weeks' trip east and is again busy working with his company of laugh makers. "How Doctor Cupid Wen" is the title of the first of his pictures to be produced since his return and, judging from the groups of laughing players that stand about the company as they are working on it, there seems to be strong indication that his short absence from the click of the camera has put him in condition to produce even better comedies than his former ones.

With Robert Leonard and Ella Hall in leading roles.

A beautiful story of love, romance, mystery, hate, intrigue, failure, success and human sacrifice.
