

His Patience Exhausted Wilson Will Take Steps To Bring Peace to Mexico

For the Last Time He Will Warn the Leaders of Warring Factions That "Intolerable Conditions" Must Cease.

INTERVENTION CERTAIN, WASHINGTON DECLARES

Forthcoming Statement Believed to Be Fore-runner of Drastic Action—Wilson Resolved That Mexican Civilians Shall Not Be Starved.

Washington, May 28.—President Wilson has decided to send a stern warning to the warring factions in Mexico that intolerable conditions in that country have become intolerable and that unless they themselves compose the situation soon, some other means may have to be employed to accomplish the result.

The first intimation of the president taking this step came in an appeal issued from President Wilson as head of the American Red Cross setting forth that "due to several years of internal disturbances in many parts of Mexico have reduced the people to the verge of starvation, and urgent contributions to relief funds."

When the president's appeal for aid for the Mexicans was issued it was also a statement from the president on the expected within the next few days. The statement has been reported, and will be issued after the cabinet meeting next Tuesday and then communicated to the leaders of all the Mexican factions.

Officials at the white house and state department declined to say what the president's statement contained, but denied that recognition of any faction was contemplated. The present action, it was said, was demanded in effect, that the Mexicans arrive at an early settlement of their troubles and that the government give assistance of the starving population.

As "immediate intervention." High officials referred to the president's forthcoming announcement as not meaning "immediate intervention." The impression in executive quarters would be to place responsibility for the present state of affairs squarely on the military element of the country, which have overrun the country and appropriated its food supply and prevented the tillage of the soil.

While anxious to continue the policy of abstention without outside interference, the president is said to be determined that the military government of the country shall not be starved in the meantime. Talk of intervention which has been dormant since the European war has been revived by the white house statement. Many diplomats who interpreted the day's events as the forerunner of a new policy, thought intervention was an inevitable outcome and that the United States was paying the way for it by notifying the world of its purpose to take the step for the sake of humanity. They pointed out that a similar situation had preceded intervention in Cuba in 1898.

For the present the president has notified to all the Mexican factions of the intolerable state of affairs and the desire of the American government for a betterment of conditions will be allowed to stand without explanation while the relief work of the American Red Cross is undertaken in earnest. The belief was widespread among official and diplomatic circles tonight that an immediate effect of the forthcoming statement will be the warning that relief supplies must not be appropriated by the military government and that they must assist in feeding the starving.

Chairman Farlinger and Alderman McDonald Declare Committee Has Anticipated Too Much Revenue.

\$83,391 IS PROVIDED TO IMPROVE SCHOOLS

Money for Schools Meets Approval, But Farlinger and McDonald Object to Other Appropriations.

Rumblings of an approaching storm in general council was heard Friday when Chairman A. W. Farlinger and Alderman C. McDonald, of the school committee announced they would not sign the June money sheet which was completed late in the afternoon, carrying \$170,000 anticipated from unexpended revenue.

The two members in question contended that the committee has anticipated too much revenue and that while they are willing to be "reasonable," just for the sake of the school children, they are not willing to be "unreasonable" just for the sake of the school children. They also pointed out that the school committee had anticipated too much revenue for the year 1915.

The committee provided \$83,391 for the school children and salaries of twenty-seven additional teachers for the high schools. The board of education, after a long session, approved the money sheet at \$170,000.

After opening in some departments, judging in others, the school committee, the committee finally balanced the sheet at \$170,000. The school committee, however, did not sign the sheet at all, and some members of the committee are said to have resigned.

Quintuple Hanging Stopped in Arizona; Men to Hang Sinily

Fight Lost to Save Five Men, But Board of Pardons Objects to Hanging in a Bunch.

Phoenix, Ariz., May 28.—Five Mexicans sentenced to hang for murder today at about the last minute were given a reprieve by the board of pardons and paroles.

They said that legal obstacles to their hanging set aside, the board granted a five weeks' reprieve. That the men were to be hanged singly, instead of together and so recommended to Governor Hunt, who had opposed inflicting the death sentence without recourse to his command.

The law now stands the governor can grant reprieves only on recommendation of the board and, Governor Hunt, by his order, granted the five prisoners until July 19, 1915. The men look for a reprieve of the day, calmly and when given an opportunity to make their wills chafed the only way themselves, who possess no resources at his command.

The board of pardons and paroles met today to consider the case of the five prisoners. The board of pardons and paroles met today to consider the case of the five prisoners. The board of pardons and paroles met today to consider the case of the five prisoners.

JUDGE R. T. DANIEL

Announcement of the death of Judge Robert T. Daniel, of Griffin, while attending the grand lodge of Georgia Odd Fellows...

Death came to Judge Daniel in the midst of performance of duty. He had just closed his address as grand sire to the Odd Fellows of Georgia...

It is not alone through his secret order connections which, in one direction, have carried him to the pinnacle of Odd Fellowship...

There is scarcely a community in Georgia where his death will not be a subject of sincere regret. His is the greatest sorrow that can be paid a man...

"WAR BRIDES."

The power of the drama is being surely and strongly tested in Marion Craig Wentworth's "War Brides," which is stirring an interest that has in it the universal appeal.

The European war has brought the woman's question to its most definite form of expression among the warring nations...

Women themselves, through the tragedy of the war, realize that though great as their burdens and responsibilities have been...

This demand is reaching through the nation and the state to every community. It has its practical illustration in the munitions...

Poets singing of "the free sea" mean, of course, when the submarines are not using it.

Incidentally, the vice president talks like a man who is earning his vacation.

THE FINANCIAL TABLE TURNS.

The deplorable financial condition of the European nations now engaged in hostilities is already apparent in currency depreciation indicated in the marked advance in the rate of exchange.

Similar conditions are noted as to British and French exchange. Normally \$135 francs are the equivalent of our gold dollar...

Commenting upon these conditions, which are tending more and more every day to increase the financial power of the United States, The Springfield Republican says:

This is substantially the situation of all the allies. It does not mean their financial exhaustion, by any means...

On top of this we are sending shiploads after shiploads of war munitions, food and clothing to the allied countries.

There is a serious, scientific indictment of the summer belt by no less an authority than Dr. W. J. Mayo, surgeon of Rochester, Minn.

The San Antonio Republic says the doctor who holds this opinion is recognized as one of the most successful surgeons in the world.

But equally eminent authorities know that appendicitis prevailed in the good, old-fashioned days, only they didn't call it by that name.

It is too late to blame it on the cool and comfortable summer belt.

THE PEOPLE WANT THE NEWS.

Recently a conscientious war correspondent who had suffered from a too severe censorship wrote in his wrath:

In this connection The Boston Transcript probably is not alone in its opinion that "all the troubles which now confront the British government can be traced directly or indirectly to its censorship of news."

The censorship has been pushed to such extremes that editors and reporters have suddenly leaped into "fame."

That has been the state of affairs all along. The public has been kept in the dark. A more liberal policy in regard to the war situation is now in sight.

WILSON TO TAKE STEPS FOR PEACE IN MEXICO

Continued From Page One.

ing populace. While the president's statement will not state specifically the details of the course in case it is not headed, the general trend of comment tonight indicated that the United States as a first step in such a contingency would insist on keeping the railroad between Vera Cruz and Mexico City open for the transportation of supplies to the people of the Mexican cities by governmental agencies.

The government's plan, it is said, will be to send a commission to Mexico, and they are not expected to come to a definite point, while the delicate negotiations with Germany are in progress.

President Wilson declared Tuesday after his conference with Duval West that he had decided on no change in the Mexican policy. The event of the last twenty-four hours, however—the seizure by Mexican authorities of the steamers purchased by the International Relief committee, and the inability of the authorities at Vera Cruz to send relief to act.

Officials flatly denied reports that Great Britain, through her embassy here, had been exerting pressure for the relief of conditions in Mexico. It was pointed out, however, that Duval West has a three months' investigation of conditions in Mexico, and the information now to be brought back by the leaders had sufficient capacity to determine the situation, and to suggest that the United States must be prepared to act.

The ideas that by relieving distressed conditions among the population the influence of the United States government upon the warring factions would increase is said to have been one of the great hopes of the American government. It is said that the influence on the situation will be such that the warring factions would be able to set up a provisional government which may be recognized.

The president's Red Cross appeal follows:—The American people, with characteristic generosity and an impartial spirit of brotherhood with all peoples, have contributed liberally for the relief of the suffering and the distressed in the unprecedented war in Europe.

The American Red Cross is ready to furnish relief work for the benefit of the Mexican people. It is ready to contribute both money and supplies of food to mitigate the suffering and misery so close at hand. It is ready to contribute money to be sent to the American Red Cross headquarters in Washington, D. C., to be distributed to the local treasurers. Those who are able to contribute to the American Red Cross are requested to communicate with the American Red Cross headquarters, Washington, for instructions.
