make this Annual Sale an event of rare importance to lovers of Oriental Rugs.

— Because the unusual assemblage of rugs holds for them a rich store of delight, furnishing inspiration to the finer setting of their homes.

— Because the prices are a fifth to a third less than we could, or would, customarily ask.

— The importers we spoke of seek a larger volume of business. To induce us to buy more rugs than we usually sell, they make us decisive price encessions.

— We also seek a larger volume of business. The price concessions we received we pass on to you Also we forego part of our own profits. In a sale wherein we dispose of hundreds of rugs, the aggregate profits justify a modest profit on individual rugs otherwise impossible. Though these rugs are art treasures, we treat them as regular merchandise—pricing them at an exceedingly thin margin of profit.

Lust-kings with a careful plan—

''

CHLEF BEAVERS smashed their plan in Atlanta.

September, a year ago, he made it impossible for them in the Capital of Georgia to follow that trade which demands the seduction of girls.

He has done more; his success has taught that one fearless and honest official can end the reign of ''lust-kings' in other cities.

Little Rock has followed his example.

Birmingham has notified the world that her houses of shame must go. And last week the Mayor of the Capital of Texas, Austin, in directing that the red light district close October 1, pointed to the act of your CHLEF OF POLICE.

Cities and smaller towns seeing the work that he has done in Atlantic Cities and smaller towns seeing the work that he has done in Atlantic.

that the red light district close October 1, pointed to the act or your OHIEF OF POLICE.

Gities and smaller towns seeing the work that he has done in Atlanta have thrown off the disgraceful yoke.

From Tacoma, Buffalo, San Francisco, Richmond, Nashville, Charleston, Mobile and other cities come pouring inquiries as to the work of your police force and its chief.

"Lust-kings" are aghast.

Their occupation of buying, defiling and selling girls and women will become a thing of the past!

They strive to stem the tide.

"COLD FIERCE WORMS" willing and anxious to enrich themselves by the sale of the souls of women and girls—these to-day are trying to poison your minds against your Chief of Police; IN THIS WAY they hope to destroy the discipline and efficiency of your police force. If word continues to go out that an honest Chief of Police; lote having under him a body of honorable men can cope with "lust-kings" and their kind, WHAT WILL THEY DO?

They seek to undermine a man.

They seek to undermine a man.

They seek to undermine a man.

But not yet has the day dawned in Georgia—never will that day come in our State, when the criminal element can ruin a man simply because he loves honor more than gold.

Chief Beavers is safe. But our City and State have suffered.

God forbid that more damage be done!

The eyes of the world are upon the meeting of our Police Commissioners to night—Wednesday.

You are not a fool; you know that neither the Chief nor any of the men under him oppose or knowingly interfere with innocent love-making in our parks; you are not blind.

And squids can not emit enough of ink to hide the truth or obscure the REAL ISSUES.

They are these.

REAL ISSUES.

They are these—
For the third time charges have been preferred against one man now holding a captain's commission on the force. A second time the charges involve the relations of this man with women. Twice he has been cleared. If innocent, he should be cleared again. But this time he stands accused of improper conduct in one of our city parks where children mlay

The man is married.

The man is married.

Chief Beavers suspended him.

What has this to do with the "lust-kings" and their plans? EVERYTHING. The Chief must have power to prevent the contamination of our children's playgrounds; if a married man, an officer of our
force, offends, DUTY DEMANDS the more that the Chief remove him.

If the Board should condone such actions upon the part of subordinates
where would be the discipline of our force? Who would be responsible
for the just contempt with which men would view the officers of the law?

And the plain-clothes men!

THEY WERE a part of the force before the Chief gave Protected
Vice its death blow: the "lust-kings" and their friends forgot the existence of these men and THE INTEGRITY of the police force when they
sneered:

"He can scatter evil. He can not control it. He will only make a

mess."

But these men have handled the situation: they have controlled it.

Hence the effort to discredit them and take them away from the
fore—the attempt to cut off THIS EFFECTUAL ARM that has put
the fear of God into the hearts of the pimps and panderers of the underworld and those whom these unspeakable creatures serve!

THAT FEAR will continue.

PERSONAL LIBERTY? God offers it: He has given it to you. Fear the hearts of the white slaver and the "lust-kings" is not inconsistent th your freedom.

with your freedom.

On the contrary, the liberty which you, your sister, your daughter and family enjoy is wholly dependent upon the fear of the law impressed upon those to whom honor and a woman's name are meaningless terms. No man's personal liberty requires the sacrifice of the daughters and sisters of other men.

You will not be deceived.
"You shall know the truth."

The Police Board of the City of Atlanta will not play into the hands of the criminal element which infests every city in our land.
"The truth shall make YOU FREE."

By the Judgment of Paris These Are the Silks for Fall

Here, in Atlanta, at Chamberlin-Johnson-DuBose Company's are the silks that such dress-wizards as

Paquin **Bichoff** Callot Doucet Agnes Worth Zimmerman Lucile Mayer Premet Rondeau Jenny

have stamped with the mark of distinction. They have used these silks this season—have made them into the models that set the fashion for Fall. This is the "Sterling" mark of silks. The words in this pen can not tell their beauty. It remains for your eyes and your "color sense" to appreciate them—and so now with the wealth and novelties of the silk world to show you, we invite you now to the Silk Section and its surprises and beauties.

Season after season our Silk Section harbors the silks of fashion—Atlantans know this, but Atlantans do not know what it offers this season and can not until they have vis-

Modern and Semi-Oriental fabrics in designs and colors—the recent art movement with its "queer" figures and bold splashings of colors and the picturesque Oriental patterns and blendings of color vie with each other for your favor—one time they are reflected in high-piled fabrics and again they are lissome and limp as a gossamer—and still again they are combined.

Here-

Voile Velour Brocade—a voile of the substance of a humming bird's wing weighted with a heavy velour brocade—in colors.

Ratine Voiles—Great "rough" patterns scat-tered over a silk voile.

Crepe Broche—the beauty of the supplest silk crepe with a raised velvet florals.

Crepe Faille, in a more weighty fabric it would be termed corded. A fabric to fit in with the draped styles of the season.

Moire Renaissance—a poplin moire that has been brocaded—new. Charmeuse Matelasse—the winding matelasse patterns on a ground of shimmering char-meuse.

Moire Charmeuse-As the name implies, a rip-

And so we might go on telling of the fabrics, the Oriental and Dresden vestings (important themselves in the fashions), the pebble back and the serge back charmense, the uncut velvets, the costume velvets, the crepe meteors, the crepe de chines, the embroidered chiffons and the wonderful robes with their gold and burnished and silver ornaments—we might tell much of these fabrics that lift our Silk Section to its commanding eminence. But we would rather you see them, their exquisite texture and their colors—among which are these novelties—

"New Clothes" Is the Cry Now

And the Chamberlin-Johnson-DuBose Co. Ready-to-Wear Department Answers With

Suits, Dresses, Skirts and Coats That Are Indeed New

To assemble such vast stocks of suits, dresses, skirts and coats and to see that each separate garment has about it some style point (and always true worth) is no mean undertaking. That it has been successfully consummated is a matter that you may prove to your own satisfaction.

"New clothes" at Chamberlin-Johnson-DuBose Co.'s are new, delightfully new and captivating. To tell you how is a task that balks the advertising pen and leads it to the commonplace of asking you to see---for this you must, if you would know just how varied and charming the new fashions are.

There is a scope and breadth to this display that lends finality to choice.

It is true of the simple and inexpensive things, just as it is of the elaborate and gorgeous creations -- for one is as much a part of this store's business as the other---and both are done with characteristic thoroughness---as instanced by

The New Silk Dresses at \$11.98, \$16.95, \$19.75 and \$25

Materials are poplins, crepe de chines, Canton crepes and charmeuse—but the material is only one of the charms. You will marvel at the varied—and, in every instance, graceful—ways that the skirts are draped, at the daring of the genius who combined colors shown in sashes and gridles and big bows at the front waist, and then again at the usually soft

New Skirts at \$6.50, \$7.98, \$8.75 and \$11.98

Their vogue is pronounced—that is, the vogue for such skirts you will see here—in New York it amounts to a rage. They are smart—the "Seotchiest" of Seotch plaids are used, rich but soft toned colors showing dark green, nave, purple and dark red in wonderfully effective combinations, e are very wide at the hips—all with raised waist line

The New Woolen Dresses at \$5.75, \$10.00, \$15.00, to \$25.00

A display calculated to meet all demands that the women of Atlanta could make.

It begins by showing at \$5.75 little serge dresses that the college-going Miss will need for general wear, rather simple and very neatly made. Then come the eponges and matelasses and wool crepes in navy, Copenhagen, Russian a n dive green, mahogany and black, and new trimming ide as that show in sashes, collars, yokes and the new lines—skiris very wide around the hips, and narrow at the bottom. All are draped.

New Coats at \$10.00, \$12.50 and \$15.00

The especially fine coat news to-day must concern the w sport coats.

new sport coats.

They are in a word jaunty.

Young folks will like them.
Boxy affairs that, in length, strike just above the knees.

They are worked out in chinehilla, polo cloth and loose diagonals—big collars, some are belted. India red, Russian green, dark rose and Copenhagen are the favored colors.

Atlanta will quickly adopt them now.

Enthusiasm Is Running High In Pedalmobile Contest

"Gee, ain't it a peach! Couldn't I speed some if I had one of them! How many are you going to give away, Mister?" These are some of the remarks to be heard around The Georgian Office, where the big red "Georgian Flyer" is on exhibition—the one just like The Hearst's Sunday American and Atlanta Georgian will give to each boy and girl who secures forty new subscriptions of the proper heavy of the proper hea tions to the paper before October 1.

There are many earnest workers and the subscriptions are coming fast. It would only be a wild guess now to say who will win the first fifteen ears and receive the Charter Membership Certificates to the Atlanta Pedalmobile Racing Club. These Certificates will entitle the holder to compete in any or all races and events to be held in the near future.

Pedalmobile Clubs are to be found in many of the large cities, having been promoted by some of the largest and best newspapers in the country. This sort of sport may be new in Atlanta, but in many particulars the Pedalmobile races are to the children what the Auto races are to the grown-ups. In fact, they are handled a good deal on the same order and are interesting to the parents as well as the children.

These little machines are not to be confined to pleasure alone, but can be put to good use in many different ways. In some cities carrier boys who have won Pedalmobiles may be seen distributing their papers in them. All these cars are well-made and serviceable and will surely gladden the heart of any boy or girl who is fortunate enough to win one.

These cars are now on exhibition in the window of O. C. Polk Dry Goods Store, 29 South Gordon Street; South Pryor Ice Cream Parlor, 353 South Pryor Street, and Imperial Tire and Tube Company, 349 Peachtree Street. While attending the Odd-and-Ends Sale at Polk's Dry Goods Company, be sure to notice the "Georgian Flyer" in the window.

OUTSIDE WORKERS.

A number of boys and girls outside of the city of Atlanta have sent in their application blanks and are now working earnestly to obtain one of the handsome little cars. The Pedalmobile man will be glad to send subscription blanks to more honest hust-lers who would like to own a Pedalmobile.

Just fill out the application blank below and full particulars will be mailed you at once.
