## Dix Diamond Grading Absolute Safety to Buyers

The first consideration of every prudent buyer is the eling of absolute safety and confidence that he is getting est goods at prices really the lowest.

Our positive guarantee to buy back our diamonds at 90 per-cent of purchase price at any time within one year, and to allow full purchase price in exchange on a more expensive diamond at any time, whether in one or ten years, should inspire this feeling of absolute safety.

Discriminating buyers know that it is not all the price, but that grade, weight, color and perfectness are all to be considered. It requires years of experience and much technical skill to grade diamonds to a proper classification.

technical skill to grade diamonds to a proper classification. The grade, weight and prince of our diamonds are marked in plain figures. Absolutely nothing is hidden. If a stone is not perfect, the shape or cutting not correct, or it is "off color" (which is hard to distinguish without a careful comparison with a bette grade), it is so marked. We send selection packages of diamonds anywhere to responsible people and pay express charges both ways. You assume no obligation to buy, as we appreciate the opportunity to show our diamonds and prefer that our customers have opportunity for leisurely inspection and comparison. Our deterred apyment plan enables those who may not want to pay all cash for a diamond to pay 29 per cent down and divide the balance into as many as ten monthly notes with a small interest account.

We would like to have a copy of our Diamond Book

We would like to have a copy of our Diamond Book
No. 5 in the hands of any one, no matter how slightly interested. A postal card will bring it.
