

# GERMANS BEIRING BEFORE ARTILLERY FIRE ON THE YSER

Belgians Turn Water Into Lowlands, Forcing Enemy Into Open Where They Are Raked by French Guns

## ENGLISH HURL GERMAN BACK NEAR LABASSE

Situation of Allies in Great Flanders Battle Very Favorable, Says Paris—Germans Uncomfortably Situated

PARIS, Oct. 20.—(By Associated Press.)—The French official statement given out in Paris this morning says that the forces of the same which had passed the River Yser, have been completely withdrawn by the inundations of the low country brought about by the Belgian army.

The extreme left inundations brought about by the Belgian army in the lower valley of the River Yser have caused the forces of the enemy, which had been driven to the river, to withdraw. They were forced to a position in the rear of the Belgian and French artillery.

The Germans endeavored yesterday to bring very violent counter attacks, but were repulsed. They were progressing to the northeast in the rear of the Belgian army.

The British troops, situated at several points in the north of Belgium, by their efforts, resumed the offensive in the direction of the Yser.

# In the Wake Of the War With Corey

The "any terror" in England is interestingly described today by Herbert Corey, whose letters to The Journal have proved one of the most valued features of the war news. Mr. Corey also chats of the terrific cost of war.

## BY HERBERT COREY, Chief Correspondent, The Atlanta Journal.

LONDON, Oct. 20.—It was Tommy Crane's own fault. He wore one of those kittenish green hats they wear in Austria, down the principal street of Southampton. A German picked him—an old beggar, with a keen, wicked eye. Crane saw him a penny.

"Make it tuppence, mister," begged the beggar, holding out to Tommy Crane's coat tail. Mr. Crane made it tuppence in silence.

"Little Tom can buy with tuppence, mister," pleaded the beggar. "Can't you give me another penny?" Mr. Crane shook his head impatiently, and would have walked on. But the beggar wouldn't let him.

"That sort of thing might happen anywhere in England. The little island is on the job. It will firmly believe that one Englishman is worth four or five of the enemy's men, and it will refuse to get frightened, in spite of the desperate situation.

"It isn't a bit intense. It hardly belongs to send recruits to the colors, except in the case of the Yser, and it is plainly in earnest.

"No interest in the Yser? " "Each year for the past four centuries a 'goose fair' has been held in Nottingham. Originally, perhaps, given for the benefit of the poor, it has since become a large western republic, and have been fought by their English cousins.

# ASA CRAWFORD AGREES TO RESCUE CHARTERS

His Acceptance of Leadership Believed by Business Men to Insure Success of Efforts to Save Organization

## GENERAL COMMITTEE TO MEET SATURDAY MORNING

Full Plan of Campaign Will Be Formulated Immediately—Mass Meeting to Be Held at Grand Sunday Week

ASA G. Crawford has accepted the general chairmanship of a committee of Atlanta business men, who have determined to save the Associated Charities, which last Monday closed its doors because of a lack of funds.

The committee will hold its first meeting Saturday morning at 10 o'clock at the Federal Reserve Bank of Atlanta, and then the plans for raising sufficient funds to meet the needs of the association will be formulated.

The directors will select the location of the bank and its force of subscribers. The directors will select the location of the bank and its force of subscribers.

## IMPROVEMENTS PLANNED WOULD HELP UNEMPLOYED

Bond Issue Would Aid City in Many Ways, Says Committee

Impetus was given the movement for a bond issue Thursday by the meeting of the industrial commission and the subcommittee of the special bond committee of council.

The former body, after hearing a report on the number of unemployed in the city, made it plain that a bond issue will be recommended as a means of giving employment to a large number of needy people and at the same time making necessary permanent improvements for the various departments of the industrial commission.

It all probably, recommend a municipal employment bureau. An investigation of 193 manufacturing enterprises in the city developed that 2,955 men and women have been employed during the past few months, while about 4,000 employees are working at present time.

It also developed in the meeting that 1,150 union people, affiliated with the Atlanta Federation of Trades, are without employment.

The subcommittee of the special committee of bonds, which is composed of Aldermen J. B. Nutting and Jesse W. Anderson and Councilman C. W. Smith, heard a report from Chief W. B. Cummings of the fire department on the proposed improvements. The committee estimated that \$200,000 for the fire department will be included. This sum would provide for the complete "modernization" of the department and for five additional engine houses.

The subcommittee is hearing separately from the heads of each department in the city and it is the purpose of the committee to reduce the aggregate of the estimates to \$200,000 or less. It being the opinion of the committee that no effort should be made to pass a larger issue. The estimates are originally compiled by the heads of the departments call for an issue of \$200,000.

## MORE SOUTHERN FIRMS BUYING DISTRESS COTTON

Dental Supply Co., Public Accountants and Efficiency Engineers Are Purchasers

Atlanta Dental Supply company has purchased thirty bales of cotton for themselves and ten bales for the Rutter Manufacturing company of Boston, N. Y., whom they represent.

The Dental Supply Co., of Chicago, Ill., has requested the Atlanta Dental Supply company to purchase five bales for them, which will be done immediately, according to George H. Holliday, president of the company.

Bisset & Co., public accountants, and Miller-Franklin & Co., efficiency engineers, both of New York, have written The Journal, stating that they will accept cotton at 10 cents a pound in return for services rendered. Having a considerable southern clientele, they expect in this way to purchase many bales.

## LAW SCHOOL STUDENTS BANQUET FRIDAY NIGHT

The students of the Atlanta Law school, both senior and junior classes, will gather Friday night at the Wynton hotel for the annual school banquet. Robert M. Strickland, Jr., of the senior class, will preside as toastmaster, and the following speeches will be delivered:

"The Practice," by Wharton O. Williams, faculty speaker.

"Professional Ethics," by Robert B. Trueman, faculty speaker.

"Profession vs. Business," by Catchers Threlkeld, president of the senior class.

"Legal Ideals," by Basil Stockbridge, alumni speaker.

"The Brighter Outlook," by Wallace E. Daley, president of junior class.

"Toasts to the Debut Society," by J. W. LeCraw, president of debating society.

## RAILROAD Y. M. C. A. GIVE HALLOWEEN PARTY

The entertainment committee of the Railroad Y. M. C. A. has arranged for a delightful social and entertainment to be held at the rooms, 21-23 West Atlanta street, this Friday evening at 7 o'clock. It will be a "Halloween party" and many costly and attractive will be presented. A good musical program is arranged. Railroad men and their wives are invited and a crowd is expected.

## AD MEN WILL ASSIST IN PLAYGROUNDS MOVIE

Adopt Resolutions Urging a Larger Appropriation by the City Council

Resolutions were adopted by the Ad Men's club at a meeting Thursday night, the finance committee of city council to appropriate more money for public playgrounds. These resolutions were passed after the need of public playgrounds had been urged in speeches by Dan Carey, manager of Atlanta's parks, and T. S. Settle, general field secretary of the American Playground association.

Mr. Carey gave many interesting statistics. He said that forty-eight children were hurt last year while seeking recreation; of this number, forty-one were hurt while playing between the street curbs, he said. Ten children, he said, playing in the street, were killed in Atlanta in 1913.

Mr. Settle's speech was accompanied by lantern slides, showing playground scenes in other cities. He said Beacon was spending \$18,000 yearly for public recreation, as compared with Atlanta's \$2,000.

## INTER-LOCKING PLANT PLANNED FOR HELENA

The Southern railway has begun the installation of a modern inter-locking plant at Helena, Ga., where the tracks of its Atlanta division, over which its first through trains between Florida and the west move, cross the tracks of the Seaboard Air Line. This improvement will remove the possibility of a collision at this crossing and will also facilitate train operations through Helena.

At the intersection of the two lines a tower is being built from which the signals and switches will be operated. Details will be installed on all the tracks, and the plant will also include distant signals operated by power from the inter-locking plant and annunciators which will automatically inform the tower operators of the approach of trains.

## DEPUTY SHERIFFS SEEK C. C. TEDDER, INDICTED

Indicted Tuesday by the Fulton grand jury on a charge of forging criminal bonds, C. C. Tedder, formerly a detective, is being searched for in Atlanta in vain by deputy sheriffs. He is thought to be cut of the city, probably in New York.

## THREE BURGLARIES ARE REPORTED TO DETECTIVES

Load of Meat and Lard Stolen at Goldberg Grocery Company

Police and detectives are investigating three burglaries reported Thursday night. One was in the Dixie Loan company, 78 Decatur. The back door was broken in, and three suits of clothes are missing. The second was in the Goldberg Grocery company, 236 Howell street. It was here reported that burglars bored a hole in the back door, prized the door off its hinges and cleared out all the meat and lard in the place. The police think they must have used a wagon to haul off the plunder. The third reported burglary was in the Enterprise Coal and Marble company, 475 Marietta street. Here overalls of workmen were reported stolen.

## POSTAL SAVINGS BANK DEPOSITS ON INCREASE

Comparisons With Corresponding Periods of Last Year Show Big Gains

The postal savings bank, which has been in operation in Atlanta two and a half years, has received over \$90,000 in deposits, representing 915 accounts and about 4,000 transactions.

A considerable amount of this has been withdrawn, converted into government bonds bearing 2 1/2 per cent, leaving now on deposit \$22,000.

For a comparison, the following figures for August, September and October will show the increase in deposits of 1914 over last year:

August, 1914, \$12,655; August, 1913, \$7,341, 74 per cent gain.

September, 1914, \$12,655; September, 1913, \$8,706, 45 per cent gain.

October, 1914, \$2,970; October, 1913, \$4,705, 60 per cent gain.

The war in Europe is proving a big boost to postal savings in this country. From the very day hostilities opened across the seas postal savings receipts began to increase by leaps and bounds.

From the very day hostilities opened across the seas postal savings receipts began to increase by leaps and bounds and withdrawals fell off, a result quite contrary to the predictions of many well informed persons who, in their imagination, saw lines of feverish depositors at postoffice pay windows anxious to return their savings to the boot leg and buy belt depositors when they came home.

## RUSSIANS LOOKING FOR NEW GERMAN ATTACKS

Kaiser's Troops Are Expected to Take the Offensive Again Soon

PETROGRAD, via London, Oct. 30.—General Maslov, military critic of the Novoye Vremya, in summing up the war situation in the east says: "Although, generally speaking, the trend of the Russian military operations is becoming increasingly favorable, battles rage on all fronts with unprecedented tenacity and stubbornness. Not only the Germans but the Austrians, despite their recent defeat, are fighting with intense energy and it would not be surprising if the Germans should reinforce their fighting lines and again attempt to assume the offensive. At present, however, the Russians largely retain the initiative."

## JUSTICE R. C. WATTS' SON IS MISTAKEN FOR BURGLAR

LAURENCE S. C. Oct. 30.—John Watts, 22 years old, son of Associate Justice Richard C. Watts, of the South Carolina supreme court, was shot and seriously wounded here yesterday by Eugene H. Wilkes, a merchant, who mistook the young man for a burglar.

The period, bringing the number of depositors in that city up to over 21,000. The unexpected increase in postal savings business has not only added greatly to the general administrative duties of the system, but has brought up many new and interesting problems which have called for the careful personal consideration of Postmaster General Garrison and Governor Dore, third assistant postmaster general. But their task has been lightened somewhat by the promptness of depository banks in furnishing additional security to meet the abnormal deposits. A number of the very largest banks in the country, which have heretofore declined to qualify as depositories for postal savings funds, are now among the eager applicants for them.

Two important results have followed: thousands of people, largely of foreign birth, accustomed to so little saving abroad, are now patrons of our postal savings system; and enormous sums of actual cash have been released for commercial uses among our own people at a time when the need for every available dollar is pressing.

The growth of postal savings in the United States has been steady and healthy and the system has filled an important gap between the postoffice and the factory paymaster. On July 1, when a postal savings office opened here and abroad and the transmission of money across the Atlantic was safe and expedient, there were approximately \$12,000,000 of postal savings standing to the credit of about 90,000 depositors. Since then, over \$10,000,000 of deposits have been added and the number of depositors has increased enormously. This unprecedented gain is the more striking when it is considered that the net gain in the last three months is larger than the gain for the entire fiscal year 1913.

For the entire fiscal year 1913, 107 offices have done more postal savings business than in any previous year. More than was done by them during the previous existence of the service. The increases are confined to no special localities, but have been felt in every nook and corner of the country. New York City alone made a gain in September of more than a million, while Brooklyn showed a relatively big increase. Chicago reported a larger gain in the past three months than for the previous twelve months. More than 7,000 new accounts were opened during

the period, bringing the number of depositors in that city up to over 21,000. The unexpected increase in postal savings business has not only added greatly to the general administrative duties of the system, but has brought up many new and interesting problems which have called for the careful personal consideration of Postmaster General Garrison and Governor Dore, third assistant postmaster general. The increases are confined to no special localities, but have been felt in every nook and corner of the country. New York City alone made a gain in September of more than a million, while Brooklyn showed a relatively big increase. Chicago reported a larger gain in the past three months than for the previous twelve months. More than 7,000 new accounts were opened during

the period, bringing the number of depositors in that city up to over 21,000. The unexpected increase in postal savings business has not only added greatly to the general administrative duties of the system, but has brought up many new and interesting problems which have called for the careful personal consideration of Postmaster General Garrison and Governor Dore, third assistant postmaster general. But their task has been lightened somewhat by the promptness of depository banks in furnishing additional security to meet the abnormal deposits. A number of the very largest banks in the country, which have heretofore declined to qualify as depositories for postal savings funds, are now among the eager applicants for them.

Two important results have followed: thousands of people, largely of foreign birth, accustomed to so little saving abroad, are now patrons of our postal savings system; and enormous sums of actual cash have been released for commercial uses among our own people at a time when the need for every available dollar is pressing.

The growth of postal savings in the United States has been steady and healthy and the system has filled an important gap between the postoffice and the factory paymaster. On July 1, when a postal savings office opened here and abroad and the transmission of money across the Atlantic was safe and expedient, there were approximately \$12,000,000 of postal savings standing to the credit of about 90,000 depositors. Since then, over \$10,000,000 of deposits have been added and the number of depositors has increased enormously. This unprecedented gain is the more striking when it is considered that the net gain in the last three months is larger than the gain for the entire fiscal year 1913.

For the entire fiscal year 1913, 107 offices have done more postal savings business than in any previous year. More than was done by them during the previous existence of the service. The increases are confined to no special localities, but have been felt in every nook and corner of the country. New York City alone made a gain in September of more than a million, while Brooklyn showed a relatively big increase. Chicago reported a larger gain in the past three months than for the previous twelve months. More than 7,000 new accounts were opened during

the period, bringing the number of depositors in that city up to over 21,000. ## GEORGIA COTTON WANTED FOR WOUNDED IN FRANCE

Consul Prepared to Send Abroad All Contributions Made for Soldiers

Enormous quantities of cotton are needed in the hospitals of France and Belgium and a plan has been inaugurated for sending some of Georgia's distressed cotton to Europe through Dr. F. E. May, of 163 Peachtree street, the French consul and the chairman of the Belgian relief fund.

Dr. May is prepared to ship all cotton sent him immediately to Limoges, France, where there is a giant plant, which sterilizes cotton and from that point distributes it among the hospitals of the warring countries and on the battlefields.

Many Georgians, who patriotically joined the "buy-a-bale" movement have no use for their cotton and the suggestion is made that they send it to Dr. May for shipment to the Red Cross and other hospital services of Europe. Already two bales have been donated to the relief fund, and Dr. May has arranged to have France, en route to Limoges.

The Mitchell Motor company was one of the first to respond to the call for the solicitation of Charles Lortians, vice president of the Anglo-Franco-Belgian Relief committee, the management of the local branch announced that it would gladly turn over for use in Europe the bales which it bought at its recent sale.

An idea of the enormous amount of cotton needed for the wounded is given by Dr. May, who declares that in the city of Limoges and suburbs alone there are 20,000 wounded soldiers, and

## ENGLISH PRESS URGES CLOSING NORTH SEA

Want Neutral Vessels Protected from German Mine Layers in Disguise

LONDON, Oct. 30.—The newspapers continue to urge upon the admiralty the desirability of the entire closing of the North sea in order to prevent the alleged action of the Germans in sending out mine layers in the guise of peaceful, neutral trading vessels. In this connection the Times says:

"We refer again to the disquieting discovery of mines on the main route between Liverpool and America. There is an increasing conviction that this danger will continue to grow and that the only remedy is the closing of the North sea to neutral maritime traffic."

"The flags of neutrals have been persistently abused and we can take no risks with the fortunes of the empire and the race at stake."

every time their wounds are dressed by the surgeons a bit of cotton is used. Dr. May points out that the hospital service in a large measure is neutral and the hospitals manned by French and Belgian surgeons are caring for a great number of German wounded, so that any one who donates cotton to the relief fund can know that it will benefit the soldiers of both sides.

Forrest Adair has offered to Dr. May a vacant store near the headquarters of the relief committee, which can be used for the temporary storing of cotton. If any one has distressed cotton which he is willing to devote to the cause of the wounded Dr. May states that if he is notified he will pay the transportation to the relief headquarters. An arrangement has been made for the transportation of cotton and other articles destined for France to New York. From that port it will be transported from New York and from there to the sterilizing plant at Limoges.

Germany has forbidden beer to her soldiers. France has cut out absinthe and its manufacture. Kitchener of England strives for total abstinence among the English troops.

Norway is closing down upon the liquor trade. Four times, Finland outlawed liquor only to be compelled to let it in again under the orders of Russia, influenced by that country's monopoly of the vodka trade and her treaty relations with wine-exporting France. TODAY RUSSIA HAS FORBIDDEN THE SALE OF LIQUOR AMONG HER 170,000,000 PEOPLE, AMONG WHOM ARE THOSE OF FINLAND.

WHY IS THIS? SIMPLE: BECAUSE ALL OF THESE COUNTRIES ARE TODAY FACING THE CRISES OF THEIR LIVES. THEY STAND OR FALL, NOT BY SENTIMENT, BUT BY THE RIGID TEST OF MANHOOD; THE CLEAR BRAIN AND THE CAPABLE HAND ALONE CAN CARRY THEM THROUGH. ACCORDINGLY THEY LOOK UPON LIQUOR, WINE AND BEER AS PUBLIC ENEMIES.

America, like all the world, faces a crisis. Led of God, she has been preparing for it.

Last year an average of fifty-three saloons a day were closed: thirteen breweries went out of existence; distillery after distillery shut down; many remaining open have cut their output fifty per cent, notably in Kentucky. And Virginia, the mother of Presidents and the home of Lee, has determined by a majority of over 35,000 that the liquor trade shall go.

But when Colorado and California consider this great question of protecting their people and preparing them to face life with the greatest efficiency, the following advertisement appears in a Denver newspaper:

"THERE IS A WIDESPREAD DISSATISFACTION WITH THE OPERATION OF THE PRESENT PROHIBITION LAW IN THIS STATE. THE USE OF ARDENT SPIRITS IS ALMOST AS UNIVERSAL AS IT WAS PRIOR TO THE PASSAGE OF OUR PROHIBITION ACT. THIS STATEMENT APPLIES NOT ONLY TO THE CITY OF ATLANTA, BUT TO ALL OTHER SECTIONS OF THE STATE. THE RECORDS OF THE FEDERAL COURTS WILL DISCLOSE THAT THERE IS A GREATER NUMBER OF VIOLATIONS OF THE INTERNAL REVENUE LAW IN THE MANUFACTURE AND SALE OF ILLEGAL LIQUORS THAN AT ANY TIME WITHIN THE HISTORY OF THE STATE."

"It is proper that I should say to you that I am in

THEY STAND OR FALL, NOT BY SENTIMENT, BUT BY THE RIGID TEST OF MANHOOD; THE CLEAR BRAIN AND THE CAPABLE HAND ALONE CAN CARRY THEM THROUGH. ACCORDINGLY THEY LOOK UPON LIQUOR, WINE AND BEER AS PUBLIC ENEMIES.

America, like all the world, faces a crisis.

Led of God, she has been preparing for it.

Last year an average of fifty-three saloons a day were closed: thirteen breweries went out of existence; distillery after distillery shut down; many remaining open have cut their output fifty per cent, notably in Kentucky. And Virginia, the mother of Presidents and the home of Lee, has determined by a majority of over 35,000 that the liquor trade shall go.

But when Colorado and California consider this great question of protecting their people and preparing them to face life with the greatest efficiency, the following advertisement appears in a Denver newspaper:

## "Supreme Court Justice of Georgia Hurls Lie in Teeth of Colorado 'Drys,' Says Atlanta and State Wet as Ever

Three Hundred Bars, Stocked With Full Lines of Foreign and Domestic Goods, Running Wide Open in Atlanta, the Largest "Dry" City in the Country, Not to Speak of Blind Tigers and Bootleg Joints, Declares Eminent Jurist; Police Desperately Attempt to Enforce Law, but Admit Failure, and Dissatisfaction Is Widespread; Points to U. S. Government Records to Prove There Is a Greater Number of Violations of Internal Revenue Law Under Prohibition Than at Any Time Within History of State.

The Anti Saloon League of Colorado has been "called" by Supreme Court Justice Spencer R. Atkinson of Atlanta, Georgia, who says Prohibition in Georgia is a miserable failure and that the people now fully realize that a monumental blunder was committed when local option was defeated. He says that Atlanta, the largest "dry" city in the country, is tremendously "wet," that there are three hundred open bars, where all kinds of liquors are served, and so many dives, bootleg joints and illicit stills that the police are well-nigh frantic because of their inability to stop violations of law.

The Colorado Business Men's Home Rule League, eager to know if the advertisements of the Colorado Anti-Saloonists regarding the operation of prohibition in Georgia were true, wired the highest authority in the state for the EXACT TRUTH about conditions in Georgia, and this is the reply Judge Atkinson wired:

"PHILIP FELDHAUSER, PRESIDENT:  
COLORADO BUSINESS MEN'S HOME RULE LEAGUE, DENVER, COLORADO."

"There are at present something in the neighborhood of 300 places in the city of Atlanta licensed as 'near beer' saloons, where there can be bought at any time over the counter, as in the olden times, beers of all classes, both foreign and domestic. IF THERE HAS BEEN A BOTTLE OF 'NEAR BEER' SOLD IN THE

STATE OF GEORGIA IN THE LAST THREE YEARS IT IS NOT WITHIN THE KNOWLEDGE OF ANY POLICE OFFICER WITHIN THE STATE. The 'near beer' saloons are licensed regularly under the laws of the State of Georgia.

"Judging from the reports of the police department of the City of Atlanta, there has been but slight abatement in the sale of intoxicating liquors through the instrumentality of bootleggers and blind tigers, notwithstanding an apparent desperate effort upon the part of the police authorities to enforce prohibition laws."

"THERE IS A WIDESPREAD DISSATISFACTION WITH THE OPERATION OF THE PRESENT PROHIBITION LAW IN THIS STATE. THE USE OF ARDENT SPIRITS IS ALMOST AS UNIVERSAL AS IT WAS PRIOR TO THE PASSAGE OF OUR PROHIBITION ACT. THIS STATEMENT APPLIES NOT ONLY TO THE CITY OF ATLANTA, BUT TO ALL OTHER SECTIONS OF THE STATE. THE RECORDS OF THE FEDERAL COURTS WILL DISCLOSE THAT THERE IS A GREATER NUMBER OF VIOLATIONS OF THE INTERNAL REVENUE LAW IN THE MANUFACTURE AND SALE OF ILLEGAL LIQUORS THAN AT ANY TIME WITHIN THE HISTORY OF THE STATE."

"It is proper that I should say to you that I am in

favor of strict regulation of the liquor traffic, but I am opposed to prohibition as an unwarranted interference with the rights of the individual American citizen. The opinions which I have expressed may not be shared by the entire citizenry of the state, but THE FACTS WHICH I HAVE STATED WILL NOT BE CAPABLE OF SUCCESSFUL CONTRADICTION, IN MY JUDGMENT."

"SPENCER R. ATKINSON."

What stronger evidence does any thinking person in Colorado WANT that prohibition does not prohibit but that it does PERMIT the sale of liquor under the most noisome conditions.

Boys and girls are the peculiar prey of the dive and joint. Local option is against dives and joints. Prohibition breeds dives and joints. You must say on November 3 which system you prefer in Colorado.

Vote "NO" on Amendment No. 2.

THIS:

|  |  |     |   |
|--|--|-----|---|
| An amendment to the Constitution of the State of Colorado, by adding thereto a new article, to be numbered and designated as "Article XXII, Intoxicating Liquors," prohibiting the sale of intoxicating liquors and the manufacture and importation of intoxicating liquors for the purpose of sale or gift. |  | Yes |   |
|  |  | No  | X |

One truth appears—saloons are breaking the laws of Georgia in the City of Atlanta.

More—twenty-one locker clubs are violating the laws of our State and bringing us into disrepute before the civilized world, thanks to the efforts of the liquor trade.

Ex-Judge Spencer R. Atkinson is a member of more than one of these clubs.

Some judges now on the Bench are members of these clubs.

Are we more benighted than Russia, Norway or Finland?

Are we in such desperate need of money that we are compelled to deal in whiskey, wine and beer, which Russia, although facing the necessity for paying, equipping and feeding millions of soldiers in the field, will not do while war is on, because of liquor's weakening effect upon her people?

Atlanta faces a crisis.

Like Russia, let us at least prepare for it by cutting out the curse of drink.

Russia had to make laws to do it. We have the laws.

What of the men in office sworn to enforce them?

EXECUTIVE COMMITTEE OF THE MEN AND RELIGION FORWARD MOVEMENT

# What Should You Do?

## BULL MOOSES AGAINST FARMERS, SAYS HOWARD

Not One Voted to Relieve the South in Recent Fight, He Declares.

Congressman William Schley Howard, Democratic nominee to succeed himself as the representative from the Fifth congressional district, Friday morning gave out a statement in which he challenges the sincerity of the claim of the Bull Moose party that it is friendly to the interests of the southern cotton farmer.

Mr. Howard says that the Bull Moose candidates in Georgia are industriously seeking to convince the farmers of the state that they are their friends, notwithstanding the fact that the Bull Moose members of congress, without exception, vigorously opposed the efforts of the Democratic members to obtain penal legislation for the cotton grower.

The statement of Mr. Howard follows: "I do not say by intention to say anything regarding the attempt of the 'Bull Moose' party to enter the political field in Georgia.

"If those interested in launching a party were dealing candidly with the farmers of Georgia as to the relation of the so-called 'Progressive Party' to the farmer I would still say nothing.

"What are the facts?" "While ninety-one Democrats in the loss from the cotton-producing states were fighting to the last ditch to secure legislation for the issuance of additional currency to be loaned to the producer of cotton at a low rate of interest, so that our farmers would be enabled to hold their distress cotton for a period of twelve months or until a spot market was established that would at least yield the cost of production, the Bull Moose adherents of 'Bull Moose' and Roosevelt were standing aloof against the membership from the south.

"Yet those affiliating with this party in Georgia are attempting to lead the farmers of Georgia from the only party that has ever undertaken real constructive legislation in their interest.

"I ask the 'Bull Moose' candidates in Georgia why they did not use their influence with the membership of the house of representatives representing their party to stand by us Democrats and vote with us for the cotton farmer? Why your party did not have as much sympathy for the cotton farmer as the old stand pat Republican party. We did get two votes from the Republicans, Austin, of Tennessee, and Morgan, of Oklahoma, but your party deserted us and laughed at our efforts for the distressed cotton producer of the south.

"Much criticism has been heaped upon a man who has fought day in and day out for the cotton farmer, because we failed to get that relief for which we have exerted our every effort, but I hope those who are candidates upon the Bull Moose ticket will be honest enough to tell the farmers of Georgia that they had been in our shoes and followed the example of those who reflected the sentiment of their party in congress, they would have voted against any remedial legislation for the cotton farmer of the south."

Masked Maidens Will Canvass Downtown Atlanta Saturday to Get Subscriptions for Closed Associated Charities.

The true spirit of Halloween—mystery, frolic and with it, a gentle touch of fellowship—will walk the streets of Atlanta Saturday for the Associated Charities.

The mystery of it is that witches will be in the walking, shrouded in black, masked and cloaked, long cap afoot, broomstick in one hand, and in the other, a pumpkin with a will in it. The frolic is this—each witch will be a young Atlanta maid, disguised as well that while you talk to her and possibly drop a coin in her pumpkin, you may discover later that she was your sister or your best girl.

And the fellowship—what better fellowship than working in such a way for the Associated Charities and the hundreds of poor Atlanta folk who have been displaced by its disbarring?

Reviews Case Against Innes, Charged With Slaying Nelms Sisters

Marshall Nelms called on United States District Attorney Alexander Friday morning, and reviewed the evidence which he has accumulated against "Four Innes."

Innes and his wife are still in jail at San Antonio, where they have been unable so far to make bond.

Mr. Alexander, of course, can take no action on the present case, but it is possible that the government may file suit to proceed along a different line in another state. The nature of these proceedings was not disclosed.

Young Nelms claims that in every thing but producing the bodies of his sisters he has conclusive evidence against Innes.

The Modern Rush

## PELLAGRA VICTIM IS AIDED BY STRANGERS

Two Women and Man Send in Money for Purchase of Medicine

The \$1 which the pellagra victim told in Thursday's Journal needed for medicine for a week has been supplied.

Before noon Friday, three people who read the story had sent \$1 each to the Journal office, thus insuring her next week's medicine. Two were women, who requested that their names not be published. The other was J. J. Fower, of LaGrange, Ga.

Another woman called at The Journal office and obtained the address of the woman who could not buy medicine because the Associated Charities had closed. She hopes to provide some way whereby the woman can obtain medicine during the many weeks to come in which she will need it.

One woman came to The Journal office Friday with another story of poverty and prayer for help from the Associated Charities, now starting her in the face.

She, too, requested that her name be withheld from print, but gave it for reference. For two years this woman has been struggling to support herself, her mother, her grandmother and her three children, two boys, ages nine and seven, and a little girl, aged three.

There are no men in the family, but this woman and her mother work, while the grandmother stays home with the children. Last week, the mother, employed in a pants' factory, was laid off from work. The woman, who works in a printing shop, has had but one-half day's employment this week.

"They are 'no account' it," for on the first of next month the rent of their little cottage \$12.50, is due. There is no money in the house to pay. There is no money to buy food for the family.

She says, "has been kind, but he can't help putting us out if we don't pay."

Once before, when this happened, the Associated Charities came to the rescue. Her rent was paid by them, and she paid back the charities. This time the Associated Charities will not help her unless Friday morning was closed.

CAPE PROVINCE REBELS QUICKLY PUT DOWN

## JACK LETTON MAY BE JOHNSON'S SUCCESSOR

Friends Want to See Him Get Place on Police Board

With the resignation of George E. Johnson from the police board, which takes effect November 16, plans are afoot among certain members of the Sixth ward delegation to choose Jack Letton, lessee of the Winecoff hotel, to succeed him.

Commissioner Johnson's resignation will be presented to council Monday. When it becomes effective on the sixteenth, it is generally understood that he will be appointed to succeed Jack E. Broyles on the recorder's bench, in accordance with his nomination to this position at the recent primary. Judge Broyles' resignation becomes effective on the same day. He is quite to take his seat on the court of appeals.

It has been the custom in the past for council to fill vacancies on the police board by conforming to the majority choice of the ward to be represented. It is known that friends of Mr. Letton in the Sixth ward are working for his place, although there is practically certain to be opposition.

The election to the vacancy on the board cannot be held until the council meeting on November 16, two weeks from the acceptance of Mr. Johnson's resignation.

Bankruptcy Petitions

The Cherokee Fertilizer company has filed an involuntary bankruptcy petition against the Jewell Fertilizer company of Holliston, Mass., charging that it owes it a claim aggregating \$20,000.

NAVAL STORES INTERESTS FEAR BRITISH WARSHIPS

SAVANNAH, Ga., Oct. 29.—Naval stores interests in the south, which have been active lately, have requested Senator Fletcher, of Florida, to ask the state department to endeavor to obtain assurances from Great Britain that the shipments of naval stores, as well as shipments of cotton, will not be molested by British warships when transported in British or neutral bottoms.

Naval stores are a very important export of the southern states, and the British navy has been known to seize them on contraband.

Chamberlin = Johnson = DuBose Company

ATLANTA NEW YORK PARIS

What better day in the whole year for shopping for children than Halloween, what better place, than The Junior Department--the children's own store!

We Have Gathered Into The Junior Department The Daintiest Little Dancing Dresses

Here is one of pink chiffon over net. Very simple, with girle placed low and the waist, perfectly straight, of accordion plaited chiffon.

Another is of mauis chiffon, accordion plaited, a very wide girle, basque bodice; the skirt is in flounces of lace and chiffon.

Another of thread run net, the skirt in ruffles, the bodice of net and chiffon, a wide pale blue taffeta girle, a rich pink rose corsage.

Another—but they are so many!

One of a kind, they are lovely affairs for young women of all types. Priced at \$12.50, \$15, \$17.50, \$18.50 to \$25.

Let us call this a display—and invite you to see them as things of beauty, whether you desire to own one or not.

Girls' Coats in Big, Splendid Varieties

Sizes 1 year to 7 years and 6 to 14 years.

About as many coats as there are types of children to wear them.

In the little girl sizes (1 to 7)—serges, Bedford cords, broadcloths, mixtures, plaids, kerseys, corduroys, velvets, plushes—but still it is not the variety of fabrics so much as the way these fabrics have been used by smart makers. Here's a velvet rather blousy through the waist, with the fullness gathered into a belt placed very low; here's another, of kersey, that has a yoke of velvet; here one with a close-fitting fur collar; another with imitation ermine on a flat collar; another has a caracul belt; many have little capes, and some hoods, lined with plaid silks.

Priced from \$3.50 to \$12.50.

For the larger girl (sizes 6 to 14) coats for school wear, for afternoon and for dress occasions. The charmingest styles are developed in broadcloths, zibelines, plaids (wonderfully rich), bouclés, many of them have capes, many simulate the grown-ups' redingotes, with flaring skirts, many have wide girdles, velvet yokes. See them in their colors!

\$5.00, \$6.50 up and up to \$20.00.

Boys' Coats—Smart and Boyish

We speak of coats in sizes 1 year to 7 years. They are relieved of that sauciness and tameness of the coats we usually see for the little fellows.

It's much a matter of the fabrics used, also it is much a matter of the tailoring, the style. Chinchillas, mixtures, meltons, serges, shepherd checks. Regulation straight coats, little reefers, box coats, belted, Norfolk and even Balmacaans.

Priced at \$3.50 to \$10.00.

An Interesting Display of Rare Shoes

From odd corners of the world

## FRANKLIN CORN GROWERS ESTABLISH NEW RECORD

Policy of "Produce It at Home" Prevails Among County's Planters

(Special Dispatch to The Journal.) CARNESVILLE, Ga., Oct. 28.—The Franklin County Corn club met here Friday with sixty exhibits. The greatest number of bushels per acre are as follows:

Betzel Edwards, 156 bushels; Clinton Cole, 129 bushels; Dewey Bellamy, 114 bushels; J. P. Owen, 114 bushels; Raymond Cole, 107 bushels; Dewitt Shirley, 106 bushels; Dalton Cole, 101 bushels.

The first prize this year exceeds any previous record the yield per acre in this county, and it will be remembered that this was under difficulties, as the season was very unfavorable.

The farmers present reported a great quantity of grain that is being sown throughout the county, and an enthusiastic spirit of "produce it at home" policy seems to predominate.

NAVAL STORES INTERESTS FEAR BRITISH WARSHIPS

SAVANNAH, Ga., Oct. 29.—Naval stores interests in the south, which have been active lately, have requested Senator Fletcher, of Florida, to ask the state department to endeavor to obtain assurances from Great Britain that the shipments of naval stores, as well as shipments of cotton, will not be molested by British warships when transported in British or neutral bottoms.

Naval stores are a very important export of the southern states, and the British navy has been known to seize them on contraband.

Chamberlin = Johnson = DuBose Company

ATLANTA NEW YORK PARIS

What better day in the whole year for shopping for children than Halloween, what better place, than The Junior Department--the children's own store!

We Have Gathered Into The Junior Department The Daintiest Little Dancing Dresses

Here is one of pink chiffon over net. Very simple, with girle placed low and the waist, perfectly straight, of accordion plaited chiffon.

Another is of mauis chiffon, accordion plaited, a very wide girle, basque bodice; the skirt is in flounces of lace and chiffon.

Another of thread run net, the skirt in ruffles, the bodice of net and chiffon, a wide pale blue taffeta girle, a rich pink rose corsage.

Another—but they are so many!

One of a kind, they are lovely affairs for young women of all types. Priced at \$12.50, \$15, \$17.50, \$18.50 to \$25.

Let us call this a display—and invite you to see them as things of beauty, whether you desire to own one or not.

Girls' Coats in Big, Splendid Varieties

Sizes 1 year to 7 years and 6 to 14 years.

About as many coats as there are types of children to wear them.

## HEALTHY HAIR, SOFT, FLUFFY AND LUSTROUS

Many women covet the pretty hair of their friends without ever inquiring the reason why, their own is not as attractive. "Flax" oils and waxes are far less attractive towards a fine head of hair than the healthy oil of the scalp.

The natural secretions of the scalp often close the pores and root glands until they cannot possibly carry out their functions. Ordinary combing and brushing does not get down to the real roots of the hair, and something more is needed to properly keep the hair and scalp in health and vigor.

Parian Sage has been recognized for many years as one of the most valuable hair tonics and is daily making new friends because of its undoubted effect on the scalp with which it may be applied and the hair becomes so.

Faded, dull or lifeless hair is quickly restored to its natural beauty; dandruff disappears; the scalp, while oiliness and stiffness vanish after a few applications, leaving the hair permanently strong, soft and beautiful.

Do not wait until your hair is so really bad as to drive before doing anything to keep it. Jacolin's hair oil, or any good oil, can supply what Parian Sage. It is such a powerful tonic, that you cannot afford to do without it. (Adv.)

fifteen to twenty lectures and will be held over a period of four to five weeks. It is the plan to arrange for the lectures to be held in the spare time in accord with the needs of the country.

# Many Teams Primed for Hard Games Saturday; Tigers Expect to Trim Tech

## Virginia Will Depend on Backs To Beat Vandy

Old Dominion Eleven Possesses Four Stars in the Backfield in Gooch, Mayer, Word and Sparr—Brilliant Battle Expected Between Gooch and Currey

NASVILLE, Tenn., Oct. 26.—According to the best available information obtainable, the crack Virginia football team which meets Vanderbilt on Dudley field tomorrow will depend on its brilliant backfield to win the decision over the Commodores. The backfield, composed of such stars as Carter, Mayer, Word and Sparr, the Virginia line was their mainstay, this year the forward rank of the team have worried the coaches considerably.

However, if the line is below the 1913 standard, the backfield is due to make up any discrepancy. Bobby Currey, at quarterback, is probably the star of the squad which operates behind the line. The Nashville team remember well the work of Currey in the last appearance of the team here in 1912, and the Commodore line was too weak to stand up to the damage which Currey did to the team's defense.

In addition to Gooch, Captain Mayer and Billy Word, the two halfbacks are said to be exceedingly clever backfield men. Mayer played in the game last season against Vanderbilt, and did magnificent work when he was injured, retiring on account of injury. Word is a new man, but the reputation of being very fast and hard thrower of his feet. He was unable to play in the game against Georgia, but is expected to add materially to the Virginia's strength on the offensive.

As a rule, the line is the main support of the team, the battle between the line of the Commodore and the line of the Virginia team is expected to prove highly interesting. It is likely that the line of the Virginia team will be the line the Commodore line is expected to prove highly interesting. It is likely that the line of the Virginia team will be the line the Commodore line is expected to prove highly interesting.

It is so far as the line is concerned, there will be little difference between the two teams. The Commodore line is expected to be a good one, and the Virginia line is expected to be a good one.

## THE SPORTSIGHT BY GRANLAND RICE

THE REVEAL OF AN OLD WOLVERINE. I wanted to Ann Arbor, Tom. I went the other day. I made my way to the square at the foot of the hill. But none was there to greet me, Tom, and none was left to know who played with us upon the team a few short years ago.

I saw Yost coaching as of old—the same old Yost, it's true; but not the same old Yost, for he was the same old Yost. And like some old bulldog, that was the same old Yost. They rolled up sixty points a game a few short years ago.

I saw the scrub team hold 'em Tom, and then my thoughts went back; I saw the shade of Heston as he led the old attack With Weeks and Heston at his side—twas fifty yards or so—Each time this old bunch had the ball a few short years ago.

And then, like some rare vision looming faintly through the haze, I saw the Wolverine machine of low-vanished days. I saw McGugin, Maddock, Gregory, with Sweely, White and Snow—I saw we'd had J. Harvard, Tom, a few short years ago.

UP-TO-DATE FOOTBALL PROVERBS. It's a long sprint that has no turning. He that preserveth his spine is greater than he that taketh a city. SAME STUFF. Reading the hospital reports from various football camps we recall that ancient English said: "Of 1,500 Englishmen went home but fifty-three; The rest at Chevy Chase were slain beneath the Greenwood tree."

THE PERCENTAGE OF BUNK. It is hard to say which carries the greatest quantity and quality of unalloyed bunk. The baseball manager who predicts that he will finish 1-2-3 and who he will be lucky to finish eighth— If one had to pick the five best catchers in his team hasn't got a chance when he is figuring on winning by 8 to 3.

SECTIONAL MATERIAL. If one had to select the five best catchers in the game at least four would have been born or reared in the West, I. a. Archer, Bronsman, Gowdy and Schalk. The best infielders were to be picked all would be eastern boys: Daubert and McInnis at first; Collins and Evers at second; Maranville and Barry at short; Baker and Lobert at third.

Str—Which of these is the most deserving of success: 1. The one to whom talent is given; 2. The one who comes back; 3. The one, given up as hopeless, who makes good; 4. The plunger? If one had to select the five best catchers in the game at least four would have been born or reared in the West, I. a. Archer, Bronsman, Gowdy and Schalk.

WHAT OF IT? Sir—I see where a lot of you experts are trying to figure what Connie will do. Well, I tell you now, he'll win his fifth pennant with that club and then out of 5 in the world series. Outside of that he has a lot to worry about. L. G. F.

Carlisle, having lost almost every game played, will again be a popular card on baseball schedules next fall. In the matter of arranging this ball within the next thirty days. But up to date he is still on the board side of the Year canal, and Przemysl is in the pink of condition.

We still point with pride to our tip extended the sporting colony last spring—to do up the argument in the logical way and then plunge heavily in the opposite direction. That holds as good for football as it held for the other nineteen sports arranged upon 1914's menu.

The dramatic instinct must be extinct at Syracuse. Just as the Nation was beginning to be all keyed up over Turner's fight with Harbo and another dramatic battle is torpedoed and the censors move on to another port.

Should you happen to see any of the several bunches of healthy looking, rosy-cheeked, well-dressed fellows roaming about the city these days, have no fear that they are recruits of foreign military forces about to enter the city for their pilgrimage back to the old country for the winter.

Also the advance guard of the New-England Tigers has also reached the city. Paul Turner, who was a member of the Georgia eleven, but who is now enrolled at Syracuse, where he is an ineligible on account of the one-year rule together.

Riverside Plays S. V. D. Saturday. GAINESVILLE, Tex., Oct. 26.—The Riverside team plays the S. V. D. football game on Saturday afternoon. This game will complete the preliminary contests of the season, and the team is developing into a powerful machine. The team averages 115 and 140 pounds, and has five men on last year's varsity try line for places.

Johnson Has Not Yet Signed With Feds. POINT SMITH, Ark., Oct. 26.—Walter Johnson, pitcher for the American League, has not yet signed with the Federal League. Johnson is a member of a team touring the south.

Tech High Plays G. M. A. Eleven Today. The Tech High School and Georgia Military academy will meet this afternoon on the G. M. A. field in what should prove one of the best football games of the local football season. The Tech High team is developing into a powerful machine. The team averages 115 and 140 pounds, and has five men on last year's varsity try line for places.

Johnson Calls Meeting Of American League. CHICAGO, Oct. 26.—An extraordinary meeting of American League club owners was called Thursday for November 6 by President Ban Johnson. He announced that the league would be reorganized, and that any franchise would be submitted to the Federal League. Johnson is a member of a team touring the south.

## Tigers Primed To Wallop Tech

Advices From the Mountain State That the Team is in Great Shape and Expects to Win

(Special Dispatch to The Journal.) SEWANEES, Tenn., Oct. 26.—The Sewanee squad, composed of enough men to make two full teams, left this morning for Atlanta for the purpose of taking Tech's full measure on the gridiron next Saturday.

The far famed shift employed by Tech and which saw the Tigers as much trouble last season has been kept in the hands of the Sewanee players for the game and they will attempt to match their opponents in rapid shifting, better than they did in last year's game.

A mass meeting of the entire student body was held in Tonic Hall, Wednesday evening to give the team a happy and good time. The Sewanee men will accompany them on the trip. Every day during practice this week the cheer leaders have been on the football field with their constituents, singing Sewanee songs and cheering the team on.

Sewanee at last seems to have found a way of doing things. As their record in their duty in the line, as Crutcher and McInnis have not yet had much trouble in disposing of all who would trespass on their territory on the outside of the line, they are now being taken together with Boyd literally tore up all of Florida's off-track plays.

Another last year's letter man who has recently been added to the squad is little Johnny Port, who did such good work for the varsity in the backfield, and who is already showing improvement this season. So that at present the squad seems in better condition than it was last year.

Another last year's letter man who has recently been added to the squad is little Johnny Port, who did such good work for the varsity in the backfield, and who is already showing improvement this season. So that at present the squad seems in better condition than it was last year.

## Tenn in Shape For Moccasins

Rainey Is Still on Injured List, But Coaches Don't Expect to Start Him Until the Vanderbilt Game

KNOXVILLE, Tenn., Oct. 26.—Tennessee football eleven will enter the game here Saturday afternoon with the University of Chattanooga squad as the best of form. The Volunteers are in better condition than they were last year.

The Volunteers came through the battle with Alabama with scarcely a bruise, which is considered remarkable, when one remembers that this particular game was one of the hardest gridiron conflicts ever staged in this city.

While the Tennessee coaches are expecting a victory over the Moccasins, yet they are people around here who are for a runaway affair of it. Many of the scribers, especially in Chattanooga, have been sounding the warning that Chattanooga is as strong as Alabama, full of spirit, and that the Volunteers are in better condition than they were last year.

## Georgia Ready For the Aggies

Saturday Will Be Big Football Day for Athens—Team is Fit—Mississippians Confident of Winning

ATHENS, Ga., Oct. 26.—Saturday promises to be the big day of the year when the Mississippi Aggies engage the Red and Black on Sanford field. Both the student body and the people of the town appreciate this fact, and great enthusiasm is being worked up for the occasion. A monster mass meeting was held last night, speeches made, songs sung and cheers given. Everybody in the city is thoroughly stirred up over the game and a great contest is expected.

Things appear to have caught the spirit of things so, to judge from the manner in which they have gone about their work, since the return from Charlottesville, hard scrappy practice have been held almost every day. The last scrimmage was held Wednesday afternoon, and only light scrimmages were held in the days before the game. With the single exception of Logan at end, the team is in good shape physically. Logan is nursing a "charley horse" and it is possible that he will not be used in Saturday's game. In any event, he does not go in Fox will fill the position. The Aggies are expected to win the game.

## Four Clubs Will Train With Pels

NEW ORLEANS, Oct. 26.—Just how many major league clubs will be brought to this city for training next spring is a matter which is being worked out at present by President Heinemann of the New Orleans baseball club.

At least four of the big league teams will be seen here in practice. Games will be played in Mississippi and Louisiana for many of the teams. The teams will be seen here in practice. Games will be played in Mississippi and Louisiana for many of the teams.

# The Real Estate Field

Woodward Avenue and South Forsyth Street Parcels Are Featured in Real Estate Exchange—Residence Property in Ansley Park Changes Hands—East Lake Drive Pavement to be Repaired—Improved General Business Conditions

Two real estate transactions of considerable importance, one an exchange of parcels, and the other a sale of a large tract, were featured in real estate circles today. The exchange of parcels, which took place between the Atlanta Athletic club and the Atlanta Athletic club, was a sale of a large tract of land in the Ansley Park section of the city. The tract, which is situated on the corner of Woodward Avenue and South Forsyth Street, is a large tract of land which is being sold by the Atlanta Athletic club. The tract is a large tract of land which is being sold by the Atlanta Athletic club.

## TWO U. S. VESSELS ON WAY TO GUARD HAITI

Rebels Hold Capital and Uncle Sam Will Protect Foreign Citizens

WASHINGTON, Oct. 30.—The battle of Port-au-Prince, Haiti, has resulted in a complete victory for the rebels, who have captured the capital and are now holding it. The United States government has announced that it will send two U. S. vessels to Haiti to protect the lives of American citizens and to maintain order in the country. The vessels are the USS Albatross and the USS Albatross.
