ATLANTIAN REPORTED WOUNDED BY INDIANS OUT IN MEXICO

(Continued From Page 1.)

Atlas, make no mention of the killing of William Stocker, reported to have lost his life in the American colony under attack by Yaqui Indians south of Guaymas, but report the death of John Wilson and W. A. Fay and place another American, J. J. Donovan, among the missing.

A later dispatch from Nogales said Stocker had been wounded, but did not indicate whether he had died. Stocker, it is said, was a prominent ranchman.

COUNTIES GET PART OF SCHOOL L.A.C.E.

(By Associated Press.)

Governor Slaton on Friday afternoon authorized the drawing of a treasury warrant for \$17474.16 sum to be paid to those counties which carried a balance of their 1914 school appropriations over into this year. Some of these counties several weeks ago applied for portions of the balance, but owing to the delayed payment of state taxes the state has heretofore been unable to pay them. These 1914 balances left in the treasury subject to the call of the counties will aggregate approximately \$125,000. As soon as possible the remainder of them will be paid. It is expected that it will be late in the fall, probably as late as December, before the state will make the first payment on its 1914 school appropriation.

Face Eruptions Have Deep Significance

Often They Indicate Impurities Deep in the Tissues.

CASORIA For Infants and Children In Use For Over 30 Years Always Bears the Signature of Dr. H. H. Stinson

The results shown by R. S. S. in clearing the skin reveal how searching and how deep this famous blood purifier attacks blood troubles. Facial eruptions are more significant of impaired nutrition resulting from faulty elimination of body wastes. Most people realize this to be true. And yet it is a different matter to convince people they should avoid these harmful drugs. The only remedy, indeed, of such a nature as to do so, is R. S. S. It gives just as good effect without the destructive results, because it does not destroy the blood, but it does clean it to clear the system. And its effect is complete and thorough as indicated by the blood tests. One of the signs of the body that so many people are wedded to the notion that mercury is the only means of relief is known to be a product of the blood to be rid of it. It is the most powerful purifier for the complete elimination of the blood. Whether you go there are people who know this to be true from their own experience, for it has been clearly shown that it is a purifier in R. S. S. as essential to health as the blood to the system and the body. It is the only one of the grates, squares and salts of any body. Get a bottle of R. S. S. today of any druggist, but insist upon R. S. S. Do not accept a substitute. And if your case is peculiar or of long standing, write to the manufacturer, Dr. H. H. Stinson, 1012 West Side, Atlanta, Ga.

Hanover

Why They're So Popular

Hanovers have the happy faculty of making friends of all the feet they meet. They are so hospitable and kind, especially to the toes, so pleasing in appearance and style, so well-fitted and durable that most wearers consider the shoe question solved for life.

It's an undoubted fact that Hanovers are the most comfortable shoes made. That's what has made them the best-known and most worn \$3.00 and \$3.50 shoes on earth. Of course, they've got style and wear unusually long and sell at popular prices, but their remarkable comfort-giving qualities is the chief reason for their wonderful popularity.

But there would be no Hanover Shoe if it had to be marketed in the ordinary way with profits for three or four middlemen. Our Make-to-Wearer system, with our modest profit, big sales, economical methods and business-like practices, make this world-beater possible.

With the adoption of a resolution praising President Wilson at the session and the election of officers and directors for the ensuing year, the annual convention of the Southern Wholesale Grocers association came to a close Friday at 11 o'clock.

AUTOISTS WILL BLAZE

TRAIL FOR STATE TOUR

Party Leaves to Arouse Interest Among North Georgia Auto Owners

To arouse the interest of north Georgia motorists in the coming Georgia tour May 22-27, a party of Atlantians left the city Thursday morning for a motor trip in Marietta, Kennesaw, Cartersville and Acworth.

In the party were Charles J. Haden, president of the Georgia chamber of commerce, under the auspices of which the tour will be held; E. L. Gentry, W. F. Parkhurst, Sr., Crow and John Murray. Mr. Gentry had telephoned the stations along their route and accounts from every town were present to meet them and get the literature documenting the tour. Mr. Murray, an expert bugler, heralded the approach of the party.

The convention is to be held at the Studebaker corporation.

In a few days another boasting trip will be made up the Louisa and Nashville road and up the Southern road. It is hoped that the motorists in north Georgia interested in the tour already over sixty entries have been received at the office of the Georgia chamber here and at least a hundred are expected within the next days.

The tour leaves Atlanta May 22, going by way of Marietta, Louisa, Columbus, Americus, Albany and Moultrie to Gadsden, where the return will begin through Valdosta, Stone Mountain, Vienna, Mariettaville, Fort Valley, Macon, Forsyth and Barrowville back to Atlanta.

eventy-Five Delegates Are Here in Attendance on Two-Day Convention

The Serv-us jobbers, about seventy-five strong, held the opening session of a two-day convention in the Ansley hotel Friday morning.

The Serv-us jobbers are the wholesale grocers throughout the United States who handle the Serv-us line of pure food products, comprising a wide variety of articles of household use. George Lawin, of New York City, president of the Serv-us Pure Food company, is here and is presiding at the deliberations of the convention. Among the prominent members from a distance who are attending the convention are J. R. Frazer, of Little Rock, Ark., president of the United Workmen; Tim W. Whitbread, of New York; W. H. Robert Burns, of Philadelphia, ex-president of the "Tristate Grocers' association; and Buchmacher, of Houston, Tex., president of the chamber of commerce of that city.

More than a hundred jobbers are expected to attend the convention, the concluding session. The Serv-us jobbers are meeting here in connection with the convention of the Southern Wholesale Grocers association. Many of them are members of the latter organization.

associate membership in the association and invited a discussion. Some opposed it on the ground that certain brokers in their territory sell at retail. Others opposed it on the ground that wholesale grocers are customers of brokers. The matter was referred to the executive board with instructions to make full recommendations on associate membership for brokers and other associate memberships to the next annual convention.

FOUR CITIES WANT MEET—Invitations were received from Memphis, Hot Springs, Galveston and New Orleans for the next annual convention. A selection will be made by the executive board in the interim.

The learning session Friday opened with an address by W. A. Graham Clarke, commercial agent of the United States department of commerce, on the general subject of the relation of the department to the wholesale grocer. He urged the grocers to pay more attention to the opportunities of exporting southern food products and outlined to them in detail the various ways in which the department can be of assistance to them along this line. He said the department is the most complete and efficient organization for collecting commercial information that there is in the world. It covers all countries and issues a daily newspaper full of valuable facts. Mr. Clarke's address was received with interest and he was warmly applauded.

Following the adjournment of the convention, the grocers took special trolley cars at 1 o'clock for the Cold Springs club, where they were tendered a barbecue by the local entertainment committee.

Part of Note Sent German by Mr. Wilson

THE full text of President Wilson's note to Germany was made public last night by the state department as follows:

Department of State, Washington, May 13, 1915.

The secretary of state to the American ambassador at Berlin "Please call on the minister for foreign affairs, and after reading to him this communication, leave with him a copy."

In view of recent acts of the German authorities in violation of American rights on the high seas, which culminated in the torpedoing and sinking of the British steamship *Lusitania* on May 7, 1915, by which over 100 American citizens lost their lives, it is clearly wise and desirable that the government of the United States and the imperial German government should come to a clear and full understanding as to the grave situation which has resulted.

The sinking of the British passenger steamer *Florida*, by a German submarine on March 25, through which Leon C. Frasher, an American citizen, was drowned; the attack on April 13 on the American vessel *Cushing* by a German aeroplane; the torpedoing and sinking of the steamship *Lusitania*, constitute a series of events which the government of the United States has observed with growing concern, distress and amazement.

Given, and in at least two of the cases cited, so much as a warning was received. Manifestly submarines cannot be used against merchantmen, as the last few weeks have shown, without an inevitable violation of many sacred principles of justice and humanity. American citizens act within their indisputable rights in taking their ships and in traveling wherever their legitimate business calls them upon the high seas, and exercise those rights in what should be the well-justified confidence that their lives will not be endangered by acts done in clear violation of universally acknowledged international obligations, and certainly in the confidence that their own government will sustain them in the exercise of their rights.

WARNING NO EXCUSE FOR NEUTRAL ACT.

Others were recently published in the newspapers of the United States, I regret to inform the imperial German government a formal warning, purporting to come from the imperial German embassy at Washington, addressed to the people of the United States and stating in substance that any citizen of the United States who exercised his right of free travel upon the seas would do so at his peril if his journey should take him within the zone of waters within which the imperial German navy was using submarines against the commerce of Great Britain and France, notwithstanding the respectful but very earnest protest of his government, the government of the United States. I do not refer to this for the purpose of calling the attention of the imperial German government at this time to the surprising irregularity of a communication from the imperial German embassy at Washington addressed to the people of the United States through the newspaper, but only for the purpose of pointing out that no warning that an unlawful and inhuman act will be committed can possibly be accepted as an excuse or palliation, for the act or as an abatement of the responsibility for its commission.

DOES CONTRAST TO MODERN WARFARE.

Recalling the humane and enlightened attitude hitherto assumed by the imperial German government in matters of international rights, and with regard to the freedom of the seas, having learned to recognize the German views and German influence on the field of international obligations as always engaged upon the side of justice and humanity; and having understood the instructions of the imperial German government to its naval commanders to be upon the same plane of humane action prescribed by the naval codes of other nations, the government of the United States was led to believe—that these acts, so absolutely contrary to the usual practice, and the strict of modern warfare, could have resulted from an intention of that great government, it feels it is its duty, therefore, to address the imperial government concerning them with the utmost frankness and in the earnest hope that it is not mistaken in expecting action on the part of the imperial German government which will correct the unfortunate impressions which have been created, and vindicate once more the position of that government with regard to the sacred freedom of the seas.

VIOLATES PRINCIPLE OF UNARMED SHIPS.

The government of the United States has been apprised that the imperial German government considered themselves to be obliged by the extraordinary circumstances of the present war and the measures adopted by their adversaries in seeking to cut Germany off from all supplies to adopt methods of retaliation which go much beyond the ordinary methods of warfare at sea. In the proclamation of a war zone from which they have warned neutral ships to keep away, this government has already taken occasion to inform the imperial German government that it cannot admit the adoption of such measures or such warning of danger to operate as in any degree an abbreviation of the rights of American shipmasters or of American citizens bonded on lawful errands as passengers on merchant ships of belligerent nationality; and that it must hold the imperial German government to a strict accountability for any infringement of those rights, intentional or incidental. It does not understand the imperial German government to question those rights. It assumes, on the contrary, that the imperial government accept as of course the rule that the lives of non-combatants, whether they be neutrals, citizens, or citizens of one of the nations at war, can not lawfully or rightly be put in jeopardy by the capture or destruction of an unarmed merchantman, and recognize also, as all other nations do, the obligation to take the usual precaution of visit and search to ascertain whether a suspected merchantman is in fact of belligerent nationality or is in fact carrying contraband of war under a neutral flag.

The government of the United States, therefore, desires to call the attention of the imperial German government to the utmost earnestness to the fact that the objection to their present method of attack against the trade of their enemies lies in the practical impossibility of employing submarines in the destruction of commerce without disregarding those rules of fairness, reason, justice and humanity which all modern opinion regards as imperative. It is practically impossible for the owners of a submarine to visit a merchantman at sea, and examine her papers and cargo.

FRANK E. BLOCK TALKS FOR SEEKING SAFETY

It is practically impossible for them to make a prize of her, and, if they cannot put a prize crew on board of her, they cannot sink her without leaving her crew and all on board of her to the mercy of the sea in her own boat. These facts, it is understood, the im-

**SAMUEL CANDLER DOBBS
BIG EMORY CONTRIBUTOR**

Vice President of Coca-Cola Co. Will Build Students' Dormitory Costing \$50,000

The announcement of Bishop Warren A. Candler at the Emory University Founders' club luncheon Thursday that over \$100,000 had already been pledged for the university, and this without solicitation, has created a profound impression.

As already announced, Bishop Candler and Miss Margaret Candler had agreed to build a students' dormitory, which would cost \$50,000 and very likely more, and Charles Winship had subscribed \$25,000.

He made feeling reference to the fact that the late Samuel M. Tomman, who had subscribed \$5,000 at the time the university plan was first launched, gave directions just before his death that this amount should be paid. He also mentioned a subscription from the Atlanta conference, as well as subscriptions from various states, and one donation of \$1 from a woman who said she would give more if a much larger amount.

In connection with the announcement of Mr. Dobbs' offer, Bishop Candler said that another man, whose name he did not disclose, would probably make a similar one.

Although Mr. Dobbs is barely in his prime, he is vice president and sales manager of the Coca-Cola company, and is next to Joe G. Candler, the uncle, the directing force of that organization, which comes not only a national but also an international field.

Mr. Dobbs has a national reputation as an advertising expert, and has been given recognition by election to the presidency of the National Association of Ad Men's clubs, composed of the leading advertising experts of the country.

Although the plans for the dormitory are still more or less tentative, they call for accommodations for 150 students, and it is Mr. Dobbs' idea that the dormitory will be as little like the ordinary college dormitory as possible.

THE COMFORTS OF CLUB life, Mr. Dobbs said, "which shall have all the comforts of a club at a nominal cost, it will be devoted primarily to those young men of poor families who cannot afford to pay board in decent boarding houses. It is my idea that proper food, light, ventilation and diversion are necessary for good brain work."

Mr. Dobbs was led to this undertaking by his own experience as a poor country boy who could not get a college education because of the expense. He wants to give such young men the advantages that were lacking at that time.

The dormitory will have a lounging room and a modern restaurant. Stress is laid on the restaurant. Instead of hash and the other accessories of a poor boarding house, meals will be served à la carte—a cent for an orange, 2 cents for coffee, and the like, making a whole morning breakfast cost not over 18 or 20 cents.

The rooms will be well furnished. There will be rugs for the halls and rooms, and plenty of pictures. There will also be a piano and probably a victrola, for music and pictures, and books, light, ventilation and diversion and home environment.

As in a hospital, there will be free rooms, and rooms for those who can pay. There will be a shower bath on every floor.

Mr. Dobbs plans to supply the restaurant largely with meat, vegetables and fruit from his own farm, in this way not only assuring good food, but also contributing to the upkeep of the dormitory. As to discipline, any sort of discipline on the part of the students will be absolutely barred.

Mr. Dobbs characterizes the dormitory as primarily for the poor youths of Georgia.

Speaking of the university generally, Mr. Dobbs said that the south had undoubtedly been backward in the matter of institutions of this type, and that there is still greater need of them in the future.

"From information I recently gathered," Mr. Dobbs said, "it will require years and years for Germany to establish her supremacy in education."

"Some of the big universities have lost many of their professors in war America, and particularly the

**FIVE NEW BUILDINGS
PROPOSED FOR SCHOOLS**

New Structures Favored for Glenn, Davis, Oakland, Battle Hill and Exposition Mills Schools

The special council committee investigating the needs of the school department in holding daily sessions, and according to complete its report in time for the next session of council.

Recommendations agreed upon at Thursday night's session of the committee include the replacing of the present Glenn Davis, Oakland, Battle Hill and Exposition Mills school buildings with new structures, the immediate erection of a four-room annex to the English-Commercial High school, and the beginning as quickly as possible, of an entirely new building for that school. The erection of the city's own building to house the Tech High school is urged.

Other recommendations agreed upon already included a scheme of extensive repairs for the Boys' High school and the Presbyterian parsonage which adjoins the Girls' High school and use it for an annex to take care of almost certain congestion next year.

Members of the committee score the school repair department as woefully inefficient, and will urge that council instruct the board of education to make many changes in this branch of the department.

Gradually as the subcommittee reports to the general investigating committee agreements for recommendations to council are being made by the members of the committee.

Alderman Jesse W. Amistead, one of the members of the committee, states that while the school investigators recognize the imperative need of at least ten entirely new school buildings, that it may confine its report to the conditions of the present buildings, only recommending new structures where the existing buildings are totally inadequate in the opinion of the committee.

GERMANY'S ANSWER IS EAGERLY AWAITED BY AMERICA TODAY

mentations points out that while "expressions of regret and offers of reparation in case of destruction of neutral ships sunk by mistake" may satisfy "international obligations" it is no less a life result, they cannot justify or "accuse a practice the natural and necessary effect of which is to subject nations and neutral persons to new and insupportable risks."

GERMAN "OCCUPATIONS" NOT ADMIRABLE

It was this feature—the application of the rules of naval prize law to the cases of neutral vessels carrying contraband encountered by submarines—which attracted attention when the German circular note to neutrals was first examined. The argument made in the American note of today is designed to point out the inadmissibility of what has been regarded in some quarters as concessions by Germany in the treatment of neutral merchantmen.

THIN PEOPLE CAN INCREASE WEIGHT

This new and modern way would like to increase their weight with 10 or 15 pounds of healthy "fat" they should try using a little Barcol with their meals for weight and more results. There is a good test worth trying. First weigh yourself and mark down the exact figure. Barcol—one tablet with every meal—for two weeks. Then weigh and mark down again. If you find a question of how to get it, ask your friends and see what they say. The scales and the tape-measure will tell their own story and most say that men or women can easily add from five to eight pounds in the first four days by following the simple directions. And best of all, the new Barcol stays put. Barcol does not get out of your system, and what you eat with your food. It turns the fat, sugar and starches of what you have eaten, into the fat that produces nourishment for the tissues and blood—preparing it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body to your cells, and does it quickly and makes you are getting new developing points and pounds of healthy, plump, firm, and elastic flesh. Barcol is safe, pleasant, refreshing and therapeutic. Write for literature and order. Dispensary in Atlanta and vicinity sell it in their "body-fat" labels. It is a pleasure-guarantee of weight increase or money back.

Our Adaptations of Useful Embroidery Patterns

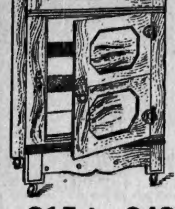

Today's illustration is an embroidered design for ladies' waist. It may be copied from this paper thus: If your material is to be the simplest method is to lay the material over the design opposite and with a sharply pointed pencil draw over each line. If the material is heavy, secure from any stationery store a piece of carbon impression paper. Lay it face down on the design opposite, then draw over each line of the paper design with a hard pencil or the point of a steel knitting needle.

The above free design—together with over four hundred other embroidery and initial patterns for every conceivable purpose—may also be had at the office of this newspaper in the form of the Innovation Set of beautiful embroidery transfer patterns, each one of the 400 new designs capable of being transferred in five minutes—no hot iron required—for 65c., or 75c. by mail. These individual designs, if purchased separately, would exceed \$10 in cost.

ENTIRELY FREE—With this package of over 400 transfer patterns we also present to you entirely free one set (valued at 40 cents) of everything required for successful embroidering, consisting of two six-inch embroidery hoops, one package of ten assorted embroidery needles, one stiletto, one bodkin, and an Embroidery Instructor containing illustrations and directions for all the newest as well as the standard stitches. Moppy back instantly if not satisfied. Call on or address Embroidery Dept., The Atlanta Journal, Atlanta, Ga.

The People Behind Your Bell Telephone

YOU are perhaps familiar with the local Exchange Manager. You rarely, if ever see the board operator who handles your calls or the trouble-man who protects your service and the cablemen who place the talk tracks underground.

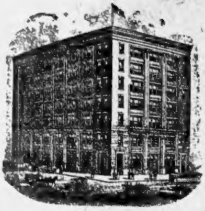

There are a lot of these people, but they are only a few of the many kinds of workers in the great army of 150,000 Bell employees pulling together to maintain the Bell high standard of efficiency, and giving the highest type of service to the American people.

It requires lots of other capable people to furnish efficient service to the subscribers in this city. The intricate mechanism of the extensive system must be kept in perfect order day and night and the service must always be of the high standard of the universal Bell telephone system.

NEWSPAPERS LAUD WILSON'S NOTE

"President Leaves Little Room for Parley and Nothing but Mouthings for Germany"—Watterson

(Continued From Page 1.)

definiteness with which this presentation is made can satisfy the most rigid American that this is a large affirmative. It seems to meet every requirement of American patriotism and honor.

BUFFALO (N. Y.) EXPRESS: There has been no back down. Let the people's response go out from every corner of the land. We are all Americans.

ALBANY (N. Y.) ARGUS: Dismissed in its time, logical in its arguments and conclusions, firm in its demands, the United States' note to Germany settles the issue of the president, Woodrow Wilson, under most trying circumstances.

ALBANY (N. Y.) KNICKERBOCKER PRESS: The note places the issue squarely before Germany for action, and an announcement of future policy acceptable to the United States government, particularly a policy of sea warfare, must not long be delayed.

COLUMBUS (OHIO) STATE JOURNAL: How Germany will promise to protect the lives and property of our people in the future, or in what manner this country will receive her refusal, remains to be seen. It is a grave alternative, and while it is not likely to result in war, it will bring about an entirely new Germany that will be full of anxiety.

LOUISVILLE (KY.) COURIER-JOURNAL: The note to Germany meets the requirements, and is such as the government of the United States should address to Berlin. The president leaves little room for parley and none other than mouthings or rupture remains for Germany.

LOUISVILLE ANZEIGER: We agree with the president that the German government must explain the loss of the lives of American passengers, but we do not think that the death of Americans give the president the right to demand the cessation of Germany's undersea warfare against British commerce so long as England does not abrogate its starvation warfare.

MILWAUKEE (WIS.) WISCONSIN JOURNAL: Whatever the fate of our relations with Germany, the president undoubtedly voiced the sentiment of the nation upon the use of the submarine and as to the rights of neutrals on the high seas.

CHICAGO HERALD: There is now no possibility of mistaking the position of our government, and it is a question in which the American people will sustain their government in whatever measures may be necessary to uphold it.

INDIANAPOLIS STAR: In many features the president's note does not shrink from the logical consequences of his position, but accepts the full significance of his attitude.

ST. PAUL (MINN.) PIONEER PRESS: The American note reached a wonderful height of forceful diplomacy. A x x x The people will support the president therein whatever may be the consequence.

SPRINGFIELD (ILL.) STATE JOURNAL: It is the dignified protest of a nation, which, while feeling that its rights and the rights of other neutrals have been violated is neither vindictive nor resentful.

ST. LOUIS DIE WESTLICHE POST: For the press of the whole country there is at present but one sacred duty, to leave nothing undone to avert the disaster that we Americans of German descent with a bleeding heart, contemplate the possibility of an armed conflict between the United States and the land of our forefathers, no fast-minded persons will condemn us. There still is hope for an honorable understanding on both sides. May Providence grant that the worst be averted.

ST. LOUIS REPUBLIC: There is not in the note any slightest hint that this government will stop short of the full reparation for the past, and the guarantee of the recognition of the full rights of American citizens in the future.

CINCINNATI COMMERCIAL TRIBUNE: The strength of a just man armed is apparent in the protest sent by President Wilson. This remarkable utterance, freighted with momentous possibilities, brushes aside all formalities and is frank.

CINCINNATI VOLKSBLATT: The note is disappointing in that it disregards the just complaints of Germany and appears to espouse the cause of Great Britain. We think that the difficulty admits of a satisfactory solution by advising American citizens to travel on American vessels. Unwillingly the president shelters British cowardice, which tries to make British ships immune to German attacks by taking American passengers aboard.

CINCINNATI FREE PRESS: The part of the note dealing with the loss of lives in the Lusitania catastrophe more properly ought to have been directed to London. England alone is responsible for the Lusitania's destruction through her brutal threat to starve a nation. Germany cannot stop the undersea war without surrendering bound hand and foot to a brutal enemy. We are not obliged and have no right to set up ourselves as the protectors of British shipping.

WASHINGTON POST: The note is framed in moderate language and affords abundant opportunity for the German government to reply in a way that will restore good feeling between the two countries. The question is now up to Germany. It is unnecessary to speculate whether the American note will lead to war or peace, because the issue rests with Germany and not with the United States. The alternative is clearly set forth.

NEW YORK STATE ZETTING: While the State Zeitung makes no editorial comment, today it has the following to say, printed in English.

Not in this a time to burden millions of the American people with unjust and unnecessary anguish of mind. The German-Americans must suffer in any conflict between the United States and Germany unless of course their fellow citizens can never know anything. It is rather a time for showing them the

One Month of Right Living

If your body is no longer your obedient servant; if work seems harder than work ought to be; if pleasures have lost zest; if every meal brings its hour of regret afterwards; you ought to know the reason why.

Don't worry about your physical condition; find out about it. There may be nothing the matter but some error of diet, some bad habit of work or exercise which one month of right living would show the way to correct.

At Battle Creek there is a Health Resort where you are taught how to get well and keep well. A complete inventory of your physical resources is taken. Bad habits of eating, working and exercising are corrected, and you make a fair trial, under expert scientific direction, of the plan of daily life best suited to conserve and utilize what physical capital you have. The month of right living proves in many cases that this is much larger than you have supposed.

Full particulars and terms may be had by writing to 405 Administration Building, Battle Creek Sanitarium, Battle Creek, Michigan. A large illustrated book is sent free and fully post-paid upon receipt of your request.

Rev. C. M. Lippam, M. F. Lane, B. J. Burnett, and B. F. Harris each representing a Rockmart Sunday school, are in charge of the delegation from that city. The picnicers will spend the night.

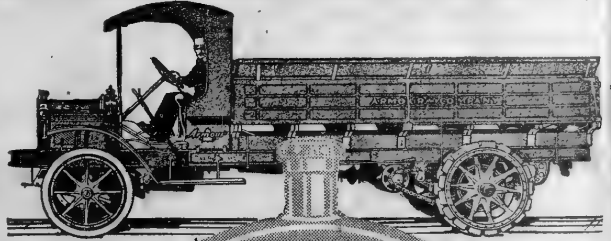

SUITS TOTALING \$24,500 FILED AGAINST POWER CO.

Four damage suits, aggregating \$24,500, were filed against the Georgia Power and Power company in the court Friday morning. Callie Davis sued for \$10,000 for alleged injuries received April 25, 1915. Battle Arison sued for \$1,000 for alleged injuries received April 25, 1915. Frank Arnold sued for \$1,000 for alleged injuries received April 25, 1915. E. L. Dodson sued for \$1,500 for alleged injuries received April 25, 1915. STEAMER CYMRIC'S CABINS PACKED FOR ATLANTIC TRIP

White Star Liner, Bound for Liverpool, Has All Passengers She Can Carry

NEW YORK, May 14.—Seventy-six cabin passengers and 209 in the steerage were booked to sail for Liverpool today on board the White Star line steamship Cymric. Among the cabin passengers were twenty-six women and seven children while 40 per cent of those in the steerage were women or children.

At the office of the line it was said the Cymric carried as many passengers as she could accommodate. There had been a few cancellations of passages, but these were quickly filled by other persons on the waiting list.

In the Cymric's cargo was a large consignment of automobile trucks. Agents of Italian steamship lines here announced that instructions had been received by them to refuse passage to women or children of German, Austrian or Turkish birth. Men of those nationalities already had been excluded from the steamer St. Louis for \$20 extra pay for the trip to Liverpool on which the steamer is to start tomorrow.

The officials declared that the risk to the St. Louis of being torpedoed by a German submarine is very small as the ships of that line have carried no contraband since the beginning of the war.

The fiftieth anniversary of the National Temperance society will be celebrated next Sunday with seven great jubilees in seven cities over the United States and the jubilee for the south-east will be held in Atlanta at the Baptist Tabernacle on Luckie street at 3:30 o'clock in the afternoon.

The speaker for the Atlanta jubilee is Rev. Cortland Myers, D. D. pastor of Tremont temple, the largest church in Boston and one of the most famous preachers and lecturers in the United States. This is his first trip south and a very large audience is expected to hear his lecture.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid soap, apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

In the morning, wash it out, and your dandruff will be gone, and three or four more applications will completely die and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop instantly, and your hair will be shiny, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid soap at any drug store. It is inexpensive, and four ounces will last you a long time. This simple remedy has never been known to fail.

No matter how often the hair is washed, at times the scalp itches or is uncomfortable, or the hair seems to lack life and is without lustre. Washing the hair is not enough—it is made and kept beautiful only by cultivation—daily brushing, scalp manipulation and ED. PINAUD'S Quinine rubbed into the scalp. This stimulates the hair roots, quickens the circulation and maintains a healthy condition without which hair beauty is impossible. ED. PINAUD'S is a delicately perfumed preparation for dressing the hair daily—it is a refined habit. Test it yourself. At any drug or dept. store you can get either a 50c or \$1.00 bottle.
