U. S. NOT TO RECOGNIZE HUERTA

Present Regime Will Not Last Year Out, President Wilson Says.

WASHINGTON, July 21.—The United States does not intend to recognize the Huerta Government in Mexico, because that administration is reported to be tottering to its ruin and is not expected to last the year out.

This was the gist of President Wilson's discussion of the Mexican situation with the Washington correspondents today. The President said that if the Huerta government were to be able to discuss it thoroughly with Ambassador Wilson when the latter reaches Washington Friday.

But he indicated clearly that the administration does not intend to recognize Huerta, no matter what advice the Ambassador gives.

The chief executive has been advised on the highest authority that President Huerta is losing his grip. It is not considered good policy to recognize a government which has but a short time to live, and the United States will reserve its approval for another and stronger regime, which, it is hoped, will succeed the Huerta Government.

The President today indicated clearly that there would be no further steps in the Mexican matter until after the White House conference scheduled for Friday.

HOUSE GIVES CANDIDERS A CHANGE

Reconsiders Adverse Action on New County After Hot Debate. Hardeman Scores Lobby.

After one of the stormiest sittings of the present session, the House of Representatives today gave its reconsideration to the adverse action upon Candler county by a vote of 92 to 59.

During the progress of the debate on Candler the House was bitterly arraigned by Mr. Hardeman, of Jefferson, for its slow progress to take which charge was quite as vehemently presented by Mr. Blackburn, of Fulton, and others.

Mr. W. H. Hardeman, of Muscogee, who called for the previous question on Thursday last, was held responsible for Candler's situation. In moving to reconsider today, explained to the House that he had made his motion in entire good faith, and if he had made a mistake, he wished it to be corrected. He said that his mistake he was not in Candler, but in the House, which he had said, the gentleman from Muscogee begged everybody's pardon.

This apparently paved the way for a peaceful vote, but it soon became plain that a peaceful vote was not in sight.

Mr. Hardeman vehemently protested reconsideration, and in doing so charged that the House was disgraced by far behind in its business, and that it was doing nothing to help the House for laxness and tardiness was quickly resented. It was contended that the present House, instead of being behind in its work, is really far ahead as it enters its last 26 days than any House for many years past.

Bill's Status Made Plain.

The appropriations bill is ready for the House's consideration, and Chairman Wiley has given notice that he will call it up Tuesday.

This will put it before the House at least ten days earlier than usual.

The tax act, it was contended, will reach the House in record-breaking time, and the House committees have worked overtime reporting bills.

Representative Blackburn challenged Mr. Hardeman to name any Legislature within the knowledge of either man, both of whom are veterans of the House, wherein any bill of general importance, particularly the appropriations bill, was passed in less than ten days of its session.

Mr. Hardeman did not name such a Legislature, but he held, nevertheless, that the present House has been unacceptably slow.

The gentleman from Jefferson declared that the whole trouble lay at the door of the proposed new county, and said that he had been "hounded" with so persistently and so vigorously with so persistently and so vigorously that it was evident enough that he meant it was another and far more important something—perhaps a dissolution of the very House organization itself.

The reconsidered Candler County measure probably will go over to next session, and it is doubtful whether any other new county proposition will come up this year.

GRAND JURY DEFERS ACTION ON CONLEY TALK OF POSTPONING FRANK TRIAL TILL FALL

MORE BLONDES THAN BRUNETTES

U. S. Will Refuse to Recognize Huerta

MRS. PANKHURST JAILED AFTER FIERCE RIOT

Special Cable to The Atlanta Georgian.
LONDON, July 21.—In one of the fiercest riots which has marked the suffrage propaganda in Great Britain, Mrs. Emmeline Pankhurst, leader of the militants was arrested to-day with six of her followers.
The fight with the detectives came when the officers tried to arrest Mrs. Pankhurst as she was entering the Pavilion Music Hall, where her daughter Sylvia and other prominent suffragettes were holding a meeting.
Mrs. Pankhurst was seized after a violent struggle, and when the frenzied women saw their leader in the hands of the officers they charged upon them, using hairpins and all sorts of weapons to resist their leaders.
The officers held their prisoners and related the attacks of the women.
Mrs. Pankhurst was taken to the lock-up where she was held until to-day.
She escaped from the lock-up yesterday by having a fellow militant leave her house quietly. The detectives believed the woman was the militant who had only after they had forced her into a taxi cab did they learn their mistake.

DOCTOR AND GIRL ARE TAKEN ON WICE CHARGE

Miss Luella L. Porter, daughter of Mr. and Mrs. John Hart Porter, of No. 252 Cumby street, is the newest nominee in the "beauty button" contest. She is of the blonde type with golden brown hair and gray eyes.
An unusual commentary on the beauty contest is that more blondes than brunettes have been nominated. But the contest is not closed yet, and what the final result will be no one can tell. Also the brunettes who have been nominated are keeping well up with the blondes in votes.
A letter has come to the contest editor stating that photographs had been taken of some of the beauties while they did not do others justice.
That is true, but it depends on the particular photograph. That all the photographs so far published have made a good impression is shown by other letters of nomination, in which the writers state they are reluctant to enter their candidates after seeing so many pretty faces entered in the contest.
Mr. W. Lewis, a prominent physician of Carrollton, was arrested Monday morning and placed under \$5000 bond on a charge of disorderly conduct. He is charged with registering as man and wife at the Hotel Scotville, on Mitchell street, with Miss Edna McCollum, who is held as a wife in the case. The trial will be held before Recorder Boyles Tuesday afternoon. The arrest was described until the physician had finished a difficult operation at a sanitarium.
According to Dr. Lewis, the girl arrived in Atlanta Monday morning with Miss McCollum, registering at the Hotel Scotville with her as Dr. Lewis and wife.
"This, in fact," said Dr. Lewis, who says someone who evidently has it in for him, added the "and wife" to his name and the girl, who in information furnished to the office by a friend of the contest, who saw them on the train Monday morning.
According to Dr. Lewis, the girl came to Atlanta with him to have some work done on her teeth. The girl says she came with the doctor with her father's permission. The McCollums live in the country about ten miles from Carrollton.

END IS SEEN OF MEXICO REGIME

Will Not Last Year Out, President Says—Stronger Successor Is Hoped For.

WASHINGTON, July 21.—The United States does not intend to recognize the Huerta Government in Mexico, because that administration is reported to be tottering to its ruin and is not expected to last the year out.
This was the gist of President Wilson's discussion of the Mexican situation with the Washington correspondents to-day. The President said that at present he is doing nothing but studying the Mexican problem so as to be able to discuss it thoroughly with Ambassador Wilson when the latter reaches Washington Friday.
But he indicated clearly that the administration does not intend to recognize Huerta, no matter what advice the Ambassador gives.
The Chief Executive has been advised on the highest authority that President Huerta is losing his grip. It is not considered good policy to recognize a government which has but a short time to live, and the United States will reserve its approbation for another and stronger regime, which, it is hoped, will succeed the Huerta Government.
The President to-day indicated clearly that there would be further steps in the Mexican matter until after the White House conference scheduled for Friday.

The Madero Lumber Company is an American-Canadian corporation. It owns a large area of forest lands, contains the Mexican Northwest Railroad and has built several small towns in Northwestern Mexico.

HOUSE GIVES CANDLER A CHANGE

Reconsiders Adverse Action on New County After Hot Debate. Hardeman Scores Lobby.

After one of the stormiest sittings of the present session, the House of Representatives to-day agreed to reconsider its previous adverse action upon Candler County by a vote of 91 to 52.
During the progress of the debate on Candler the House was bitterly arraigned by Mr. Hardeman, of Jefferson, for its slow progress to date, which charge was met with vehemence by Mr. Blackburn, of Fulton, and others.
Mr. Wohlwendler, of Muscogee, whose call for the previous question on Thursday last was held responsible for Candler's slaughter then, in moving to reconsider to-day, explained to the House that he had made his motion in entire good faith, and if he had made a mistake, he wished that his mistake had visited on Candler, and he had hurt anybody's feeling or said anything he ought not to have said, the gentleman from Muscogee begged everybody's pardon.
Dove of Peace Scored.
This apparently paved the way for a peaceful vote, but it soon became plain that a peaceful vote was not in sight.
Mr. Hardeman vehemently protested reconsideration, and in doing so charged that the House was disgracefully far behind in its business, and that the too much time already had been wasted on new county claims and constitutional amendments.
Mr. Hardeman's wholesale denunciation of the House for laxness and tardiness was quickly resented. It was contended that the present House instead of being behind in its work, is really farther ahead as it enters its last 25 days than any House for a century.

JURY REFUSES TO RECOGNIZE HUERTA ACTION

END IS SEEN OF MEXICO REGIME

Will Not Last Year Out, President Says—Stronger Success Is Hoped For.

WASHINGTON, July 21.—The United States does not intend to recognize the Huerta Government in Mexico, because that administration is reported to be tottering to its ruin and is not expected to last the year.

This was the gist of President Wilson's discussion of the Mexican situation with the Washington correspondents today. The President said that at present he is doing nothing but studying the Mexican problem as far as he is able to discuss it thoroughly with Ambassador Wilson when the latter reaches Washington Friday.

But he indicated clearly that the administration does not intend to recognize Huerta, no matter what advice the ambassador gives.

The Chief Executive has been advised on the highest authority that President Huerta is losing his grip. It is not considered good policy to recognize a government which has but a short time to live, and the United States will reserve its approbation for another and stronger regime, which, it is hoped, will succeed the Huerta Government.

The President today indicated clearly that there would be no further steps in the Mexican matter until after the White House conference scheduled for Friday.

Bloomer Girls Play Ball Too Well; Boy Penetrates Disguise

WASHINGTON, July 21.—When the center fielder of the Chicago Bloomer Girls made a Ty Cobb throw from deep center to the home plate in yesterday's game at Union League Park with the Sparrows Point team, a boy spectator became suspicious of the sex of the bloomer player. He jerked the blond wig off the head of the third baseman and exposed to the eyes of thousands of fans the closely cropped head of a man.

The rest of the "girls" made for the clubhouse, a square away, at top speed. They were besieged there by hundreds of angry spectators, who swept a squad of police aside, demanding their money back.

They were escorted by a policeman to the depot this morning.

The issue that comes up Monday afternoon is a consolidation of the assessing and receiving departments of the tax office.

ADS' BODIES CAUGHT ON FISHLINE

All-Day Search Reveals Fate of Jerry Moles, 17, and Casey Daniels, 15 Years Old.

Inquest into the death of young Jerry Moles and Casey Daniels, who were drowned while fishing in the Chattahoochee River Saturday, began at 10 o'clock Monday morning. Coroner Donohoe said the deaths would be thoroughly investigated.

The bodies were found Sunday afternoon hanging to a trolley by George W. Smith, of No. 527 West North Avenue, after an all-day search instituted at the request of the widow of a young Daniel, who says she had a premonition her son had been drowned.

Mr. Smith, who was a member of a large party of searchers who spent nearly the day trying to locate the boys, rowed out alone to the middle of the stream, where he found a trolley that ran from one end of the bank to the other.

Bodies Caught on Hooks.

Having attempted to draw the line up, Mr. Smith found that it was too heavy to manage, and this led to the discovery of the bodies of the two boys, which were found caught in the hooks about midway in the river.

Immediately following the discovery the county police notified Coroner Donohoe, who went to the scene of the tragedy to make an investigation. The bodies, which showed no bruises of any kind, were taken in charge by Pools.

Among the theories that have been advanced as to the cause of the death of the boys is that while boating one of them fell into the stream, and that in an effort to rescue him the other was drowned.

Neither a Good Swimmer.

Another theory is that in trying to pull the line up, the boys captured their boat in midstream. It is known that neither boy was a good swimmer and that for this reason Mrs. Moles, mother of young Jerry, had protested against the trip.

The boys, who were inseparable companions, left home early Saturday morning, promising their parents that they would be back by nightfall.

Before leaving home young Daniels turned over his week's wages to his mother, allowing himself only a few cents for the trip down to the river.

When young Moles failed to return home Saturday night, Mrs. Daniels, becoming alarmed, telephoned the county police, who immediately began the search. It was not until 10 o'clock Sunday afternoon, however, that her gravest fears were realized.

Boys Chums for Years.

Young Daniels, who is just 17 years old, lived with his mother at No. 71 Highland street, while his companion, Jerry Moles, aged 15, resided with his parents, Mr. and Mrs. N. L. Moles, 41 No. 114 Humboldt street.

The boys had been inseparable companions for years, and are said to have been model youths.

FREQUENTLY STONE IS MAJORITY OF HOUSE

Rep. C. H. Stone, who would miss a meal any time for a chance to vote.

Always Votes on Local Bills—Clerk Depends on Him to Pass Many Laws

Representative C. H. Stone of Tallapoosa, frequently is as many as 105 members of the General Assembly at one time, and sometimes he is as many as 150.

Stone passes all the local bills. When one is up for passage, Clerk John T. Houffeltt glances hastily in the direction of Stone, of Tallapoosa, says "double, quadruple or sextuple, a dozen or so times, as the necessities of the occasion require, and announces, in stentorian tones, "On the passage of the bill, the yeas are 119 and the nays none!"

Stone knows that is him—that is, he knows he is the 119! Of course, he couldn't be the "none." Stone conscientiously votes on all local bills. He would as soon think of forgetting his breakfast as forgetting to vote on a local bill.

Some members think Stone has a spite against himself or is doing penance for something, in that he never fails to hold up his hand when a local measure is hustling through, and Clerk Houffeltt knows good and well that he can depend on Stone to pass 'em along, and that's why he always looks to Stone alone for the yeas needed.

Stone is a fine fellow, however, as any man willing to sit there and pass great gobs and bunches of local bills every day or so must be. He is always in good humor, and has a countenance that looks like Santa Claus' with the whiskers shaved off. He is immensely popular with his colleagues, and is rated safe and sane in all matters.

In his home town, Crawfordville, Stone is a leading citizen, influential and highly esteemed. He comes to the Legislature, as a matter of course whenever he wishes to.

PROTEST OF SOLICITOR DORSEY WINS

Presents Evidence Showing Indictment of Negro Would Hamper Grand Jury Action.

The Grand Jury Monday decided to take no action at this time looking to the indictment of James Conley, accused of Leo M. Frank in the murder of Mary Phagan.

The Grand Jury came to its decision after Solicitor General Dorsey had presented a mass of evidence to show why the indictment of the negro would hamper the prosecution of Frank. After more than an hour's conference the Solicitor issued this statement:

"I am requested by the Grand Jury to say no action will be taken at this time on the James Conley matter, and that that body will not pay any attention whatever to anonymous communications."

It is known that the Grand Jury has been flooded with letters on the Phagan case, many of them urging action on Conley, and many unsigned.

A recent Supreme Court decision was cited by Solicitor Dorsey to the Grand Jury when he demanded "hands off" on the Conley indictment. The decision says of the Solicitor: "It is to be determined whether or not to commence a particular prosecution, or to discontinue one already begun. The Solicitor General draws the bill of indictment and examines the witnesses, not with a view to the interest of any client, but alone to subserve public justice."

"The whole prosecution from the time the case is laid before him is under his direction, supervision and control.—102 Georgia, page 271."

Delay in Trial Rumored.

The important question Monday that a postponement of the trial of Frank was probable. It was reported that the defense would make a move to effect this before the case comes up on June 28.

Both Luther S. Rosser and Reuben Arnold, Frank's counsel, denied this. Mr. Arnold declared he and his colleagues were confident of securing the acquittal of their client and, therefore, were ready to go to trial at any time.

According to Solicitor Dorsey, Judge L. S. Ross, who will try the case, is not particularly anxious that it come up at this time.

Says Judge Favos Delay.

"I was talking with Judge Ross a short time ago," said the Solicitor, "and from his conversation I gathered that he would rather the trial did not come up before fall, though he did not say so outright."

Shortly before noon Jim Conley was taken from his cell at police headquarters and spirited off in an automobile by Detectives Starnes and Campbell, the officers who had had complete charge of the negro for several weeks. Inquiry failed to reveal the destination or purpose of this action. The negro was out of his cell less than an hour and on his return the same strict secrecy was maintained.

Solicitor Dorsey was the only person asked to appear before the jurors. Before they assembled he asserted that he was entirely confident that no indictment would be returned against the negro.

"I do not conceive that these men, when they are in possession of the facts of the case, seriously will consider bringing an indictment for murder against Conley," said the Solicitor.

BULGARS SHORN OF SPOILS OF BALKAN WAR

Adrianople Retaken by Moslems, Who Push on to Regain All Lost Territory. Special Cable to The Atlanta Georgian. SOFIA, July 21.—Suffering defeat after defeat at the hands of its former allies and friends, the crowning humiliation coming at the hands of the Turks who captured Adrianople without opposition, the warlike spirit of the Bulgarians has been lamed.

From present indications it is likely that Bulgaria will be shorn of the territory which came to it as the result of its victories over the Turks in the recent war.

Apparently Bulgaria's recent crushing reverses are largely due to disensions among its commanders in the field and the lack of confidence on the part of the Government in the heads of its army.

SPEAKER TO DEMAND REAL TAX REFORM

GRAND JURY MEETS TO CONSIDER CONLEY CASE

To Investigate Drowning of Boys

BURWELL TO END CLASH IN HOUSE

Says Ways and Means Committee Must Get Together or He Will Take Floor.

Speaker William H. Burwell has taken his stand in the adjustment of the differences existing in the Ways and Means Committee of the House with respect to a tax equalization measure, and has read the riot act to that honorable body.

The Speaker, who, although he is not so much invested in any way of his representative capacity, will take the floor, if necessary, and fight for a tax equalization measure that means something, and that will not be a mere compromise.

The Speaker takes the position that neither extreme of opinion in the Ways and Means Committee, or anywhere else in the Legislature, should be permitted to control or block legislation in the way of thinking.

He, therefore, when the Ways and Means Committee seemed to be hopelessly split, called upon the heads of the two factions therein and told them very plainly that they must get together, or he might be compelled against his will, to undertake to find a means of getting them together.

The Speaker insisted that it was not so much a question of getting this or that tax equalization measure passed, but of passing such a measure as the people desire or as would be effective.

In other words, with a split in the committee already in evidence and split on the floor of the House looming as a grave probability, the Speaker has intervened, both as the Speaker and as the Representative from Hancock County, to bring order out of chaos, if possible, and, in the interest of economizing time, to hasten along the matter of tax reform.

The Speaker is an earnest advocate of prompt payment for the school teachers, and he also is heartily in favor of revising the tax laws thoroughly and effectively. He, perhaps, personally inclines to a more drastic and effective tax equalization measure than now seems possible to secure from the House.

His attitude is, however, that even if a bad bill is better than no bill, and that the interests of the State demand a getting together of the warring factions inside the Ways and Means Committee, as paving the way for an approximately satisfactory compromise measure on the floor.

Speaker's Stand Effective. The direct result of the Speaker's interference was a re-arranging of the Ways and Means Committee, and the recommendation of a measure for a State Board of Tax Equalization, of limited powers and director.

The Speaker is determined that the House should not permit tax reform to be a failure, and he is willing to accept the responsibility, if necessary, of a measure which should be passed.

LADS' BODIES CAUGHT ON FISHLINE

All-Day Search Reveals Fate of Jerry Moles, 17, and Casey Daniels, 15 Years Old.

Inquest into the death of young Jerry Moles and Casey Daniels, who were drowned while fishing in the Chattahoochee River Saturday, began at Pool's Undertaking parlors at 9 o'clock Monday morning.

Mr. Smith, who was a member of a large party of searchers who spent nearly the day trying to locate the boys, rowed out alone to the middle of the stream, where he found a trout line that ran from one end of the bank to the other.

Having attempted to draw the line up, Mr. Smith found that it was too heavy to manage, and so he left the discovery of the bodies of the two boys, which were found caught in the hooks about midway in the river.

Among the theories that it is trying to land, a fish the lads captured there was a day, who, with his companions and two other men, is charged with inciting a riot at Howell, Ga., and immediately instigated a search for him through the police.

SERUM CURE FOR INFLUENZA IS PERFECTED

PHILADELPHIA, July 21.—Claims to the discovery of a remarkable vaccine for the cure and prevention of the troublesome "cold" known as influenza, are being made by physicians of a medical laboratory near Philadelphia, under the direction of Dr. Arthur Parker Mitchell.

The vaccine is composed of the dead organisms found in the blood of a person afflicted with influenza.

Two years ago Dr. R. J. Allen, a London physician, conceived the theory that if "cold" germs were inoculated into the blood of a person not so afflicted, a cure was bound to result.

His theory would hold good as applied to the prevention of the ailment as well.

The theory was taken up in this country about a year ago. Dr. C. P. Brown, Dr. Webb of Swarthmore, and Dr. Nathan Ward, law dean, started to experiment with the vaccine and finally declared they had found that of a person afflicted with influenza had been successful.

Press Table Suddenly Becomes Attractive to Lawmakers and Sessions Lose Monotony.

Members of the House are finding excuses to hang around the press table; the young men of the press have found such expressions as "ravenous," "wavy hair," and "suffragist" mysteriously creeping into their copy.

The reason well, it's the press table's nomination for the Speaker that has become a regular member of the House newspaper delegation.

"Miss Johnson? Just strolled in, coming with my friend, Mrs. Margaret McWhorter, who has been accorded the privilege of the press table this session. Her visit created a demand for her continuous presence."

"The preachers of to-day must know in what their people are interested. They must find out what catches, touches and draws them, and knowing these things, must offer the religion of Christ as related to their needs. I like the freshness of the new thought, and I find something in it that I had nowhere else."

"I think it is great to be here," she said. "You know I am a suffragist, and I like to see the Legislature at work, because they act so funny. Down anybody in the world that they are talking about."

PROTEST OF SOLICITOR WILL BE HEEDLED

Foreman Declares Inquisitorial Body Will Not Ride "Rough-shod" Over Dorsey.

With Solicitor Dorsey reaffirming his certainty that Jim Conley will not be indicted before the trial of Leo M. Frank and declaring that he will fight with all his vigor any movement in that direction, the Grand Jury members gathered in the Thruway Building Monday morning in response to the call of Foreman Beatie to decide whether they will reopen their investigation of the Phagan murder mystery.

A strong probability that no action would be taken during the day arose when it became known that there were only eighteen of the grand jurors in the city, a bare quorum. In the event that all of the eighteen did not appear, there still was the opportunity to go out and summon late-comers at random to serve on the Grand Jury, but no statement was made as to whether this legal practice would be resorted to.

Foreman Beatie announced that no witness had been summoned as yet, giving confirmation to the report that the meeting was called only for the purpose of passing on the petition requesting the Grand Jury to reopen the murder investigation, and not for the purpose of proceeding at once to the definite consideration of Jim Conley's indictment.

Solicitor Dorsey was the only person asked to appear before the jurors. Before they assembled he asserted that he was entirely confident that no indictment would be returned against the negro.

"I can not conceive that these men, who they are in possession of the facts of the case, seriously will consider bringing an indictment for murder against Conley," said the Solicitor.

Foreman Beatie indicated that if a quorum were present and a decision were reached to go into the connection of Conley with the crime a number of witnesses would be served at once with subpoenas and that an opportunity would be given for the presentation of all the important evidence against the negro.

He said, however, that the report that the meeting Monday was called for the definite and prearranged purpose of indicting Conley was utterly false.

Net to Ignore Dorsey. "We propose only to discuss the matter informally and to have the Solicitor lay before us his reasons for desisting from action," he said. "We have no desire to block the Solicitor in his prosecution of the case or to defeat the ends of justice in any manner. If we come to the conclusion that the investigation should be made, we have a list of witnesses we will ask to have called."

William H. Minney, author of the sensational affidavit which accused Conley of confessing to the killing of a girl on the afternoon that Mary Phagan was murdered, has returned to Atlanta, it was reported Monday, and is preparing to go back to the Grand Jury to repeat his story.

GRAND JURY NOT TO HASTEN TO INDICT NEGRO

Foreman Declares Wishes of Solicitor Will Not Be Overridden Without Consideration.

Continued From Page 1.

Reuben R. Arnold, of counsel for Frank, said Monday that no move would be made by the defense for a continuance of the case, which is set for trial a week from today. He asserted that the lawyers for Frank were prepared to go ahead with the trial at once.

PASTOR CHARGES LIQUOR BOYCOTT

Dr. Ainsworth Charges Macon Saloon Interests With Conspiracy.

MACON, July 21.—Dr. W. N. Ainsworth charged from the pulpit at the Auburn Street Methodist Church last night that the saloon men and their friends have organized a boycott against the fifty members of the Law Enforcement League who last week signed a petition for an injunction against the saloons and social clubs.

A devout member and faithful official of this church lost his position last night because he signed the petition, declared Dr. Ainsworth, who organized the campaign against the liquor interest. He further declared that the boycott was planned to extend to men in business, as well as to procure the discharge of salaried men who participated in the movement.

At the same time that this sermon was preached the Rev. T. F. Calhoun, at the Second Street Baptist church declared that "Macon is rotten to the core, being the widest open city in Georgia." He attacked the city administration for the alleged condition.

GROUND SEES ATTACK ON STREET

Peachtree Throng Sees Woman
Tussle With Rival--Principals
Make Escape.

Two women and a man who was said to be the husband of one engaged in a struggle before hundreds of pedestrians on Peachtree street in front of Parks-Chambers-Hardwick Company's store at 2 o'clock Saturday afternoon and fled before their names or the cause of the trouble could be discovered.

"Dr. Smith," shouted the second woman, who rushed up to the man and the woman in the store.

"Mrs. McEae again!" The woman hurled a bottle of brownish liquid at her enemy. They clinched as they tumbled toward the door, and those around said carbolic acid was used in the encounter.

Woman Makes Escape.
As a crowd rushed up the woman called Mrs. McEae hurried into the store and caught the elevator.

"Dr. Smith" and the woman who had made the attack hurried toward the corner.

A policeman who was on the corner had rushed up. He said he talked with the woman called Mrs. McEae. She said her opponent was the divorced wife of Dr. Smith and that they had been separated for five years.

No Arrests Made.
The policeman said he noticed a little blood on the woman's arm. As all participants hurried away and no one who was present desired a prosecution the policeman said no would make an arrest.

Charles in the crowd said they did not recognize any of the principals with the possible exception of the man. They were not sure about him, but thought he lived in a downtown hotel.

All they knew of the affair was what they saw and the exclamations of the woman said to be the divorced wife of the man.

The man they said seemed so bewildered by the fury of the woman who had hurled the bottle that his only thought seemed to be to get away.

Walton was rushed to the Grady Hospital in a semi-conscious state.

Vaughn, an employee of the Boston Trading Company and a roomer at the Klapper home, is held on suspicion of being the incendiary, took a new and unexpected turn Saturday afternoon.

Mrs. Klapper, when questioned by Detective Coker, declared that Vaughn tried to poison her one day last week.

"I was sick," Mrs. Klapper said, "and asked Vaughn to bring me a glass of water. He was very nervous when he brought it, and I became suspicious that something was wrong. I looked into the glass, and lying on the bottom were some white powder. I was sure they were poison, and refused to drink the water. Vaughn offered to bring me another glass, but I refused to have it."

Cells Beader Jealous.
"I am sure Vaughn tried to poison me. He is insanely jealous of me, and has several times threatened to hurt me and to destroy my property."

Vaughn was taken from his cell and grilled by Detective Coker and Chief of Detectives Lanford for more than an hour Saturday morning in the hope of getting him to admit some connection with the burning of the Klapper home.

In addition to the police investigation, State Fire Marshal W. R. Joyner announced Saturday morning that he has started a probe of the fire which destroyed the roof of Mrs. Klapper's home, causing damage of \$500. According to the firemen, the blaze started in a closet in Vaughn's room on the second floor.

Vaughn was charged with trying to burn the building by Mrs. Klapper. According to the story she told the police, she quarreled with Vaughn before he went to work this morning, and Vaughn made threats and then went into his room.

A few minutes later, she says, he hurried downstairs and went downtown. Half an hour later he called her on the telephone and asked if everything was all right, she says, and one of the other boarders who answered the phone told him the house was on fire. Vaughn immediately left his office and rushed to the scene of the fire. Mrs. Klapper was standing near the door writing her hands, when Vaughn appeared and started into the house. She intercepted him.

"You've burned my house!" she screamed. "I have you arrested."

Mrs. Klapper began struggling with Vaughn, and Call Officer Vaton came up. At the request of the woman, who declared she would prefer a formal charge against him, Vaughn was arrested and taken to police headquarters.

DICT SPLITS BOARD AND MAYOR

Both Swearingin and Jacksonville Trustees Want Place, but Can't Agree on Means.

JACKSONVILLE, Fla., July 20.—The fight between the Board of Bond Trustees and Mayor Van C. Swearingin seems to be drawing to a close in one particular and widening in another. Both sides have agreed that the matter must be settled, but there is a division of opinion as to the manner in which it is to be brought about.

The Mayor wants to take the question to the courts and the Bond Trustees want to name a board of arbitrators. The point to be decided in this instance will be, where is the dividing line between the two different branches of the city government when it comes to authority over the police.

At a conference between the Mayor and four of the members of the Board of Bond Trustees the matter of suspending Chief Roach was not mentioned. Mayor Swearingin declares he considers the chief suspended and believes he would be sustained by the law and the courts.

City Attorney E. H. Odum on Saturday gave the Mayor an opinion in the case. In which he declared that the Mayor had the right to suspend the chief or of the department. The Mayor has not as yet filed his charges against the new chief and admitted today that he did not know when he would do so.

SEATTLE, Wash., July 20.—Sailors and officers from the reserve fleet who went ashore yesterday and raided Socialist and Industrial Workers of the World headquarters, doing \$5,000 damage, are today under special guard on the Virginia, the flagship of Rear Admiral Reynolds.

Many Industrial Workers are in jail having sought refuge there last night from personal violence which they feared at the hands of the officers and 100 militiamen and citizens who assisted them.

The city of Seattle has ordered an investigation, and naval authorities have requested a report on the conduct of the sailors.

Secretary of the Navy Joseph Daniels, whose address incited the sailors, said his references to the indisparability of the red flag in America were not intended for local application.

Attorneys for Defense Want Verdict Drawn From Grand Jury Box.

Solicitor Dorsey expressed assurance Saturday afternoon that the Grand Jury never would indict Jim Conley before the trial of Leo M. Frank.

At the same time it became known that attorneys for the defense had made the usual move of asking that the jurors to pass on the guilt or innocence of Frank be drawn from the grand jury box instead of the petit jury box.

"There is no more chance that Jim Conley will be indicted," said the Solicitor, "than that the judge will accede to the remarkable request of the defense for a jury picked from the Grand Jury box."

Has Filed a Protest.
The Solicitor already has filed a protest against the proposed procedure which the defense is said to have suggested.

"It is treason in the extreme," said the Solicitor. "It never has been done before to my knowledge. I am not informed as to its legality. That matter I have not looked up, but I have protested against it and will fight any such move."

The Solicitor's assurance that no indictment would be brought against Conley was taken to mean that he was in possession of evidence which he believed would be sufficient effectively to deter the jurors from charging the negro with the crime.

"Can't Predict 'No Bill'."
"I can not believe that any Grand Jury, with the knowledge of the facts before it, could bring an indictment against Conley," he said.

Asked if he thought that a "no bill" on the charge of murder would be brought out against the negro, the Solicitor refused to make further comment.

He intimated, however, that he would be present at the hearing and that he would fight every effort to lay the formal charge of murder against Conley.

Should the Solicitor be driven back from this position by the Grand Jury again disregarding his wishes and taking up the investigation, he will be forced to take refuge in the last ditch and make his fight against the indictment of Conley.

With all the weight of evidence which has piled up against the negro, it is regarded as beyond the realm of possibility that he could persuade the jurors to return a "no bill" against Conley on the charge of murder. Dorsey's one remaining hope at this time would be, it is said, to induce the Grand Jury to veto definite action until Frank's case is heard.

It will be in position to say whether an indictment shall be drawn against Conley as an accessory after the fact, to which he has confessed, or as the actual murderer.

Dorsey Refuses to Comply.
The Solicitor's attitude in the matter plainly was shown by his statement when asked by his state's attorney what he would do if the grand jury returned a "no bill" against Conley.

MEXICO STEALS UNITED STATES CIPHER CODE

State Secrets in Envoy Wilson's Messages to Washington Bared. Powers Recall Ministers.

WASHINGTON, July 20.—A copy of the cipher code of the State Department, containing information worth thousands of dollars to foreign governments, has fallen into the hands of the Mexican Administration.

It is being used to further the ends of the Huerta regime. It was ascertained here today.

For some months State Department officials have suspected that the Government of Mexico City has been tampered with. It is declared, but that was not considered important, as all the dispatches were in code, and, therefore, theoretically illegible.

About three weeks ago, however, Government officials here had their first inkling that the Mexicans were obtaining the gist of the dispatches passing between the State Department and Ambassador Wilson.

At first it was supposed that an employee of the department in this city was to blame, but investigation proved this to be impossible. The telegram was read only by three persons in Washington—the official interpreter, Robert Howe, confidential secretary to Secretary of State Bryan, and the Secretary of State himself.

All of these were above suspicion. The agents of the department unknown "secret service" of the State Department then were set to work. In the first evidence was obtained that the Government dispatches had been read by the wife in Mexico and decoded. The information contained therein being transmitted to President Huerta and his Cabinet.

The information was, at times, highly uncomplimentary to the present Government in Mexico, the matter at once took on an international aspect, and the efforts of the department's agents to discover the "leak" were redoubled, but in vain.

Every effort will be made to locate the copy of the State Department code and destroy it. It would prove of immense value if it fell into the hands of a hostile nation. It would be impossible to refill another code and to distribute it all over the world in less than six months.

Italy Orders Minister Home From Mexico City. MEXICO CITY, July 20.—It was learned today that the Italian Minister to Mexico secretly left his post last night for Vera Cruz. Significance is attached to his departure, as it is believed he was urgently ordered to Rome.

This action is doubly impressive on account of the fact that Francis Stronge, the British Minister, has been succeeded by another man who leaves here for London in a few days. There is because of the attitude of international diplomacy against the Huerta regime, and the condition of growing anarchy here.

Ambassador Thinks He Will Lose Post. MEXICO CITY, July 20.—Despite the statement of the United States Ambassador Wilson that he expects to return here in his official capacity following his conference at Washington, it was learned today that the Ambassador secretly believes his days in officialdom are numbered.

Before his departure he ordered the removal of a costly silver service and other valuables from the United States Embassy in Mexico City. The family of some of the American attaches of the embassy have been sent to Vera Cruz for safety.

Interest was aroused by the announcement that the Minister of Interior is working up a plan to concede a big part of the State of Morelos to 50,000 Japanese colonists.

NEW APARTMENT HOUSE PROJECTS ON SIDEWALK

City Could Force Alteration of Ponce DeLeon's Front—Builders May Have to Pay \$42,000.

An innocent little complaint made to Building Inspector Hays has brought about a complicated situation in the construction of the 400-900 Ponce DeLeon Apartments at the southeast corner of Peachtree street and Ponce DeLeon avenue, and just west of the corner near the city.

It has been found that the building has encroached four inches on the sidewalk space belonging to the city. The city has the right to demand that the ten-story building be made to conform to the line. This would mean the ground to be destroyed, the sidewalk and the building altered and expenses.

A probable solution lies in the fact that the city has the right to sell or lease the sidewalk. The city is now considering this matter.

Conciliatory To Be Petitioned. The city is now considering this matter. The city is now considering this matter.

Mr. Howell expressed the belief that the city would let the alteration stand, and is expected to have a resolution on this subject introduced soon.

COLONS INSPECT \$100,000,000 IN STATE COLLEGE GOODS AWAIT ONE TARIFF

Legislators Mix Business and Pleasure—Governor and Mrs. Slaton Guest of Honor.

AGUSTA, July 20.—The special train bearing Governor and Mrs. John M. Slaton, President Randolph Anderson of the Senate, Speaker W. H. Burwell of the House, and a majority of the members of the General Assembly arrived in Augusta at 10 o'clock Saturday afternoon.

The special made its run on schedule time. As soon as it reached Augusta it was backed into the yards of the medical college and those on board detained. The trip from Atlanta was not an uneventful one, although the weather was extremely hot.

Meeting the train was a large number of Augustans, including Mayor L. C. Haynie and members of the City Board of the board of trustees of the medical college, Dr. W. W. Daugherty, dean of the college, and members of the faculty.

The first visit of the Legislature to Augusta in more than a hundred years is no ordinary event, and the interest of the people in the medical college and in the lawmakers of Georgia was evidenced by the great crowd on hand.

The members showed plainly their surprise and pleasure at what they saw. The former Urban Asylum building has been transformed into one of the most commodious and best equipped medical schools in the South. The equipment cost \$400,000. This was raised in August by popular subscription. Judge Callaway, Dr. Daugherty and others showed the visitors over the building and grounds and the new industrial plants which are being erected.

After the inspection, lasting about an hour, the visitors were taken to the hotel. The equipment cost \$400,000. This was raised in August by popular subscription. Judge Callaway, Dr. Daugherty and others showed the visitors over the building and grounds and the new industrial plants which are being erected.

FIST FIGHT PUTS 'PEP' IN COURT'S PROCEEDINGS

Beavers Separates Auto Man and Druggist After Policeman Gets Bump on Head.

A "near-fight" between W. A. Graham, a druggist of No. 331 Ponce DeLeon avenue, and B. W. Torrence, an automobile dealer of No. 259 Ponce DeLeon avenue, enticed the proceedings of Judge Bryant's court Saturday morning.

The fight came during the trial of Graham, against whom Torrence had made two cases. In one Graham was charged with allowing a vicious dog to run at large; in the other he was charged with keeping an obstinate stable. Graham, while making his statement, declared that Torrence's small son had sat for some hours Friday on the Graham fence.

"You are a liar!" emphatically declared Torrence. The Graham hit at Torrence and Torrence hit at Graham. Torrence missed, but Graham's hit raised a cloud of dust. Police Officer O. R. Jones, who was standing in front of the court, saw the blows could be struck (Chief Beavers separated the combatants).

Judge Bryant dismissed the dog case, but fined Graham \$7.75 on the charge of maintaining a nuisance. He fined Torrence \$7.75 for contempt of court in calling Graham a liar.
