CRACKERS TRIM TURTLES, 5 TO 4

2,000 in Panic on Burning Liner

... FIRE SWEEPERS OPERATOR DOCKS ... One Dead, Many Injured in Flames on World's Greatest Liner at Hoboken.

NEW YORK, Aug. 28.—The Hamburg-American liner Imperator, the biggest passenger-carrying ship afloat, which arrived in port last night with 3,100 passengers on board, was swept by fire to ashes at her pier in Hoboken, N. J.

Solicitor General Herbert C. Brown, who was in the city to close the fire doors and confine the flames to the fifth deck, or provision room, it was reported that two men had been burned to death, and a long time they were missing, but subsequently were found.

Many of the crew were injured fighting the flames and battling with the 2,000 seagulls, many of whom were sent-stricken as the fire raged. The damage to the ship is estimated at \$100,000.

First Cabin Deck Saved.

By the terrific work, the flames were kept from spreading to the cabin and the superstructure, and within four hours the flames were under control. They had licked their way into the coal bunkers, however, and the flames settled themselves down to carry on a patient but dangerous, however, to the balance of the ship was entirely over the Captain's head.

If the fire had occurred at sea under the same conditions, the tragedy probably would have been a duplicate of the Titanic disaster.

The Imperator got her berth at 7:15 o'clock last night with the largest passenger record in the history of trans-Atlantic travel. Among her 3,100 first-class passengers were George W. Williams, Billie Corey, Samuel C. C. Meyer, vice president of the Hamburg-American line, and Allison A. Mour.

Flames Spread Quickly.

The fire was discovered in the provision room on the ship about 5 o'clock. Fed by the oil and fat of the foodstuffs, it spread rapidly. The crew was assisted by the trained fire fighters from Hoboken, Jersey City and New York.

The provision room is in the after part of the vessel. It is the only deck flames at that way that it had been communicated to the second cabin before the alarm became a general. Steerage passengers hearing the racking of the walls had stayed, but a cry of fright which echoed over the entire ship.

Smoke rolled upward from the liner, giving the impression as though that the Hamburg-American pier was a volcano. Police reserves were rushed to the scene.

Walter Huser, chief of the New York fire department, was one of the first to reach the scene. He personally took command and directed the fight against the flames. The water used for this purpose was pumped from the thousands of gallons of water were used in the effort to contain the fire.

When the work of the second deck had been completed, the fire was extinguished. The water was turned on to the second deck and several high-pressure jets were added to the water.

Acts of heroism mingled with acts of cowardice in the fight against the fire. The hero of the disaster was a young man who volunteered to go into the fire to rescue a woman who was in the hands of a man who was living up to her motto, "No man is an island."

MEXICO TO MOBILIZE ENTIRE ARMY

Foreign Colonies in Capital Petition Home Government to Recognize Present Regime.

MEXICO CITY, Aug. 28.—Mexico this afternoon made a move to mobilize all her troops. A circular issued to the governors of all the States notified them "as the greater part of the republic has been pacified, the federal army will be withdrawn and will now guard its fundamental mission to fulfill the sovereignty of the country and the integrity of the national territory."

Banners throughout the country will furnish guards for their own and their neighbors' properties, so that the federal troops may exercise their activities elsewhere.

The general impression from the circular is that Mexico is preparing to end, with speciality with the publication of the message of President Wilson and Secretary Bryan calling upon all Americans to leave Mexico immediately.

The news that large bodies of American troops will be mobilized along the frontier to enforce the neutrality laws and that warships will be sent to Mexican waters is viewed with alarm by the Mexicans.

Despite the advice to leave Mexico forthwith, four American news appear to be especially with the interest reasons from the home Government.

The British, German, French, Australian and Spanish colonies here have passed resolutions indorsing recognition of the Huerta Government and asking their governments to urge the United States to do likewise. The resolutions do not criticize President Wilson, but are made in the interest of peace and that belief by this means it will be assured.

Huerta Threatens Revolt.

SANTA CRUZ, MEXICO, Aug. 28.—It was learned on the highest authority that if President Huerta is forced to resign he will have a fresh revolt and will place himself at the head of all the regular soldiers who will mutiny.

WASHINGTON, Aug. 28.—News from the capital were strong almost to breaking point today as the morning passed with absolutely no rift in the Mexican war cloud.

At the White House it was announced that at 1 o'clock this morning Huerta had received word from the United States that the United States had no objection to his resignation, but that the United States would not recognize him as a candidate for the presidency at any time between now and October and that Mexico himself might as a candidate.

It is pointed out in administration circles, however, that General Huerta may resign the presidency at any time between now and October and that Mexico himself might as a candidate.

It is pointed out that Huerta has continued the message to mean that if Huerta admits that he is a candidate it is deemed from being a candidate at the polls next October.

LATEST NEWS

BOSTON, Aug. 28.—Walter Johnson's game-winning streak of 15 straight victories was broken in a sensational manner by the Red Sox this afternoon by a 5 to 1 score in eleven innings. Except for Yerkes' single the second inning not a Boston player saw first base until the eighth. The Sox with one out, Yerkes singled and Wagner reached second. The ball got down him. Yerkes was run down on the base. Yerkes was run down on the base. Yerkes was run down on the base.

REPLY MADE TO FRANK'S ATTACK

Solicitor Cites Prisoner's Statement on Stand, "Now is the Time, This is the Place."

Solicitor Dorsey was as usually engaged on the Frank case Thursday as he was any day before Leo Frank was convicted of the murder of Mary Phagan. If the factory superintendent finally succeeds in avoiding the penalty fixed it will not be because the Solicitor has not fought to the utmost of his strength to put the rope around Frank's neck.

DORSEY FIRM IN BELIEF FRANK WILL HANG

Solicitor Prepares to Battle Appeal of Doomed Man for a New Trial.

Continued from Page 1.

It is said to be damaging to the representative.

If the case is reopened by a new trial, the Solicitor proposes to have the strands of evidence even more strongly woven than they were at the first trial. The investigation is continuing with almost the same vigor that it did in the early days of the mystery, except that only three detectives are working on the case now. They are Hiss Hower, J. N. Strain and Patrick Campbell.

Frank Aids Counsel.

Whenever a report comes to the Solicitor's office of any new evidence, it is investigated by the detectives with the same care as it would have received before Frank was condemned to death. It is regarded as likely that they will have a number of new witnesses if another trial is granted him convicted man.

Frank appears as cheerful and optimistic as he was before the twenty jurors voted him to hang, in assisting his attorneys in making out what he considers the weak points of Attorney Dorsey's case against him. With a mass of alibis and court transcripts before him, he is holding out the most important testimony of the trial and noting the various phases of the investigation as it progressed. Incidentally, he is preparing a statement in reply to the closing argument of the Solicitor which he has described as "a full of holes as a flye."

The prisoner is being made comfortable at the Tower during the period that he is awaiting final disposition of his case. A new bed and some other furnishings were brought over, and Frank's quarters were thoroughly cleaned and renovated.

The prisoner's wife and his mother visited him during the afternoon, his wife remaining until midnight. His mother will return to Brooklyn within a short time, but probably will be back in Atlanta when the arguments for trial are made.

Solicitor Dorsey has no doubt that an indictment against "Conley as accessory after the fact will be returned by the next Grand Jury. The indictment will be the first thing that will be brought to the attention of the Grand Jury who meets the first week in November.

Frank Works on Statement.

Frank continued Thursday to work on the statement which he intends as an answer to Solicitor Dorsey's closing speech before the jury. He also received many visitors, among them his mother, Mrs. Rex Frank, who will leave shortly for her home in Brooklyn.

Mrs. Frank's bearing showed no sign of the grief which the death sentence imposed upon her son must have had. She was dressed in a white and black suit, with the broad-brimmed black hat which was familiar to courtroom attendants during the trial.

The prisoner's father-in-law, Emil Belg, joined him at breakfast and remained for two hours. Frank, who did not visit her husband during the morning.

Friends regarded the convicted superintendent as being in good spirits and very much engaged in the statement upon which he is working.

Discharges Jury Which Tried to Indict Conley.

The Grand Jury which took up the question of indicting Jim Conley, accused of Leo Frank, over the protest of Solicitor Dorsey, will be discharged Friday by Judge George L. Bell, of the Superior Court. A new Grand Jury will be sworn in next Tuesday.

It is significant that the Grand Jury which sought to indict Jim Conley, will not have the opportunity to indict him as an acknowledged accessory after the fact to the murder of Mary Phagan.

Judge Bell is expected to return Thursday, while his colleagues, Judges Pendleton and Judge Ellis, will return in time for the new term which begins next Tuesday.

Sheriff Denies Frank Is Favored Prisoner.

Following vigorously that the door of Leo Frank's cell were being closed and vanished. Sheriff Mangum Thursday morning declared he was treating Frank just like any other prisoner.

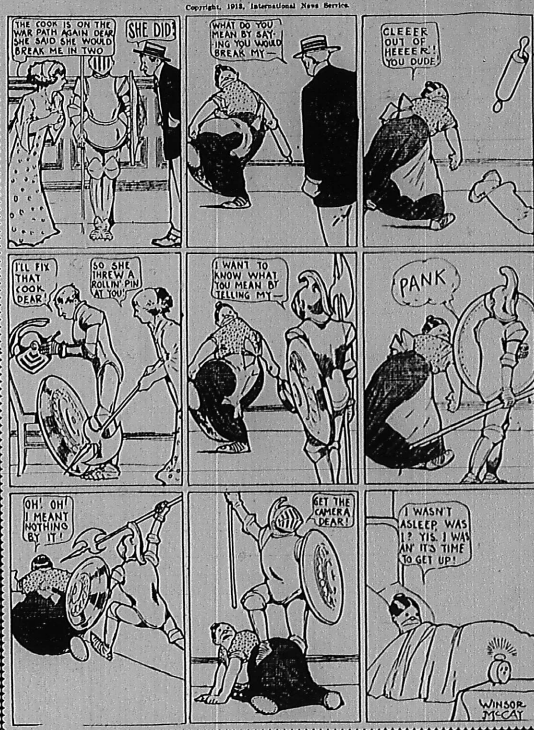

"It is folly to talk about Frank's being being 'favored' said the Sheriff, 'when the door of the cell is made of concrete."

"I am treating Frank just like any other prisoner. Certainly no one can blame me for allowing him to eat food that is sent to him by his relatives and friends—and that is the only difference in treatment."

MEXICAN MOBILIZE WHOLE ARMY 2,000 in Panic on Great Burning Liner

OPEN MOVE FOR ARMY MADE BY HUERTA

LATEST NEWS
BOSTON, Aug. 28.—Walter Johnson's game-winning streak of eight victories was broken in a sensational manner by the Red Sox this afternoon by a 1 to 1 score in eleven innings. Except for Yast's third in the second inning not a Boston player saw first base until the eleventh. Then with one down, Yast singled and took third when Milan led the ball go through him. Yast was run down on Wagner's infield rap and Wagner reached second. With two strikes on Carrigan, he drove the ball to center and Wagner scored the only run of the game. Ray Collins pitched a grand game.

Mercury Mounts to 92 After Cool Spell

After two weeks of moderate summer weather, Atlanta sweltered Thursday under regular midsummer heat. The temperature was down as low as 69 during Wednesday night but after sunrise the mercury rose rapidly and at 1 o'clock stood at 84 at the weather bureau, while downtown thermometers registered 92. The heat was more noticeable by the absence of the usual breeze. There has been only one hotter day this month, the temperature reaching 93 at the weather station on August 11. The forecast is fair and cool weather Thursday night and Friday.

REPLY MADE TO FRANK'S ATTACK

Solicitor Cites Prisoner's Statement on Stand, "Now is the Time, This is the Place."

Solicitor Dorsey was a badly annoyed on the Frank case Thursday as he was any day before Leo Frank was reported the murder of Mary Phagan. If the factory superintendent finally succeeds in avoiding the penalty dead it will not be because the Solicitor has not fought to the utmost of his strength to put the rope around Frank's neck.

Frank's reply to the Solicitor's attack was made in a statement made Thursday morning summed up his opinion of Leo Frank's latest alleged statement concerning the trial and the Solicitor's speech.

DORSEY FIRM IN BELIEF FRANK WILL LIVE

Solicitor Prepares to Battle Appeal of Doomed Man for a New Trial.

Continued from Page 1. was said to be damaging to the superintendent. If the case is reopened by a new trial, the solicitor proposes to have the strands of evidence more strongly woven than they were at the first trial. The investigation is continuing with almost the same vigor that it did in the early days of the mystery, except that only three detectives are working on the case now. They are Bass Bower, J. N. Stearns and Patrick Campbell. Frank appears as cheerful and optimistic as he was before the twelve jurors voted him to hang, in assisting his attorney in picking out the weak points of the case against him. With a mass of clippings and court transcripts before him, he is boiling down the most important testimony of the trial and noting the various phases of the investigation as it progressed. Incidentally, he is preparing a statement in reply to the closing argument of the solicitor which has been described as "a full of holes as a sieve."

The prisoner is being made comfortable at the Tower during the period that he is awaiting final disposition of his case. A new bed and some other furniture were brought there, and Frank's quarters were thoroughly cleaned and renovated. The prisoner's wife and his mother visited him during the afternoon, his wife remaining until midnight. His mother will return to Brooklyn this week. The prisoner's wife will be back in Atlanta when the arguments for a new trial are made October 4. Solicitor Dorsey has announced an indictment against Conley as accessory after the fact will be returned by the grand jury when it meets the first week in September.

Frank Works on Statement. Frank continued Thursday to work on the statement which he intends as an answer to Solicitor Dorsey's closing speech before the jury. He also received many visitors, among them his mother, Mrs. Frank, who will leave shortly for her home in Brooklyn.

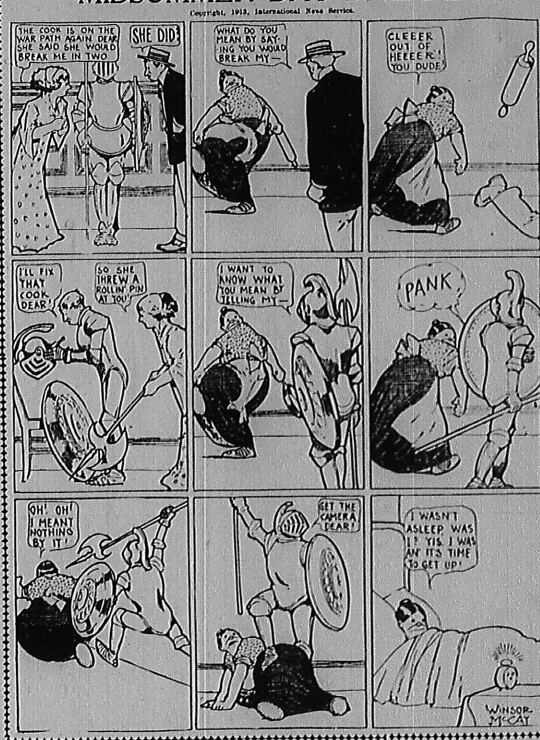

Discharges Jury Which Tried to Indict Conley. The grand jury which took up the question of indicting Jim Conley, secretary of Leo Frank, over the protest of Solicitor Dorsey, will be discharged Friday by Judge George L. Bell, of the Superior Court. A new grand jury will be sworn in next Tuesday. It is significant that the grand jury which comes to indict Jim Conley will not have the opportunity to indict him as an acknowledged accessory after the fact to the murder of Mrs. Phagan.

Judge Bell is expected to return Thursday while his colleagues, Judges Poppleton and Judge Ellis, will return to the top of the term which begins next Monday.

Sheriff Denies Frank Is Favored Prisoner. The floors of Leo Frank's cell were being oiled and varnished. Sheriff Nungum Thursday morning declared that he was treating Frank just like any other prisoner. Certainly no one can blame me for allowing him to eat what is sent to him by his relatives and friends—and that is the only difference in treatment."

MEXICO ORDERS Crackers to Lead Turtles in Last Game of Series

OPPOSE MOVE FOR WAR MADE BY HUERTAS

Foreign Colonies in Capital Petition Home Government to Recognize Present Regime.

MEXICO CITY, Aug. 28.—Mexico this afternoon made a move to mobilize all her troops. A circular issued to the Governors of all the States notified them as the greater part of the republic has been pacified. The federal army will be withdrawn and will now fulfill its fundamental mission to guard the sovereignty of the country and the integrity of the national territory. Guards for their own and their neighbor's properties so that the federal troops may exercise their activities otherwise.

The general impression from the circular is that Mexico is preparing for war, especially with the publication of the message of President Wilson and Secretary Bryan calling upon all American to leave Mexico immediately.

The news that large bodies of American troops will be mobilized along the frontier to enforce the neutrality laws and that warships will be sent to Mexican waters is viewed with alarm by foreigners.

Despite the advice to leave Mexico forthwith, few Americans here appear to heed it, and look for more explicit reasons from the home government.

The British, German, French and Italian and Spanish colonies here have petitioned the United States to urge the United States to likewise. The petitioners do not criticize President Wilson, but are made in the interest of peace and that belief by this means it will be assured.

MEXICAN THREATS Revolt. SANTA CRUZ, MEXICO, Aug. 28.—It was learned on the highest authority today that if President Huerta is forced to resign at the behest of the United States he will head a fresh revolution and will place himself at the head of all the regular soldiers who will rally.

HEROIC OFFICER DEAD, MANY HURT IN BATTLE WITH FIRE AND CRAZED PASSENGERS

NEW YORK, Aug. 28.—The Home-Bureau liner Imperator, the biggest passenger-carrying ship afloat, which arrived in port last night with 3,100 passengers on board, was swept by fire today as she lay at her berth at Hoboken.

Second Officer Herman Gebrach lost his life while trying to close the fire doors and confine the flames to the fifth deck, or provision room. It was reported that two women had been burned to death, and for a long time they were missing, but subsequently were found.

Many of the crew were injured fighting the flames and battling with the 2,000 strange passengers who were packed-crammed in the fire ward.

The Imperator left her berth at 7 1/2 o'clock last night with the biggest passenger record in the history of the Atlantic coast—a cargo of 700 strange passengers were on board.

DORSEY FIRM IN RELIEF FRANK WILL HANG

Solicitor Prepares to Battle Appeal of Doomed Man for a New Trial.

Continued from Page 1.

was said to be damaging to the superintendent. If the case is reopened by a new trial, the Solicitor proposes to have the strands of evidence even more prominently woven than they were at the first trial. The investigation is continuing with almost the same vigor that it did in the early days of the mystery, except that only three detectives are working on the case now. They are Bass Rowley, J. N. Barnes and Patrick Campbell.

Frank Alden counsel. Whenever a report comes to the Solicitor's office of any new evidence it is investigated by the detectives with the same care as it would have received before Frank was condemned to death. It is regarded as likely that Dorsey will have a number of new witnesses if another trial is granted the convicted man. Frank appeared as cheerful and optimistic as he was before the twelfth jurors voted him to hang, as assisting his attorney in picking out what to consider the weak points of Solicitor Dorsey's case against him. With a mass of affidavits and court transcripts before him, he is making dozens of the most important testimonies of the trial and noting the various phases of the investigation as it progressed. Incidentally he is preparing a statement in reply to the charges of the Solicitor when he has been reported as a full-fledged case.

The prisoner is being made comfortable at the Tower during the period that he is awaiting final disposition of his case. A new bed and some other furnishings were brought there, and Frank's quarters were thought cleaned and renovated.

The prisoner's wife and his mother visited during the afternoon, his wife remaining until midnight. His mother will return to Brooklyn within a short time, but reports she has looked in Atlanta when the argument for a new trial are made October 4.

It is interesting to note that an indictment against Conley as an accessory after the fact will be returned by the grand jury. The indictment will be the first thing that will be brought to the attention of the Grand Jury when it meets the first week in September.

Frank Works on Statement. Frank continued Thursday to work on the statement which he intends as an answer to Solicitor Dorsey's closing speech before the jury. He also received many visitors among them his mother, Mrs. Rea Frank, who will leave shortly for her home in Brooklyn.

Mrs. Frank's hearing showed no traces of the effect which the death sentence imposed upon her son must have had. She was dressed in a white shirtwaist and black skirt, with the broad-trimmed black hat which was familiar to courtroom attendants during the trial.

The prisoner's father-in-law, Paul Bell, joined him at breakfast and remained for two hours. Frank's wife did not visit her husband during the morning.

Friends requested the convicted man's statement to be in good order and ready for use in the state prison when it is working.

Discharges Jury Which Tried to Indict Conley. The Grand Jury which took the question of indicting Jim Conley, accessory of Leo Frank, gave the verdict of the Superior Court. A new Grand Jury will be sworn in next Tuesday.

It is significant that the Grand Jury which sought to indict Jim Conley will not have the opportunity to indict him as an acknowledged accessory after the fact in the murder of Mary Phagan.

Judge Bell is expected to return Thursday while his colleagues, Judge Pennington and Judge Kelly, will return in time for the new term which begins next Tuesday.

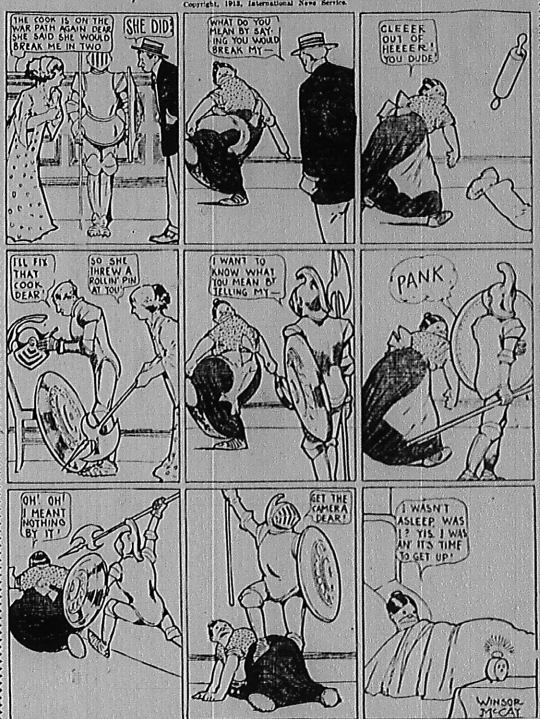

Sheriff Denies Frank Is Favored Prisoner. Denying vigorously that the floors of Leo Frank's cell were being aged and furnished, Sheriff McIninch Thursday morning declared he was treating Frank just like any other prisoner.

It is folly to talk about the Sheriff being "after" the man who hangs when the floor of the cell is made of concrete.

A man treating Frank just like any other prisoner. Certainly in one can blame me for allowing him to eat food that is sent to him by his wife and friends—and that is the only difference in treatment!

MISS HELEN PARDEE DEAD. SPARTA—Miss Helen Pardee died at the home of her sister, Mrs. A. G. Birden, after an illness of several months. She was more than 70 years of age and practically all of her life had been spent in Sparta.

MIDSUMMER DAY DREAMS

Here's a 'Black Hope' He Weighs 338 Lbs.

A negro who said he was the biggest in the world appeared as the star witness in Police Court Thursday morning. He was James H. Harmon, 17, an automatic pistol painter from Jenkins. He is 6 feet 7 inches tall and weighs 338 pounds. He admitted to receiving Dr. Tom Preston that he had killed a few times, but said he had never been real sick. A Southern Railway locomotive was on his mind when he was 12 years old. He confessed he had stolen a horse on a farm owned by stealing a silver.

Two Boys Held as Robbery Suspects

When Policemen Hannah and Donahoe Thursday morning arrested Jackson Perkins, 18, and McKinley Harmon, 17, an automatic pistol painter from Jenkins began firing in the hands of Hannah. Before the policemen could learn the mechanics of the gun it had fired twelve times. Jenkins and Harmon were taken on suspicion of having had something to do with the robbery of W. Moore's dairy, 411 Deane street, early Thursday morning. A pistol and several cases of soda water were taken. Jenkins was taken to the detention house. Harmon was locked in the city jail.

Clearaway—Fill Your Shirt Waist Box
Fifteen Hundred Eighty-seven (1587) Waists, 69c including every \$1 waist in stock, to go at . . . 69c
A store must plan ahead. September 1st marks the start of fall business. Summer waists, therefore, should not be here. True, these particular waists are pretty and practical styles for early fall. True, many women would buy them throughout September at full prices. True, too, however, that these waists conflict with our store plans. They are sold before August 31st, they now pay the penalty for having lingered.
Every \$1 Waist in Stock Goes at 69c
as well as about a hundred waists formerly selling at \$1.25 and \$1.50. Upwards of a score of styles in all, in charming white voiles and lingerie. There are waists with high or low necks; long, three-quarter or short sleeves. Waists that button down the back; waists that open in front. Plainly trimmed waists; and waists elaborately embellished with lace and embroideries. More than a thousand and five hundred waists in all. All "EXTRAORDINARY" every style for 1909! This season. All sizes. The values are EXTRAORDINARY! See the window for proof. Buy enough waists for the rest of the summer and fall. Because standard \$1 waists come but seldom at 69c.
(Selling Starts at 8:30. Ready-to-Wear—Second Floor)
75c Long Silk Gloves at 39c
Pure silk, mind you, in the firm Trikot weave. Not the thin, sleeky silks flimsy as cheese-cloth; but plump weight silks that will wear and wear. Double-tipped tips, of course.
The gloves are soft fashioned and finely finished. Full 16-button length. Black, white, tan, brown, lavender and navy. All sizes, save 2 1/2 in width. See window display. A really superior glove for only 25c.
25c & 50c Chamoisette Gloves 10c
Natural chamoisettes in standard 25c and 50c qualities. Broken sizes, however, break the price. If your size is 6 1/2, 7, 7 1/2 or 8, select any quantity you wish at 10c a pair.

IMPERATOR SWEPT BY FLAMES AT DOCK

Heroin Officer Dead, Many Hurt in Battle With Fire and Crazy Passengers.

NEW YORK, Aug. 28.—The Hamburg-American liner Imperator, the biggest passenger-carrying ship afloat, which arrived in port last night with 1,000 passengers on board, was swept by fire to-day as she lay at her pier in Hoboken, N. J.

Second Officer Hermann Gerberich lost his life while trying to close the fire doors and confine the flames to the fifth deck, or provision room. It was reported that two women had been burned to death, and for a long time they were missing, but subsequently were found.

Many of the crew were injured fighting the flames and battling with the 1,000 stateroom passengers who were panic-stricken as the fire raged. The damage to the ship is estimated at \$250,000.

First Cabin Deck Saved. By the terrific work, the flames were kept from spreading to the first cabin and the superstructure, and within four hours the flames were under control. They had licked their way into the coal bunkers, however, and the firemen settled themselves down to carry on a patient battle.

\$350,000 FIRE ON IMPERATOR, GIANT LINER

WORLD'S BIGGEST SHIP WHICH WAS SWIFT BY FLAMES AT HOBOKEN

At top is the Imperator under full steam, and below, the giant turbine of the great liner.

Greatest Ship Afloat Badly Damaged by Flames at Hoboken. Passengers in Panic.

Continued from Page 1. The fire. The hero of the disaster was Second Officer Helmuth Gerbracht. This brave seaman voluntarily gave up his life while struggling to close the fireproof door to confine the flames to the provision room, or the main deck, as it is termed.

Origin of Fire Mystery. Gerbracht was equipped with a helmet supplied with oxygen from jumps on the outside. The seamen who were working there panicked and fled in a panic of fear.

Here Are Some of Imperator's Wonders. The Imperator, which was the greatest ship ever built, had been in service only a few months. It completed its maiden trip across the Atlantic on June 21 last. It was a veritable floating palace, excelling in every respect even the Titanic.

IMPERATOR EXCELLED TITANIC

The Imperator was launched at Hamburg, Germany, May 13, 1912, in the presence of Emperor William, who stood sponsor for the giantess. The Imperator has been in commission less than three months, having left Hamburg on her maiden voyage to New York on June 11 last.

Disaster to the great ship soon after her construction instantly brings to mind the fate of the great Titanic, which sank on her initial voyage. In comparison, however, the specifications of the Imperator are more imposing than those of the Titanic. The dimensions of the Hamburg-American liner follow:

- Length 910 feet. Beam (width) 90 feet. Gross tonnage 50,000. The Imperator's bridge is 90 feet over the water, and her three gigantic funnels extend 60 feet above the upper deck. Her masts extend 246 feet from keel to truck. Wireless apparatus sufficiently powerful to transmit messages 1,600 miles was installed on the liner, and she carries three wireless operators on every voyage. She is equipped with five mighty anchors, one weighing 26,446 pounds, two weighing 17,636, and one 11,463. Her keel anchor weighs 4,900 pounds.

HARD SCALY PLACE ON HEAD

Spread and lather. Hair Fall Out. Could Not Sleep. Used Cuticura Soap and Ointment. Now Well. R. F. D. No. 2, Chowan, N.C.—"My trouble began with a hard scaly place about the size of a nickel on the side of my head, and as it continued to spread I called my hair to fall out gradually as it would come in. A few days later a patch of dandruff itched and it was so bad that it would make an itched sore. It gave me such a fever I could not sleep at night. In two weeks the place was bad and it began to get cracked and scaly. When I would wash my head with soap and water it would give a yellow greenish lumpy eruption and it looked like it was beginning to eat into the flesh. It only gave me such a fever it made me sick.

Used Cuticura Soap and Ointment and everything I could to check its growth but they seemed to make it worse. Two friends recommended Cuticura Soap and Ointment and I used them and in a week there was a good improvement and in a month's time this place was well and a new growth of hair had formed." (Signed) Willie Johns, Mar. 8, 1913.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczema and other disordered eruptions of skin and scalp, but no other emollient do so much for itching, scaly scalp, dandruff, dry skin and falling hair, chapped hands and chapped feet. Cuticura Soap and Ointment are sold in a special tin. This place was well and a new growth of hair had formed." (Signed) Willie Johns, Mar. 8, 1913.

2,000 FIGHT TO ESCAPE BURNING LINER HUERTA STANDS PAT IN REPLY TO WILSON

IMPERATOR SWEEP BY FLAMES WRECK DOOR

Three of Crew Dead Many Hurt in Battle With Fire and Crazy Passengers.

NEW YORK, Aug. 28.—The giant Hamburg American liner, the largest passenger-carrying steamship afloat, which arrived in port last night with 2,000 passengers on board, was swept by flames today as she lay at her pier in Hoboken, N. J. The members of the ship's crew are known to be dead. Many were hurt fighting the flames.

Panic broke out among the 2,000 men and women aboard the liner, and while they rioted and clamored to get off the ship many were injured, some of them fatally. The stateroom passengers were being held on board the liner overnight. It was too late to transfer them to Ellis Island when the ship docked.

White half of the crew of 1,100 men fought the spreading blaze, the balance got on the stateroom passengers to safety on the pier.

First Cabin Deck Saved. By the terrific work, the flames were kept from spreading to the first cabin and the superstructure, and within four hours the flames were under control.

The danger, however, to the balance of the ship was entirely over, Captain Bauer said.

If the fire had occurred at sea under the same conditions, the tragedy probably would have been a duplicate of the Titanic disaster.

The Imperator got into her berth at 11 o'clock last night with the largest passenger record in the history of trans-Atlantic travel.

Among her first-class passengers were General Ade, William Ellis Corey, Samuel L. Terry, Paul Warburg, Mrs. Rudolph S. W. Woodruff, William P. Meyer, vice president of the Hamburg-American line, and Allison Armour.

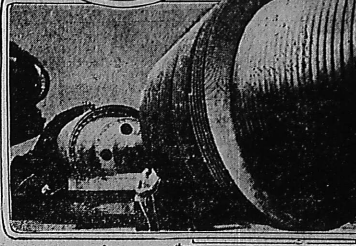

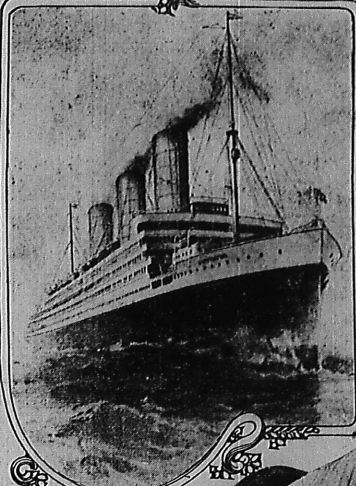

Flames Spread Quickly. The fire was discovered in the provision room on the ship about 10 o'clock. Fed by the oils and fats of the foodstuffs, it spread rapidly. The crew was assisted by the trained fire fighters from Hoboken, Jersey City and New York.

The provision room is in the after part of the vessel. So severely did the flames eat their way that it had been communicated to the second cabin before the alarm was given. The stateroom passengers, hearing the crackling of the walls and stateroom doors filled with smoke, but the men dashed in with lines of hose and soon thousands of gallons of water were being poured upon the blaze.

Three Perish in Flames. So severely did the fire take in one quarter of the compartment that the fight had to be abandoned for a while, and the fire fighters retreated. It was found that three of them, a second officer and two seamen, were missing. Search was made for them, but they have not been found, they were

Dorsey Is Determined to Make Frank Pay Penalty

SOLICITOR'S OFFICE AFTER NEW EVIDENCE

Move for Early Conley Indictment Taken to Show State Expects to Be Upheld.

SOLICITOR DORSEY was as basic as enanced on the Frank case Thursday as he was any day before Leo Frank was convicted of the murder of Mary Phagan. If the factors superintending finally succeed in obtaining the alibi it will not be because the Solicitor has not fought to the uttermost of his strength to put the rope around Frank's neck.

The wheels of activity in the Solicitor's office, which had stopped for a few hours after Frank's conviction was obtained, started again Thursday as solemnly and smoothly as when

the prosecution, retold by Marsha Warrington and Miss Norris, today caused a display of interest in the case. Long before the court session began, a large crowd of men and women were seeking courtroom seats.

Americans Fleeing As Mexicans Try to Force Intervention

Americans Fleeing As Mexicans Try to Force Intervention

WASHINGTON, Aug. 28.—Nerves in the capital were almost to a breaking point today as the morning passed with absolutely no rift in the Mexican war cloud.

At the White House it was announced that at 1 o'clock this morning an telegram had been received from Huerta through John Lind, but that it had no vital bearing on the tense situation and the opinion was that the Mexican trouble maker is firm in his determination to ignore President Wilson's demands and force armed intervention.

Advices from Mexico that Huerta is satisfied with President Wilson's message to Congress on the situation has not tended to relieve the situation.

It is pointed out that Huerta has construed the message to mean that Wilson acknowledged the sovereignty of Mexico, and the United States will not intervene in Mexico nor meddle further with its domestic affairs.

Diplomats declare that this is simply a statement by the Mexican ruler that he intends to stand pat in his disregard of the demands of the American President and his attitude will force Wilson to act and approve.

Special activity was noted in the White House, and in the State and War Departments. Secretary of State Bryan expressed belief that his message of the day previous to the United States Embassy and to all consular agents, instructing them to prevent any American aid to Huerta departing from Mexico, would be at the hands of the Mexicans.

The consular agents have been instructed to provide with funds every American not able financially to buy passage to the United States, and to assist in the purchase of every Mexican harbor, ready to aid in the escape.

Following a long conference between President Wilson and Assistant Secretary of War Woodrow Wilson, it was expected that a movement of troops would be immediately ordered to the Mexican border.

It is the President's intention not only to strengthen the border, but also to strengthen the border.

Army Enlistments in August Break Records.

President Wilson's ultimatum to the South as a result of war was according to the War Department, the largest number of enlistments in Atlanta, Birmingham, Macon, Augusta and Columbus.

The number and men already have enlisted during the month of August, smashing all records. During July there were more than 20,000 enlistments in all acceptances. The largest number for any one month before that was 14,274 the average per month for the last six years has been nine.

IMPERATOR EXCELLED TITANIC

The Emperor was launched at Hamburg, Germany, May 13, 1912, in the presence of Emperor William, who stood sponsor for the giantess. The Emperor has been in commission less than three months, having left Hamburg on her maiden voyage to New York on June 11 last.

Disaster to the great ship soon after her construction instantly brings to mind the fate of the great Titanic which sank on her initial voyage. In comparison, however, the specifications of the Emperor are more imposing than those of the Titanic. The dimensions of the Hamburg-American liner follow:

- Length 910 feet.
Beam (width) 98 feet.
Gross tonnage 50,000.
The Emperor's bridge is 90 feet above the water, and her three gigantic funnels extend 89 feet above the upper deck.

Wireless apparatus sufficiently powerful to transmit messages 1,600 miles, was installed on the liner, and she carries three wireless operators on every voyage.

She is equipped with five mighty anchors, one weighing 26,445 pounds, two weighing 11,630, and one 11,463. Her keel anchor weighs 4,900.

Veranda cafe.
A roof garden.
A gymnasium, with electrically driven Zander apparatus.

A millionaire's apartment, the size of a two-story New York flat, has a private garden, a bath, and would bring perhaps \$50,000 a year on Manhattan.

A public stenographer.
A florist.
Six barbers.
A manicurist.
A gardener.
A tailor.
A printing department, with three printers.

A hospital, with five physicians.
An ambulance.
Five elevators, running through five decks.
Vessel Can Carry 5,000.
The Emperor is nearly one-fifth of a mile long.

She can carry 8,000 persons.
She has five capstans.
She carries 31 lifeboats.
Her wireless is powerful enough to reach land when she is in mid-ocean.

Two chief chefs and 116 assistant chefs.
For a seven-day voyage the following quantities of food are carried:
45,000 pounds of fresh meats.
12,000 quarts of milk and cream.
12,000 pounds of fresh vegetables.

27,000 pounds of potatoes.
10,500 pounds of fruit and game.
9,000 pounds of fish and shellfish.
12,000 quarts of milk and cream.
500 pounds of tea.
500 pounds of chocolate and cocoa.
7,000 pounds of coffee.

trial, the Solicitor proposes to have the strands of evidence even more strongly woven than they were at the first trial. The investigation is continuing with almost the same vigor that it did in the early days of the mystery.

Frank Adams Counsel.
Whenever a report comes to the Solicitor's office of any new evidence, it is investigated by the detectives with the same care as it would have received before Frank was condemned to death.

Frank, apparently as cheerful and optimistic as he was before the twelve jury trial to hang, is assisting his attorneys in picking out what he considers the weak points of Solicitor Dorsey's case against him.

The prisoner's wife and his mother visited him during the afternoon, his wife remaining until nightfall. His mother will return to Brooklyn within a short time, but probably will be back in Atlanta when the arguments for a new trial are made October 4.

Solicitor Dorsey has no doubt that an indictment against Conley as accessory after the fact will be returned by the next Grand Jury.

NEW PARK RULES PLOT SAVES CAREY

General Manager Declares By-Laws Were Passed to Force His Resignation.

That putting up to the General Manager of the Park Department the duty of reporting to General Council members of the Park Board was illegal, General M. Carey, today announced his resignation.

Under the charter of the board, a member who fails to attend two meetings automatically loses his office. Why, they are trying to get me in all sorts of a stew and get me out with every member of the board," commented Mr. Carey.

Regarding the rule providing that no supplies or materials may be purchased or that any permanent improvement of the park must be made without the permission of the board, this simply means that the board is not to be allowed to spend money in the way of rapid and economical work.
